JOHN HAYS HAMMOND AMBASSADOR TO KING'S CORONATION

(Canadian Press)

Washington, Feb. 14—President Taft has received from John Hays Hammond his acceptance of the appointment of special ambassador to the coronation of King George V.

The appointment will cause some surprise. Mr. Hammond has a long residence behind him in England and in the British possessions in South Africa but in the popular mind his name is connected with Great Britain on account of his part in the Jameson Raid. He was one of four leaders in the Jameson Raid with which "Who's Who." says he was not in sympathy. He was arrested and sentenced to death. Later this sentence was commuted to fifteen years' imprisonment and finally to a fine of $125,000 which he paid.

Since then Mr. Hammond has lived in London where he was interested in mining companies.

RECIPROCITY

(Canadian Press)

Washington, Feb. 14—Unless President Taft makes it known officially that an extra session of congress will be called if the proposed reciprocity treaty is not brought to a vote, there is little likelihood that the senate will act on it.

This is the view taken today by leaders who have been making enquiries among the members of the senate.

It is believed that President Taft can count on sixty votes in the senate if the proposed treaty is brought to the point of final action.

REPORTS ON LUMBER INDUSTRY IN STATES

(Canadian Press)

Washington, Feb. 14—Concentration of the control of the standing timber in a very few hands, vast speculative holdings "far in advance of any use thereof," an enormous increase in the value of "This diminishing natural resource, with the great profits to its owners," and incidentally "An equally sinister land monopoly" and a "Closely connected railroad domination," these are the findings reported to the president by Herbert Knox Smith, commissioner of corporations in the first instalment of his long awaited report on the lumber industry in the United States.
