Poetry, &c.

BEAUTY.

Men talk of beauty—of the earth and sky,
And the blue stillness of sweet moon and stars,
And search all language with a lover's eye
For flower of promise to look yielding minds (sighs,
And it is well within the soul to feel such
Such love for all things beautiful around.
But there is beauty that can never perish—
A hidden path no vulture's eye hath found.
Vainly ye seek it who in Sense alone
Wander amid the sweets the world hath given;
As vainly ye who make the Mind the throne
While the Heart bends a slave, meshed, driven.
Thou who wouldst know what beauty this can be,
Look on the sunlight of the Soul's chastened purity.

(Hogg's Weekly Instructor.

"There is a path which no fowl knoweth, and which the vulture's eye hath not seen."—*Job.* xxviii. 7.

THE JEWS.—At the meeting of the Evangelical Alliance, last week, the Rev. Ridley H. Herschell said, "The position of the Jews throughout Europe was different now from what it was fifteen or twenty years ago. A vast change had taken place in their character and condition. They now studied general literature, which was not then the case. Throughout all Germany, extending even into Russia, a movement has taken place among them, so that there is no country throughout Europe (except England) that has not one or more Jews in high office. In Germany, also, the newspapers are generally under their control. In their religious movements they are also undergoing a striking change. They have got quite a new idea in the minds of many of their leading men; it is this—that Judaism and Christianity should never have been placed in antagonism to each other. Now this is a very remarkable thing, though arising in an infidel feeling—that religion is a philosophy for an age. But still there is an extraordinary mysterious desire for union."

THE EVANGELICAL ALLIANCE.—At the proceedings of this body, in Glasgow, a sum was collected, amounting to £100 18s. 4d., to defray the expense of the deputation to Rome, for the release of Dr. Achilli. A vote of thanks to the Glasgow committee for the arrangements they had made, and for the hospitality with which the members of the alliance had been entertained, as well as another acknowledging the services of Sir C. E. Eardley and the office-bearers, was agreed to. The next meeting of the alliance will take place in Dublin.

Sir Culling Eardley was one of the chief men at the meeting of the Evangelical Alliance, at Glasgow, last week. He presided at all the "conference meetings," and he described the Alliance as his child.

An experiment has been tried with success in the neighbourhood of Sheffield, Eng. It consists of a model pauper farm, upon which a large number of able-bodied paupers are employed in bringing a large tract of hitherto waste land into cultivation. The plan originated with Mr. Watkinson, clerk to the Sheffield union, and at present works admirably.

How calm and unpretending is everything in God's visible world! no noise! no pretension! You never hear a rose growing or a tulip shooting forth its gorgeous streaks. The soul increases in beauty as its life resembles the flowers. Addison said that our time is most profitably employed in doings that take no figure in the world.

The Lord Mayor of London, Sir James Duke, M.P., entertained the members of the Town Council of Edinburgh, on Monday last, at a splendid dinner in the Mansion-house; his lordship's guests having travelled four hundred miles to partake of his hospitality.

PITCAIRN'S ISLAND.—The whole number of inhabitants is 147, divided into about an equal number of each sex. They are remarkably healthy, and generally prosperous. Only two cases of death have occurred the last five years, and those from casualty. The number of births in the same period was twenty-five. Nearly every family maintains family worship. Females, as well as males, over 16 years of age, vote for the chief magistrate, who this year is Mr. Simon Young. Nobbs is still school-teacher and minister. No community in the world enjoys more peace and comfort than this.—*Alliance and Visitor.*

[*From the Chronotype.*]

POLITICAL AFFAIRS OF CALIFORNIA.

The California Convention has got nearly to the completion of a Constitution in Committee of the Whole. Its Bill of Rights resembles that of most of the Atlantic States, with the following section, which is said to have passed unanimously.

SEC. XVII. Neither Slavery nor Involuntary Servitude, unless for the punishment of crime, shall ever be tolerated in this State.

Strangely enough, a section was afterwards introduced, which forbids the admission of Free Blacks into the State, and another which deprives negroes and Indians of the right of suffrage, although it had already been settled by section 13th that "As all men are entitled to equal political rights, representation should be apportioned according to population."

It was supposed, however, that these votes would be re-considered, on account of their hazarding the fate of the Constitution in Congress. A queer free soil it would be, which should exclude men on account of color, or deny them their equal rights!

The boundary of the new State is fixed as follows: commencing at the north-east corner which is the intersection of the 42d parallel of north latitude with the meridian of 116 west, it follows that meridian southward till it meets the treaty line of Mexico. Then it takes that line to the coast, the coast itself including islands and the 42d parallel to the place of beginning.

The Legislature is to consist of Senate and House of Representatives, the latter elected annually, and the former biennially. Both houses are to number not less than 24 and not more than 36 members. A Governor, Lieutenant Governor, Controller, Treasurer, Attorney General, and Surveyor General, are to constitute the Executive, and to be elected for two years. Banking corporations and lotteries are forbidden. Other corporations are to be established under general laws, and the stockholders are to be liable in all their property for the debts of the corporation.

The pay of officers of the Convention was arranged as follows:—Secretary, per diem, $28; Assistant do. do., $23; Engrossing Clerks, do., $23; Copying Clerks, do., $18; Interpreter, do., $23; Assistant Interpreter, do., $21; Chaplain, do., $16; Sergeant-at-Arms, do., $22; Door-Keeper, do., $12.

The members voted themselves each $16 per day, and the President $25.

ARRIVALS by sea at San Francisco for the month ending September 28. Americans 4271. Foreigners 1,531. Total 5,802, of whom 122 are females.

Speculation in house lots is still going on, and houses carried from China and the United find a sale at 1000 per cent profit. Washing is $8 per dozen.

INDEPENDENCE OF THE SANDWICH ISLANDS.—The *Boston Traveller* makes the important announcement that Kamehameha, King of the Sandwich Islands, has appointed James J. Jarvis, of Boston, a special commissioner to Washington, London, and Paris, with the request that he should negotiate treaties with the Governments of the United States, Great Britain, and France, by which in future a more complete political independence will be accorded to this young but most interesting Government. The former treaty, effected through the agency of Rev. Wm. Richards, secured as much as was to be expected at the time—as much, perhaps, as was desirable for the Islands themselves. Since that period, great advances have been made in civilization, and in the stability and material forces of the Government. The seed sown by missionary labour and self-denial has grown up and borne fruits, and the people that a few years ago were sunk in barbarism, are now capable of taking upon themselves the responsibilities of independent government. Mr Jarvis has long resided at the Islands, and entertains a just appreciation of the influence of the missionaries. He has the good of the Islands at heart, and we trust his diplomacy will be successful in securing for that people another advance in the march towards the dignity of a Christian nation.—*New York Evangelist.*

GOODS

DR. LA'MERT

ON THE SECRET INFIRMITIES OF YOUTH AND MATURITY.

With Forty Colored Engravings,

Just Published, 40th Edition, and may be had in French and English, in sealed Envelope, 2s. 6d. Sterling.

SELF-PRESERVATION:

A MEDICAL TREATISE ON THE PHYSIOLOGY OF MARRIAGE, and *Disorders of Youth and Maturity* usually acquired at an early period of life, which enervate the physical and mental powers, demolish and enfeeble the natural feelings, and exhaust the energies of Manhood. With practical observations on the Treatment of Nervous Debility and Indigestion, whether arising from those causes, close study, or the Influence of Tropical climates; Local and Constitutional Weakness, Syphilis, Stricture, and all Diseases and Derangements resulting from Indiscretion. With Forty *Colored Engravings*, illustrating the *Anatomy, Physiology, and Diseases of the Reproductive Organs*, explaining their structures, uses and functions, and the various injuries that are produced in them, by "solitary habits, excesses and infection."

No. 37, BEDFORD-SQUARE, LONDON,

Doctor of Medicine, Matriculated Member of the University of Edinburgh, Licentiate of Apothecaries' Hall, London, Honorary Member of the London Hospital, Medical Society, &c.

BY SAMUEL LA'MERT, M. D.

CONTENTS OF THE TREATISE:

CHAPTER I—On the Philosophy of Marriage, with its Hindrances and Obligations, and on Infelicitous and Unproductive Unions.

CHAPTER II—On the Anatomy and Physiology of the Generative Organs, their functions, structures, and secretions, proving that great Mental and Physical Power are dependant on their healthy action.

CHAPTER III—On Solitary Habits; their various effects on the Animal Economy; the concealed cause of Debility of the functions of the Stomach, Lungs and Brain, and general Weakness of the Mental Faculties.

CHAPTER IV—On the Secret Disorders of Youth and Manhood; Nocturnal Emissions, Gleet, Stricture, Local Weakness, Mental Debility, and Premature Decay.

CHAPTER V. and VI.—On the Disorders arising from indiscriminate Excess, Gonorrhœa, Gleet, Strictures, and other Diseases of the Urethra.

REVIEW OF THE WORK.

Marriage requires the fulfilment of several conditions in order that it may be really the cause of mutual happiness and not, as it only, which covers the origin of domestic wretchedness, be recorded and its prime source in every instance disclosed, in how many could it be traced to physical disqualifications and their attendant disappointments. Excesses are always injurious; the gift which, when used in moderation, is fraught with advantage, becomes, when abused, the prolific source of much evil, and of greater or less injury to the constitution and vital powers.

The particular excesses, on the nature and consequences of which this Treatise professes to dilate, are productive of greater misery to the human frame, than any other to which it is subject.

This Work contains an accurate and complete account of the Anatomy and Physiology of the Reproductive Organs, and of their relative connexions in health and disease. Nor are these the sole contents of the work; the means of escape, as well as the nature of the danger, are pointed out in clear and intelligible language. It deservedly requires the closest attention and study, for what subject can be of more importance than the preservation of health, and of the physical capabilities of which every man should be possessed. It unfortunately happens, that the unhappy victim of excessive indulgence and vicious habits, whether acquired in early life, or from the follies of advanced age, while suffering from their invariable consequences, unwisely entertains a fear of applying to a qualified physician for relief. Shame and the dread so frequently but erroneously entertained that these complaints are beyond the reach of art, alike restrict him, and prevent his seeking for assistance where alone it can be procured. In acting thus he forgets that accurate discrimination in ascertaining the causes of disease, sympathy with the sufferer, and above all, secrecy, invariably characterize the intelligent and practical physician, and to the medical man, who can shew by his possession of the requisite legal qualification, that he is entitled to esteem and respect in his professional pursuits, the utmost confidence should be extended. DR. LA'MERT has obtained the highest medical honours, as his diplomas testify, and the great extent of his practice for many years is a guarantee for his professional experience, which has reference almost solely to the treatment of these diseases.

The Work may be had in St. John, of H. CHUBB & Co., price 2s. 6d. Stg.; Halifax, Messrs. MORTON & Co.; Quebec, Mr. NEILSON.

August 21, 1849.

THIS preparation has now stood the test of several years' trial, and is confidently recommended as a safe and effectual medicine for expelling worms from the system. The unexampled success that has attended its administration in every case where the patient was really afflicted with worms, certainly renders it worthy the attention of Physicians.

Lowell, Mass., April 24, 1844.

I have a child six years of age, who has been troubled with worms for some time past, and I have endeavoured to obtain a specific, but have found nothing that could be relied upon, until *Fahnestock's Vermifuge* was recommended to me by a friend. I procured a bottle, and gave it according to directions, and in less than three hours my child passed seventeen large worms. I subsequently gave it two other doses, and it passed in all about one hundred worms. I also gave one tea-spoonful of it to a child three years old, and to my surprise it brought away more than a hundred fine worms, in less than two hours from the time I administered it. AMASA WOODWARD,

Moody Street.

☞ A Supply of the above valuable Medicine constantly on hand, and for Sale by the subscribers, whole sale and retail.

THOMAS WALKER & SON

St. John, June 5, 1849.

IN QUART BOTTLES.

FOR THE REMOVAL AND PERMANENT CURE OF ALL DISEASES ARISING FROM AN IMPURE STATE OF THE BLOOD OR HABIT OF THE SYSTEM, VIZ.

Scrofula or King's Evil, Rheumatism, Obstinate Cutaneous Eruptions Pimples, or Pustules on the Face, Blotches, Biles, Chronic Sore Eyes, Ring Worm or Tetter, Scald Head, Enlargement and Pain of the Bones and Joints, Stubborn Ulcers, Syphilitic Symptoms, Sciatica, or Lumbago; and Diseases arising from an injudicious use of Mercury, Nodes or Dropsy, Exposure or Imprudence in Life; also, Chronic Constitutional Disorders, &c. &c.

THIS Medicine has acquired a very extended and established reputation wherever it has been used, based entirely on its own merits, which its superior efficacy has alone sustained. The unfortunate victim of hereditary disease, with swollen glands, contracted sinews, and bones half carious, has been restored to health and vigour. The scrofulous patient, covered with ulcers, loathsome to himself and his attendants, has been made whole. Hundreds of persons, who had groaned hopelessly for years under cutaneous and glandular disorders, chronic rheumatism, and many other complaints springing from a derangement of the secretive organs and the circulation, have been raised as it were from the rack of disease, and now, with regenerated constitutions, gladly testify to the efficacy of this inestimable preparation. The testimony of those who have been cured by its use, with their residences, have been published from time to time; and were it desirable, a mass of the most overwhelming testimony could be brought forward, proving most conclusively its inestimable value. The afflicted, and those who have not used this medicine, are invited to make a trial of its virtues, and appropriate to themselves the benefits which it alone can bestow.

"TRUTH IS STRANGER THAN FICTION."

The attention of the reader is called to the following cure, effected by the use of Sands' Sarsaparilla.

This is to certify that I have a coloured woman who has been afflicted for the last five years with Scrofula, and all the remedies I used had no effect in arresting the progress of the complaint; on the contrary, she constantly grew worse; and after expending between $50 and $60 with physicians, besides using other popular remedies without success, till the disease had eaten away the cartilage of her nose, made its appearance on various parts of her body, and had finally commenced its ravages in the roof of her mouth.

In this dreadful situation, with the prospect of death staring her in the face, I stated her case to Dr. Dennway, the agent for Sands' Sarsaparilla in Newburgh, N. C., by whom I was advised to use that article; and to my surprise and that of my neighbors, to whom her case was known, after using four and a half bottles, she was restored to perfect health, and that in the space of three weeks, and was able to work in two weeks from the time she commenced taking it.—In witness of the truth of this statement, I have hereunto affixed my name, this 19th day of Sept., 1847.

JOSEPH McCOTTER, J. P.

Mouth of Neuse River Craven Co., N. C.

ULCER CURED OF SEVEN YEARS' STANDING

This cure was effected in July, 1841; there have not been any symptoms of a return, and her health still continues good, July, 1848.

New York, July 23, 1841.

Messrs. SANDS:—Gentlemen—I consider it an act of justice to you to state the following facts in reference to the great benefit I have received in the cure of an obstinate CANCEROUS ULCER on my breast.

I was troubled eighteen months by a regular and skilful physician, assisted by the best advice and counsel to omit an incurable and excruciating amputation, without the least benefit whatever. All the various methods of treating cancers were resorted to, for five weeks in succession my breast was burned with caustic three times a day, and for six it was daily syringed with a weak solution of nitric acid, and the cavity or internal ulcer was so large that it bid every appearance of the solution. The doctor probed the ulcer and examined the bone, and said the disease was advancing rapidly to the lungs, and if I did not get speedy relief by medicine or by an operation, the result would be fatal. I was advised to have the breast bone laid open and the bones examined; but finding no relief from what had been done, and feeling I was rapidly getting worse, I almost despaired of recovery, and considered my case nearly hopeless.

Seeing your testimonials and certificates of cure by the use of SANDS' SARSAPARILLA, in cases similar to mine, I concluded to try a few bottles, several of which were used, but, from the long deep-rooted character of my disease, produced no very decided change. Considering this as the only probable cure for my case, I persevered until the disease was entirely cured. It is now over eleven months since the cure was completed; there is not the slightest appearance of a return. *I therefore pronounce myself* WELL, and the cure *entirely effected by* SANDS SARSAPARILLA, *as I took no other medicine of any kind during the time I was using it, nor have I taken any since.*

Please excuse this long delayed acknowledgement, which I think it my duty to make. Your valuable Sarsaparilla cured me, with the blessing of Divine Providence, when nothing else could; and I feel myself under strong obligations to you. I can say many things I cannot write, and I do most respectfully invite ladies afflicted as I have been, to call upon me, and I will satisfy them fully of the truth as stated above, and many other things in reference to the case. NANCY J. MILLER, 213, Sullivan-street.

SANDS' CELEBRATED SARSAPARILLA.—This excellent compound, which is creating such a universal interest throughout the country, has made its way successfully into the favour of our citizens and the people around us. We have read many testimonials of the efficacy of this valuable medicine—it we can call it a very pleasant beverage medicine—but not until recently have we had any positive proof which could induce us to speak fairly of it. But from facts in our possession, we are now well convinced that, without any exception, it is the SAFEST, PLEASANTEST and BEST compound ever offered to the public, for the cure of all chronic diseases, rheumatism and scrofula, and all impurities of the blood, together with many other complaints.

It has so long been conceded that the age is one of nostrums and nostrum vendors, that we hardly dare recommend a valuable discovery in the Medical Science, lest we jeopardize our reputation for incredulity and consistency; but in this instance we hesitate not to hazard the remark which we have made above.—[Hartford Review.

SORE THROAT.

The following is an extract from a letter received from Mrs. B. Ryan, who had been afflicted several years with Scrofulous Ulcers, Dyspepsia, &c., and recently an affection of the throat and chest:

Baileystown Va., Dec 13, 1845

Messrs. A. D. & D. SANDS,—Before I commenced using your Sarsaparilla, my sufferings were almost past endurance; my throat was completely ulcerated. I had a dreadful cough, and there were frequently weeks together that I could not speak above a whisper; and besides, the inflammation from my throat extended to my head, so that my hearing was very much impaired. After taking the Sarsaparilla a short time, my health improved, and my throat is now well. I am as free from cough and tightness of the chest as ever I was, and can hear quite distinctly. My throat has healed about three months, the cure of which has been effected entirely by the use of your Sarsaparilla.

Yours, &c. LOUISA R. BEVAN.

SANDS' SARSAPARILLA.—SCARLET FEVER DISEASES OF ITS TERRORS.—This dangerous and alarming affection, which has swept from the stage of time so many both at the tender age of infancy, and the more vigorous and mature period of manhood, has at length met its bane and antidote, and its evil effects upon the system are laid waste by the powerful influence of this preparation.—A little grandchild of Mr. Wm. Patrick, wood cooper, was attacked with scarlet fever, which left her in a dreadful state; her body was covered with patches of scarlet eruptions; a large lump something like a tile, and at least two inches in diameter, made its appearance on the shoulder, which broke and discharged an almost incredible quantity of most offensive matter; and besides this, a large quantity was discharged from the ears, of a very offensive character. Almost despairing of ever stopping the discharge, they made trial of SANDS' SARSAPARILLA, which effected a complete cure, the child having taken only one bottle. For the benefit of those suffering from the baneful effects of this horrible disease, Mr. Patrick will be pleased to inform any person as to the correctness of this statement, if they call at his residence in Exeter street, near Fawn-st.—[Baltimore Sun.

Prepared and sold, wholesale and retail, by A. B. & D. SANDS, Druggists and Chemists, 100 Fulton-st., corner of William, New York. Sold also by Druggists generally throughout the United States and Canadas. Price $1 per Bottle; six Bottles for $5.

Astonishing Efficacy
OF
HOLLOWAY'S PILLS
AND
OINTMENT.

EXTRAORDINARY CURES BY

Holloway's Ointment.

CURE OF A DESPERATE CASE OF ERYSIPELAS.

Copy of a Letter from Mr. Joseph Gildon, Jun., a Farmer, East Kent, near Spilsby, Lincolnshire. 8th April, 1846.

TO PROFESSOR HOLLOWAY.

SIR,—I have the gratification to announce to you a most wonderful cure wrought upon myself, by the use of your Ointment and Pills. I had a severe attack of Erysipelas in my right foot, which extended along my ancle, and was attended with swelling and inflammation to an alarming degree, insomuch that I was unable to move without the use of *crutches*. I consulted a very eminent Physician, besides other Medical men, but to no purpose. At last I tried your Ointment and Pills, when, strange to say, in less than two weeks the swelling and inflammation subsided to such a degree that I was enabled to pursue my daily avocation, to the utter surprise and amazement of those who were acquainted with my case, seeing that I was cured so quickly. I and my family are well known here, as my father holds his farm under the Rev. J. Spence, Rector of our Parish.

JOSEPH GILDON.

Amputation of Two Legs Prevented.

Extract of a Letter dated Roscommon, February 29th, 1847, from the highly respectable Proprietor of the Roscommon Journal.

To Professor HOLLOWAY

SIR—Mr. Ryan, the well known proprietor of the Hotel next door to me, had two very Bad Legs, one with eight ulcers on it, the other with three, they were in such a fearful state that the effluvia from them was very great. Some time since he made a journey to Dublin for the purpose of consulting some of the most eminent professional men, but returned home to his family with the choice of two alternatives—to have both Legs amputated, or die!—On his way home he met a gentleman in the Coach who recommended the use of Holloway's Pills and Ointment, which he had recourse to, and was perfectly cured by their means.

(Signed) CHARLES TULLY,

Editor and Proprietor of the Roscommon Journal

Cure of a Desperate Scorbutic Eruption of long standing.

Extract of a Letter, dated Wolverhampton the 10th of February, 1847, confirmed by Mr. Simpson, Stationer.

TO PROFESSOR HOLLOWAY.

SIR,—Having been wonderfully restored from a state of great suffering, illness and debility, by the use of your Pills and Ointment, I think it right for the sake of others to make my case known to you. For the last two years I was afflicted with a violent Scorbutic Eruption, which completely covered my chest, and other parts of my body, causing such violent pain, that I can in truth say, that for months I was not able to get sleep for more than a very short time together. I applied here to all the principal Medical men, as also to those in Birmingham, without getting the least relief; at last I was recommended by Mr. Thomas Simpson, Stationer Market-place, to try your Pills and Ointment, which I did, and I am happy to say, that I may consider myself as thoroughly cured, I can now sleep all the night through, and the pain in my back and limbs have entirely left me.

(Signed) RICHARD HAVELL.

Bad Digestion, with extreme Weakness and Debility—an extraordinary Cure.

Mr. T. GARDINER, of No. 9, Brown street, Grosvenor square, had been in a very bad state of health for a long time, suffering much from a distended Stomach, very impaired digestion, with constant pains in his Chest, was extremely nervous, and so greatly debilitated as to be scarcely able to walk one hundred yards; during the long period of his declining he had the advice of four of the most eminent Physicians besides five Surgeons of the greatest celebrity in London, from whose aid he derived no benefit whatever. At last he had recourse to Holloway's Pills, which he declares effected a perfect cure in a very short time, and that he is now as strong and vigorous as ever he was in his life. This being so extraordinary a case, may lead many persons almost to doubt this statement, it may therefore be necessary to say that Mr. Gardiner is a broker, and well known.

☞ In all Diseases of the Skin, Bad Legs, Old Wounds and Ulcers, Bad Breasts, Sore Nipples, Stony and Ulcerated Cancers, Tumours, Swellings Gout, Rheumatism, and Lumbago, likewise in cases of Piles; Holloway's Pills, in all the above cases, ought to be used with the Ointment and not alone. The Ointment is proved to be a certain remedy for the bite of Moschettoes, Sand-flies, Chiegofoot, Yaws, Coco-bay, and all Skin Diseases common to Europe, the East and West Indies, and other tropical climates.

Burns, Scalds, Chilblains, Clapped Hands and Lips, also Bunions and Soft Corns, will be immediately cured by the use of the Ointment.

Sold by the Proprietor, 244, Strand, near Temple Bar), London; and by PETERS & TILLEY *Provincial Agents*, No. 2, King Street, St. John, N. B.; James F. Gale, Fredericton; W. T. Baird, Woodstock; Alexander Lockhart Quaco; James Beck, Bend of Petitcodiac; O. S. Sayre, Dorchester; John Bell, Shediac; Joel Lewis, Hillsborough; John Curry, Canning; and James G. White, Bedeisle.—In Pots and Boxes, at 1s. 9d., 4s. 6d. and 7s. each. There is a very considerable saving in taking the larger sizes.

N. B.—Directions for the guidance of patients are affixed to each pot.

FLUID

Extract of Valerian,

For Head Ache, Nervous and Hysteric Affections.

☞ READ THE FOLLOWING.

From Parker Cleaveland, LL.D., Professor of Chemistry, Materia Medica, Mineralogy, Geology and Natural Philosophy, Brunswick College, Maine.

Brunswick, Aug. 9, 1848.

Messrs. EDW. BRINLEY & Co.

I HAVE not till the present time found leisure to devote any attention to the "Fluid Extract of Valerian," a bottle of which you were kind enough to send me a few weeks since. I have now sufficiently tested it, to satisfy me, that it contains the active medicinal principle of Valerian, in a *purer*, more simple and concentrated state, than *any other* preparation of this root, with which I am acquainted. From the great success which has attended its use, I think the public may rely upon it as a very *valuable* medicine in all Nervous Affections, Headache, Sleeplessness, &c. Permit me to add that it is important that the manufacturer should *continue* to prepare the Extract with the same care as heretofore. With much respect, yours, &c. P. C. CLEAVLAND, M. D.

STATE LUNATIC HOSPITAL,
Worcester, Mass., August 7, 1848.

DAVID PARKER, *Shaker Village, N. H.*

Dear Sir:—Your favor of the 3d, has been received, and I hasten to reply. We have used only one bottle of your "Pure Fluid Extract of Valerian." In one case of a mild form of Delirium Tremens in which we used it, the agitation and trembling were calmed by one hundred drops of it.

I hope to be able to say something in favor of the Valerian before long; it is an elegant preparation.

Yours very truly,

GEO. CHANDLER, M. D.

We hereby certify that we are acquainted with the method of making the Pure Fluid Preparation of Valerian, as put up by the United Society of Shakers, at Enfield. It possesses the properties of the Valerian highly concentrated, and may be used in all cases where the medicine is proper, and will prove very much more efficacious.

DIXI CROSBY, M. D., *Dartmouth College, N. H.*
ED. E. PHELPS, M. D.,
JOHN CLOUGH, M. D., *Enfield, N. H.*
BENJAMIN GALLUP, M. D., *Lebanon, N. H.*
M. M. DAVIS, M. D., *Norwich, Vt.*
ALBIGENCE PIERCE, M. D., *Strafford, Vt.*
H. N. STILES, N. D., do. do.

March 17, 1847.

The above invaluable Preparation is equally efficacious in all Nervous and Hysteric Affections, Sleeplessness, and Sick Headache, producing quiet and tranquil sleep, and leaving no unpleasant sensations after its use,—the inevitable result of Opiates, Camphor, and the many articles usually administered.

☞ S. L. TILLEY, King-Street, Sole Agent for St. John, N. B. February 13, 1849.

A NATURAL REMEDY

Suited to our Constitutions, and competent to the cure of every curable disease, will be found in

WRIGHT'S INDIAN VEGETABLE PILLS
OF THE
NORTH AMERICAN COLLEGE OF HEALTH.

THESE extraordinary Pills are composed of plants which grow spontaneously on our own soil: and are therefore better adapted to our constitutions, than medicines concocted from foreign drugs, however well they may be compounded; and as the INDIAN VEGETABLE PILLS are founded upon the principle that the human body is in truth,

SUBJECT TO BUT ONE DISEASE,

viz: corrupt humors, and that the said medicine cures this disease on

NATURAL PRINCIPLES,

by cleansing and purifying the body; it will be manifest, that if the constitution be not entirely exhausted—a perseverance in their use, according to directions, is absolutely certain to drive disease of every name from the body.

When we wish to restore a swamp or morass to utility, we drain it of the superabundant waters; in like manner, if we wish to restore the body to health, we must cleanse it of impurity.

The Indian Vegetable Pills will be found one of the best, if not the very best, medicines in the world for carrying out the

GRAND PURIFYING PRINCIPLE,

because they expel from the body all morbid and corrupt humors, the cause of disease, in an easy and NATURAL MANNER,
