TRADE IN CANADA.

R. G. Dun & Co. Report a Satisfactory Condition of Business Generally.

The advent of midsummer is having a quieting effect on some lines of trade in Montreal, and the movement in metals, leather and wool is somewhat restricted. Drygoods show a moderate sorting business in seasonable fabrics, and a good many travelers already out with fall samples are booking a fair number of orders. Groceries are not particularly active, but there is a steady distribution of goods countrywards. There has been no retrogression in values, but increased stiffness to be noted in some lines of metals; cements are also slightly advanced, European makers having put up prices. Collections as a whole are hardly satisfactory, though some lines of trade profess to be getting fair remittances. Money is rather easier and call loans are readily obtainable at 4 1-2 per cent.

There is practically no change in the business situation at Toronto. Merchants generally speak hopefully of prospects, being encouraged by the firmness of markets. Confidence is in a great measure restored and capitalists show an increased disposition to extend operations. Nearly all of the banks have had their annual meetings this week. They have had a trying year, but, taking the dull times into consideration, these institutions have done wonderfully well. Profits are smaller than for previous years, but the remarks of the managers as to the future are full of hope and confidence. Money is plentiful, with rates unchanged. The wholesale drygoods trade is fair, good-sized orders coming in for sorting-up parcels; travelers report a steady increase in orders for autumn and winter goods. Hardware and metals are in fair request and the tone of the market is firm. Leather also continues firm. Remittances are satisfactory. There has been a drop of 5 to 7 cents a bushel in Ontario wheat this week, owing to general weakness in Europe and the United States. Millers are holding off from buying in consequence and it is a very difficult matter to sell flour.—The Daily Bulletin.

Now it is the Signs.

Editor World: I have been reading the letters of "Church Goer" and "J.S.K." and sympathise deeply with them in their efforts to have a nice quiet Christian Sabbath in Toronto. There is, however, another form of Sabbath desecration I have noticed which seems to have escaped their attention. I refer to the signs of the tradespeople that are allowed to protrude on the gaze of the people on Sunday.

Do you not think all the merchants should be compelled to take in their signs on Saturday night, so that the good people of Toronto when going to church on Sunday would not have their attention diverted by such worldly affairs?

Will you kindly help us in this crusade, as it is by close attention to details that perfection is reached?

MOSES.

Emile Zola Gets One Vote.

Paris, June 20.—The Academy to-day elected Jules Lemaitre, the poet and critic, to membership in succession to Jean Duroy, the historian. Jules de Lafosses received 9 votes and Emile Zola 1. After four futile ballots for the seat made vacant by the death of M. de Lesseps, the election was deferred until December. The fourth ballot gave Francis Charmer 15 votes, Jean Aicard 6, and M. Zola 1.

Cholera and all summer complaints are so quick in their action that the cold hand of death is upon the victims before they are aware that danger is near. If attacked do not delay in getting the proper medicine. Try a dose of Dr. J. D. Kellogg's Dysentery Cordial and you will get immediate relief. It acts with wonderful rapidity and never fails to effect a cure.

East End News.

A very great improvement has just been completed in the grounds surrounding the Bolton-avenue Firehall. These have been newly turfed and the borders filled with bedding-out shrubs and plants of variegated foliage. The contrast between the grounds as they are now and as they were a week ago is very great. The newly-laid-out gardens are under the charge of Foreman William Brown of the firehall.

The whole of the internal alterations in the Bolton-avenue firehall, rendered necessary by the recently voted addition to the fire brigade for this section, are now completed. The hook and ladder equipment and the extra horses will be located therein within a few days.

Out of Sorts.—Symptoms, Headache, loss of appetite, furred tongue and general indisposition. These symptoms, if neglected, develop into acute disease. It is a trite saying that an "ounce of prevention is worth a pound of cure," and a little attention at this point may save months of sickness and large doctor's bills. For this complaint take from two to three of Parmelee's Vegetable Pills on going to bed, and one or two for three nights in succession, and a cure will be effected.

Pickpocket Caught in the Act.

P.C. Phillips (230) yesterday afternoon observed a young man deliberately walk up behind Mrs. Barber of 812 Yonge-street at Yonge and Queen-streets, and extract her purse. The thief then ran, but was pursued by Phillips and captured with the stolen purse in his hand. It contained $28 and four sovereigns. The pickpocket gave his name as Percy Brown and his residence as Montreal. He had $50 in his pocket. He was locked up at No. 2 Police Station.

Hanged Altgeld in Effigy.

Bloomington, Ill., June 20.—Governor Altgeld was hanged in effigy here at midnight by college students, indignant at the abolition of the High school.

Old Rip Van Winkle went up into the Catskill mountains to take a little nap of twenty years or so, and when he wakened, he found that the "cruel war was over," the monthly magazines had "fought it over" the second time and "blown up" all the officers that had participated in it. This much is history, and it is also an *historical fact* that, during the same length of time, Dr. Pierce's Golden Medical Discovery had become the most celebrated, as it is the most effective, Liver, Blood and Lung Remedy of the age. In purifying the blood and in all manner of pimples, blotches, eruptions, and other skin and scalp diseases, scrofulous sores and swellings, and kindred ailments, the "Golden Medical Discovery" manifests the most *positive* curative properties.

Every disorder that can be reached through the blood, yields to its purifying qualities. Besides, it builds up *wholesome flesh* and strength; not merely *fat* like filthy Cod liver oil and its nasty "emulsions" but *solid flesh*.

A scrofulous condition of the blood invites catarrh, bronchitis, and consumption. We're all exposed to the germs of consumption, grip and malaria—yet only *the weak ones suffer*. When you're weak, tired out, and debilitated, or when pimples and blotches appear—heed the warning in time. The "Golden Medical Discovery" sets all the organs into healthy action—especially the liver, and that's the point of entrance for these germs. Then if the blood be pure, they'll be thrown off. There's no risk.

CAUTION.—Accept no substitute for the "Golden Medical Discovery" that may be recommended to be "just as good." It may be *better for the dealer*, because of paying him a better profit, but *he* is not the one who *needs* help.

'The Triumph of Love,

IS HAPPY, FRUITFUL MARRIAGE."

Every Man Who Would Know the Grand Truths; the Plain Facts; the New Discoveries of Medical Science as Applied to Married Life; Who Would Atone for Past Errors and Avoid Future Pitfalls, Should Secure the Wonderful Little Book Called "COMPLETE MANHOOD and How to Attain It."

"Here at last is information from a high medical source that must work wonders with this generation of men."

The book fully describes a method by which to attain full vigor and manly power.

A method by which to end all unnatural drains on the system.

To cure nervousness, lack of self-control, despondency, etc.

To exchange a jaded and worn nature for one of brightness, buoyancy and power.

To cure forever effects of excesses, overwork, worry, etc.

To give full strength, development and tone to every portion and organ of the body.

Age no barrier. Failure impossible. 2000 references.

The book is purely medical and scientific, useless to curiosity seekers, invaluable to men only who need it.

A despairing man, who had applied to us, soon after wrote:

"Well, I tell you that first day is one I'll never forget. I just bubbled with joy. I wanted to hug everybody and tell them my old self had died yesterday and my new self was born to-day. Why didn't you tell me when I first wrote that I would find it this way?"

And another thus:

"If you dumped a cartload of gold at my feet it would not bring such gladness into my life as your method has done."

Write to the ERIE MEDICAL COMPANY, Buffalo, N.Y., and ask for the little book called "COMPLETE MANHOOD." Refer to this paper, and the company promises to send the book, in sealed envelope, without any marks, and entirely free, until it is well introduced.
