A Growl From Russia

On the Matter of Imperial Federation.

Proposed Trip of the Duke of York to Ireland.

Speculation as to the Reception He Will Meet There.

The Premiers Delighted With Their Visit to Hawarden.

Sir Wilfrid Going to France — The Powers Determined to Carry Out Their Plans in Greco-Turkish Business.

SIR WILFRID GOING TO FRANCE.

London, July 13.—Sir Wilfrid Laurier has accepted the invitation of President Faure to visit France, and will leave London for the French capital on July 17. In the meantime his engagements in London will fill up all his time.

THE POWERS UNITED.

Rome, July 13.—In the Italian Chamber of Deputies the Marquis Visconti Venesta, minister for foreign affairs, said that the Turkish government was placing numerous difficulties and causing delay in the prosecution of the peace negotiations. "But," he added, "this state of things cannot be allowed to continue. The great powers remain perfectly united and are determined to attain their ends."

THE GAYA INCIDENT.

London, July 13.—In regard to the news from Labuan, northwest coast of Borneo, that Matsalley, the rebel leader, with 60 followers, had attacked and burned the government station at Gaya and sacked the treasury, it is stated that there are no Europeans at Gaya, which is a mere collection of native huts in charge of an Eurasian (half-breed) officer and a few police. Matsally had already been proclaimed an outlaw, and it is believed that his following is small. The Dyaks and Sikhs, who are being sent to hunt him out of the jungle, will probably capture him easily.

ROYALTY IN IRELAND.

The New York World's London correspondent says that efforts have been made informally to ascertain from the Irish leaders in parliament whether they propose to organize or countenance any hostile demonstration against England's future king and queen, who are about to visit Ireland. Inquiries seem to make it clear that the Nationalist leaders will be willing to ignore the presence of the Duke and Duchess of York, unless the "Unionists" try to make political capital out of this quiescent attitude.

Irishmen at large would like to see the Yorks have a pleasant tour, but they cannot tolerate their being exploited by political opponents for anti-home rule purposes.

GLADSTONE DELIGHTS THE PREMIERS.

London, July 13.—The visit on Saturday to Hawarden of Sir Wilfrid Laurier, Mr. R. J. Seddon and Mr. Geo. H. Reid, prime ministers respectively of Canada, New Zealand, and New South Wales, was a great success. The premiers were much impressed by Mr. Gladstone's mental alertness and physical vigor, and also by his magnetism and charm of manner. They declare it is no wonder that he exercised such influence over his countrymen. The conversation was informal and familiar. The visitors were engrossed by Mr. Gladstone's vivacious recital of reminiscences and his knowledge of colonial affairs from the time, 62 years ago, when he was appointed under secretary of state for the colonies. Several group photographs of Mr. Gladstone and his visitors were taken.

TROUBLE IN A LONDON CLUB.

The New York World's London correspondent telegraphs: The Parnell-O'Shea scandal has cropped up again in London in a sensational fashion. Capt. Gerald O'Shea, Mrs. Parnell's eldest son by her first husband, is an officer in a crack cavalry regiment, and a member of a rather swell club here—the Raleigh. An English fellow-member of the club made in a political argument a disparaging reference to young O'Shea's mother's association with Parnell. O'Shea, an athletic young fellow, immediately gave his mother's detractor a thorough drubbing, with the approval of everyone present. The club committee ordered both to take their names off the books. In young O'Shea's case this is a mere formality, as he is to be re-elected immediately, but the other man will be shut out.

LABOR FIGHT IN ENGLAND.

London, July 13.—The troubles in the engineering trade, which have been pending for a long time, will probably be fought to the bitter end in what threatens to be the greatest of English labor wars. It is taking the form both of a lock-out and a strike. It is nominally a struggle for an eight-hour day.

The men, who are members of the ten trades unions comprising the Amalgamated Society of Engineers, made a demand in April which was to be enforced by a strike in the London district. In anticipation of this the London employers joined the already existing employers' Association, which replied by the discharge of 25 per cent of the workmen in the chief engineering centres, in order to embarrass the unions and put an intolerable strain upon their funds.

The unions have replied by calling out the other 57 per cent of the men and issuing stringent directions to their members to keep within the law. Both the strike and lock-out are spreading throughout the country and will probably become general.

The eight-hour day battle does not mean what the average man thinks. The men do not assert the right to work eight hours a day only or 48 hours' a week. What they claim is that all time over 48 hours a week should be paid for at the extra rates which belong to overtime. The men have a strike fund of $1,750,000.

The employers declare that they must win this fight or abandon their business to foreign competition. The struggle is likely to be long and desperate, and as shipbuilding in all its branches will be completely paralyzed American yards will probably be among those to profit.

Saxony has a curious labor dispute. The odd feature being the fact that the manufacturers insist upon the high wages which the Manufacturers' Association last year authorized in its agreement with the employes on the wages question.

It has been proved that several manufacturers are paying wages lower than the scale. The association now declares: As we possess no means of compelling manufacturers to maintain the rate agreed upon, or inducing workmen not to work at a lower wage, we have adopted a resolution appealing to employes to influence other workmen to work only according to the tariff. If workmen cannot effect this desired result the association will be compelled to lower the scale of pay."

CABLE NOTES.

Official dispatches from Manila, Philippine Islands, report the capture of Masubu. A large number of influential chiefs, including Aqiunalibo, have submitted.

The steamer Ragnhild has arrived at London, bringing four carrier pigeons, labeled "North Pole Expedition." Two of the birds are numbered 65 and 106. No messages are attached to the birds. The captain reports that they alighted on the steamer when she was in the North Sea, and were apparently exhausted.

At the bull fight at Barcelona, Spain, on Sunday a riot took place, owing to an alteration by the management in the order of proceedings. The enraged spectators threw sticks, benches and everything portable into the arena. The bull-fighters efid in dismay, and the gendarmes were compelled to intervene. Finally somebody fired a revolver, and then the police cleared the ring. Several gendarmes and spectators were seriously injured, and the spectators tried to burn the bull ring.

The Dominion of Canada will have many important Chinese and Japanese visitors next month. Prince Arisugawa, the mikado's special envoy to the Queen's jubilee, with a suite of nine, will sail on Saturday to embark on the Empress of India from Vancouver. Chang Yin Huan, the Chinese special envoy, and his suite of sixteen, will also return via Canada. Baron Rosen, the Russian minister to Japan, and suite sail on the Empress of India on Aug. 2.

The French Government had a narrow escape from defeat in the Chamber of Deputies yesterday. The ministers desired to postpone until autumn the discussion of the bill for the readjustment of the direct taxes, the passage of which would chiefly benefit the peasantry. In the first division the government was defeated by a vote of 270 to 245. Another division was finally taken, and M. Milerand's motion for the immediate discussion of the bill was lost by a vote of 270 to 257.

IMPERIAL FEDERATION.

Bitter Comments From a Russian Newspaper Source.

London, July 13.—Russian opinion of the British policy of imperial federation is voiced by the St. Petersburg Novoe Vremya:

"English patriots imagine that imperial federation will enable the British Empire to dictate with impunity to the world by means of an enormous fleet created by the common resources of the empire and complete economical independence. Herein, however, lies the weakness of the future federation.

"As soon as a British customs union is created, England, together with her colonies, will lose all connection with the rest of the world. A final rupture with her will then be of no consequence to any state, because all economic interest in her will be gone. In such a case, a permanent alliance or coalition among the continental powers would be very probable.

"Every time the British policy ran counter to the interests of Europe, that coalition would put in its demands, and no fleet or army, however great or powerful, could successfully enforce England's opposition. No fleet in the world would be able to protect from hostile cruisers the many thousands of miles of sea between the colonies and Great Britain.

"It would be equally impossible to blockade all the ports of Europe. A certain number of the enemy's warships would always escape pursuit and be able to cut off, or at least interfere with, the ocean trade of the mistress of the seas. Having no longer any connection with other states, and being temporarily cut off from her colonies, England would see the ruin of her industries and die of famine.

"It may be safely affirmed that without allies on the continent the island power will never issue victorious from a military conflict, and England cannot find an ally even now. This is the fruit of an exclusive, selfish, national policy long pursued without discrimination as to the means to the end.

"There now approaches the moment of retribution. A state shutting itself up within the narrow circle of egotistical aspirations will remain alone in the day of misfortune, and no project of federation will help it."

PLAINLY PUT.

Text of the Powers' Collective Note to Turkey—Saadi Bey Wants His Salary.

Constantinople, July 13.—The following is the text of the collective note of the powers to Turkey:

"The great powers have adopted the project of strategical rectification as it has been worked out by the military attaches and communicated to the Sublime Porte. In consequence, they have agreed to assure the Ottoman government that they have arrived at a firm determination to put an end to the obstruction, the only effect of which is the prevention of the conclusion of a peace eminently in the interest of Europe."

Saadi Bey, formerly chief accountant of the ministry of commerce, who was recently appointed Mutessarif of Urfa, refused to go to Urfa until the arrears of his salary shall have been paid. He has fortified his house in Constantinople, and surrounded it with armed men, to whom he has given orders to resist any attempt to abduct him.

Saadi Bey's appointment is tantamount to sending him to exile, and was made, it is said, because he was suspected of affiliations with the Young Turkey party.

A Turkish ministry, at a special session of the Cabinet yesterday, discussed the replies of the powers to the circular note of the Porte. Notwithstanding the unfavorable character of the response, a large majority of the ministers have reiterated their former advice to the sultan to insist upon the Peneios frontier. It is believed that the Porte, in maintaining this attitude, is acting upon the conviction that the powers would be unable to agree among themselves on any measures of coercion.

Column of Casualties.

Boy Accidentally Kills His Sister With a Hammer.

Fatal Accident to Simcoe Man While Moving a House—Crushed to Death by a Log.

Winnipeg, Man., July 13.—A shocking accident is reported from St. Norbet. Two little children, a boy and girl, 6 and 7 years old, respectively, belonging to Isaac Pareau, of the town named, were playing at home. They had made a little windmill, and the boy got up on one end of an outhouse, about 18 feet high, and nailed it on the corner, after which, not thinking of his little sister, he threw down the hammer. The girl was gazing upward, when the hammer came down and struck her on the forehead, the two claws entering her brain, and killing her instantly.

ACCIDENTALLY SHOT.

Qu'Appelle, N. W. T., July 13. — Theodore Scott, son of S. T. Scott, of the Progress, was accidentally shot yesterday by some boys who were shooting at a mark with small rifles, the bullet entering his head above the right ear. The bullett is still in his head, and his condition is very dangerous.

KILLED AT SIMCOE.

Simcoe, Ont., July 13.—C. C. Beemer, a respected resident of the town, died Sunday as a result of injuries received while moving a house. A limb of a tree caught on the building and impeded progress. Mr. Beemer went up to saw it off. When it was half-sawed through the strain broke it, and it flew back, throwing Mr. Beemer heavily to the ground. He was 56 years old.

Aylmer, July 13.—Mr. Arthur Wiggins, teamster for Jas. McNally's cooper shop, Aylmer, met with an accident on Saturday last, by which he lost his life. Wiggins was coming out of the woods with a load of logs, and was walking alongside when the wagon went into a rut in the path and tipped over. Before the unfortunate man could get out of the way one of the logs fell across his breast and another across his legs. The poor fellow was crushed, and lived only three hours after the accident. Deceased leaves a wife, and carried an insurance of $2,000. He was 45 years old.

DEATH OF H. R. ARCHER.

Guelph, Ont., July 12.—Mr. H. R. Archer, formerly a prosperous merchant of Wardsville, died last night at the Homewood Retreat, Guelph, aged 81 years.

SHOT HIMSELF.

Thorold, Ont., July 13.—Wm. Pike, coal dealer, and an old resident of the town, committed suicide by shooting about 10 o'clock yesterday morning. Mrs. Pike discovered the body about noon, lying with a revolver by its side. No reason can be assigned for the rash act.

STRUCK BY LIGHTNING.

Montreal, July 13.—On Sunday evening the G. T. R. station at Hummingford was struck by lightning and burned to the ground, nothing being saved from the station or Station Agent Scriver's house, which adjoined it. Loss about $150. Mr. Scriver did not fare so well, losing all his household effects, with no insurance. A few minutes afterwards lightning struck the house of Jas. Hadley, a farmer, less than a mile from the station. The buildings were entirely destroyed, and Mr. Hadley, who was milking a cow at the time was instantly killed. Deceased was 75 years of age.

DROWNED IN THREE FEET OF WATER.

Windsor, July 13.—Robert Lyons (colored), aged 21, was drowned at Kingsville Saturday. He was engaged as a farm hand with Lew Wigle, and had driven two of his employer's sons down to the lake. While the boys wandered around he went in to bathe, but caught cramps and went down in the water not three feet deep. The boys gave the alarm, but before Lyons could be got out he was dead.

Double Tragedy.

A Vancouver Man Kills His Sweetheart and Himself.

Jealously and Cross Words the Apparent Cause for the Crime.

(Special to The Advertiser via G. N. W. Line.)

Vancouver, B. C., July 13.—A double tragedy of a most sensational nature took place last night, in which W. J. Immett killed his sweetheart, Kitty Askew, and then shot himself.

The couple had been engaged for some time, but had frequent quarrels, Immett being jealous of the girl.

The girl, who worked as a waitress in the Boulder restaurant, got home about 9 o'clock, and found Immett ther waiting her arrival. Just as she entered the house she discovered she had lost a dollar bill, and commenced to search for it. Immett asked her what she was looking for and she, annoyed at the loss of the money, answered sharply that it was none of his business what she was lookitg for. She then went downstairs to look on the street for the bill.

Immett stayed behind, and on the girl's return he shot her. He had taken good aim, and death was instantaneous, the woman being shot through the breast and himself through the head.

Immett was about 28 years of age. He was a steady, industrious fellow, his quick temper and jealous nature being his worst fault.

THE CROP OUTLOOK.

Bright Prospects Throughout Western Ontario.

Toronto, July 13.—Mr. W. R. Brock, wholesale merchant, has returned from a trip through the country as far as London. He says the crops look excellent, fall wheat being specially good. Hay was being cut in large quantities and the prospects from a farmer's standpoint were very bright. The business outlook, too, he reports as very hopeful. Stocks are light in the stores and farmers' accounts not half as large as they were a few years ago. Many merchants have given up the credit business altogether, and after a general survey of the field Mr. Brock says that the people have every reason to be satisfied with the outlook.

Bristles In Your Teeth

Are not pleasant, but you'll get them every time you use a poor tooth brush.

Get a Brush

that is built right—costs more, but gives more satisfaction than a dozen "cheap" ones. Our "Hygienic" is THE BEST.

If the bristles come out of our 30c brush WE'LL GIVE YOU ANOTHER.

I Have Had Rheumatism for years, and Nerviline is the only remedy that has done me any good." So writes Thomas McGlashan, New Pelham, and his testimony is supported by thousands of others who have experienced the wonderful penetrating and pain subduing power of Nerviline—the great nerve pain cure.

The Beaver Line of steamships has been sold to Peterson, Tate & Co., the contractors for the fast Atlantic service.

We have no hesitation in saying that Dr. J. D. Kelogg's Dysentery Cordial is without doubt the best medicine ever introduced for dysentery, diarrhea, cholera, and all summer complaints, sea sickness, etc. It promptly gives relief and never fails to effect a positive cure. Mothers should never be without a bottle when their children are teething.

Dr. Wilson, a highly respected physician of Keewatin, Algoma, is supposed to have been caught in a squall while sailing Sunday afternoon about 3 o'clock and drowned. His body was found on an island, and his canoe partly full of water near Keewatin Island.

Dyspepsia Cured. Shiloh's Vitalizer immediately relieves Sour Stomach, Coming up of Food Distress, and is the great kidney and liver trouble. Sold by all druggists.
