Miramichi and the North Shore, etc.

SWEENEY MILL for sale. See advt.

CYPRESS CLUB.—The members of the Cypress Club are requested to attend a meeting in their rooms this Thursday evening at 8-30 o'clock.

BIG TOMATOES.—Mr. James Anderson of Duke Street, Chatham, showed our reporter two tomatoes one day last week, which weighed one pound nine ounces and one pound eight ounces respectively.

BIBLE SOCIETY.—The annual meeting of the Miramichi Ladies Auxiliary British and Foreign Bible Society will be held in the Temperance Hall Chatham, on the 25th September at half past 2 o'clock p. m.

BAD NIGHT.—Last Saturday night seemed, according to all accounts, to be signalized by a boom in intoxicating beverages, as there was more disturbance by "beer" drinkers than there has been for a good while.

DEATH OF AN OLD RESIDENT.—The death of Maurice O'Donnell, Esq, of Carrol's crossing, which took place on 31st ult, removes another old, well-known and much esteemed resident of the County from life's activities.

THE LEADING STORES.—Mr. Creaghan is opening the largest fall importations yet brought to the Miramichi by him, and the many bargains he has to offer in fresh and stylish goods as well as in the usual staples ought to attract a big trade.

DOGS AND GAME.—A statement in the St. John Telegraph that "Dogs found hunting game will be destroyed, and hunters who use dogs will, if caught, pay a fine of $50" is misleading. It is the hunting of Moose, Caribou and deer with dogs that is prohibited in New Brunswick.

S. MARY'S.—It was announced by the Rector on Sunday that owing to his absence, attending the Provincial Synod in Montreal, there would, probably, be no services in S. Mary's church next Sunday and that announcement as to services—if say—on Sunday, 22nd, would be made in due course.

FISHERY-INSPECTOR CHAPMAN'S office in Moncton was burglarized last Friday night. Valuable papers in it were torn and thrown upon the floor. Two boys did the bad work. They were caught by lawyer Hewson in his office, but gave a plausible excuse for their presence there and were permitted to go, after which he found they had rifled the place as far as possible.

THE I. C. R. time table changed last Monday. The arrangement is about the same as that of last fall. The accomodation for St. John leaves Chatham Station at 10 a. m. that for Campbellton at 1,20 p. m. The Express for Campbellton at 6,50 p. m. and that for St. John at 3.50 a. m. all Eastern standard time, connecting with the I. C. R. at Chatham Junction.

REMOVED.—The late residence of Dr. J. S. Benson on Duke Street has been leased by Mr. Herbert Pallen. Its ample size and pleasant and convenient situation render it a very desirable home for persons who wish to secure a first class boarding place, and as Mrs. Pallen is prepared to take a few suitable boarders, those desiring comfortable quarters would do well to apply early, on the premises.

WHAT NEXT? The World says that in the yacht race on Saturday last, Kilbride took the wind out of Oriana's sails and that "this enabled Learig and Maude to close up on the leader," etc. As Learig and Maude passed Oriana easily and kept on increasing their lead, Kilbride being then clear of Oriana, other observers of the race will say that Learig and Maude overhauled and passed and beat Oriana because they fairly outsailed her. Surely Oriana's owner does not want to win in "the calm zone" every time!

AN ATTRACTION to buyers of family groceries, provisions, dry goods and general household supplies is offered by Mr. Roger Flanagan at his well known store on St. John Street, Chatham, in the form of silver knives and forks, silver spoons, silver cruet stands and boxes of tea. He issues tickets which are presented by customers every time they make purchases, and no matter how small the amount, it is punched off, and when the purchases aggregate either $15 or $30, as the case may be, one of the articles specified viz.—a cruet stand, or a dozen of silver knives or forks for a $30 ticket; or a 5 lb. box of tea, or 1 doz. silver spoons for a $15 ticket is given free.

VERY UNGRATEFUL.—Yachtsman Stewart appears to be a very ungrateful person. He published an ill-natured and magnified account of the carrying away of a mast the other day by reason of the marlinc with which a stay was attached, breaking in a stiff breeze. It was only a slight mishap which no one but a landsman would think of any importance. His friends are now commenting on his ingratitude in jubilating over so trifling an incident, especially as the owner of the boat it happened on kindly pulled Mr. Stewart out of the water a few years ago when he so awkwardly capsized and sunk his boat in a much lighter wind than that which caused a stay of his rescuer's boat's mast to gave way on Thursday last. We dare say however that the Vim-Vie owner will save him again when he capsizes, notwithstanding the fact that he is so ungrateful.

PERSONAL.—The engagement is announced of Miss Ida Whittier, only daughter of Captain Whittier, late U.S. consular agent, Fredericton, and Dr. Harrison, chancellor of the University. The many friends of both, on the Miramichi, will join in congratulating them.

Mrs. W. B. Howard, now of St. John, has been making a visit to Chatham and Newcastle where she has been warmly welcomed by many old friends.

Mr. Alex Cantlay, who has been absent from Chatham for several years in the United States, has returned and thinks of remaining here.

Rev. Canon Forsyth and Hon. J. P. Burchill, have gone to Montreal to attend the Provincial Synod of the Church of England, which opened in that city yesterday.

Mr. Harry Shirreff and bride who visited Mr. Shirreff's parents at Chatham last week, left for Ottawa on Tuesday. Mr. Shirreff, jr. was always a favorite here, and is none the less so since he has secured so winning and worthy a life-partner.

Mr. Richards of P. E. I. was in Chatham on Tuesday afternoon.

Capt. Smith of Ottawa, who is now in Halifax, is expected in Chatham in a few days.

THIEVES were abroad last Saturday night. They attempted to break into the stores of Mr. R. Flanagan, St. John street, and T. Flanagan Cunard street. In both cases they tried to gain admission by the rear doors. They spoiled the locks but inside bars prevented their gaining access to the interiors.

Will Bernard, son of Mr. Chas. Bernard, found a man about one o'clock Saturday night carrying off a ladder from the rear of their place towards the W. S. Loggie premises. On young Bernard making his presence known the fellow dropped it and ran, giving the alarm to a companion who was standing by a ladder in the rear of the Loggie stores. It was the evident intention of the marauders to lash the ladders together so as to reach an unprotected window which was too high up to be gained by one of them. Both of the prowlers escaped.

The policemen detected two young men in the act of raiding the premises of Mr. A. J. Pine, in rear of the Aberdeen hotel. One fellow had effected an entrance, by breaking in through a shutter and his pal was keeping guard outside. The latter gave the word to his friend and both ran away, policeman Forrest discharging his revolver twice after the retiring figures. He identified them as William Keoughan and James Jardine. The policemen met them later and did not arrest them although they were talking with them. Another raid on the same premises on Sunday night was more successful. Policeman Forrest was waiting to get warrants for them at about 2.30 on Monday—rather slow work and forming a parallel for the Morris case.

$250 Cash

In acknowledging the receipt of $250 from W T Harris, on ticket No. 6314, which was the lucky one on the piano prize, and held by me, my choice being the cash—which I received promptly—I beg to express my entire satisfaction with the fairness and integrity of the drawing, and that had I not been fortunate enough to win my choice of the piano or cash, I should have been well satisfied as to the value I received for the money I spent at Mr Harris's store.

WILLIAM PURCELL.

Circuit Court

Circuit Court opened at Newcastle Tuesday forenoon, Judge Vanwart presiding. There being no criminal business offering, he addressed the grand jury briefly and dismissed them, without giving opportunity for them to prepare an address to him, this being his first Northumberland Circuit since his elevation to the bench. Causes were entered as follows:—

Elizabeth Walls vs. L. J. Tweedie. Gregory, Q. C., for plaintiff; Lawlor and Bennett for defendant.

John Fraser vs Jas Aiton. Tweedie and Bennett for plaintiff; Lawlor and Butler for defendant.

The first cause was taken up for trial without a jury.

R B Bennett read naturalization papers of Jos Soloam and Morris Rippel, aliens.

His Honor Judge Wilkinson occupied a seat on the bench.

Judge Vanwart make an excellent impression as a judge. He is prompt and business like in his work and yet courteous and affable.

W. T. Harris Still to the Front

He again offers the piano or $150 in cash, on the 10th of next March; terms same as before. Buy your goods at his stores—one ticket with each dollar purchase. Come one, come all, come every time. You always get the worth of your money, and some one will get the piano or $150 free. Who will it be?

Chatham Parish Sabbath School Association.

The fourth quarterly convention was held on Tuesday evening 10th inst., in the central school house, Napan. The school room was very tastefully decorated with ferns, flowers and autumn leaves, thereby showing the interest taken in the work by the Napan workers. The new organ, which has lately been purchased for the school room, was efficiently presided over by Miss Edgar. The meeting opened with devotional exercises led by Rev. Mr Steel. The president of the association, Rev. Mr. McCoy, then took the chair, and the following programme was carried out.

Opening addresses by the president.

Credential committee appointed, viz, Miss Mowatt and Mr. Dickson.

Normal lesson, "How to conduct a regular session of the Sabbath school, by Rev. Mr. Steel.

Primary class lesson, Taught By Miss Edith Shirreff.

Duet, Sweet hour of Prayer, by Misses Edgar.

Subject: How parents can aid in the S. S work, introduced by Mr. John Galloway,

Discussions of the above subjects were entered into heartily, and many practical points brought out for the help of S. S workers. The credential committee reported the number present, 3 pastors, 3 superintendents, 18 teachers, 43 scholars, 31 visitors, total 98. Amount of collection $3.34. The president announced the date of the Provincial Convention to be 15th October and that it would be held in Chatham, and invited all present to attend.

The meeting closed with singing and the Benediction.

Little Geo. Blewett Drowned.

Mr. Geo. Blewett, engineer of the tugboat Lillie, of St. John, who is quite well known on the Miramichi, where he was in the service of the New Brunswick Trading Company as engineer of the same tug, visited Chatham on a sad errand on Monday. The cause of it will be understood by the following, which we take from Saturday's St. John Globe:—

"George Blewett, a small boy, was drowned about ten o'clock this morning. He, in company with two other lads younger than himself, went down to the Gregory booms, near Hilyard's mill, to look after some dulse he had picked earlier in the morning. In stepping from the booms to the boat he slipped and fell into the water, which was only two or three feet deep at the time. No one saw the accident but the two little boys, and they are unable to give a clear account of the affair. One of them hastened to Blewett's house, which is only a short distance from the scene of the accident, and told Mrs. Blewett what had happened. She ran down to the booms, but could see nothing but a hat floating on the water. She could do nothing herself, but managed to attract the attention of three men: James Kennedy—Charles Palmer and James Rider—who were working in the adjoining shipyard. They quickly came to the rescue and hauled the young fellow out with a pike pole. It is stated that he was in the water only five minutes, but Drs. Christie and McAlary, who were hastily summoned, worked with him for over an hour and were unable to resuscitate him. Mr. George Blewett, engineer of the tug Lillie, father of the lad, was communicated with, but arrived only in time to see the remains carried into the house.

"The greatest sympathy is expressed for Mr. and Mrs. Blewett in their bereavement. The boy was very bright and promising. He would have been nine years old on the 11th of December next.

"Coroner Berryman was summoned, but did not think an inquest would be held. The remains will be taken to Chatham Monday morning for interment."

Blackville Notes.

BLACKVILLE N B. Sept 10th

Mr R. C. Boyes is laying the foundation for his new store.

Mr Michael Whalen, the Renous River poet, is in town. He finds the air here exhilarating and very favourable to his wooing the muses, and he likes it.

Mercereau's photographic car is billed to arrive at Blackville Wednesday Sept 11th and will remain one week. This will give the young folks of Blackville a chance to get their "pictures took."

A number of petty robberies have been going on nightly for some time past, and most of the townspeople mourn the loss of their preserves on from their cellars and fruit and vegetables from their gardens. Nothing has been done however in the way of apprehending the thieves.

On Saturday night last, a systimatic raid was made on a number of cellars in Indiantown and on all the cellars and gardens along the Branch extension. The gang took the loan of a trolley belonging to the Canada Eastern and what they could not carry away with them, they destroyed. We are informed that Mr Jas Scofield of Indiantown lost goods from his cellar to the value of $30., and Mr B N T Underhill who had some very fine pumpkins in his garden which he intended for the exhibition at the agricultural show this fall, found them cut up in small pieces and adoring the palings of his fence Sunday morning.

Patience has ceased to be a virtue in this case and something should be done to put a stop to such rowdyism.

Yacht Race for the Governor Fraser Cup.

There was a fair breeze from the eastward on Saturday when the boats of the Miramichi Yacht Club started in the race for the cup presented to the club by Lieut Governor and Mrs. Fraser. The course was one of nearly 12 miles and triangular in form, the starting point being off the Muirhead wharf Chatham. The lower turning point was off the Canada wharf and the upper one off the public wharf, Douglastown. The boats started up river and went around the course twice.

Hon. L. J. Tweedie, and Messrs E. Lee Street and Warren C. Winslow were judges and the official boat was Commodore Miller's steamer Laura. There was a fifteen mile breeze at the start, but it lessened soon after and hauled to the south and although it was steady at any given point it was much stronger in the lower parts of the course than the upper.

The starters were Kilbride, Starling, Oriana, Learig and Maude, and they went over the line in the order named. Maude had the misfortune to have the lashing of her outer topsail block break away soon after turning the Douglastown stake boat, and beat down and ran up without that effective sail in place, a fact which told greatly against her in the contest. The other boats had uneventful work all over the course, save Kilbride which dropped out of the race before reaching Chatham on the first round. The official time was as follows:—

	Start.	Diplom.	Chatham.	Mill Cove.
Learig	2 42 00	3 56 40	3 32 40	4 01 30
Maude,	2 43 02	2 57 00	3 34 07	4 04 20
Oriana,	2 42 .0	3 56 22	3 39 00	4 14 50
Starling,	2 41 50	3 56 30	3 36 45	4 14 40
Kilbride,	2 41 40	2 57 20	dr.	

	Diplom.	Mill Cove.	Finish.	Elapsed.
Learig,	4 27 00	5 46 20	5 19 50	2 36 50
Maude,	4 30 20	5 18 00	5 30 30	2 47 23
Oriana,	4 32 25	5 31 00	5 42 10	3 00 00
Starling,	4 32 30	5 33 00	5 46 00	3 01 10

The race, though slow, was a very interesting one, for Learig and Maude kept fairly well together and it would have been much more close between them, but for the accident to Maude's topsail; then Oriana and Starling made a pretty race against each other, although well astern, so that the attention and interest of the onlookers were fairly divided. There was an unusual large number of spectators on the wharves, the chief point of interest, however, being that off which the start was made. The large turnout was doubtless due to the fact that it was for the Governor Fraser Cup the race was taking place. The interest was heightened at the close when the participating yachts' crews rendezvoused at the wharf, where there was a throng of ladies and gentlemen awaiting the presentation. Commodore Miller handed the cup over to Mr. Tweedie, making a few appropriate remarks, and requested him, as one of the judges to present it to the winning member of the club, Mr. Barr, part owner with Messrs Currie, of the yacht Learig.

Hon. Mr. Tweedie made the presentation in a well conceived speech, in which he referred to the visit of the Lt. Governor and Mrs. Fraser last summer to the Miramichi and their appreciative recollection of the welcome they received from the people and the courtesies extended to them by the Yacht Club, the presentation of the cup to the club by them being the outcome of that visit and its pleasant experiences for both governor and governed. Mr. Tweedie also referred to several relative matters, making a speech which was well received and heartily applauded.

Mr. Barr suitably acknowledged the complimentary things said by Mr. Tweedie concerning the winning yacht and her builders, Messrs Currie and expressed his appreciation of Governor Fraser's generous gift to the club.

There were calls for Mr. J. L. Stewart and Mr. W. C. Winslow, both of whom responded, making well conceived speeches, and the proceedings closed with three cheers for Lt Governor and Mrs. Fraser, for Commodore Miller and the Learig.

New Buildings, Etc.

The prevailing activity in house buildiag, house enlargements and other improvements being made in resident and other properties in Chatham, are encouraging indications of the progress of the town and the generally healthy condition of its business. It is said that there is not an unoccupied house in Chatham at the present time, while many are seeking dwellings. Our reporters have taken some notes this week of new buildings going up, as well as some recently built and now occupied.

One of the best is that being erected for Mr. Wm. Mather, by Mr. John McDonald, on the corner of King and Howard Streets. It is two storeys high, with cottage roof and has a portico on the front, running up both storeys, as well as bay windows on the front and King St. side. The main house is 25x37 ft. and the ell 17x20. The halls are 9½ ft. wide, and the walls, being 20 ft. high, give ample ceiling-height in the different rooms. This dwelling is counter-plastered and will be heated with hot water, and otherwise fitted with all modern conveniences. Mr. Mather expects to occupy it about 1st December.

Mr. Jas Mowatt is building a tasteful cottage for Mr. Edwd. Gallivan on Church St. It is 22x30 ft. with an ell 18x14 ft. It is one and a half storeys high and 14 feet post, the ell post being 12 ft. The hall is 8x16 ft. It contains 9 rooms. The sashes, doors, door frames and interior finishing generally are from Mr. John McDonald's factory—Mr. Mowatt's contract covering the outside work, lathing, etc., and he will also put up the inside finishing. Mr. Gallivan will, probably, occupy his new dwelling in about two months.

Mr. Philip Leonard has a new house nearly ready for occupancy next door to that of Mr. Gallivan on Church Street. It is 20x27 ft. and one and a half storeys high. He intends to add an ell to it by and bye, but will move in first. Mr. P. Desmond did some of the work and the stairs was put in by Mr. Thomas Murray, but most of the carpentering was done by Mr. Leonard, himself, and his son. The shingles, doors, sashes, frames and finishings were from the McDonald factory.

On the east side of the Gallivan cottage, in the next lot, Mr. Peter Breen is just beginning the construction of a new dwelling, the work being in charge of his brother-in-law, Mr. Alex. Johnston. This will be a one and a half storey cottage, 21x30 ft. with an ell 12x16 ft. Mr. Breen expects to have the building covered in before winter.

Mr. Wm. Sinclair has a neat one and a half storey cottage on Duke St., built for him by Messrs. Stephen Jackson and John Fleiger. The main house is 30x24 and the ell 12x17. It has a square bay window on the east side and a verandah in front and is altogether a very tidy and tasteful residence.

Mr. Frank Fleiger has nearly completed a residence for himself on Pleasant Street. It is 32x23 and one and a half storeys high. The finishings, windows, doors etc were furnished from the McDonald factory.

Mr. Patrick Foley has also erected a neat dwelling for himself on Pleasant Street, the doors, sashes and general finishings for which were made at the McDonald factory. It is 22x30 ft.

Mr. Craft has a new dwelling in the Greenville suburb, 28x21 ft. and 14 ft. post.

Mr. John Fleiger has put up a new barn in Greenville, which is 20x14 ft. with 12 ft. post.

Mr. Andrew Brown has been making a great improvement in his residence on the Wellington road, the work being by Mr. John McDonald. It includes an ell 33x34 ft. added to the main house, having a galvanized iron roof, which was put on by Mr. A. C. McLean. The floors are of hardwood and the wainscoting, doors etc. of British Columbia cedar. The main house has also been very much improved and this residence is now one of the best appointed and most commodious on the Miramichi.

Mr. John Bell, Jr, of Duke St. is putting a bay window on and otherwise improving his dwelling, including the finishing of the verandah.

Mr. Jas Mowatt has been engaged for some time in improving the well known premises of the philosopher and sage, Mr. Sam Johnson, Water St., adjoining the new Dominion public building. New sashes have been put in, the front clapboarded and now the interior is to be wainscoted and otherwise renovated.

Mr. James Mowatt is also making an extensive enlargement of the premises of Mr. F. O. Petterson, merchant tailor, Water Street. This includes the erection at the rear, of a new two storey addition 15x30 ft. the lower storey of which is neatly sheathed in wood and all in one room for Mr. Petterson's work people. The upper floor is to be finished in two rooms which, being in communication with the dwelling division of the house, will probably be used as bedrooms.

There are many other new, or improved buildings, already occupied in Chatham, such as the Gould residence on Wellington Street which was built this year and already noticed in the ADVANCE, the new two story bay windowed residence of Mr. L. H. Abbott, on Queen St., 24x32 ft with an ell 15x20, which was built by Mr. Wm. Scott and occupied last year by its owner.

Mr. Jas. A Nowlan has also a new residence, which he moved into last year, as has also Mr. John Cantville who moved into his last fall.

We hear of several citizens who are contemplating building operations to be entered upon next year, so that there is a prospect that increase in the residential property of the town will continue and perhaps make as good a showing in 1896 as it has during the past two years. With the erection of the new pulp mills at Mill Cove, opposite the lower part of Chatham, being pushed forward so energetically by Mr. Allison, there is a prospect of a large and almost immediate increase in industrial employment, which will, of course, lead to building operations on the other side of the river, so that the outlook of Chatham, in this respect, is a very encouraging one.

A Question.

How can we raise more corn to the acher? Why, of course by using Putnam's Corn Extractor. Putnam's Painless Corn Extractor has given universal satisfaction, for it is sure, safe, and painless. Like every article of real merit it has a host of imitators, and we would specially warn the public to guard against those dangerous substitutes offered for the genuine Putnam's Extractor. N. C. Polson & Co., proprietors, Kingston.

Camp Fortune.

Newcastle Field Battery of Artillery, Lt. Col. Call commanding, went under canvass at Camp Fortune for annual drill on 4th inst. and were marched out yesterday forenoon. The ground on which their encampment was located is the most convenient they have yet occupied as a local camp. It is the old Fortune field near to the I. C. R. track running to the deep water terminus, Newcastle, overlooks the marsh and the river, and is particularly convenient for firing practice, the guns being stationed not a hundred yards from the tents, for that purpose.

The total strength of the battery as shown by the marching in state was sixty-seven officers, non-commissioned officers and men as follows:—

Lt. Col. Call, commanding,
Captain, R L Maltby,
Surgeon, F L Potolin,
Vet. Surgeon, John Morrissy,
2nd Lieutenants, Chas Sargtant, and M P Smith,
Sergt Major, Arthur Russell,
Qr. Master Sergt, Wm Copp,
Farrier Sergt John W Russell,
Orderly Clerk, Sam'l L Bishop,
Trumpeter, Edwd Williamson,
Collar Maker Sergt, Silas Blakney,
Sergts., Thos W Lawlor, Fred Jones, Wm Black, Mont Jones.
Corporals, John Russell, Harry Graham, Chas Deost, Bert Gilford,
Bombardiers:—Geo Campbell, Jas McDonald, Edwd Gillis, Howard Norton.
Gunners:—Wm Fower, Frank Hogan, Edwd McKay, Wm Hoyt, Cliff Parker, Hiram Mandeville, Alex Fitzgerald, Edwd McLean, Geo Russel, Perl Atkinson, W Drysdale, Basil Thibedeau, John Lunsden, John Silva, Wm Condron, Danl McKay, Augustus Baker, Joseph Bernard, Edwd Singleton, H Shesgreen, John Kingston, Wm McCullum, Tilley Harrison, Howard Cronkhite, Jas Ingraham, Wm McMillan, P S Kingston, Chas Anslow, Erastus Baker, Albert McCormack, Geo Trompson, Wm Cooper, Jas Herbert, Pats Donahoe, Wm Crow.
Drivers:—No 1, Richard O'Brien, Wm O'Brien.
" No 2, Timothy Murphy, Wm O'Gorman.
" No 3, Mich't McCarthy, Thos Cenghlan.
" No 4, Wm Hambrook, Thos Mullan.

The Battery is composed of about as fine a lot of men as can be had anywhere in the country, and although twenty-four of them were new men, their soldierly bearing was most creditable, considering the fact that the time allowed for annual drill this year was only eight days, which really means but little more than four under instruction.

In this connection it is just to mention, in addition to the names already given, that of Staff Sergt. Long, of Kingston Battery, who has acted as drill instructor to this camp, as he did to those of the same battery in 1890 and 1892, so that he is well known to the corps, and much esteemed by both officers and men for the thorough and yet affable manner in which he discharges his duties.

On Tuesday Capt. Hudon, inspecting officer, arrived in camp and in the forenoon, inspected the battery in marching past, field movements, sword drill, gun drill, kit examination and officers' questions. In the afternoon he examined the non-commissioned officers in their questions and inspected the range firing practice, which latter embraced forty rounds of common shell and sharpnel, the ranges being found on the guns being brought into action without previous knowledge of the distance. The targets were placed near the middle of the Northwest river, between the Newcastle shore and Beaubair's Island, and the distance ascertained by firing was from 1575 to 1750 yards. Some excellent marksmanship was shown in the practice.

Before the Battery was dismissed, after range firing practice, the inspection being ended, Colonel Call briefly addressed the officers and men, expressing his satisfaction with the creditable manner in which they had discharged their duties and generally conducted themselves in camp.

Major Armstrong, paymaster, arrived in camp on Tuesday afternoon. He had a general muster of all the men, horses, etc. and did his work with his usual thoroughness and expedition. The officers' mess was one of the best we have yet seen. It was in the comfortable residence of Mr. W. C. Anslow, near the camp ground, and the mess room and its appointments, as well as the menu, rendered this important adjunct of camp life a decided attraction.

Batteries situated as that of Newcastle is, seem to be at a great disadvantage in having to compete, in efficiency, with others in the Dominion which are afforded much greater facilities by the government for perfecting themselves in their work. Urban batteries, for instance, have commodious and well appointed drill sheds, where they have opportunity to learn standing gun drill, and many other things which familiarize them with their duties. The Newcastle and other rural batteries have no such advantages as these, and the wonder is that they display as much knowledge of tactics and drill as they do. The period of eight days' drill, even, leaves them only about four days for effective instruction, for they devote one day to marching in, one to inspection, one is Sunday and the eighth is marching out day. The wonder is that with more than a third of the Battery composed of new men, such a fine state of efficiency as was displayed on Tuesday was shown.

The camp was the centre of quite a popular interest, if one may judge of it in this respect by the visitors present on Tuesday. Col Call found time, although his duties as field officer on that day, were quite exacting, to welcome his many friends, and his courteous example was followed, as opportunity permitted by all ranks, and it is needless to say that the uniform of the service seemed to have lost none of its potency as a factor in attracting the fair friends of the gallant wearers. The neatly kept tents, the well groomed horses—all fine large ones, with Clydes predominating—the portable stalls, the cooking trenches, the temporary bridges etc., gave the non-military visitors an idea of soldier life that was an interesting and instructive object lesson, and one calculated to make them feel that they have reason to be proud of the loyalty, zeal and efficiency of the veteran Colonel Call, his officers and men, who compose one of the best rural batteries of the Dominion.

How much is in a name?

There may be a good name on the label, and a very bad wine in the bottle. Have you not found it so? And you paid sweetly for the label, too. Are you aware of the fact that splendid wines, sound, wholesome, old, can be obtained for $3, and $4. per dozen quarts? Clarets, Medocs, Burgundies, Sauternes? Or say, half the price formerly asked. The public will no longer pay these long prices. Good wines are now within the reach of the people. Formerly, the classes drank wines. Now, the masses will drink the light wines of France, eschewing the more ardent and acid liquors which are hurtful. Looks like a miracle, but it is realy very simple,—direct and large importations Address:—Bordeaux Claret Co., 30 hospital Street. Montreal.

MARRIED.

At the Manse, Blackville Sept. 4th, by Rev. T G. Johnstone, Mr. John Thomas Sturgeon, to Miss Lottie, daughter of Mr. Joseph Curtis, all of Blackville.

DIED

At Tabusintac on September 4 after an illness which she bore with christian patience, Charlotte Murray, beloved wife of Simon F. Murray, in the 58 year of her age, leaving a husband and eight sons and a large circle of friends, and relations to mourn their loss.

"Blessed are the dead who die in the Lord."

At Newcastle on Tuesday evening, Jannette Urquhart, wife of Mr. Chas. Crammond.

Funeral to-day, Thursday, at 3 p. m. from her late residence, Newcastle.

A Remarkable Cure.—J. W. Jennison, Gilford—Spent between $200 and $300 in consulting Doctors; tried Dixon's and all other treatments but got no benefit. One box of Chase's Catarrh Cure did me more good than all other remedies, in fact I considered myself cured, and with a 25 cent box at that.

B. SWEEZEY

Lower Napan, Sept 10, 1895.

ANOTHER DISCOVERY.

Of Interest to Bicycle Riders.

A well known bicycle rider has made a discovery that will be good news too all who locomote on the wheel. He says:

Since I first began to ride a wheel, which is several years ago, I have been subject to more or less chafing and irritation. Sometimes when heated the itching inside my legs would be so severe that I would feel compelled to forego riding for a time. Nothing that I tried did any material good until my attention was drawn to an advertisement of Dr. Chase's Ointment for all itching of the skin. I tried it and almost from the moment it touched the skin the itching stopped. I also find its occasional use prevents chafing. Further evidence of the efficacy of this preparation is given by Chas. Roe, foreman Central Press Agency, Toronto, who was troubled with Itching Skin of the most aggravated kind. When the skin became heated during sleep from too much clothing, would wake up with absolute pain from digging into the flesh with his nails. Chase's Ointment gave relief from the first application and permantly cured. Price 60c.

NOTICE OF SALE.

To Philip Leonard of Chatham, in the County of Northumberland, and Province of New Brunswick, stevedore, and Catherine Leonard, his wife, and all others whom it may in anywise concern.

Notice is hereby given that under and by virtue of a power of sale contained in a certain indenture of mortgage, bearing date the TWENTY FIRST DAY OF JUNE in the year of our Lord one thousand eight hundred and seventy eight, and made between the said Philip Leonard and Catherine Leonard, his wife, of the first part and the undersigned, James Hickey of Chatham in the County of Northumberland aforesaid, Merchant, of the second part and registered in the Northumberland County Records, in Liber 8 Folio on pages 100, 101, and 102 and numbered 93 in said volume; there will for the purpose of satisfying the moneys secured by the said indenture, default having been made in the payment thereof contrary to the provisions of the said indenture, be sold at public auction in front of the post office in the Town of Chatham on SATURDAY THE TWELFTH DAY OF NOVEMBER, NEXT at the hour of twelve o'clock noon, the lands and premises mentioned and described in said indenture of mortgage as follows:

All that piece or parcel of land situate lying and being in the Parish of Chatham aforesaid and known as part of the lands formerly owned by Charles T Carter and bounded as follows; namely, in front or South by the North side of Church Street and on the East by lands belonging to the estate of the late Reverend John McCurdy deceased, and on the West-side by lands in the occupation of Stephen Jackson and on the rear or North by lands belonging to Richard Hocken—the said above conveyed and described piece being one hundred and fourteen feet from front to rear on the East side and one hundred and eight feet on the West side and is forty feet in width and was sold and conveyed to the said Philip Leonard by Richard Hocken by indenture bearing date the eighteenth day of June A. D., 1873 as by reference will more fully appear."
