SHARP'S COMPOUND

Concentrated Alkaline

Infusion of Sarsaparilla.

SARSAPARILLA Has of late years been much used, and with great success in cases of Chronic Rheumatism, as an alterative in Scrofulous affections, Scurvy, Obstinate Cutaneous Eruptions, Indolent Ulcers, diseases of the Periostrum and bone, attended with obscure pains, wasting of the flesh, tenderness of the parts, tumours and nodes unconnected with Syphilis, and in that state of the habit known among medical men under the term *Cachexia*, but which it is not easy to define; in such cases Sarsaparilla proves a most valuable remedy, and often effects a cure when all other remedies have long been administered in vain, and when the diseased state of the system has been of many years duration.

It is also considered by the most eminent surgeons of the present day, to be the best medicine for re establishing the constitution after it has undergone the effects of mercury.

This infusion contains all the properties of the Sarsaparilla, in a highly concentrated state, together with the addition of an alkali, which is strongly recommended by the late Abernethy, also by professor Brande, who in a late edition of his valuable work on Pharmacy, says, "the addition of an alkali in the preparation of Sarsaparilla, seems greatly to facilitate the extraction of the salable matter, and may be used with great advantage."

Amongst the advocates for this medicine, may be mentioned the names of sir B. C. Brodie, Bart., sir James Clarke, the late sir A. Cooper, Bart., Drs. J. A. Paris, M. Ryan, Graham, Marshall Hall, M.D. F. R. S. &c. &c. Prepared and sold in bottles, in 3s. 9d. each, by J. G. SHARP,

Debates of the House of Assembly.

AS the time is approaching for another sitting of the Legislature, the subscriber takes an early opportunity of informing the Public that it is his intention to Publish the Debates of the House of Assembly during the next Session.

He has already made an engagement with a competent person (Mr. James Hogg) who will give his entire attention during the Session to the arduous duties of a *faithful Reporter.*

Mr. Hogg's literary attainments are too well known to the Public to need any comment, by way of recommendation; and as he has never connected himself with a political party, he can have no object in view unless it may be to give an *impartial* Report of the speeches of our Representatives in the House of Assembly.

The Debates will be published *three times* a week, either in Quarto or Octavo form, as may hereafter be determined, and sent to subscribers for the "HEAD QUARTERS," for 7s. 6d.; or to such persons as may require them unconnected with that paper, for 10s., exclusive of postage.

☞ All orders for the Debates, especially to non-subscribers for the "Head Quarters," must be post paid, and accompanied with Cash, or the name of a responsable person, who may be considered a sufficient guarantee, for payment, when called for.

J. B. White & Sons,

MELBANK STREET, WESTMINSTER,

Patentees of

Keene's Marble Cement.

THIS CEMENT, which exceeds in hardness any yet offered to the Public, is intended for the Interiors of Buildings and is of two kinds: *fine*, and *coarse*.

The *fine* quality is delicately white, and is susceptible when properly worked, of as high a polish, as Statuary Marble. Incorporated with colours to form Scagliola, the imitation of variegated marble is effected with greater certainty, and less cost, than in any other material; and from the facility with which one colour is inlaid with another, very beautiful mosaic work for Tables, and architectural decoration, can be produced at small expense.

The *coarse*, or second quality, is available for Stucco, in situations where peculiar strength and durability are desired. Its adoption in place of wood, for skirtings, arch'ves and panel moulds rings, with other internal fittings, is attended with a very considerable saving in expence; renderbuildings so stuccoed, to a great extent fire proof, and unassailable by vermin or dry rot; added to which Rooms finished with this Cement, may be painted or papered at once, and thus fitted for immediate use.

KEENE'S Cement forms a beautiful in-door paving. For the floors of entrance halls, offices, churches, &c., it will be found to combine the durability and the appearance of Portland Stone at half the price.

General Agency and Commission Office,

No. 18, CORNHILL, LONDON, opposite the New Exchange.

To Merchants, Commercial News Rooms, Public Libraries, Agricultural Societies, Officers of the United Services, Printers, Publishers of Newspapers, & Colonists generally.

P. L. SIMONDS, General Agent and Commission Merchant, in offering his services to his friends and the Colonial Public in general, begs to acquaint them that he is ready to receive orders for supplies of any kind and quantity, and goods of every description of first rate quality, at the very lowest market prices of the day, and to transact business upon the most liberal terms, provided he is previously furnished with funds or drafts, at either long or short dates, or a reference to some London or Liverpool house for payment.

P. L. Simonds will receive consignments of any description of Merchandize to be sold on commission, and accept bills for two-thirds of the amount, on receipt of the bills of lading. Consignments entrusted to his care will meet with every possible dispatch in their disposal, and sales be conducted with the greatest attention to the interests of the disposer. An extensive knowledge of general business, acquired during a long residence in the West Indies and subsequent extensive courses of business with all the British Colonies, the experience of several years in London as a Colonial Agent, coupled with promptitude, attention, and judgment, will, he trusts, enable him to give satisfaction to those who may favor him with their commands.

N. B.—Parents sending home their children for education, may with confidence entrust them to the care of Mr. Simonds, who will undertake to see them placed in first rate and respectable establishments, where every attention shall be paid to their health, morals, improvement, and general comfort.

BUNTING'S VETERINARY

TABLET;

Being a Synopsis of the Diseases of Horses and Cattle, with their cause, symptoms and cure.

By Peter Bunting, Veterinary Practitioner, St. John.

THE Subscriber in offering this Work to a generous and discerning Public, would respectfully intimate, that it combines the experience of the most eminent Veterinary Surgeons and Practitioners of Europe, and that the whole has been carefully revised by the Author, and such alterations made that suit to the peculiarity of the climate of New-Brunswick required. Notwithstanding the perfection to which the art has arrived in Great Britain, there are diseases known there, which have never been known to exist here, and vice versa; consequently an English Veterinary Tablet, would be found to be very imperfect indeed in North America. He would also beg leave to assure Farmers, and others, that with his Tablet before them, very few cases of disease would ever occur, which they would not be enabled to treat with perfect safety, by following the instructions there laid down.
