AMERICAN MARKETS

CHICAGO.

Chicago, Sept. 18.—Grain traders were waiting for a sign today. Business was less active than it has been for many days. Supporting orders were not in evidence enough to hold up prices, and with a bearish report on the corn crop, issued by a leading statistical journal, several professions took advantage of the dullness to put a selling pressure on all markets. The weather conditions were an early aid to prices, particularly to corn, but the depression soon followed the selling. At the close December corn was ⅞c to ⅞c lower, December wheat ¼c to ⅝c down, September oats ¾c lower, and December oats ½c off. Provisions closed 2½c to 22½c down. Local receipts of wheat were 244 cars, 10 of contract grade; Minneapolis and Duluth reported 651 cars, making a total for the three points of 895 cars, against 770 a week ago. Primary receipts were 1,211,000 bu. Estimated receipts for tomorrow: Wheat, 225 cars; corn, 330 cars; oats, 150 cars; hogs, 11,000 head.

BAD WEATHER DID NOT MAR ATTENDANCE AT THE FAIR

International Day Was a Big Success.

THOUSANDS VIEWED EXHIBITS

Complete Programme of Special Attractions Tonight—Stands Will Be Free.

The beautiful September weather which has marked the progress of the Western Fair, was broken yesterday afternoon by lowering clouds and showers of rain. It required some more formidable obstacle than threatening skies, however, to deter people from visiting the fair, and the attendance was entirely satisfactory. It was International Day, and thousands of out-of-town visitors inspected the fair.

The special attractions in the afternoon and again in the evening attracted great crowds and were thoroughly enjoyed.

There no longer exists any doubt in the minds of the board as to the success of this year's fair. The attendance figures compare very well with those of the best years on record.

Today is Everybody's Day, and despite the unfavorable weather, the attendance is again large. Tonight the complete programme of special attractions will be presented in front of the grand stand, admission to which will be free to everybody.

Despite the rain keen interest was manifested in the races yesterday afternoon. The results were as follows:

EXCELLENT EXHIBITS.

Carling's Elaborate Exhibit.

Carling's ales, porter and lager are shown at the great exhibition in style befitting this well-known and long-established firm. Their display is one of the distinctive features of the main building. Carling's is a firm which regards no expense when it is a question of presenting their famous goods to the public, and their admirable display in the main building is one which reflects the utmost credit upon them, and besides, is drawing the attention of thousands of visitors, to brews which have gained a widespread popularity. The trade of the Carling Company is daily increasing, until at the present time the full producing capacity of their immense brewery is taxed to its limit in the attempt to keep up with their orders. Their products are not simply holding their own in the intense competition of the present day, but are forging ahead at a rate which must be gratifying to the enterprising members of the Carling Company. One fact in connection with this which is particularly gratifying to them, is that the great care which is exercised in their brews has resulted in them gaining enviable reputations as household beverages, their porter especially having gained a high place in the esteem of physicians, who now invariably recommend it instead of the imported article.

It is but natural that this should be the case, since the Carling Brewing and Malting Company have a plant that is elaborately equipped, they use nothing but the finest hops and malts, and their workmen are all experts. It was to be expected, therefore, that their fine beverages should attain to the popularity in which they are at present held by the public.

A SWISS LADY'S TROUBLES

Her Terrible Treatment by the Police of Warsaw.

Unable to Speak Russian She Spends Three Weeks in Prison.

Geneva, Sept. 19.—A great deal of indignation has been aroused in this country on account of the shameful treatment of a young Swiss lady by the police authorities at Warsaw. A Mlle. B——, whose parents reside at Basel, was engaged as a governess by a Polish nobleman living near Warsaw. The Swiss lady recently set out on her long journey, but being unacquainted with the Russian or Polish languages, she could not make herself understood when she crossed the German frontier, and in consequence suffered a great deal from hunger and thirst.

On her arrival at Warsaw station, she asked for something to drink, and unconsciously took a strong intoxicant, which had the effect in her weakened condition, of completely upsetting her, and she fainted. The police, not being able to make her understand, took it for granted that the governess was mad, and conducted her to the local prison pending inquiries.

Discovering by her papers that their charge was Swiss, they informed the Swiss consul of the circumstances, and he at once visited Mlle. B—— in prison. The consul informed the police authorities that the Swiss lady was not mad, and asked for her immediate release. This request was refused until the governess had been medically examined.

The hapless victim was shut up for over three weeks amongst criminals, and treated as one of them, living on bread and water, her request for a change of linen refused and her actions watched.

LABOR MEN IN COUNCIL

The Secretary's Report Makes a Good Showing.

Six of the Numerous Resolutions Presented Were Dealt With.

Berlin, Ont., Sept. 18.—The secretary's report for the year ending Sept. 17, 1902, was read at this morning's session of the Trades and Labor Congress, and showed a most gratifying increase. The receipts in capitation taxes were $1,362 02, a gain of $616 08, or 85 per cent. The total income was $2,324 84.

The committee on resolutions presented its report. Up to 12 o'clock only six of the resolutions had been dealt with, as follows:

1. The congress indorsed the idea of securing legislation to secure a reasonable limitation on the issuance of injunctions.

2. Steps will be taken endeavoring to empower municipalities to compel street railway companies to provide passages in each open car to insure the safety of employes.

3. An effort will be made to have all federal labor unions in Canada under control of this council instead of the American Federation of Labor.

4. To endeavor to secure more sanitary plumbing conditions.

5. The Mulock compulsory arbitration bill was condemned as robbing the railway employes of their constitutional rights and tending to dstroy their organizations. Labor men are urged to work for the defeat of the measure.

6. Legislation will be asked for to have all engines on railways equipped with air brakes and cars with automatic couplers, and ladders, to insure safety of workmen.

The Western Fair will close their special attractions and fireworks tonight, and everybody attending the grounds will be allowed on the grand stand free. The full list of attractions will be put on.

TRAGEDY NEAR BRANDON

Farmer Shoots a Merchant and Lady Companion.

Then Takes Poison—Shooter Dead—Woman Fatally Hurt.

Winnipeg, Man., Sept. 19.—One of the most tragic shooting cases in the history of Brandon occurred Tuesday evening, and as a result Alonzo Rowe, known as "Old Man Rowe," is dead, and Miss Ermie Therrien is mortally wounded, and her affianced husband, Thomas Law, of Alexander & Law Bros., millers, of Brandon, is also wounded.

In the afternoon Mr. Law and Miss Therrien left Brandon in a buggy for the Beresford district for a day's chicken shooting. Having reached their destination Law and Miss Therrien drove on the farm of Rowe, and were about to commence shooting.

Rowe who is 70 years of age, was in the field at the time, and as soon as he saw the party he started his horses for the house, where he procured a gun, and returning, fired at the couple. Mr. Law had dismounted and was walking beside the buggy and received several pellets of shot in the knee, but Miss Therrien received almost the entire charge in her hip and abdomen. She fell from the rig to the ground, where her companion also lay unable to rise.

Meantime Rowe returned to the house, where he took poison, dying almost instantly.

For some time Rowe has been annoyed by sportsmen, who have persisted in trespassing on his farm. It is supposed that, blinded with anger at the approach of Law and his companion over his farm, he seized his gun, and without considering the consequences, fired point-blank. Then realizing what he had done, he committed suicide.

THE SCHISM AT BERLIN

Results in Formation of a New Trades Congress,

To Be Called National Trades and Labor Congress of Canada

Berlin, Sept. 18.—The dissatisfaction which has been caused by the action of the Dominion Trades Congress in excluding from its membership the Knights of Labor assemblies, and also refusing to recognize Canadian national trade organizations where international bodies of the same trade have local organizations, found expression this evening in the formation of a new and distinctly Canadian trades congress.

A meeting of the dissidents was held at which resolutions were passed and speeches made deprecating the tendency towards internationalism at the expense of nationalism in the Dominion Congres, and affirming the principle that in legislative matters Canadian organizations should be supreme and independent of influence or dictation from governing bodies in the United States.

A constitution based upon that of the Dominion Trades Congress as it stood before amendments at this session was adopted.

The new organization will be known as the National Trades and Labor Congress of Canada. The following officers were elected: O. Brunet, Quebec, City Shoe Workers, president; Isaac H. Sanderson, Longshoremen, Toronto; vice-president; T. J. Griffiths, Brass Finishers' International Union, Montreal, secretary-treasurer; F. X. Boileau, Quebec, vice-president for Quebec. Committee—J. H. Dodd, T. Beaupre, Montreal; J. A. Langlois, Quebec. O. Labelle, Trenton, vice-president for Ontario. Executive Committee—T. Garrett, Charles Couvrette, and Joseph Jolien, Hawkesbury.

The new congress does not in its constitution recognize international organizations, and will have its own national union label, and issue charters and supplies to organizations affiliated with it.

Berlin, Sept. 18.—At yesterday's session of the trades congress the order for the election of officers was called at 4 o'clock. Mr. Ralph Smith, M. P., who was renominated for the office of president, declined the honor, and in doing so referred to the fact that for seven successive years he had received the confidence of the congress either as vice-president or president, a record without parallel. He was not a candidate, because the miners, whom he represented, had withdrawn from the congress, entirely owing to false information sent from the east. Since then he had been deluged with offers of credentials from other bodies, but had declined to accept them under the circumstances.

The election resulted as follows: President, John A. Fleet, organizer American Federation of Labor; vice-president, J. B. Mack, Typographical Union, Montreal, secretary-treasurer, P. M. Draper, Typographical Union, Ottawa (re-elected by acclamation). Provincial executive—British Columbia—Vice-president, J. D. McNiven; committee, T. H. Twigg, Victoria; J. H. Watson, George Bartley, Vancouver. Manitoba—Vice-president, A. W. Puttee, M. P.; committee, Robert Towns, A.
