Auctioneer.

St. Andews, Oct. 19, 1838.

To Trustees, Directors of Turnpikes, and others, interested in the construction of Bridges.

WITTY'S NEW PATENT BRIDGE.

Mr. WITTY offers to the public his New Patent Bridge. Its superiority over others may justly entitle it to a national consideration.—For crossing deep rivers, rapids or falls, it is unequalled since it can be placed across any of them, without Piers, and at a much less expense than on any other system at present used. It reaches from bank to bank in a right line, and *cannot be effected in the least by freshets, or ice, or hange of temperature.* At the same time there is a durability and safety which cannot be warranted by any other bridge now in use.

Several of them have been erected in the State of Missouri, one of which upwards of 100 feet in length, and others are in progress.

Advantages Offered.

1. Mr. WITTY offers to build Bridges over the most difficult Falls or Rapids, deep Rivers or Ravines.

2. His bridges cannot be swept away by freshets or large masses of ice.

3. They are more safe, and possess a much greater stability than those in present use.

4. The expence can be reduced, in *many instances*, to less than one half that of any other bridge whatever.

5. A Bridge upon Mr. WITTY's plan can be put across a river, in many cases, in a few days, and will not cost so much as the expense of the Piers, upon the old system of bridge-building.

6. This is now being extensively adopted in Europe, both for bridges and roofs, since it is equally calculated to support heavy roofs or warehouse floors, or for making wharves or jetties. In one instance, Mr. Witty, sen'r, has suspended in iron roof of upwards of twenty tons, with one beam; the span of the roof is fifty feet.

Any communication, post paid, can be addressed to Mr. R. J. L. WHITTY, Civil Engineer, City of Lowell, and will meet with attention.

The Colonial Churchman.

The work is under the gratuitous superintendance of Clergymen of the Church, and has now nearly reached the conclusion of the third volume. The Editors are anxious to extend its circulation in the City of St. John, and in New-Brunswick generally; and respectfully invite the support of Churchmen, and of all who are friendly to the diffusion of sound religious principles.
