Road. In the act of leaping on one of the cars he lost his footing, and the cars passed over his body.

A steamer called the George, has been purchased at Liverpool, for the Prince Edward Island Steam Navigation Company, by Mr. Longworth. She will be employed as a mail packet between Charlottetown, Pictou, and Miramichi. The George was advertised to leave Liverpool on the 9th inst, and Cork (where she would call on the passage) on the 13th.

LAUNCHED, at River John, on Thursday last, for the Hon. George Smith, of Pictou, the splendid copper-fastened ship *Inconstant*, burthen 600 tons, new admeasurement; built by Mr. Wm. Rae. Her model and workmanship are pronounced to be excellent.

At Tatamagouche, from the shipyard of R. Powers, Esq., a superior brig named the *Fanny*; built by Mr. Donald Cameron, on whose skill as a builder she reflects much credit.—*Pictou Observer.*

IMPORTANT REPORT.—The following item was cut from the New-Orleans Courier:—We are told that a letter from the city of Mexico, received here this morning via Havana, mentions that the American minister would withdraw, in which case President Santa Anna intended to declare war immediately against the United States.

The Picayune observes:—We know nothing of the nature of the instructions sent to Gen. Thompson in relation to the claims of our citizens upon Mexico, nor what has been done as regards some of the Americans among the prisoners taken at Santa Fe, who have claimed the protection of this government; but this much we do know, that there will be little temporizing on the part of Gen. Thompson. Whatever may be our present relations with Mexico, they will not suffer while in the hands of so prompt and efficient an officer.

RHODE-ISLAND.—The Providence Chronicle says:—"Of the whole number of prisoners taken in the late rebellion, two-thirds, on examination, have been discharged. Some few of those remaining, will probably be severely punished; a necessity, which the case actually demands, while the majority will, after a proper time, be permitted to go to their homes, wiser if not better men."

ST. CATHARINES, (Upper Canada,) July 7.—For several days past, our village has exhibited a scene of most shameful disorder and violence, and which has not yet been quelled, although the authorities have been most active and vigilant, and are still exerting themselves to put down the rioters and restore peace.

The origin of the disturbances here is to be found in the shameful and most unnatural feud existing between the Corkonians, as they are styled, and the Connaught and Far Downe men; but the immediate cause is to be traced to the late riot on the St. Lawrence Canal, from which the former have been driven by their more numerous antagonist countrymen—the Connaughts.

On the morning after the arrival of the troops several of the Cork men who had families in the village, and believing that peace would be restored, came in, but venturing too far from the guard, were fallen upon by a numerous body of the other party, and two of them nearly beaten to death, and no doubt would have been quite, had it not been for the seasonable arrival of the Rifles, but not in time to secure the offenders, who fled from the village and escaped to the woods. Information of this circumstance, exaggerated by the death of the injured individuals, was quickly conveyed to the Cork men, who were scattered along the road between the village and the 16 mile creek, and whose numbers had been considerably increased during the night and forenoon of the day. This piece of intelligence threw them into an indescribable state of exasperation, and a spirit of horrible revenge seemed to take immediate possession of the minds of these ignorant and deluded creatures, and which nothing but the life-blood of the Connaught men would allay. Of this state of feeling among them, we were an eye witness. At about 1 o'clock, P.M. they were seen approaching the village in all their force, shouting and vociferating defiance and death to the Connaughts. They were prevented, however, from entering, by the Riflemen, who were formed in two divisions across the street, with their bayonets fixed and brought to the charge, but which these miserable wretches appeared not in the least to regard, and with a mad impetuosity seemed to rush upon their very points, with a desperate determination to force a passage at all hazards. There was, at this critical juncture, a few moments of painful suspense; for had the military been overpowered, no one could have told what fatal consequences would have ensued. On the contrary, had the Rifles been compelled, in self defence, to use the fatal steel, scores of these infuriated beings would have paid the forfeit of their lives for their rash temerity. It was not, however, until the order was given to load with *ball cartridge* that they relaxed in their efforts to penetrate into the village: but in a few moments after they commenced a tumultuous retreat across the canal bridge, into the adjacent fields. A few hours after, these same creatures were permitted to enter the village, but under a promise extorted from them by David Thornburn, Esq., Warden of the district, that they should immediately disperse, except those who had families and boarding houses in the place.

They did not keep their engagement, however, and it required the utmost exertions of the civil and military authorities to prevent them from committing most horrible excesses. Something like peace was in a short time restored, and the night passed without any further disturbance. To-day the Corkonians are in full possession of the village, and their numbers have just received a large addition by reinforcements from the American side of the river. Intelligence has also arrived, that the Connaughts are collecting a strong force a few miles distant, armed with all sorts of weapons, and an attack is momentarily expected.

Every thing from the beginning that active and vigilant magistrates could do, has been done to preserve order and keep the peace. A portion of captain Macdonald's troop has been called out, who are now patrolling in all directions to ascertain the movements of these strange and mad belligerent factions—brothers and countrymen, thirsting like savages for each other's blood—horrible infatuation! What the issue will be, God only knows.

St. Catharine's, July 14.—PEACE RESTORED.—The disturbances among the labourers, which we noticed in our last, are, for a time, and it is to be hoped permanently, suppressed. This was happily effected by a few influential gentlemen, who persuaded the belligerent parties to come to terms, by the appointment of six delegates on each side, who met and amicably adjusted their difficulties, and bound themselves to keep the peace, and to do all in their power to bring to justice any who should be guilty of planning or promoting any disagreement among those employed upon the public works hereafter. This arrangement is heartily approved of by all, and we have no doubt that as it has already, so it will continue to produce very pleasing and salutary effects. In consequence of the restoration of peace and order, the military have been relieved from further duty at this place.

CAPTAIN MACDONALD'S TROOP.—The very handsome manner in which this spirited company turned out at the call of the Magistrates, to protect the lives and property of the inhabitants of this village, and to aid the authorities in suppressing the late riot, is highly creditable, and deserving of well earned praise.

QUEBEC, July 15.—THE WEATHER AND THE CROPS.—There was no rain from Saturday evening the 9th instant till yesterday afternoon the 14th instant, when there was some thunder showers, and rain during the night and this morning. The temperature ranged between 80 and 90d. Farenheit in the shade on 13th and 14th at noon. The great heat, with the moisture still in the ground, has given a rapid advance to vegetation. It is however nearly a fortnight more backward than usual, at this date. The earliest sown spring wheat has but just come in ear. Rye and barley have been in ear for some time past. The peas and oats are looking well, and potatoes generally promising. The timothy grass is beginning to come into blossom, and the meadows are luxuriant, particularly where the ground is in good heart. The gardens and orchards are backward; but they are likely to give a good return. There is little to be apprehended now, for the crops, generally, but early frosts.

FRENCH STEAMER GOMER.—The N. Y. Commercial has translated from the Courier des Etats Unis, the following items concerning this vessel:

The Gomer is a war vessel, the largest in the world, the Courier says—and is not intended for the line of steam packets between France and the Gulf of Mexico. Her capacity is about 2,300 tons, her dimensions being nearly the same as those of the low President. Her engine is of 450 horse power, and was constructed at the foundry of Fawcett, Preston & Co., Liverpool, there being no establishment in France, when she was launched, capable of turning out machinery of such gigantic proportions—a defect, however, which has since been remedied.

The armament of the Gomer is 30 guns—22 thirty pound carronades, 4 Paixhans of eighty, and four of thirty. She carries 462 tons of coal, which is sufficient for twelve days' consumption.

On her voyage to New York she made at times eleven knots per hour; her average speed being a little short of ten knots. From Fayal to New York the distance was run in 10 days and 4 hours, the average speed being 10 knots. The Gomer has on board an apparatus for the distillation of salt water, which, without increased consumption of fuel, supply sixty litres of fresh water per hour.

She has but half her armament on board at present, some of the guns having been taken out to make room for temporary cabins, for the accommodation of five gentlemen sent out as commissioners—two by the Minister of Marine, and one by each of the three Ministers of commerce, Finance and Foreign Affairs. These commissioners are directed to visit the several ports at which it is proposed that the vessels of the French steam packet lines shall touch.

After remaining here two or three weeks the Gomer will proceed to other ports in the United States, or, if the commissioners think it expedient, direct to Martinique, thence to Rio Janeiro, Buenos Ayres, Havana, Vera Cruz and New Orleans; thence to the Western coast of Africa and thence to France. The whole voyage will occupy probably ten months or a year. The officer in command of the Gomer is Capt. Laurencin. Her full compliment is 300; at present she has on board 240.

MCLEOD AGAIN.—The notorious Alexander McLeod was in our city yesterday. He came over on account of some business, and was quietly attending to it, when an onslaught was made upon him by some loafers, led on we believe by John O'Brien, who by some means had learned the fact of McLeod's presence among us. No violence was actually offered, but the loafers followed McLeod up street, for some distance, loading him with abusive epithets and making threatening gestures, till, to escape them, he took refuge in a store, whence he quietly departed for the cars. Occurrences like this are disgraceful. McLeod, well aware as he must be of the feelings with which many on this side regard him, is a fool for coming here unless compelled by business, but if so compelled, there ought to be power somewhere that should be exerted to prevent such a *patriotic* display on the part of John O'Brien and his cronies. Unhappily there are too many such characters on each side of the line.—*Buffalo Paper of Friday.*

INTERESTING TO LADIES.—The brilliant transparency of a fine complexion is one of the most valuable components of Female Beauty! When nature has been niggardly in this respect, or where it is desired to *preserve or heighten* her charms, ROWLAND'S KALYDOR (a vegetable exotic production,) has been found the only efficacious, and at the same time innoxious preparation.

In removing every unsightly irregularity of the skin, whether occasioned by illness, irritation of the surface from exposure, either to cold winds, the sun, sea breezes, or other accidental causes, the operation of the Kalydor is certain, expeditious, and delightfully soothing and refreshing—never failing to realize a healthy and radiant bloom.

CARLETON

Mill Establishment,

IN THE CITY OF ST. JOHN, GREATLY IMPROVED.

Honesty, Economy, Industry and Punctuality.—BE DILIGENT IN BUSINESS.

Logs, Logs, & Timber.

WANTED for the said Mills 4,000,000 feet Spruce and Pine LOGS, for a summer and winter supply, for which the highest market prices will be given. Also, 2,000 tons refuse FINE TIMBER, of all lengths and sizes.

The above Mills are now in perfect order to cut any quantity of Ship Plank, of all lengths and thickness, & Scantling of any dimension to the extreme length of 57 feet, if required. They are also prepared to manufacture any other description of lumber that may be required, including the produce of the Circular Saws, such as Shingles, Laths, Staves, Palings, &c. All orders will be executed at the shortest possible notice, and on the most reasonable terms.

The subscriber having just fitted up a second gang of Saws, on the most improved principle, with the best machinery, by a first-rate Machinist, is now prepared to manufacture 400 to 500 shipping Deals per day, or 100,000 superficial feet pr week.

These fine Mills are situated in the City of St. John, amidst ships and wharves, and directly opposite and within hail of the mooring-ground, and by which Deals and other descriptions of Lumber can be cut and passed clear and unsoiled directly from the saws into the vessels, as well as in the months of January, February and March, as in June and July.

N. B.—For all orders that the subscriber may be favoured with, either from England, Ireland or Scotland, for Cargoes of Bright Deals, British Goods will be taken in part payment.

Flour and other Produce of the United States, will be taken in payment for any articles of Lumber that may be required from the Establishment in that quarter.

Logs and Timber cut at the halves, or on reasonable terms, at the shortest notice, either in summer or winter.

The spacious Pond in the rear of Mills, is one of the safest places of deposit for Timber and Logs in the world, and is capable of containing at least 15,000,000 feet. The use of the Divisions and Coves of the said Pond are offered gratis to all persons either in Saint John, Fredericton, Woodstock, or on any part of the river St. John, who may have Logs on hand; and the said Logs when so deposited can be cut at the halves, or on any other reasonable terms, at any time when it may best suit the interest of the owner.

The alterations and improvements in the Grist Mill are completed, and persons importing Grain and who are engaged in the Flour trade, can have the use of it, either in the summer or winter, for a mere trifle.

As fresh Oatmeal is so much required at all seasons of the year, by people of all ranks in society, both in town and country; the subscriber, having got through with the improvements in the Grist and Saw Mills, intends forthwith to prepare for the manufacture of that article. Should he succeed in the attempt, he proposes in order to save time, to give in exchange, without a moment's delay, for Oats brought to the Mill, fresh Oat and Indian Meal, Flour, American Produce, Groceries, Dry Goods, or any articles that the Establishment may produce.

LUMBER, SHINGLES, LATHS, Palings, &c. &c. always on hand.

N. B.—All the articles manufactured in this establishment are warranted to be done in the very first style of workmanship.

☞Persons not in circumstances to purchase fuel these hard times, to keep them warm through a long and dreary winter, can have it *gratis*, by taking it away.

Important and interesting Work,

Embellished with

SEVERAL HUNDRED FINE ENGRAVINGS,

Just Published and for sale at the Hat & Fur store of GEO. & EDW. SEARS, King street, St. John, N. B., and sold by Bookseellers generally throughout the British Provinces.

BIBLE BIOGRAPHY; or, the lives and characters of the principal personages recorded in the Sacred Writings; practically adapted to the instruction of youth and private families; together with an Appendix, containing thirty dissertations on the evidences of Divine Revelation, from Timpson's Key to the Bible; being a complete summary of Biblical Knowledge, carefully condensed and compiled from Scott, Doddridge, Gill, Patrick, Adam Clarke, Pool, Lowth, Horne, Wall, Stowe, Robinson, and other eminent writers on the Scriptures; embellished with *Several Hundred Engravings on Wood*, illustrative of Scriptural scenes, Manners, Customs, etc.

OPINIONS OF THE PRESS.

From the New York Evangelist.

This is a work possessing many novel and uncommonly attractive features. Its appearance is beautiful. Its biographical sketches embrace the most interesting incidents and events in the lives of the principal personages of the Scripture History, woven together in a pleasing and sprightly narrative, and faithfully accompanied with excellent practical lessons. Its chief claim, however, to popularity, consists in its multitudinous pictorial embellishments.

Something like five hundred engravings on wood are contained in the volume, many of which are costly and elegant, and in a high style of art, and none discreditable to the theme or the work. These relate to numerous ancient and oriental customs, scenes, manners, history, &c.; and while they add great spirit and interest to the objects which they illustrate, form of themselves a pleasing and profitable study. The work is a rare combination of the useful and attractive—adapted at once to engage the attention and affect the heart. We should regard its possession by families—whose children may obtain from its striking representations of Scriptural truths and events lasting impressions of their reality—as highly desirable. The Appendix contains thirty brief but comprehensive and excellent essays upon the Evidences and Archæology of the Scriptures, which add greatly to the value of the work, as designed for the instruction of youth and families.

From the United States Literary Advertiser.—A work of considerable attraction and value has just been published by Mr. SEARS, of this city, entitled "*Bible Biography*," comprising the history of the lives and characters of the leading personages mentioned in Holy Writ. This volume should unquestionably find a welcome at every fireside throughout the country; its contents are as interesting as they are important and instructive, and the judicious editor has, by the aid of numerous pictorial embellishments, contrived to present us with one of the most attractive and at the same time useful books that have appeared this side the Atlantic. We trust the religious community at large will appreciate the work, and reward the liberal enterprize of the Publisher.

From the (N. Y.) Baptist Advocate.—"We cheerfully commend the book to the readers of the Advocate, as a work of much merit, furnished at a very cheap rate."

From the Boston Daily Mail.—"We cordially recommend this excellent book."

From the Boston Mercantile Journal.—"We can cheerfully recommend it to the notice of every Christian Parent, as a beautiful gift book to present to his family."

From the Boston Daily Times.—"An elegant work of five hundred pages, and containing about 500 engravings. The contents of the volume appear to be sound, judicious and interesting. If this book meets with a circulation commensurate with its merits, it will be found in every dwelling in the Union."

☞Persons in the country, would do well to procure a subscription book, and obtain at once the names of all their friends and acquaintances, at least, as subscribers to this invaluable sacred gem. Will each Christian friend who complies with this request, have the kindness to inform the publisher how many copies will be wanted for his neighborhood, by mail, (*post paid.*) as soon as possible? It is his intention to spare neither pains nor expense to introduce this entirely new and original volume, into every family where the Holy Bible is read and respected.

☞This beautiful and interesting Work consists of one large octavo volume, of about 500 pages, printed from new and elegant bourgeois type, on the finest paper. The price is fixed at $2 50 per volume, handsomely bound in gilt, and lettered.

☞Agents—*responsible men*—wanted in every town and village throughout the British North American Provinces.
