Chicago wheat futures eased off ⅛c per bushel this morning on large Northwest and primary receipts, but later was a little early to near last night's close. Trading was narrow.

The market constable, Mr. Wright, was very considerate and attentive to the many patrons, but the Market Committee should furnish more tables and space. The whole of the west side of the market would not have been too much for the number of people that were crowded together in about one-third of that space.

Chicago Gossip.

Henry A. King & Co., 12 King-street east, received the following despatch to-day from Chicago:

Wheat—The market opened fractionally lower to-day. Foreign news was more peaceful, and European markets were indifferent. Liverpool ½d lower. The market has not been broad at any time to-day. Cash wheat in Minneapolis was in good demand by millers, ⅝c higher, and helped to steady prices somewhat. The trade has been largely local to-day. The Northwestern Miller says the output of flour last week was the largest on record. St. Louis sold moderately, and commission houses bought. Broomhall cable says: It is now acknowledged that the Danubian wheat crop is 20 per cent. below average. Exports of wheat and flour for the week aggregated 5,560,661 bushels against 4,382,733 bushels last week and 5,911,000 bushels last year. Northwestern receipts were considerably larger to-day—1411 cars, against 1187 cars last year—and local receipts were also larger at 243 cars. Total clearances, 813,000 bushels. Primary receipts, 1,533,500, against 1,079,000 bushels. Paris closed steady to 5 centimes higher on wheat, and flour 45c higher to 5c lower. Antwerp wheat, 25 centimes lower. We believe it will not hurt to buy wheat on any breaks, if one is willing to take a moderate profit. There appears to be no danger of any extreme low prices on anything for a good while yet. Toward the end of the session, on the report that upwards of 2,000,000 bushels of short wheat was covered, the market quickly rallied ½c and closed steady at last night's final price.

Corn—Easier early, with realizing by some of the local bull interests. Liverpool was ½d lower. Clearances, 527,947 bushels. Weekly exports, 2,432,736 bushels, against 2,597,412 bushels last week and 1,589,000 bushels last year. Cash demand good. Commission people were fair buyers on the decline, and the price moved up to last night's closing figures. Advices on corn are very bullish. The best element here are large holders of this cereal, and we believe in much higher prices. The market closed steady to firm.

Provisions—The market for hog products opened steady, with a fair demand. English houses bought lard. Selling was scattered. Shipments moderate in volume. We cannot advise selling provisions at these prices. Patience on the part of the holder or buyer on declines, we believe, will meet with its reward. Receipts of hogs, 16,000.

Post's Financial Cable.

New York, Oct. 29.—The Evening Post's financial cable from London says: The steadiness in the stock markets here was well maintained to-day. Prices were generally better, notably for Argentines, in which there were even some speculative purchases for a rise. Americans were good on New York support, but were comparatively featureless.

Mines were better on the improved situation in Paris. A feature was the great strength of copper shares, Anacondas being much in favor and said to be bought from New York. The city still regards the Fashoda question somewhat askance, in spite of the apparently improved outlook.

The London market discount rate is 3¾ per cent. on the Bank of England borrowing afresh to control the market.

The Paris and Berlin markets were steady.

Springfield, Ills., Oct. 29.—The injunction cases against Edward Cahill and 25 other miners of Virden, brought by the Chicago Virden Coal Company, enjoining the miners from interfering with the operation of the mine, were to-day dismissed in the Circuit Court by the complainant. It is believed this is preliminary to an effort to again arbitrate the differences between the company and employes.

STOCK MARKETS OF A WEEK

Securities Under Influence of Nile Affair.

United States Congressional Campaign Also an Important Factor—Tendency of Stocks Has Been Upward Since Monday on the Improved Outlook, and Should These Two Disquieting Features Be Removed Market Should Rise.

Saturday Evening, Oct. 29.

This week's stock markets have been almost entirely dominated by the Fashoda difficulty. When on Monday the war cloud lowered black upon the horizon, a semi-panicky feeling was in evidence upon European stock exchanges. Paris rentes declined sharply and consols fell off a point at London. British holders sold American rails and Wall-street responded with a decline of a point or more in leading issues. The railway list was particularly depressed under the additional weight of the United States Superior Court's decision against the Joint Traffic Association. Next day, Tuesday, the outlook in the Nile affair seemed less acute, whereupon securities began to recover, and ever since the financial world has exhibited a more confident and at times an almost bullish tone.

An encouraging feature at present is New York's failure to reflect the stringency in the foreign money markets, and another is the bullish feeling as regards Grangers, which is based on the extraordinary crop of this season. Should the Republicans win the Congressional contest, which culminates on Nov. 4, as seems probable, and should the Anglo-French dispute be amicably settled, of which there is evidently every likelihood, securities should attain a higher level of values. A Democratic victory across the line the coming week might break the market.

American rails to-day closed ⅛ higher to ⅜ lower than yesterday.

Consols closed ⅛ higher in London.

In Paris 3 per cent. rentes rose to 102f 12½c.

French exchange on London, 25f 35½c.

Bullion withdrawn from Bank of England on balance to-day, £96,000.

The net gold balance in the United States Treasury at Washington this morning was $240,744,514, decrease $640,222.

At New York bonds closed: U. S. 3's, 100¼; U. S. 4's, reg., 120½; do., coup., 127½; U. S. 4's, 110⅛; do., coup., 111¾; do., seconds, 99; U. S. 5's, reg., 111¾; do., coup., 113.

N. P. earnings for the third week in October showed an increase of $35,542, or 8.7 per cent. over the same week of 1897. Total increase for fiscal year $905,423, or 11.3 per cent.

C. C. C. increase in earnings from July 1, $258,068.

Canadian Pacific earnings for September show net profits of $1,104,515, an increase of $32,023 as compared with September of last year. For nine months net earnings increased $214,056.

B. R. T. earnings yesterday increased $1800. Increase for October so far, $62,740.

Henry Clews' Review.

In the course of his weekly financial letter, Henry Clews & Co. of New York to-day remark: "There is one method of meeting the United States Supreme Court decision by the railroad managers. They can form social clubs at the various great railroad centres and there have casual meetings and arrange a mutual understanding, as gentlemen do in matters connected with social life, and thereby be bound by word of mouth, which gentlemen recognize the same as though in legal document form. There is no doubt that the railroad managers are much perplexed by the harsh decision of the Supreme Court, but they claim that the roads are now so busy that the effect upon their position will not hurt them now, but it certainly will do so when business slackens off unless some method is adopted to hold them together through a bond of honor or otherwise, as without it the roads will strike out as in times gone by for each other's customers. This is sure to occur with enterprising competitive roads in dull times, but there is no danger of this now while all the roads have as much business as they can handle. It is very evident that the various cliques have put their shoulders under their specialties to hold them up, and bridge over the adverse effect of the United States Supreme Court decision, as they are warranted in doing by the phenomenally large business that the roads are all now doing, together with the immensity of the amount of stuff in sight that will have to be moved sooner or later."

New York Bank Statement.

The New York weekly bank statement shows that surplus reserve increased $2,670,225; loans increased $10,223,900; specie increased $5,245,700, legal tenders increased $1,328,800, deposits increased $15,781,100, circulation increased $22,900. The banks now hold $26,091,500 in excess of legal requirements.

Money Market.

On the local market call loans are at 4½ to 5 per cent. In New York call loans to-day were at 1¾ to 2 per cent., closing loan being at 2 per cent. The Bank of England discount rate is 4 per cent., and the open market rate 3⅞ to 4 per cent.
