A TEMPERANCE CHURCH.—Dr. Tyng, Rector of St. George's Church, New York, at a recent anniversary said, that of the six hundred members of his church, he did not know a *single person* who either drank liquor, or offered it to others. And he never saw, in any of their dwellings, any of the paraphernalia of drinking.

From every part of our country—the West, the South the North and the middle States—the papers speak in strong terms of the anticipated abundance of the crops. Cotton and wheat especially promise well. The barley, rye and oats will be heavy. Fruit of every kind has never appeared more plentiful.—*Newark Adv.*

WRITINGS OF WASHINGTON.—The New York Evening Post states that a complete and authentic edition of the writings of Washington is in preparation, to embrace more than two thousand letters, not included in the collection of Mr. Sparks, together with all Washington's diaries, speeches, and public and private papers of every description, which may be supposed to possess any interest or illustrative of his character or history.

According to the recent assessment in the city of New York the real estate this year amounts to $227,013,856; the personal to $93,094,531; total $320,108,358. Last year the total assessment was $286,085,416. These figures fall far below the market value of the property in that city. The taxes of that city this year will amount to $2,924,385, some of the items of which are the following:—Police $510,000; Lamps and Gas $199,000; Cleaning and repairing streets $270,000; Common Schools $447,484 56. It will be observed that the police costs much more than the schools!

Three labourers, who were blasting rocks at Hooksett, N. H., were instantly killed on Friday morning by a premature explosion; a fourth was terribly mutilated.

MR. THACKERY—The Boston Commonwealth says:—"From authentic information, received by the last steamer, we are able to announce that the very popular author of 'Pendennis' and of 'Vanity Fair,' will visit our country early in the autumn, to deliver the course of lectures on the English writers, which he is now giving in London. His present purpose is to commence in Boston, and the Masonic Temple has been mentioned as a proper place to enjoy the feast he will offer."

GRAND TRUNK RAILWAY.—We understand, says the Toronto *Globe* of the 5th instant, that the government have matured a scheme for the construction—in conjunction with the other Provinces—of a Trunk line of railway from Halifax to Hamilton, where it will be connected with the Great Western Railway, and to be carried to Sarina or Windsor. The scheme—which is of course based on Mr. Howe's negociations with the British government—was yesterday laid before the Parliamentary Railway Committee, by whom it is to be considered early in the ensuing week.

The Toronto correspondence of the Montreal *Herald* contains an outline of a series of resolutions to be proposed by Mr. Hincks, bearing upon the scheme above mentioned. The first declares, that justice to the Provincial creditor requires that the debts and liabilities of the Province should not be increased beyond the sum of £1,500,000, except in aid of the Halifax and Quebec Railway, or without the consent of present creditors; that, therefore, it is expedient that the Provincial guarantee, under the 13 & 14 Vic., shall be granted only in such a manner as will not increase the debt and liabilities beyond the sum mentioned. It is, therefore, declared to be expedient to confine the guarantees to main trunk lines; to such as have actually received it; or to such others, having a right to claim, as have laid out £24,000, at the present moment; that the guarantee shall extend to the capital as well as the interest—provided the bonds be made payable at terms approved of by the Governor-General. That it is expedient to form a Railway Board of the Receiver General; Inspector General, Commissioner of Crown Lands, and Commissioner and Assistant Commission of Public Works. No railway to have the benefit of any guarantee till the Board shall have examined the works and approved the whole of them. That any Company, whose road may form part of the main trunk, shall be allowed, if their line exceeds 75 miles, to divide it into sections of not less than fifty, so as to obtain the guarantee. That previous to obtaining the guarantee, half the road should be completed, and the land acquired for the remainder; and the Board must be satisfied that the contracts for the half completed have been made at a fair price. No contracts on roads claiming the guarantee shall be made without the approbation of the Government; and if several Companies shall have claims for the guarantee, (but it shall be found impossible to grant it to all,) the Government shall select those which it thinks desirable to receive it.

HONG KONG.—*Sixty thousand tons of American shipping* have called at this port during the last *nine months*. They come mostly from California, and after landing their freight, proceed to China to take in freight for the United States or England.—*N. Y. Express Correspondence.*

NEW GAS FITTING

And Tin Plate Establishment,

WATER STREET.

THE Subscribers beg leave to inform their friends and the public generally that they have associated themselves together, under the Firm of **DYALL & ROWAN,** for the purpose of carrying on a General *Tin Plate Working and Gas Fitting Business*, and would respectfully solicit a share of public patronage; and being both practical workmen, having had much experience in Glasgow and in this City, they are determined that all Work entrusted to their care shall, as well in price, workmanship and style, be such as to merit the approval of their customers.

☞ Shop in the Brick Building, Water Street, opposite the office of Messrs. S. Wiggins & Son.

JAMES DYALL,
ARCHIBALD ROWAN.
