A TOUGH ONE.—The St. Andrews Beacon, having exhausted the credulity of its readers with its big turnip items, strikes off in another line. It says that the other day in the sleepy Charlotte shire town, it noticed a ninety-four-year old resident, of St. Andrews, shingling the roof of his porch.

PARALYZED.—Robert Hay, of Harvey, York county, who has been working at the woolen mill at Woodstock, for some months, was stricken with paralysis Saturday evening. He lies in a very precarious condition at the Victoria hotel, has been unconscious ever since, and his physician, Dr. Rankin, has but slight hope of his recovery.

LICENSE EXAMINATION.—There were 110 candidates for third class teachers' license in the examination, held on Tuesday under the superintendence of Dr. Inch, assisted by C. A. Sampson. Of these, ninety were from the English department, and twenty from the French, and a few in each division came up for re-examination under the revised regulations.

APPOINTMENTS.—The local government at its session yesterday, made the following appointments: J. E. Stewart, of Campbellton, to be sheriff of Restigouche in place of Phillips, deceased; Narcisse Landry to be judge of probates, and J. J. Hannington to be clerk of the county and circuit courts for Gloucester, vice DesBrisay, deceased; and D J McLaughlin to be stipendiary magistrate in Gloucester.

A GOOD INVESTMENT.—The St. Stephen Courier says: "Before Harry Stevenson started out to assist the Y. M. C. A. boys defeat the Calais high school foot ball team some time ago, he paid a quarter to J. T. Whitlock, and received an accident ticket in the Travellers' Accident Insurance Co. He sustained injuries during the game which have confined him to the house ever since, but he has been drawing $15 a week during the time from the Travellers', and accordingly has been reconciled to the situation."

A NARROW ESCAPE.—Miss Annie Burchill, daughter of the water works superintendant had a narrow escape from death Monday afternoon. Her father was at work on the roof of his residence cutting away the ice, when a large cake, weighing nearly 100 lbs., fell just as Miss Burchill stepped from the house to the sidewalk. It struck her on the face, cutting it considerably, and rendering her unconscious for some time, but she is now nearly recovered. Had she received the blow straight on the head, it would have killed her instantly.

A Sunbury Boy.

Hon. Fred. E. Barker, the new supreme court judge, is a native of Sheffield, Sunbury county, and will be thirty-five years old next Wednesday. He is a graduate of the N. B. university, studied law in this city with the late Judge Fisher, practised for a short time at Grand Falls, and for many years has been one of the leaders of the St. John bar. He is a brother of Whitehead Barker, of Sheffield, and of Mrs. Currier, of this city.

Runaway.

An attached officer of the R. R. C. I., hired a horse and sleigh at the Queen hotel livery stables, Thursday night, to give his best girl a drive, and the next Mr. Edwards saw of his horse was after midnight in the Methodist church grounds, plunging in a snow bank. The animal had got away from the driver, made a rush through York street, breaking the glass front in John Limerick's tin shop, struck against Dr. Coulthard's shutters on Carleton street, and landed in the snow. The remains of the sleigh were found in various parts of the city, and are good for kindling wood. The horse was considerably cut about the legs. It will take in the vicinity of $100 to repair the damages.

Changes in the Staff.

At a meeting of the school trustees, Tuesday, Geo. S. Inch was formerly transferred to the principalship of the Charlotte street school, but he immediately declined the position, and on Wednesday, H. H. Hagerman, who graduated from the university last June, was appointed to the position. Miss Thorne has been advanced to Mr. Inch's late position in the High school. Miss Hunter is transferred from Morrison's Mill school, to Miss Thorne's old position, and Miss Bessie Babbitt is to take charge of Morrison's Mill school. It is understood that the government will appoint Miss Clara Bridges to the Model school, in place of Miss Richardson, who has resigned.

Kindergarten.

Miss Sayre's pupils had their examination exercises yesterday, and the parents who were present were much pleased with the wonderful proficiency shown by the little ones. An attractive feature of the exhibition was a beautiful Christmas tree loaded with presents largely made by the childish fingers, and given to the parents. They also sent remembrances to the Victoria hospital and Deaf and Dumb school. F. B. Edgecombe, with his customary generosity, kindly remembered the occasion by presenting a basket of candy to each of the pupils. Miss Sayre has done excellent work, and besides pushing her pupils ahead, has won their complete confidence and esteem. The school will have two weeks holidays, which Miss Sayre will spend with friends in Moncton.

Governor Fraser Sworn In.

Now, then young ladies and gentlemen contemplating matrimony may go ahead. New Brunswick has a governor, and the marriage licenses will be duly adorned with the autograph of John James Fraser. The new governor was sworn in at 3 p. m. yesterday. The condition of his health would not permit him going to the parliament buildings, as was contemplated, so the ceremony took place at his residence on St. John street. John J. McGee, clerk of the Dominion executive council, arrived by the western train from Ottawa at 2.30 p. m. with the governor's commission, and was received at the depot by Hon. James Mitchell, provincial secretary, and Hon. L. J. Tweedie, surveyor general, representing his honor's advisers, and by them was escorted to the governor's residence, where Judge Tuck was waiting as a special commissioner to swear his honor into office. The other gentlemen present included: Hon A G Blair, premier, Hon C H LaBillois, his lordship the Bishop, R D Wilmot, M P, Thos Temple, M P, F A H Straton, clerk of the local executive council, and E Byron Winslow. After Mr. McGee had read the commission, the oaths of office were administered to the governor by Judge Tuck. They were three in number (1) allegiance to her majesty the queen (2) to faithfully discharge the gubernatorial duties (3) to keep safely the great seal of the province. Congratulations were then in order, among the first to heartily shake his honors's hand being Premier Blair. Some light refreshments were served, and the ceremony was over, the gentlemen present in departing wishing his honor a speedy return to health. Mr. McGee, having fulfilled his mission, left immediately for Ottawa. He is a brother of the late Hon. D'Arcy McGee, whose tragic fate at the capital shortly after confederation is a matter of history.

McCully, besides a number of parents of the pupils. The children were examined in reading, geography, and the other branches, and acquitted themselves well. A MATTER OF

MOONSHINE!

WHEN people advertise 'bargains,' did you ever pause long enough to think that the bargains they speak of may be for the seller and not the buyer? Many of the alleged 'great offerings' are but a delusive mixture of moonshine and misrepresentation. That may do for just once; but folks are not hankering after it for a steady diet.

COUNTRY NEWS.

An Excellent Budget from our Active Correspondents.

BUDGET FROM YORK.

Harvey Station.

DEC. 21.—The recent storms of hail and snow are the heaviest known in this section for some years, and the depth of snow upon the ground at this season is unprecedented. The lake is not yet safe for traffic; the ice did not form to a sufficient thickness before the heavy snows came on which now prevents it from freezing much more. The crust which formed on Sunday is causing serious difficulty to those who have hay to haul from distant meadows, it being impossible for horses to break a road through it, and unless rain comes to soften the crust work in the woods will be much retarded.

The patrons of the butter factory held a meeting in the old church on Friday evening, at which the butter accounts for the season were settled up. About nine tons of butter has been made in the factory during the season and sold at prices ranging from seventeen to twenty-one cents per pound. The butter was sold by a committee appointed for that purpose. It is said that some of the patrons are not satisfied with the result of the season's operations and are talking of withdrawing, but it is hoped that nothing will occur which will injure the factory, as such an industry properly managed will be sure to prove a boon to the settlement.

Miss Emma Smith who has been attending college at Halifax, has come home to spend the Christmas vacation.

Fenety becoming trustee, and the paper since has been running under the latter's direction. The liabilities are stated to be between $4,000 and $5,000.
