True Bill found against Davis and Breckenridge.

Fight between the Regulars and Volunteers.

Frightful Catastrophe at Mobile.

ARREST OF GENERAL LEE.

Chicago, May 29.—The Tribune has a special despatch from New Orleans, dated the 26th, which says: The ordnance department and magazine at Mobile exploded at 2 o'clock yesterday. The shock was terrific. The city was shook to its very foundations. Eight squares of buildings were destroyed. 500 persons were buried in the ruins. The loss is estimated at eight millions of dollars. The origin of the explosion has not yet been ascertained.

Information from Richmond announces the arrest of General Lee.

The *World's* special says, notwithstanding Kirby Smith's surrender troops will be sent to Texas to protect the border.

It is reported that the election in Virginia, last week, resulted generally in the defeat of the Union ticket.

New York, May 29.—The Commercial's special says the trial of Jeff. Davis before the United States Civil Court, will commence as soon as the conspiracy case is disposed of.

District Attorney Carrington announced the fact in court and asked for a bench warrant in the case of Breckenridge who is still at large. He asked that such steps may be taken as will bring Davis before the court for trial.

Washington, May 25.—Information has been received here that Kirby Smith intends marching his army across the Rio Grande and tendering its reserves to Maximilian. This movement will be prevented. It is said discoveries have been made on examining the captured rebel documents implicating prominent northern men whose loyalty heretofore has not been questioned.

Elmira, 26.—The court martial for the trial of Major J A Haddock has adjourned till the 6th of July, when the evidence of the defence will be heard.

Washington, May 26.—Official intelligence has been received of the unconditional surrender of the rebel ram Stonewall to the Spanish authorities at Havana.—The Shenandoah is believed to be the last remnant of the rebel navy.

New York, 26.—The *Commercial's* Washington special says the Grand Jury for district of Columbia yesterday found three bills of indictment against Jeff Davis and John C. Breckenridge. The bills will be presented in the criminal court to-day. The capture of Breckenridge is confidently anticipated by the authorities. Sherman expects to leave for the West in a few days Fred. Seward has somewhat recovered from his relapse.

An attempt was made a few nights since to assassinate Gen Duval, commanding the U. S. forces at Staunton.

On Sunday night last a railroad bridge near Petersburg gave way, precipitating a train into the chasm. 2 men were killed, 14 injured and 4 are missing.

New York, May 27.—The *Commercial's* army of the Potomac correspondent, says there is trouble in the army, the men thinking it a hardship to be ordered out for 4 hours of drill every day, when they are so soon to be mustered out of service. They complain of the hardness of their officers. The ammunition has been taken away from them to prevent serious trouble.

An outbreak occurred in the 6th corps, and a regiment of regulars was sent to quell it, but were so hard pressed by the volunteers that they were obliged to retreat.

The *Commercial's* Washington special says:—The demonstrative indignation of Jeff Davis on being placed on army rations was the cause of his being laced in irons.

Baton Rouge, 23rd, via Cairo, 27th.—Brig-Gen. Bryan and Col. S. Debland, Lieut Burke and Seip, arrived here yesterday as Commissioners from Kirby Smith. Gen Heron and Lieut Commander Foster came down from Red River with them. General Herron has gone to see Gen Canby, and it is believed here terms are arranged for the surrender of Kirby Smith's whole army.

New York, May 27.—Lieutenant Hollis, commanding a detachment of the 2nd Florida cavalry, under date of Cape Sable, May 18, reports having captured a boat on the 17th of May containing seven white men and a negro, endeavoring to escape to Havana. They undoubtedly had been holding important positions in Richmond, which place they acknowledged having left. The colored man states he was hired at $10 a day and his freedom on arriving at Havana, to guide them from Tallahassee. Their conduct leads to the belief that they were men of some importance, and their names are undoubtedly fictitious. They have not yet arrived at Key West.

Washington, May 26.—The Attorney-General has just made a most important decision. He affirms that the timesty proclamation was a means only to secure a special purpose, which was the suppression of the rebellion. The rebellion ended, the amnesty is void. It does not restore citizenship, property or vested rights. The President has no power to pardon, except for what is past. The executive clemency cannot stretch to the future. Therefore, the decrees of confiscation then must stand.

The *Herald's* 5th corps correspondent says: The work of mustering out under the late order regiments whose term of service expires prior to October last, has been entered upon in earnest. Muster out rolls are being put in readiness as rapidly as possible. It is supposed that within 10 days the whole work will be accomplished.

The *Herald's* Mobile correspondence, 15th, says the city is filling up by the arrival of paroled officers and soldiers from Dick Taylor's army. They meet our officers and men in the streets and hail with the utmost good feeling the quiet and order which prevails.

New York, May 26.—Advices from Matomoras, Mexico, to the 4th, say: the Imperalists still hold that place, and it is believed Republicans under Negrete are withdrawing. Monarey and Camargo are in possession of the Republicans.

New York, May 26.—The *Herald's* Richmond correspondent says, Seddon ex rebel Secretary of War has been arrested and imprisoned on a gunboat in the James with Hunter and Campbell Davis sits alone in his cell, save the two guards who are not permitted to address him on any subject whatever, and it is understood he will be given no lights.

Washington, May 25.—All the cavalry of the Western Department are to be mustered immediately at Cairo for active Texan service.

Frederick Seward has had an unexpected hemorrage, which has excited renewed anxiety on his case.

New York, May 31.—The *Herald's* Washington special says:—Jeff Davis is expected to arrive there to-day, and will be arraigned soon after his arrival.

Longstreet has received permission to visit Washington on private business.

During this month, the Treasury has placed to the credit of the paymaster-General to pay the soldiers, $855,000,000. All other requisitions upon the Treasury have also been promptly satisfied.

A special to the *Times* says:—All Eastern troops belonging to Sherman's army have been ordered to report to Gen Auger, at Washington. The Western troops will move west in eight days.

The Herald's Washington special says the 25th army corps, under Gen. Weitzel will commence embarking for Texas to-day.

The *Herald's* Savannah correspondent says the removal by the President of the restrictions on trade with the South has already caused a great business revival in Savannah. The custom-house in that port has been opened. Lines of steamers are now running regularly to the up-river towns.

BURGLARY AT CLIFTON.—Clifton, May 30 An attempt was made early this morning by a gang of burglars to open the safe of Whitmer Bros, at their office in Suspension Bridge Mill. They captured two watch dogs that were in the office and threw them down the precipice, and succeeded in blowing off the outside doors of the safe, when they were alarmed and fled at the approach of parties who had been aroused by the noise of the explosion. Efforts are being made with fair prospects to arrest the burglars.

The Turnip and its Cultivation

To the Editor of the Guelph Advertiser:

Under this heading I noticed in your yesterday's daily some excellent remarks on Turnip Culture, by J. C. Snell, Edmonton, C. W., and having had much experience myself in growing them, I should like to make a few remarks, and if you consider them worthy of room in your columns, you are welcome to publish them. From the experience I have had, I am fully satisfied that no occupier of land can do justice to it, and be a good farmer, without this important root, and plenty of stock to consume them on the farm. Respecting the expenses of cultivation, I agree with Mr. Snell so far, it is an expence to get a good crop, but it is money well expended. I do not exactly agree in his remarks that a good crop of turnips may be obtained without the use of artificial or expensive manure, by using only good barn-yard manures. My experience has taught me, that by using the latter on my wheat crop, grass and peas, and artificial manure for turnips, I could obtain good crops of both, and the best way of using your artificial manure is to mix it with ashes in a dry state, the latter end of April or beginning of May, and drill them from the 10th to the 20th of June, with the seed in a drill made for the purpose. If superphosphate of lime alone, say 4 cwt per acre, with 40 bushels of ashes, but, if preferred half that quantity, with 3 cwt of bones and the same quantity of ashes, and I have grown large crops by using half of the usual quantity of good barn yard manure, and half the usual quantity of artificial manure; but latterly I have never grown turnips without some artificial manure, as experience has convinced me of its economy and uses as a manure well worthy the attention of every turnip grower It forces the plant into a rough leaf, and thus protects it from the destruction of the fly. I perfectly agree with Mr. Snell in the preparation of the land for the crop, and the use of the horse hoe and hand hoe. You cannot thin them out too soon, and never use less than a nine inch regular turnip hoe.

WHITE TURNIPS AND RAPE.

In eight or ten weeks, a crop of these may be obtained by the use of artificial manure and ashes alone, and fit to feed off on the land with sheep, &c., and will fit the land for a good crop of fall or spring wheat. I think this system of farming is well worthy of attention, as your land is manured at a small cost, and the sheep will profit by the crop. Some farmers may ask, where are we to get all the ashes from cleared lands? I would answer them, in your field where you intend growing your turnips. Well clean out your fences and burn to ashes, and thus save the seed from blowing and filling your land with Canada Thistles, and other weeds. Farmers, stick to the growth of turnips, and the raising of good stock and your grain crops will surely follow.

Guelph, May 31, 1865.

Guelph Township Council.

This Council met on Monday the 29th inst. pursuant to adjournment. George Murton, Esq., Reeve, in the chair. Present—Messrs. Campbell, Shortreed, Anderson, and Hood. The minutes of last meeting were read and confirmed. Mr. Anderson with leave given introduced by-law No. 6, for altering the boundaries of school section No. 4 and 5, and for establishing a new school section, which was read a first and second time. The Council then proceeded to fill up instructions for pathmasters in the various road divisions, and the clerk was instructed to forward them to the pathmasters. The Reeve read a petition from Thomas Howse and others for assistance to improve the crossing adjoining James Cowan's farm, West End. Referred to Road and Bridge Committee. The Reeve read a communication from the clerk of the township of Nichol, stating that the Reeve of the township of Nichol was to correspond with the Reeve of the township of Guelph respecting a joint survey of the boundary line between the townships. The Reeve read a petition presented by Mr. Card and signed by a large number of residents of school section No. 4, protesting against any alteration in their section. It was then moved and seconded that the Council go into committee of the whole on by-law No. 6, for defining the boundaries of school section 4 and 5, and for establishing a new section, to be numbered 4½. Mr. Campbell in the chair. The Council resumed. The chairman reported by-law as amended. Moved by Mr. Anderson, seconded by Mr. Shortreed, that by-law No. 6 as amended for altering school sections No. 4 and 5, and forming a new school section, be now read a third time and passed. Carried. The Reeve read a circular from the chairman of the committee appointed by the House of Assembly to consolidate and amend the Municipal and Assessment Laws of Upper Canada; also copies of the bills were presented. It was moved and seconded to take them into consideration at next meeting of Council. George W. Sandilands, Esq., was appointed to the office of treasurer. It was then moved and seconded to adjourn till Monday the 5th day of June.

A. McCORKINDALE, Clerk.

American Watches.

THE AMERICAN WATCH COMPY

Of Waltham, Mass.,

Having recently increased their facilities for manufacturing Watches, by large additions to their buildings and to their force of workmen, are desirous of introducing their products into Canada, a market which they have hitherto been unable to supply, owing to the large demand for their watches in the United States.

The reputation which these watches have acquired in the States may be judged of by the fact that since the Company began their business nearly 150,000 Watches of their manufacture have passed into use among the people, and have given, with rare exceptions, the utmost satisfaction to all who have tried them. They have superseded in this market all other Watches coming within the range of their prices. The Company have attained this result simply by making

GOOD WATCHES,

and selling them at MODERATE PRICES.

At the present rate of Exchange between the two countries, American Watches can be sold for Canada currency at about one-half of the currency prices in the States; and as we have not advanced the prices of our Watches since the war commenced in proportion to the rise of gold, this state of Exchange renders them *cheaper in reality they were before the war.*

The Company do not solicit orders for single Watches, but will be happy to furnish every one with full information respecting them, and to fill such orders from the Watch Trade as they may be favored with. Address
