FRUIT MARKET.

In anticipation of the busy time expected during the Exhibition fortnight, a new stand has been added to those on the north side of the tracks at the local wholesale fruit market.

Trading for the past week has been very dull, and yesterday was a repetition of any day's trading last week. Receipts, which included tomatoes, cucumbers and peaches, were light, and hardly any berries were on the market. Lawton berries and gooseberries are practically the only kinds of berries that are now being shipped to Toronto.

Yellow peaches should reach the market by the end of this week. Those at present on the market, altho good to look at, are not very good eaters.

The following prices were current:

Chicago Gossip.

J. P. Bickell & Co. say at the close:

Wheat—Lower. Weak foreign cables, reflecting improved crop conditions abroad, and heavy domestic receipts, created realizing on all slight rallies thru out season, values closing 1½c lower. With further crop improvement abroad, we expect lower levels, as receipts are too liberal, and in our opinion will check any material advance, and premiums for futures are a handicap to holding position. We favor short side on all sharp advances for good turns.

Erickson Perkins & Co. say at the close:

Wheat—The market opened at a sharp decline, ranging from ⅝c to 1½c, rallied fractionally, only to break again under liquidation by local professionals, and the influence of an array of bearish statistics. Outside markets were about on a parity with our own, with a good demand reported in the southwest for current receipts. As the foreign demand has been the chief basis of the recent strength the absence of such demand to-day was the chief cause of the setback in prices, the market lacking the support furnished by such demand, and feeling the weight of the heavy movement and cash position. We incline to the opinion that the foreign demand will be forthcoming again, and, therefore, prefer the long side on the depressions.

Corn—Once again the reports of the growing crop were at great variance, which goes to demonstrate the spotted condition of the crop. We still prefer to keep away from the short side for the present.

Oats—Market yielded fractionally to the pressure of the enormous movement, altho, considering the weakness in other grains, the decline was trivial.—Prices may sag still lower, but we do not advise short sales.

Montreal Stock Yards.

MONTREAL, Aug. 15.—(Special.)—At the Montreal stock yards west end market the receipts of live stock for the week ending Aug. 12 were 3500 cattle, 2100 sheep and lambs, 1690 hogs and 723 calves. The supply on the market this morning for sale consisted of 630 cattle, 1630 sheep and lambs, 675 hogs and 375 calves.

A feature of the trade was the stronger feeling in the market for cattle, and prices as compared with those of a week ago show an increase of ¼c per lb. There was no demand for export account, as cable advices from Liverpool were weaker and noted a decline of ½c per lb. The local demand was good. Choice steers sold at 6¼c; good at 5¾c to 6c; fairly good at 5½c to 5¾c; fair at 4¾c to 5c, and common at 4¼c to 4½c per lb.

The demand for hogs was good to-day, and sales of selected lots were made at $9.25 to $9.50 per 100 lbs. weighed off cars.

Sales of selected lots of sheep were made at 4c to 4¼c, and lambs at 6¼c to 6½c per lb. The trade in calves was fairly active. Prices ruled firm at from $3 to $12 each as to size and quality.

At the Canadian Pacific live stock market the receipts of live stock for the week ending Aug. 13 were 2323 cattle for export account, of which 850 head went thru to Boston. For local consumption there were received 1200 cattle, 915 sheep and lambs, 960 hogs and 450 calves.

On the market this morning there were offered 300 cattle, 600 sheep and lambs, 170 hogs and 123 calves.

British Cattle Markets.

LIVERPOOL, Aug. 15.—John Rogers & Co., Liverpool, cable to-day that the tone of the Birkenhead market was weak, and prices showed a reduction on Saturday's quotations of from ¼c on the best grades of cattle to ½c on the rougher sorts, full quotations being: Canadian steers, from 13¼c to 14c, and ranch steers, 11½c to 12½c per lb.

GLASGOW, Aug. 15.—Edward Watson and Ritchie report 334 offered. Trade worse. Prices made by us are as follows: Top steers, extreme price at 13½c; current, 14¾c to 15c; secondary, 14c per lb.; bulls, shown in small numbers, prime quality, 12c to 13¼c; secondary and inferior, 11c to 11½c per lb.

AUSTRALIAN BEEF EXPORTS.

The total exports of beef from Australia last year amounted to 390,626 quarters, or 66 per cent. more than in 1908, and those of sheep to 1,653,042 carcases, an increase of 67 per cent. Those of lamb were eight per cent. less than in the preceding year. The statistics show that 75 per cent. of the beef, 92 per cent. of the mutton, and 98 1-2 per cent. of the lamb were shipped to the United Kingdom.

143 CARS AT UNION YARDS PRICES ARE KNOCKED HARD

Exporters 25c to 50c Cwt Lower and Butchers 25c to 40c, Sheep and Lambs Steady.

Receipts of live stock at the Union Yards were 143 carloads, comprising 2369 cattle, 66 hogs, 590 sheep and 55 calves.

The quality of cattle, considering the season of the year, was good; in fact, all this season the cattle as a rule have been the best in many years. But, notwithstanding the good quality, prices declined from 25c to 50c per cwt. This was a buyers' market, and they certainly delivered some heavy blows in knocking down the prices, especially in the export classes. The best grades of exporters were 25c per cwt. lower, and medium grades 40c to 50c per cwt.

Best butchers' cattle, in sympathy with the exporters, were reduced 25c per cwt., and medium steers, 1050 to 1200 lbs. each, those not wanted for butchers, and not good enough to export, were off fully 40c per cwt.

Cows suffered the least of any class, but there was an easier feeling, even for them, in sympathy with the general downward tendency of all bovine classes, and we think the common to medium cows were off from 10c to 15c per cwt., while the best remained about steady.

Several weeks ago The World predicted that prices for cattle had not reached rock-bottom, and it is questionable, even now, if there will not be a still further decline.

The reasons given for the drop in prices were the lower tendency of the British and American markets, and receipts of 30,000 cattle at Chicago. If these heavy receipts continue, prices are bound to go still lower, is the opinion of the best judges in the trade.

All the leading butchers and abattoirs of the city were represented on the market, as well as from outside points, and at the close of the market there were only five carloads left unsold, altho in the morning it looked as tho fully half of the receipts would be held till to-morrow.

Milch cows and calves were the only classes to remain firm in price, as hogs were lower and sheep and lambs easier.

Exporters.

Export steers for London, $5.60 to $5.85, and a very few at $6.50; for Liverpool, cattle, $5.80 to $6; bulls, $5 to $5.25; heifers, $5.75 to $6.25. See export sales given below.

Butchers.

Prime picked lots of butchers, $5.75 to $6, and a very few at latter price; loads of good, $5.25 to $5.50; medium, $4.90 to $5.15; common, $4.50 to $4.75; cows, $3.50 to $4.85, with a few choice cows, good enough to export, at $5 to $5.25.

Feeders.

Stockers and feeders were reported by all the dealers to be about steady, but not any higher, than in our last report on Friday. See sales given of feeders below.

Milkers and Springers.

Prices for milkers and springers were firm, at $40 to $65 each.

Veal Calves.

The bulk of the calves sold at prices ranging from $3.50 to $7.50, with a few that had sucked their mothers at $8 per cwt.

Sheep and Lambs.

Sheep, ewes, sold at $3.50 to $4 for heavy ewes, and $4 to $4.50 for light; rams, $3 to $3.25; lambs, $6 to $6.60.

Hogs.

W. J. Johnston, buyer for Gunns, Limited, West Toronto, quoted selects, $9.60, fed and watered at the market, and $9.25 to drovers for hogs, f.o.b. cars at country points, which means $9.10 to the farmer, which is still a mighty good price, considering grain prices.

Representative Sales.

Corbett & Hall sold nine loads of cattle, as follows: Exporters, $6 to $6.35; butchers, $5 to $5.40; cows, $4 to $4.85 per cwt.

Rice & Whaley sold 39 carloads, as follows: 280 exporters, averaging from 1200 to 1250 lbs., at 5¾c to 6¼c; 5 export bulls, averaging from 1230 to 1820 lbs., at 5c to 5¼c; 165 butcher steers and heifers, averaging from 900 to 1300 lbs., at 5c to 5¾c; 75 butcher cows, averaging from 1093 to 1330 lbs., at $4.50 to $5.65; 20 medium cows, averaging from 900 to 1100 lbs., at $3.50 to $4.25; 47 lambs, averaging from 52 to 92 lbs., at $6.70 to $6.75; 4 sheep, averaging 155 lbs., at $4.85. Rice & Whaley bought seven carloads on order. Rice & Whaley sold for Messrs. Stewart & Robinson of Alisa Craig one load of steers at 6¼c, and one load of heifers at $6.10. They also sold several loads of the best export steers at $6.15 to $6.35, which they consider 15c to 25c lower than last week.

Coughlin & Co. sold 200 exporters, best grades at $6.10 to $6.35, medium grades at $5.80 to $6; 40 choice export heifers, $5.75 to $6.25; 100 butchers, 900 to 1000 lbs., at $6.25; 100 fat cows, 1030 to 1300 lbs., at $4.30 to $5.75; 90 fat cows, 1030 to 1300 lbs., at $4.30 to $5.25; one load northwest feeders, 900 lbs. each, at $4.50; one load of northwest feeders, 850 lbs., at $4.40; three springers at $55, $60 and $62 each; two calves, 240 lbs. each, at $6.50 per cwt.; two calves, 120 lbs. each, at $7; 26 lambs at $6.40; four sheep, 170 lbs. each, at $4.50.

Judge Morgan on Stock Gambling.

Before Judge Morgan yesterday, Geo. McBean pleaded guilty to a charge of securing $25 by false pretenses from W. J. Lindsay in a stock transaction. Sentence was suspended, after the judge had remarked that "there is more villainy, more rascality, more meanness, and more contemptible conduct in connection with stock transactions than anything else I know of. The rich man robs the poor and then they rob each other alternately."

Accuse the Constables.

Edward Cooper, Edward Levinsky and Geo. Dean were charged yesterday day with being disorderly at McCauley-street by Constables Davidson and Nesbitt, and were remanded a week. Thru their counsel, J. W. Curry, K.C., they will have the constables before the police commissioners, alleging ill-treatment.

For keeping unlicensed dogs, J. K. Matthews, Frank Egan, Jacob Singer and W. J. Bowen, were fined $2 each, and Robt. Hamilton and Louis Pearce taxicab chauffeurs paid $5 and cost for speeding.

After La Grippe

"I had suffered several weeks with LaGrippe. Had pains in my head and eyes. It felt as though there was a heavy weight on the top of my head, until it seemed that my brain would burst. I was so nervous that I could not rest or sleep. When I dozed off I would awake with a sudden jerking of my whole body. Dr. Miles' Nervine, Heart Remedy and Nerve and Liver Pills cured me. A number of friends have since realized the same benefits."

MRS. ALVIN H. LOCKS,
Seabrook, N. H.

The after effects of LaGrippe are often more serious than the disease, as it leaves the system in a weakened condition that invites more serious troubles, such as pneumonia, etc.

Dr. Miles' Restorative Nervine

should be taken for some time to thoroughly restore nerve strength.

and it is a sine qua non that those importations should be checked if any improvement in the economic position is to be made. Not only so, but owing to the financial pressure, dumping of all kinds must be expected, especially in iron and steel and their products.

For years the United States plutocracy seem to have imagined themselves able to set at naught all economic laws, and their action in the copper industry gives another example of the baneful effect of Wall-street manipulations, for this industry was the only industry in which the production allowed a steady yearly increase in exports.

United States Copper Production.

Year.	Tons.	Year.	Tons.
1900	263,502	1905	383,120
1901	265,250	1906	409,650
1902	292,870	1907	392,520
1903	307,570	1908	423,300
1904	365,050	1909	430,310

Not content with this, the price was manipulated to over £100 per ton, on representations that demand had outstripped production—the falseness of which was immediately proved by the increase of stocks and their continued increase to date.

The over-production, brought about by the high prices, should have been, by the laws of supply and demand, reduced by such a fall in prices as would have curtailed production and stimulated consumption. Instead of this the production has been kept up, and an undue price maintained by the threats of trusts and mergers to curtail production and raise prices. How it will end remains to be seen.

The American methods in cotton are too well-known to require discussion, and have been a menace to the world's cotton trade.

Politically the United States is a very disturbed country. When Mr. Taft succeeded Mr. Roosevelt the Republican party seemed fairly homogeneous, and likely to carry out the Roosevelt policy and reform abuses, but in the president's first effort, "The Tariff Bill" the reactionist party showed themselves too strong, or the president wittingly or unwittingly failed to press his point (a lower tariff) with the result that the bill went thru and practically left things where they were. The failure of the administration to lower the wall of protection by a few courses has had a disastrous effect on the party, and a split has occurred which if not strongly welded together again, will probably result in a Democratic victory in the autumn elections, the country generally being greatly disheartened at the failure to carry thru the policy of the late president. It is possible in the hands of the ex-president the control still lies, but tho he has been for years one of the most prominent figures on the world's stage, little of his capabilities is either known or proved. His campaign as president only directed the public's attention to the abuses under which they were suffering, and his campaign in Europe has been most ably summed up by The Times correspondents in a quotation:

"A dreamer of the common dreams,
"A fisher in familiar streams,
"He chased the transitory gleams
"That all pursue;
"But on his lips the eternal themes
"Again were new."

That he is a gentleman, sportsman and purist, in the best sense of the words, no one doubts, and that he possesses that subtle personal compelling power (defying analysis) which has been the attribute of the kings of men from Agamemnon's day to this is evident, but whether he is practical or only ethical and academic who can say?

The difficulties of economic reformation will be great, tho the reforms needed are very evident.

Steps must be taken to induce disintegration, or, if not disintegration, at least to discourage further aggregation of massed capital in few hands.

Control must be exerted over railway finance; and at all risks, even the temporary dislocation of labor, the railways must be prevented from draining the capital of the country.

Endeavor must be made to prevent manipulation in all the national products of the country whereby the consumers have to pay an enhanced price for the benefit of the producers and manipulators.

The result aimed at by all these measures should be the lowering of the cost of living; in this way only will the United States in future years be able to
