Moffat's
VEGETABLE LIFE PILLS
AND
PHŒNIX BITTERS.

FEVER AND AGUE POSITIVELY CURED.—Fever and Ague is a most obstinate disease, and in warm and humid climates, frequently resist every ordinary mode of cure, so as to become very distressing to the patient, and by the extreme debility which the disease induces so often give rise to other chronic complaints. Marsh miasmata, or the effluvia arising from stagnant water, is the most frequent exciting cause of this disease; and one of the great peculiarities is its susceptibility of a renewal from very slight causes, such as from the prevalence of an easterly wind—even without the repetition of the original exciting cause. In this, Fever and Ague differs from most other fevers; as it is well known, that after an ordinary fever has once occurred, and been removed, the person affected is not so liable to a fresh attack as one who was not so affected. These circumstances render it extremely difficult to effect a *permanent cure* of Fever and Ague, though to *relieve* the patient for the time being, is a very easy task.

Moffat's Life Pills and Phœnix Bitters have been thoroughly tested, and proved to be a positive and radical cure of Fever and Ague. Hundreds of his fellow-citizens in the West, have voluntarily come forward to assure Mr. Moffat that the Life Medicines are the only medicines that will thoroughly effect a removal of this most tedious and disagreeable disease.

Others who have emigrated to that rich and promising portion of our country—men who went out full of hope, and confident of winning a competence from the luxuriance of the soil; or who carried to the outposts of our settlements the mercantile or mechanical experience won in the crowded cities and towns of the older states, have either returned with shattered constitutions and depressed spirits, or they remain in their new homes, dragging out a weary life; at last to sink, under some disease to which they are predisposed by that terror of the West, the Fever and Ague. Their hopes are blasted—their business energies destroyed—their El Dorado becomes a desert, and the word of promise, made to the ear, is broken to the hope.

To these individuals, Mr. Moffat would say—"Try the Life Medicines, and you will yet anticipate your most sanguine expectations, for they will certainly restore you to health."

Fever and Ague is a complaint which requires to be met at its first approach, and combatted at every stage. Seldom fatal of itself, it reduces the strength, and impairs the functions of the organs, so that upon the manifestation of disease Nature is unable, unassisted, to resist the inroad. The Life Medicines, when taken strictly according to directions will cure it, and give to the weak and trembling victim of disease, new health, life, and strength.

MOFFAT'S VEGETABLE LIFE PILLS AND PHŒNIX BITTERS.—*The universal estimation* in which the celebrated Life Pills and Phœnix Bitters are held, is satisfactorily demonstrated by the increasing demand for them in every State and section of the Union, and by the voluntary testimonials to their remarkable efficacy which are every where offered. It is not less from a deeply gratifying confidence that they are the means of extensive and inestimable good among his afflicted fellow creatures, than from interested considerations, that the proprietor of these pre-eminently successful medicines is desirous of keeping them constantly before the public eye.—The sale of every additional box and bottle is a guarantee that some persons will be relieved from a greater or less degree of suffering, and be improved in general health; for in no case of suffering from disease can they be taken in vain. The proprietor has never known or been informed of an instance in which they have failed to do good. In the most obstinate cases of chronic disease, such as chronic dyspepsia, torpid liver, rheumatism, asthma, nervous and bilious head ache, costiveness, piles, general debility, scrofulous swellings and ulcers, scurvy, salt rheum and all other chronic affections of the organs and membranes, they effect cures with a rapidity and permanency which few persons would theoretically believe, but to which thousands have testified from happy experience. In colds and coughs, which, if neglected, superinduce the most fatal diseases of the lungs, and indeed the viscera in general, these medicines, if taken but for three or four days, never fail. Taken at night, they so promote the insensible perspiration, and so relieve the system of fabric action and feculent obstructions, as to produce a most delightful sense of convalescence in the morning; and though the usual symptoms of a cold should partially return during the day, the repetition of a suitable dose at the next hour of bed time will almost invariably effect permanent relief, without further aid. Their effect upon fevers of a more acute and violent kind is not less sure and speedy if taken in proportionable quantity; and persons retiring to bed with inflammatory symptoms of the most alarming kind, will awake with the gratifying consciousness that the fierce enemy has been overthrown, and can easily be subdued. In the same way, visceral turgescence, though long established, and visceral inflammations, however critical, will yield—the former to timid and the latter to large doses of the *Life Pills*; and so also by sporadic affections, hypocondriacism, restlessness, and very many other variations of the Neurotical class of diseases, yield to the efficacy of the *Phœnix Bitters*. Full directions for the use of these medicines, and showing their distinctive applicability to diff erent complaints, accompany them; and they can be obtained, wholesale and retail, at 375 Broadway, where numerous certificates of their unparalleled success are always open to inspection.

☞ For further particulars of the Life Pills and Phœnix Bitters, see Moffat's *Good Samaritan*, which contains a full account of the Medicine. A copy accompanies the Medicine, and can also be obtained on application at the *Circulating Library*, in this city, where the Medicine is for sale, and also at Messrs. Peters and Tilley's, No. 4, King street.

☞ Agents for the Life Pills and Bitters: At Norton Bridge, Mr. John Lanen; Gagetown, Mr. J. H. Bonnell; Fredericton, Mr. James T. Gale; W. Y. Theal, Esq. Shediac; J. A. Reeve, Esq. PILES, HAEMORRHOIDS,
NO CURE NO PAY!!
HAYS LINIMENT.

NO FICTION.—This extraordinary chemical composition, the result of science and the invention of a celebrated medical man, the introduction of which to the public was invented with the solemnity of a death-bed bequest, has since gained a reputation unparalleled, fully sustaining the correctness of the lamented Dr. Gridley's last confession, that "he dared not die without giving to posterity the benefit of his knowledge on this subject," and he therefore bequeathed to his friend and attendant, Solomon Hays, the secret of his discovery.

It is now used in the principal hospitals, and the private practice in our country, first and most certainly for the cure of the *Piles*, and also so extensively and effectually as to baffle credulity, unless where its effects are witnessed. *Externally* in the following complaints:

For Dropsy—Creating extraordinary absorption at once.

All Swellings—Reducing them in a few hours.

Rheumatism—Acute or Chronic, giving quick ease.

Sore Throat—By cancers, ulcers or colds.

Croup, and Whooping Cough—Externally, and over the chest.

All Bruises, Sprains and Burns—Curing in a few hours.

Sores and Ulcers—Whether fresh or long standing, and fever sores.

Its operations upon adults and children in reducing rheumatic swellings, and loosening coughs and tightness of the chest by relaxation of the parts, has been surprising beyond conception—The common remark of those who have used it in the *Piles*, is "It acts like a charm."

THE PILES.—The price is refunded to any person who will use a bottle of Hay's Liniment for the Piles, and return the empty bottle without being cured.—These are the positive orders of the proprietor to the Agents, and out of many thousands sold, not one has been unsuccessful.

We might insert certificates to any length, but prefer that those who sell the article, should exhibit the original to purchasers.

CAUTION.—None can be genuine without a splendid engraved wrapper, on which is my name, and also *that of the Agents.*

SOLOMON HAYS.

Headache, Sick or Nervous.

The extraordinary reputation that Dr. Spohn's remedy for this distressing complaint is every day gaining is certainly a matter of much astonishment. That so much suffering should have existed for ages without any discovery of an effectual preventive, or cure, is truly a subject of much regret, but Dr. S. now assures the public that such a remedy has been invented as will convince the most credulous.—The principles upon which it acts are simple and plain. It is an admitted fact that this complaint, whether called Sick Headache, or Nervous Headache, arises primarily from the stomach—those who think they have the Nervous Headache may rest assured that this organ, the stomach, is the first cause, that the system has become vitiated or debilitated, through the stomach, and that only through the same channel must they expect a restoration of the nature and healthy functions of the system. This object Dr. Spohn's remedy is eminently calculated to attain. The truth of this position cannot be controverted, and the sooner sufferers with the headache become convinced of it, the sooner will their sufferings end in restoration of health.—Dr. Spohn pledges his professional reputation on this fact.

BALDNESS.

A BEAUTIFUL HEAD OF HAIR, is the grandest ornament belonging to the human frame. How strangely the loss of it changes the countenance, and prematurely brings on the appearance of old age which causes many to recoil at being uncovered, and sometimes even shun society to avoid the jests and sneers of their acquaintance; the remainder of their lives is consequently spent in retirement. In short, not even the loss of property fills the generous thinking youth with that heavy sinking gloom as does the loss of his hair. To avert all these unpleasant circumstances, OLDRIDGE'S BALM OF COLUMBIA stops the hair from falling off on the first application, and a few bottles restores it again. It likewise produces eyebrows and whiskers; prevents the hair from turning gray; makes it curl beautifully, and frees it from scurf. Numerous certificates of the first respectability in support of the virtues of Oldridge's Balm are shown by the proprietors.

DR. SCUDDER'S
GENUINE ACOUSTIC OIL.
For Deafness.

THIS never-failing remedy has been used many years with distinguished success, at the Eye and Ear Infirmary of Dr. Scudder, and confidently recommended as an extraordinary and wonderful remedy for either partial or complete deafness in all its stages.

By the timely use of this pungent Oil, many who have been completely deaf have been restored to perfect hearing after using from three to ten flasks. This may appear strange, but it is nevertheless true. The Acoustic Oil is not presented to the public as a nostrum, but as the prescription of one who has turned his attention exclusively to the Eye and Ear, and who pledges his professional reputation upon the success of this remedy.

Dr. Scudder has numerous certificates, but hesitates to publish them, as he considers them unnecessary to so truly valuable an article as the Acoustic Oil. Its immense sale is the fairest proof of the estimation in which it is held. It is presented as a public blessing, enabling the aged parent to mingle in conversation with his children, and to reply to their numerous questions with a facility from which he had previously been debarred by a distressing partial or complete deafness.
