A VALUABLE PRESENT.—A number of the parishioners of the Rev. A. Sterling, of Clifton, P. E. I. went to the woods a few days ago and sent to the manse from forty to sixty loads of good hardwood for fuel. This has been done for seven or eight years past.

COASTING ACCIDENTS.—A few days ago Frederick Connor, of the West end, had his foot severely injured while coasting. He fell off a double runner and his foot was run over.

A young daughter of Thos. Lander, of West end, was also badly injured while coasting a short time ago.

LECTURE.—One of the most interesting lectures of the St. John church Y. M. A. course will be given this evening. It is entitled Wit, Humor and Scottish Humor, and when it is said that the Rev. Dr. Macrae is the lecturer it is almost needless to add that a rich treat is in store for all who attend.

MR. C. BRUCE MACDOUGALL says that the Pioneer Publishing Company, of Campbellton, has been reconstructed and that he leaves to-night to take charge of the paper as editor. It will be remembered that Mr. Macdougall was the founder and first editor of the Pioneer.—Moncton Transcript.

AN AFFLICTED FAMILY.—Mr. Ira Constantine, a young man of 27 years, who has been ill with consumption for some time, died yesterday morning. He leaves a wife and one child, a babe of 4 months being buried a week ago. This makes four deaths in this family within a year and a half. His wife and sister are quite ill at present.—Moncton Times.

COLLISION IN THE I. C. R. YARD.—Yesterday afternoon in the midst of the fog shunting engine No. 100 backing out of the I. C. R. yard, ran into another shunter coming in. The tender of No 100 was slightly damaged while the cow-catcher of the other was badly smashed. No one was injured but the drivers and firemen of both engines were shaken up considerably.

Modena, Elizabethport to St. John, coal, 70 cents. Schr. Greta, New York to St. Vincent and back, from San Domingo City $4, or Boston $4·25. Schr. George E. Dale, New York to Boston, logwood, $1.75. Bark Bessie Markham is chartered, Brunswick to Montevideo for orders at $17.

BITTEN BY A DOG.—A little son of Charles Johnstone of Dorchester street had his chin badly hurt this morning by being bitten by a dog in the city market. The boy was walking through the market; the dog coming near him he put his hand on the animal's head. The dog immediately flew at him and caught him by the chin sinking his teeth deep into the flesh. The dog is owned by David Watson and is a very savage creature; it should be destroyed.

THE LATE LAMENTED BARNEY.—The many patrons of Peters' stable will regret to hear of the death of the very excellent piece of horse flesh, Barney. Barney did not die of the influenza, but in an excited moment he attempted to knock down a brick wall, and perished. Two young men drove Barney out the road Sunday, but Barney became disgusted with the manner in which he was being managed, and took matters into his own hands. After precipitating the young men into the road Barney made a bee line for a bright light in a brick house not far in the distance. He never stopped, but carried away door, window and half the front entrance, but broke his shoulder in the attempt. Damages about $300 against the young men.

OLD TREES.—I am persuaded that there are trees on my farm at New London P. E. I. standing now that were there before Cartier was born if the number of rings are an infallible indication of age, and I am persuaded they are, the white circles denoting the summer growth, the darker ones the hardening proceess of winter. I have counted over four hundred of these annular rings on a black birch which was nearly three feet through. I should say judging from what I have seen and counted there are scores of maple, beech and birch trees older than Cartier's time, and I think it would be difficult to find a maple, beech or birch any way matured that would not show over two hundred rings, therefore I think the age of this species of trees may be set at any where below five hundred years.—Cor. Pioneer.

MAY GET A LONGER TERM.—Lawrence Lawrencen, a sailor, went to the city police station this morning to obtain the aid of the police in securing some property which was stolen from him about two months ago. He states that at the time of the robbery he was boarding at Mrs. Nugent's on North street. He had a trunk in his room which contained a quantity of clothing and various other articles, and he suspects that a man named James Troop entered his room and stole a suit of clothes and £2 10s., English money from the trunk. Troop is the man who a few weeks since, was sent to Dorchester penitentiary for beating John Harding with a crow bar. Lawrencen says he would have given the matter into the hands of the police before, but he was taken sick and has been in the hospital ever since. The police are now looking the matter up to try and find out something concerning the affair, but it is thought that Troop took the clothes with him to Dorchester.

I am still selling those celebrated Briar Pipes with pure Ambers at 25 cents each LOUIS GREEN, 59 King street.

SPIRIT OF THE TIMES.

Skating.

IT WAS EXPECTED OF HIM.

The news that Hugh McCormick has won the championship of the world is taken here as a matter of fact. Nobody in this city doubted for a moment that Hugh could beat a man like Axel Paulsen or any other man who claimed the championship skating honors. It is amusing, however to learn that Paulsen has been, or rather has called himself, champion for eight years. McCormick has been chasing Paulsen around for fully that period of time in order to make a race, and has challenged him on several occasions, but the latter has always kept out of skating distance and it was with difficulty he could be prevailed upon to come to terms in the last series. He plainly foresaw the result.

Paulsen would have cut a ridiculous figure as skating champion of the world, if that title had been allowed him, but he has no records; he has won few if any races: and his last performances have ruined what little reputation he ever had.

No professional athlete has a cleaner record than Hugh McCormick. He is an athlete because he loves manly sport, not because he can make money thereby. He brings the championship back to his home in St. John, and he can depend upon a hearty welcome.

PALACE RINK TOURNAMENT.

The races, a list of which will be found in another column, this evening at the Palace Rink should be largely attended. The management have endeavored to make the events as exciting as possible by securing a large list of entries. The artillery band as usual will be in attendance.

The Wheel.

A number of the St. John bicyclists met in the rooms of the Y. M. C. A. last evening to discuss matters for the coming season. Duncan C. Robertson occupied the chair. Suggestions made last evening will likely be carried into effect, and the bicycle club will, in all probability, hold a series of road, track and other events. Another meeting will be held Friday evening next, when every bicyclist in the city is requested to attend.

Curling.

In the Jones cup competition at the St. Andrews rink, last night, the following scores were made: J. D. Hazen 18; H. W. DeForest 8; H. V. Cooper 20, and Dr. Bruce 6.

A meeting of the St Andrews club will be held at 7.15 o'clock this evening.

The second game in the series between the Thistles and St. Andrews clubs will be played this week.

The Milligan medal in the St. Andrews club has been won by J. T. Hartt. Mr. Hartt and S. S. DeForest tied with 16 points each, and played off.

Lacrosse.

Representatives of the different lacrosse clubs are requested to meet at the Beaver club rooms, Seely street, on Friday evening, 7th instant, to discuss preparations for the coming season.

MRS. WEEKS LEFT HOME.

Suspicions of Poisoning Directed Against Her—Arrested in St. John.

Last evening, Detective Ring, of this city acting on the strength of a telegram received from Attorney General McLeod, of Charlottetown, arrested a Mrs. Weeks at the Dufferin Hotel, on suspicion of having administered poison to Mrs. Sutherland at that place. The arrest, as the telegram states, is merely on suspicion. Mrs. Weeks is the widow of Mr. Weeks of the law firm of Davies, Sutherland & Weeks, and her husband died a short time ago. She was in receipt of an income from her husband's estate which had been left in charge of the surviving partners. Recently Mrs. Sutherland, (wife of one of the firm) was prostrated by illness, and it is asserted that her symptoms were such that it was deemed best to analyse some of the medicine which had been administered. This was done and poison found. Suspicion was directed towards Mrs. Weeks and another, and on this account she left the town. At present she is very ill, but knows that she is under arrest and the nature of the suspicions against her.

An officer will arrive from Charlottetown this evening to take her in charge, but her removal under present circumstances is impossible as she is in the hands of a physician.

Deaths at West End.

William Buchanan, an old and respected citizen of the West end died last evening at 10 o'clock after a short illness. Mr. Buchanan first had an attack of "La Grippe" and was getting better rapidly, but on election day he went out and caught a cold which caused a relapse and resulted in his death. Mr. Buchanan had been a resident of Carleton since his boyhood and for a long time had held the position of city amrshal. He was also a deacon of the Baptist church and a member of the Masonic order. He was 78 years of age and leaves a wife and three children. The funeral will take place Thursday at half past two from his late residence, Guilford street.

Mrs. George Price, another old resident passed peacefully away last evening at the residence of her son, John Price, Blue Rock, West end. She had been ill for some time past. Mrs. Price was the relict of the late Capt. George Price, and a sister of ex-Alderman Brittain. She leaves five sons to mourn their loss.

FELL OUT OF A WINDOW.—Mr. H. J. Pratt, of North end, met with a painful accident about 10 o'clock this morning. He was fastening a window frame in the rear of his new house on the corner of High and Portland streets, and while he stood on the sill, with his back towards the street, the slight brace on the frame, to which he held, gave way, and Mr. Pratt fell heavily to the half frozen ground, a distance of ten or twelve feet. He struck on his head and face, and, besides having his cheek and head badly bruised, received an ugly cut over the brow of the right eye. Dr. Gray had to put four stitches in the cut to close it up. Mr. Pratt's hands and knees were also bruised and hurt. One knee is quite badly swelled, and as he has only just recovered from an attack of "la grippe" the accident will probably confine him to the house for some days.

Goldwin Smith's Sophistry.

NEW YORK, Jan. 31.—Professor Goldwin Smith, of Toronto, delivered an address at the Ninteenth Century club tonight on The political relations of Canada to Great Britain and the United States." He said the separation between the United States and Canada is an historical accident and there is no natural boundary. The populations are constantly fusing. The United States and British Canada are now one people under two governments and with a customs line drawn across. Canada, like the United States, is an absolute democracy. French Canada, however, he said is a French nation, with a practically theocratic government. The loyalty is morally superseded by allegiance to the Pope.

REVISING A CREED.

Continued from Second Page.

To the reporter inquiring as to his opinions on the question of the revision of the Confession of Faith, Rev. Dr. Bennett said:

"My opinion is that the Confession ought to have been revised long ago. It cannot hardly be said to express the opinion now of either the ministry or the people in all particulars. A revision, however, would hardly serve the purpose, and it would be better in my opinion, to form an entirely new Confession of Faith in the light of the latter part of the 19th century. A short and simple creed which would leave out of it many matters of philosophy not well understood and upon which a dictum should not be pronounced by any church court.

"In view of the unification of the churches, a simple statement such as we have in the Apostles creed would probably constitute a good foundation upon which all could proceed in reforming one church out of the *disjecta membra* of sects. At any rate it seems to me impossible that a great change shall not take place all along the line of the churches. After the discussions which have taken place and which are going forward it would seem to be out of the question to ask a young *entrants* into the ministry to subscribe to a creed against which such strong objections are being presented. The truth as it appeared to the reformers has been greatly modified during the past century and especially during the last 50 years. Men do not and cannot think in the same lines which the reformers pursued. Questions of science and criticism have arisen which render it difficult, not to say impossible, to adopt some of the views presented in the confession.

"There is another matter. If the Protestant churches do not make such changes as will allow men to accept of the latest results of true science and criticism, the Roman Catholic church is ready to go before them and make the adoption of such results entirely free to scientific men. Some articles have lately appeared from the pen of an exceedingly able exponent of Romish views, in which it is indicated that the results of criticism and philosophy may be adopted in full by the votaries of that faith. A statement has been made that the Romish church is not going to repeat the error which she made in the case of Gallileo, by setting herself in opposition to the true deductions of science in the present day. The statements made by the writer, to whom I refer, are said to have been *vised* to the *curia*.

We need not say more on this matter. The controversy will no doubt, as it has now been commenced, go forward until there is some satisfactory conclusion arrived at."

Rev. Mr. Fullerton, who preaches in the Carleton Presbyterian church, expressed his views to the reporter in these words:

"I am opposed to revision but go in for a new symbol. The present Confession of Faith, of course, emphasizes the sovereign power of God, to the apparent neglect of that which Christ emphasized, the Fatherhood of God; and I think that in the Fatherhood of God we have got the conception of God that is easiest apprehended by the human intellect. I think that the teachings of Christ and the Apostle Paul have a more universal ring than the ring of the Confession of Faith. The Confession of Faith, I would say, marks a period of strong developement in the history of religious thought. It lays stress on God's sovereign power in opposition to the power then claimed by the head of the church (the Pope).

As a document, as a creed if you like, it has done good servic; but rather than modify it to suit present ideas I think a simpler symbol embracing the salient points of Christianity would have more power in bringing about the union of the churches, and would be more acceptable to the minds of men."

Brevities.

The fire in the lime on board the schooner Frank and Willie has been extinguished.

At Halifax, absolute divorces have been granted in the cases of Mosher v. Mosher and Robarts v. Robarts.

Charles Campbell of Weymouth registrar of deeds for Digby county, died very suddenly yesterday morning at the age 58 years. He was a brother of Colin Campbell M. P. P. and an uncle of the late John Campbell M. P.

At the funeral of the late W. S. Symonds in Halifax yesterday some of his friends urged a postponement insisting that he was only in a trance. This was shown to be impossible and the interment was proceeded with.

The members of Johnston L. O. L. No. 24, spent a very pleasant evening in their lodge room last night, the occasion being the presentation of a handsome set of officers' collars by county master Jas. Kelly, this lodge having been successful in initiating the largest number of candidates during the past year.

Charlottetown is startled by the rumor that an attempt has been made to poison Mrs. Sutherland, wife of J. W. Sutherland of the law firm of Davies & Sutherland. She was ill, and it is alleged that arsenic was mixed with her medicine. The woman in the case left the Island by an ice boat a few nights ago. The matter is being investigated by the police authorities.

An old man named Forsyth is reported to have died of want and exposure at a house on Farren street at an early hour yesterday morning. During his last hours he was attended by two ladies who did all in their power to ameliorate his condition, but while they were absent for a few moments, at about 4 o'clock, he passed away from the scene of his suffering.

James Oliver, Caverhill, York county, employed by W. H. Lawrence, lumber operator on the Keswick, was found on Friday last lying in the snow near his team at one of the landings, crushed to death by a heavy log which lay across his breast. He was alone when the accident occurred and had been lying there several hours when discovered. He leaves a young widow.

THOSE who investigate for excellence and beauty in photography will be repaid by a call at Climo's. In comparative merit his prices are lower than any. 85 Germain street.

ST. MARTINS' ROBBERS CAPTURED.

Constables Take Them While Leaving Church, and Magistrate Skillen Commits Them for Trial.

There arrived by the St. Martins' stage this morning three young men, Bruce Davidson, Caleb Davidson and Joseph McLean, who were arrested Sunday night on suspicion of having lately committed robberies and done considerable damage at that place. Constables McWhinney and Lewis took charge of them just as they were leaving church, and an examination showed that they were at the time wearing some of the stolen articles. Yesterday a preliminary examination into the case was held by Police Magistrate Skillen. In evidence it appeared that Caleb Davidson and McLean had broken into the stores in question and that Bruce Davidson was afterwards engaged in the lucrative employment of disposing of the stolen articles. From David Vaughan's store besides boots and shoes it is thought that as much as $40 in money was taken. An attempt was made to break into James Rourke's store but without success. A few nights ago, however, the mill of W. H. & J. Rourke was entered, and a number of valuable belts cut. These were partially repaired by the the millmen next day, but on the following night they were cut and slashed worse than ever. The arrested parties are comparatively young men who have as far as the residents of St. Martins tell, unenviable reputations. The Davidson brothers have figured in numerous scrapes of the kind. McLean is a younger hand.

Magistrate Skillen committed the trio for trial at the next circuit court.

Freights.

Messrs. Scammell Bros., in their weekly freight circular, dated New York, February 1, say:

The freight market has been subject to slight and unimportant variation during the week, and the volume of business has been disappointingly small. The deal and timber trades continue dull, and rates are barely steady, either from the Provinces or from the South; from St. John N. B., to East Coast Ireland 52s. 6d. has been accepted, whilst from the Gulf to the United Kingdom and Continent 35s. 6d. @ 37s. 6d. was paid on hewn timber for medium sized sail vessels. The River Plate trade remains slow and rates favor shippers, the latest fixtures having been at $11@$11.50 on lumber from Boston, $17@$17.50 from the Gulf to Montevideo and Buenos Ayres, and 16@17 cents per cubic foot on general cargo hence to Buenos Ayres. West India business, both outward and homeward, is unusually dull for this period.

The coastwise trades partake of the prevailing quietude. Lumber freights from the south show a weak and declining tendency, whilst for colliers there is very little inquiry, and rates are irregular and largely nominal. Ice freights, on the other hand have taken a sudden rise to $1.25 per ton from Maine ports to New York and neighboring ports South.

Berth freights by the trans-Atlantic lines remain about steady.

FOUND IN TEA.
The Novelty Tea Co.
have completed a branch of their establishment at the old Sheffield House, 11 Market Square, St. John, and are now ready to do business. Our Tea is only sold in Cans, price $1.00 each, 6 Cans for $5.00, 13 Cans for $10.00, or 27 Cans for $20. CARD.

To the public and our numerous patrons. As our business has made great strides during the past year and greatly exceeded our expectations we find it impossible to keep track of such a large number of small accounts unless we keep a large staff of book-keepers and collectors constantly employed which we cannot afford to do, therefore we have been compelled to notify you all that in the future we intend to do a strictly cash business. Parties wishing accounts rendered monthly will be accommodated, but all such accounts will have to be paid when the last parcel for the month is sent. All other parcels will have to be paid for on delivery. Hoping that all will see the justice of our course and soliciting a continuance of patronage.
We remain yours truly,
