Perhaps the most difficult geographical name in the United States is Youghiogheny or geny, as it is sometimes spelled, the name of a creek in Western Maryland and Pennsylvania. Few besides natives of the region pronounce it with the chief accent on the penultimate, and who so essays it with the accent elsewhere finds his mouth filled with a meaningless confusion of vowels and consonants. The first syllable is "Yough," pronounced "Yo," with a short "o." The second is "i" short, the "gh" following is almost, if not quite, unheard in the mouth of the native, while the last two syllables are those made familiar in "Allegheny," though there is even here a question of "a" long or "e" short. The pronunciation of Youghiogheny is, however, a simple matter with the modern spelling compared to what it must have seemed to the stranger who met it with the old spelling. On an ancient map of the region the name is spelled "Yoghyyoyhgania." Doubtless this spelling came nearer the mark that now in use to indicating aptly the Indian pronunciation of the name.
