Yarmouth, (N. S.) Dec. 6.—Schr. Ellen Myles, Aaron Jeffrey, master, which arrived here yesterday from Salem, fell in on Tuesday morning last, at 11 o'clock, with schr. Alpha, Lynch, master, from St. John, N. B., waterlogged, having been cast down in the gale of Sunday evening—four men washed overboard; nothing standing but the foremast and bowsprit; sails all gone. The Ellen Myles lay by the wreck all Tuesday, it being too rough to board. On Wednesday morning, the E. M. having drifted far to leeward, another vessel—the Governor, Peters, master, from Brier Island—came up, and took the Alpha's crew off.

UNION MUTUAL
LIFE INSURANCE COMPANY
Of Boston.

No connection with Fire, Marine, or Health Insurance.

PERSONS Insured in this Company on the *Mutual* plan,—"the only plan" says Chamber's Edinburgh Journal, "which the *Public at large* are concerned to support,"—will have returned to them *all the Profits*, instead of a *portion only*, as in the *Stock* or mixed Companies.

The *advantages* offered by this Company are, *Annual Dividends* of 80 per cent., paid during the life of the party, in the order of rotation from the excess of a capital of profits of $200,000.

Parties may insure for 1 year or 7 years, for life, or until they act on the ages of 40, 50 or 60, and *for any sum* from $100 up to $5000, and at *any age* from 14 to 67.

Parties insuring for 1 or 7 years enjoy many advantages of a *mercantile* nature, at a *very small* expense.

Parties insuring for Life, can provide for those *dependent upon them*, notwithstanding *contingencies of trade*, as to which this Company's *Charter offers peculiar facilities*—See Section 3,—and those who insure until they arrive at the age of 40, 50, or 60, make a *sure provision for old age* and their families, in case of death—(the attention of the Public is *earnestly solicited to this*, and this Company's rates therefore.)

Parties may insure for Life *without profits* at a reduction of 30 per cent., from *life rates*.

Parties insuring for Life or until the ages of 40, 50 or 60, when the premiums amount to $40, can have a *credit* for half at interest, *without any increase of premium*—such *credit* for the *whole term* and not merely for the first 5 years. After payment of three premiums on surrender of Life Policy, the holder will receive its *equitable value in cash.*

This Office insures from the *nearest* birth-day, instead of the *next*, as in other offices. The Charter makes it "*unlawful to loan any sum of money to any Director or Officer of said Company upon any security whatever.*" In no case is the person insured liable beyond the amount of premium.

The Board of Finance (who are among the most reliable financiers of the country,) viz: Franklin Haven, President Merchant's Bank, Boston; Thomas Thacher, Merchant, Boston; and Ruel Williams, President Kennebec Rail Road, *superintend all investments* of the Company; 12 Directors, Hon. With FIFTY *Coloured Engravings*, illustrating the *Anatomy, Physiology, and Diseases of the Reproductive Organs*, explaining their structures, uses and functions, and the various injuries that are produced in them, "by solitary habits, excesses and infection."

No. 37, BEDFORD-SQUARE, LONDON,

Doctor of Medicine, Matriculated Member of the University of Edinburgh, Licentiate of Apothecaries' Hall, London, Honorary Member of the London Hospital, Medical Society, &c.

CHAPTER II.—On the Anatomy and Physiology of the Generative Organs, their functions, structures and secretions, proving that great Mental and Physical power are dependent on their healthy action.

CHAPTER III.—On Solitary Habits; their various effects on the Animal Economy; the concealed cause of Debility of the functions of the Stomach, Lungs, and Brain, and general weakness of the Mental Faculties.

CHAPTER IV.—On the Secret Disorders of Youth and Maturity, and the Treatment of Nervous and Local Weakness, Mental Debility, and Premature Decay.

CHAPTER V. and VI.—On the Disorders arising from indiscriminate Excess, Gonorrhœa, Gleet, Stricture, and other Diseases of the Urethra.

REVIEW OF THE WORK.

Marriage requires the fulfilment of several conditions, in order that it may be really the cause of mutual happiness. Could the veil, which covers the origin of domestic wretchedness, be raised, and its true source in every instance be disclosed, in how many could it be traced to physical disqualifications and their attendant disappointments. Excesses are always injurious; the gift, which when used in moderation is fraught with advantage become, when abused, the prolific source of mischief, and of greater or less injury to the constitution and vital powers. The particular excesses, on the nature and consequences of which this Treatise professes to dilate, are productive of greater misery to the human frame than any other to which it is subject.

This work contains an accurate and complete account of the Anatomy and Physiology of the Reproductive Organs, and of their relative conditions in health and disease. Nor are these the sole contents of the work, the means of cure, as well as the nature of the danger, are pointed out in clear and intelligible language. It deservedly requires the closest attention and study, for what subject can be of more importance than the preservation of health, and of the physical capabilities of which every man should be possessed. It unfortunately happens, that the unhappy victim of excessive indulgence and vicious habits, whether acquired in early life, or from the follies of advanced age, while suffering from their invariable consequences, unwisely entertains a fear of applying to a qualified physician for relief. Shame and the dread so frequently but erroneously entertained that these complaints are beyond the reach of art, alike restrict him, and prevent his seeking for assistance where alone it can be procured. In acting thus, he forgets that accurate discrimination in ascertaining the causes of disease, sympathy with the sufferer, and above all, secrecy, invariably characterize the intelligent and practical physician, and to the medical man, who can show by his possession of the requisite legal qualification that he is entitled to esteem and respect in his professional pursuits the utmost confidence should be extended. DR. LA MERT has obtained the highest medical honours, as his diplomas testify, and the great extent of his practice for many years, is a guarantee for his professional experience, which has reference almost solely to the treatment of these diseases.

☞ The work may be had in St. John, of H. Chubb & Co., price 2s. 6d. Sig.; Halifax, Messrs. MORTON & Co.; Quebec, Mr. NEILSON.
