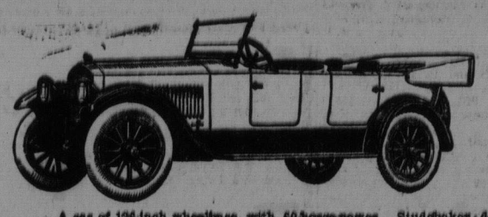
CARS

Series 20



BEAUTIFUL IN DESIGN
THOROUGHLY MODERN
MECHANICALLY RIGHT

A car of 126-inch wheelbase, with 60-horse-power Studebaker-designed and Studebaker-built demountable-head motor with two-range carburetor, shock absorbers, artistic straight side slanting windshield with ventilator base and integral corner lights, jeweled eight-day clock, tonneau light with extension cord, Gypsy top with rectangular plate-glass window in rear, 33x4 1-2 inch cord tires; weight 3,125 pounds.

The French-plaited, hand-buffed, genuine leather upholstery and wide, roomy seat, contribute greatly to its comfort and wonderful riding qualities.

Present capital investment, $60,000,000.

Plants cover 225 acres; buildings contain more than 5,750,000 square feet of active floor space.

Studebaker owns its foundries, forge plants, stamping plants, spring plants, and body shops.

The Series 20 Cars perpetuate the Studebaker reputation which for years has stood for high quality, honest dealing and fair prices.

To more fully appreciate the advantages of this complete manufacturing and merchandising policy, owners of Studebaker cars and others interested are invited to visit J. Clark & Son, the Studebaker dealer, at 17 Germain street, and carefully inspect the mechanical features of the Series 20 Models point by point, and ride in them.

Studebaker bodies are designed by Studebaker body engineers and built complete in Studebaker plants. Twenty-four paint and varnish operations are applied in finishing Studebaker bodies, the result being a permanent and beautiful finish of the highest possible quality.

The paneling and beautifully moulded fenders of Studebaker cars are designed and made in Studebaker factories.

Being complete manufacturers and one of the world's largest and oldest institutions, Studebaker makes its parts accurately according to its own designs and requirements, and of the best possible grades of material.

REPUBLIC TRUCKS

Have proven their worth to over 60,000 owners.

There are more Republic Trucks in use than any other make. Their record for ruggedness, for performance, for economy stands unequalled. These facts have made the Republic Company in seven years the largest manufacturers of Motor Trucks in the world. A special feature of the Republic Truck is the self-acting POWRLOK. The moment one wheel loses traction, power is instantaneously applied to the other wheel. Then under the impulse of traction on both wheels the car pulls out of the rut.

The state of Massachusetts gave Ten of these Trucks to the Relief of Halifax.

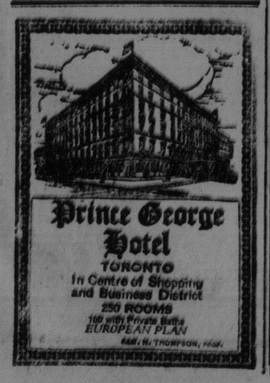
RAW SUGAR MAY GO HIGHER YET

((F. B. McCurdy & Co.)


I hear that a further rise in the price of raw sugar is imminent. This will help the cane growers and is undoubtedly the reason for the strength in shares of these companies. Cuban American sugar sold at 580 today, the highest point on record. Its shares will likely be split up 10 to 1 very shortly. It is one of the late crop companies and should participate in the high prices for raw during the summer months.
