

# HUNKER DOMINION

## Movements of Miners on the Creeks

### Daily Engaged in Preparations for Summer—Grippe Makes Its Appearance.

Mr. Jack Franz of the Eclipse roadhouse has just finished an addition to his house, besides making numerous other improvements, and now has one of the finest roadhouses in the territory. He says he will not try to cut down expenses in order to pay for these improvements but will still continue to serve the best meals on the road.

Messrs. Robt. Ogburn and Amiel Lambert of Last Chance returned home yesterday after a three weeks prospecting trip up the Klondike.

Mr. Geo. Henderson of 5 above Last Chance anticipates leaving for the outside in a few days. Mr. Henderson will go out on a bicycle and after visiting California will go to Honolulu, which he intends making his future home.

Geo. Napier has moved from 5 above Last Chance to 9 above. George is expecting his wife in a few days and has a new cabin all ready for her reception. He will work No. 7 this summer instead of No. 5 as in previous summers.

La grippe is quite prevalent on Hunker and Dominion creeks, but seems to have a special run on Paradise hill, where nearly everyone has had it. Two or three of the claims had to shut down work on account of it, but the boys do not mind it much as they say they can put up with anything when the gold is in sight.

Mr. Brodus on this hill have about fifteen feet of pay and two and a half dollar pans are a common occurrence with them. Lynde & Janes have been taking out ten feet of 140 all winter but will soon have to quit hoisting and prepare for summer work. They have about two miles more of ditch to build when they will be ready to hydraulic. This hill is one of the finest hydraulic properties in the country, there being pay from the grass roots down.

Messrs. Jewell and Martin, two well known and popular young men of Gold Run, passed through Gold Bottom Thursday on their way to Dawson.

Mr. Date is very ill at his home at Gold Bottom. Dr. Merrille is in attendance and fears pneumonia will set in.

Mr. Marsh intends moving from Gold Bottom to Paradise hill in a few days.

Corporal Ryan, who has been in charge of the detachment at Gold Bottom for the past three years, has been called in to the Dawson station. Corporal Ryan will be missed by his many friends who all join in wishing him the best of luck in the future. Corporal Cobb will succeed Corporal Ryan.

Messrs. Dix & Black have moved from 18 above to 34 above, Hunker. They were both seen in Dawson last week, purchasing a new boiler.

Mr. Leonard Greer was in town last week purchasing a new boiler with which he expects to work his claim, 24 above Hunker, on a very extensive scale this summer.

Mr. Fred Spencer spent two or three days in Dawson last week, receiving to his claim on Dago hill. Mr. Spencer is working a crew of ten men and expects to double this crew during the summer.

Mr. J. J. Duff is a recent arrival from the outside, making the trip in on a wheel. He reports the wheeling very poor, having to push his bike most of the way on account of heavy trails.

Mrs. J. G. Boyd, who was ill at St. Mary's hospital, has returned to her home at Cariboo and is now entirely recovered.

Mr. Geo. Henry is shaking hands with his friends at Cariboo this week.

Wheat and ground corn at Barrett's, Third avenue. Phone No. 1.

## SPECIAL MEETING

### Council Has Busy Session Last Night

#### Many Petitions Are Presented and Tenders Galore for Library Sites Are Made.

For a special meeting at which it was presumed but little business would come up other than that pertaining to the Carnegie library site, the council last night did quite well. First there was a meeting of the committee of the whole behind closed doors at 8 o'clock for the purpose of opening the tenders and tabulating them in some kind of order, but as the tenders were so numerous they were not all opened by the time the special meeting was to convene and a temporary adjournment was taken in order that other business that was to come before the meeting could be considered.

For the first time since the last municipal election, all the members were present, Murphy occupying his seat for the first time under the new regime. He has taken the chair next to Macdonald while Edwards has moved down a peg next to the city clerk. Murphy had no chip on his shoulder last night as was expected, he the health officer matter, but there is yet time to stir up quite a hornet's nest and when he starts in on that deal it can be pretty well assured he has the trump cards in his hands before the play begins.

There were quite a few communications to be read, two of them being from W. W. Corry, the mysterious Pooh-Bah of the government who has been here during the past two summers, doing nothing but making his presence felt in more ways than one. Both of Mr. Corry's communications were in reply to messages that had been sent to Mr. Ross relative to certain matters in which the city is interested. The first read was with reference to the invitation that had been extended to the American Institute of Mining Engineers to visit Dawson upon the occasion of the mid-summer meeting held in British Columbia. Mr. Corry informed the council that in the absence of Mr. Ross, Mr. Congdon had done all in his power to press the invitation upon the gentlemen and good results were hoped from such efforts.

The other message from Mr. Corry had to do with the water front. Some time ago at a meeting of the city council it was resolved to request of Mr. Ross that he use his influence to secure for the benefit of the city the water front and the income which is derived from its rental and which is now held by the federal government. All that Mr. Corry's reply contained was that the petition of the council would be placed before Mr. Ross as soon as he returned to Ottawa.

Another communication received was from the Yukon Telephone Syndicate which desires a new franchise, or rather the ratification by the city of their old one, and the passage of certain ordinances that will afford the company a greater measure of protection in their investments. The letter stated that the company was incorporated June 14, 1901, by letters patent for various purposes, and soon thereafter the new company purchased all the telephone plants and appurtenances of the companies then doing business in the city. Many thousands of dollars were expended in acquiring that property and the subsequent improvement and enlargement of the same and the investment today represents the sum of \$300,000. At the time of the incorporation of the company and the ratification of the franchise secured from the Yukon council, such extended only until the city of Dawson should be incorporated and it was provided that later upon such incorporation being effected the franchise of the company should be ratified by the municipality. It was stated that in the past the company had been most zealous of the rights and privileges of the

## SALOON KEEPERS

### Araigned in the Police Court

#### For Selling Liquor During Closed Hours Contrary to Liquor Ordinance.

Nearly every saloon keeper and the proprietors of hotels where a bar is run in conjunction were lined up in the police court this morning and arraigned before Mr. Justice Macaulay on the charge of selling or being responsible for liquor sold on their premises during closed hours. The offense occurred in every instance on Sunday, the 29th inst.

J. D. Wilson was the first called and pleaded guilty. This being the first offense the minimum punishment of \$50 and costs or two months at hard labor was imposed. It is needless to say that the fine was paid.

Following Wilson the rest of the defendants were called one after the other—pleading not guilty and the cases were enlarged. Krelling & Cooke of the Del Monte, J. C. Murray representing the Bonanza, Arthur D. Fields of the Northern, Binet Bros. of the Marconi, Joseph Cadieux of the Ottawa, Hutton & Pierre of the Commerce, Geo. J. Apple of the Sourdough, M. Nelson of the Monte Carlo, McDonald & Landreville of the

Butter, two-and-a-half pound roll, only \$1.00, at all stores.

## PATIENTS IN DANGER

### St. Louis, Mo., Feb. 17.—Because of the lack of fuel at the city hospital the lives of 700 patients, some of whom are at the point of death, are endangered by the cold.

Since the cold wave set in here the hospital has been without a sufficient supply, and the authorities have been compelled to economize. Scarcity of fuel at the court house resulted in the closing of the court offices there today. Dealers say there is plenty of coal, but that deliveries are impossible owing to the condition of the streets since the storm.

Joe Clarke again forced his name into the papers and himself into more or less prominence by a long winded communication which was sent to be a duplicate of a similar letter sent to Acting Commissioner Major Wood. The message had to do with the morals of the city which do not suit the fastidious writer and since his election to the Yukon council he has taken upon himself the correction of several evils which he declares exist.

The communication was of little consequence and when it is said it was written by Clarke sufficient is known of the character of the contents to make its reproduction superfluous.

A petition was read that was addressed to the committee on license, police and health. It was concerning the application of Mrs. Emily Anderson, a cigar dealer on First avenue, for a license to conduct the business in which she has been engaged since '88. The petition, which was most generously signed by many of the leading business firms of the city, stated that Mrs. Anderson was a heavy ratepayer in the city, owning

## EMPIRE, D. A. McKinnon of the Rochester, Joseph Crane of the Exchange, M. C. Brown of the Melbourne, Fritz Kammuller of the Fairview, Adolph Gestland of the Dawson City Hotel, John L. Labbe of the Labbe Hotel, Ullub Olsen of the Klondike hotel. Each of the above plead not guilty to the charge and the cases with the exception of that against Field were enlarged until Thursday morning at 10:30 a.m.

### Passengers Landed

Queenstown, March 3.—The remaining passengers of the Dominion line steamer Marion, from Boston on February 30th, for Liverpool, which grounded near Roche's Point, White Bay, after leaving this port on Sunday, were landed at 7 o'clock this morning, and will proceed by rail to Dublin, thence by steamer to Liverpool, where their baggage is landed. They have not suffered from their experiences.

The weather is moderate, but the three tugs which made another attempt today to pull the Marion off failed to do so, and more powerful tugs have been sent to the scene from Liverpool. The officers of the Marion believe there is every probability of the ship being saved, although it is feared that a rock has pierced the bottom forward.

A party was seen in the back of the court room with a cigar in his mouth. A peremptory order was given to have the cigar removed and his lordship asked the spectators to remember that they were not in a saloon.

The action—which has been taken against the saloon keepers comes under the provisions of section 53 of the liquor ordinance of 1902 as passed by the Yukon council which makes the selling of liquor during certain closed hours an indictable offense.

Mrs. James E. Tate and little daughter of Sulphur creek arrived in Dawson Sunday for a short visit with their family. They returned to Sulphur today.

A man dropped his wig in the street, and a boy who was following close behind the loser picked it up and handed it to him.

"Thanks, my boy," said the owner of the wig. "You are the first genuine hair restorer I have ever seen."
