ESSEX.

The C. M. B. A., of Windsor, elected the following officers Thursday night: President, Joseph De Guise; first vice-president, Wm. Collier; second vice-president, D. C. Aikens; recording secretary, B. W. Kooyis; assistant, Charles Lucier; financial secretary, S. Gignac; treasurer, J. H. Conroy.

The creditors of Doherty & Eede, manufacturers of doors, sash, etc., at Leamington, had a meeting recently, when an offer of 10 per cent. was made by the firm. This is thought by some to look strange after their claiming a surplus of some thousands a little more than a year ago.

A branch of the Woman's Auxiliary Missionary Society has been established at Walkerville. It stared off with 21 members.

According to Assessor Black, the religious complexion of Windsor is Roman Catholic, 3,110; Episcopalians, 1,640; Presbyterians, 1,500; Methodist, 2,580; Baptists, 599; Lutherans, 142; Salvation Army, 97; Hebrew, 59; Prince Michael disciples, 3; and 1,001 have no special sect.

During the past year buildings to the amount of $210,300 have been erected in Windsor, and $198,750 in Walkerville.

Cameron & Curry have sold to Edward Smith 800 acres of brush land in Rochester township for $28,000. The Michigan Central will build a spur to the property. The same firm sold to Donald Coutts, 125 acres of land in Maidstone, for $4,500. There is a big demand for Essex timber lands.

The auditors, G. R. Prowse and W. Nightingale, who are going through the county books for ex-Treasurer Wright, Windsor, have arrived at a different conclusion from that Mr. Prowse reached some weeks ago. Mr. Prowse then thought that the county owed Wright, but by the last statement they think Wright's indebtedness will amount to about $5,000.

HURON.

J. H. Dalmage, after being out of the Brunswick House at Wingham for a few years, has again taken possession.

Exeter wants a cheese market established there.

KENT.

A black fox with a brown-tipped tail has been seen near Morpeth.

Master Paul Judson, son of Mr. Judson, the well-known artist and a namesake of the late Paul Peel, is a guest at the home of Dr. Stevenson, Morpeth.

It is said a number of oil men of Petrolea are soon to locate at Bothwell, for the purpose of engaging in the oil business there.

Principal Simmons, conductor of the Chatham night school, says the evening classes have proved a great success, over 50 young people having taken advantage of the opportunities afforded to improve their education.

The largest shipment of staves ever made from Wallaceburg in one lot went out recently on board the Myles for Duluth. Stemhoff & Gordon on this occasion broke the record and sent 32,000 bundles of staves, or over $12,000 worth. Some say that this is the finest shipment ever made at one time on the continent. The insurance on the cargo amounted to about $200.

LAMBTON.

Near Forest the other day 2,626 sparrows were destroyed by farmers.

A wood-sawing contest took place at Petrolea Friday night in Cooley's skating rink between T. Wallace, of Sarnia, and H. Smith, of Petrolea, for $50 a side. The amount of wood was one cord of four-foot wood, sawed once in half. The match was won by Smith. Time, 52 minutes, 5 seconds. Quite a number of Sarnia sports were on hand.

MIDDLESEX.

Farmers residing on the 4th and 5th concessions of Biddulph killed 4,062 sparrows recently.

G. M. Donaldson, of Metcalfe, fell from his sleigh at Strathroy a day or two ago, when his right foot was run over, terribly crushing it.

Wm. C. Getty, an old settler of Caradoc, has passed away.

Lucan is talking of electric lights for the town streets.

Ernest Porte, son of the Lucan postmaster, was kicked in the face by a young horse the other day and rendered insensible in consequence. He is around again.

Mr. and Mrs. John Shoff, Birr, celebrated the 25th anniversary of their marriage a few days ago by entertaining a numerous gathering of their friend. There was a number of valuable presents.

John Lindham, of Birr, had a narrow escape from poisoning the other evening, he having taken a dose of vitriol in mistake for medicine, which had been left for him. He is recovering.

OXFORD.

A. Creasy, who has taught school at Verschoyle the last four years, will leave at Christmas and take up a course of study for the ministry. W. N. Cuthbertson will be his successor.

Thos. Mighton has sold his farm of 50 acres, on the Governor's road, west of Woodstock, to C. L. Burch, of Burford, for $4,325.

Mira Mathews, the girl whom Henry Hyatt traded for a house, and John Kalar, were arrested the other day at Tilsonburg, and P. M. Hare sentenced the girl to two years less one day in the Mercer Reformatory, and the boy to a three months' sojourn at Woodstock.

W. A. Elliott, Brownsville, was at Seaforth lately, showing the farmers of that section the proper way to relieve cattle of their horns. He dishorned 40 head for McMillan & Son, and 20 for Mr. Robb, a prominent dairymen of Huron. They were well pleased with Mr. Elliott's system, and borrowed his apparatus for the purpose of doing a lot of work in the neighborhood.

The Ingersoll Board of Education have decided to employ a fifth teacher for the Collegiate Institute, duties to commence 1st January. This step is rendered necessary owing to increased attendance. It will also be necessary in the near future to provide increased accommodation.

Rev. Mr. Daunt, retired Church of England clergyman, formerly of Thamesford, will reside at Ridgetown in future with his daughter, Mrs. W. E. Scott.

An Ayr correspondent writes: "Could not some move be made by which better mail connections for the village could be secured? At present no one not holding a box at the postoffice can get their mail matter from the west until the next morning. Why should there not be an inclosed bag from London on the morning train, and also one from Toronto on the 5:30 p.m. train from Toronto? If there was a little agitation there would be no trouble in securing them."

Edward Lane, Galt, has grown in his garden this year seven white beans which have produced the enormous increase of 5,607, one stalk having 285 pods on it. They are smaller than the ordinary white bean.

WELLINGTON.

Guelph's increase in population over last year is only 20, while the increase in ratable property is $33,000. Owing to the new laws regarding income assessment there is a decrease of $28,000 in taxable income, so that the comparative increase of assessment over last year is $60,000.

John Scott, Glen Williams, was accidently shot in the left leg near the thigh while he and three others were hare hunting on the 1st line of Erin. When climbing over a log Scott's gun fell from his hand and one barrel was discharged, the shot flying over his head. The gun rebounded and was discharged the second time, inflicting the wound. He will likely recover.

The little son of Emerson Warner, Guelph, fell on the rails under a passing train the other day. The boy was rescued by P. C. Fitzsimmons. It was a close shave, and the promptness of the officer alone saved the lad from a terrible death.

To Shut Out Immigration.

WASHINGTON, D. C., Dec. 3.—Surgeon-General Wyman, of the Marine Hospital service, in his annual report to the Secretary of the Treasury, will recommend, it is said, as a measure of safety to the country during the progress of the World's Exposition, that immigrantion will be suspended for at least one year from Jan. 1 next. This is based on the prediction of sanitary experts that cholera is almost certain to reappear.

Destitution in Nova Scotia.

HALIFAX, N. S., Dec. 4.—The almost entire failure of the fisheries along the western coast of Nova Scotia has, even thus early in the winter occasioned a great deal of destitution. When the fish struck in there was no bait, and when the bait arrived the fish had gone. As the inhabitants are dependent upon the fisheries, their condition is most distressing. Unless aid is furnished by the Government great suffering may ensue.

The Windsor Salt Find.

WINDSOR, Dec. 4.—The Canadian Pacific Railway salt operators got through the second vein of salt at 77 feet and have suspended operations for the present. John Ransford, of Clinton, Ont., a salt expert, in speaking of the developments at the Canadian Pacific Railway, said yesterday that "this fabulous vein of 70 feet" was nothing, as there were scores of places in Ontario where the drills have passed through 150 feet of salt. "It likewise causes," continued Mr. Ransford, "a somewhat withering smile to pass over the countenance of the salt manufacturer who has been through a somewhat checkered and bitter experience to read of the value of this wonderful discovery. It is well known that literally hundreds of thousands of dollars have been invested and lost in salt in this Province. There are numerous salt wells and establishments filled with the most improved machinery that are for sale to-day and could be purchased for one-third their original cost. There is to-day in existence manufacturing capacity for over three times the consumption. No; the Canadian Pacific Railroad is not after salt, they have something else in view."

IN THE HONEYMOON.

[Boston Beacon.]

He always carries two new grips and two umbrellas.

He always offers her his arm.

He always cleans shaven and wears, beside immaculate linen, a careworn, worried expression.

He always pulls out his watch, presumably to see how much of the honeymoon is left.

When he registers at the hotel the "and wife" is written twice as large as his own name.

She never falls to ask how many lumps sugar he takes in his coffee.

A Sweet Singer Speaks.

One of Montreal's sweet singers informed a druggist the other day that Harvard Bronchial Syrup was of great value to her as an unfailing remedy for sore throat and huskiness of the voice. She was of the opinion that it possessed wonderful properties for giving strength and elasticity to the vocal organs and she knew of no other preparation that was giving such general satisfaction to singers.

Many of the cough remedies of the day are nauseating and seriously affect the stomach and digestive organs. All who have used Harvard Bronchial Syrup speak with pleasure about its pleasant taste. The children love it and take it readily; it is even more palatable than the honey. No other cough preparation is so strongly recommended by our Canadian doctors.

Mr. S. F. Odell, of Waterloo, Que., says: "I cannot speak too highly of Harvard Bronchial Syrup. It is certainly the best thing I ever found for sore throat and hoarseness. It works like a charm."

Came to Canada TO BE CURED

418 Pall Mall Street, London, Sept. 15, 1892.

To the Histogenetic Medicine Association:

GENTLEMEN,—Permit me the pleasure of humbly adding one more leaf to the wreath you so richly deserve, and as an evidence of my heartfelt gratitude, I beg to state my condition before and after receiving your treatment. You have my permission to make this testimonial public, if so disposed. Trusting that a discerning public, who are afflicted as I was will have the scales removed from their doubting eyes, and avail themselves of the benefit your treatment will assuredly bring to them.

Am a farmer aged 25 years, and a resident of Sand Beach, Michigan, U. S.; was taken ill about the 11th of November, 1891, with a cold from exposure, and about two weeks thereafter visited Dr. ——, a well-known medical practitioner of Sand Beach, who treated me for about three months, calling my disease Pneumonia, stating that both my lungs were diseased badly. I had chills for a long time, with bloody expectoration, sluggish liver and bad digestion, bowels costive and a bad cough, also sleeplessness. Receiving no benefit from the doctor's treatment, I then visited Dr. ——, of the same place, who examined and prescribed for me, and stated I had bronchitis, with consolidation of both lungs. The treatment benefited me only for a while. I then went to Detroit and visited a doctor, a lung specialist, who prescribed for me, and said my case was hopeless and advised me to go west to a warmer climate. I steadily lost flesh, dropping from 168 pounds to 136 pounds, and I became despondent, but thanks to the Great Architect of the Universe I heard of famed success of your plan of treatment, and decided to visit your London branch, arriving here on the 18th of last month; was carefully examined by the Association's physician, who gave me so much encouragement that, having patiently and carefully followed his directions, am now almost well; eat heartily, no cough, and gained rapidly in flesh—exactly four pounds in three weeks—and the happy result costing me only $12 for the Histogenetic Medicine used. Consultations free. Myself and family are placed under obligations to the Histogenetic Medicine Association never to be forgotten. Yours truly,

ISAAC LESTER, JUN.

Medical examination and consultation at the office free. All diseases treated and cured at a later stage than by any other system. Send for free book. Outside patients treated at their homes by means of a question sheet.
