WHEAT GOES STILL LOWER.

Another Chicago Drop in Futures on Saturday.

An Advance Reported From Liverpool, and Antwerp Was Higher With Paris Inclining Lower—Corn, Oats and Provisions All Weaker—Gossip.

Saturday Evening, June 4.

This week has been distinguished by the breaking of Leiter's great May wheat deal, and at Chicago the June delivery is 63c per bushel lower than a week ago, while July is 11c, September 4½c and December 2⅝c per bushel below last Saturday's figures. At Toronto, Ontario red has fallen about 11c, and Manitoba hard about 10c per bushel. Liverpool and Continental markets have also slumped heavily. The decline was brought about by the immense world's shipments, which the high prices brought out to fill Europe's needs, and by the approach of what promises to be a bountiful harvest.

At Chicago to-day a further decline of 1⅜c to 1⅞c per bushel occurred in futures, and the June delivery eased off ½c. Foreigners sold September wheat, and the demand from abroad seems to have dropped off.

Toronto red and Manitoba hard remained weak at 96c to 97c, high freights, and $1.22 to $1.25 afloat at Fort William, respectively.

At Liverpool, July wheat was up 2¼d and September 2⅜d per cental.

Corn ruled lower in Chicago, and ½d to ⅝d off in Liverpool. Oats are weak.

Provisions declined in Chicago in sympathy with grain.

Peas fell 2d in Liverpool.

White cheese dropped another shilling to-day.

English country farmers' deliveries of wheat the past week have totalled 30,500 quarters, at an average price of 46s 3d.

September wheat puts at Chicago to-day 70⅞c, calls 80c. Puts on September wheat, good next week, 73c; calls, 86c.

July corn puts at Chicago 32½c, calls 33c. Puts on July corn, good all next week, 23¼c; calls, 35c.

Exports at New York to-day: Flour, 12,462 barrels and 13,481 sacks; wheat, 45,538 bushels.

The Ohio crop report for June makes wheat condition 82 per cent., an advance of 7 points since May, 10 points since April and 15 since March. A fair crop and early harvest are indicated. Oats 91c. Heavy rains have injured oats and delayed corn.

Receipts of wheat at Minneapolis and Duluth to-day, 164 cars, as compared with 340 cars the corresponding day of last year.

Live stock receipts at Chicago to-day: Cattle, 200; sheep, 2000; hogs, 13,000.

Exports Large.

Exports of wheat and flour from Canada and the United States this week have totalled 5,248,086 bushels, against 4,309,132 bushels last week, and 2,620,083 bushels the corresponding week last year.

Exports of corn this week have been 6,605,422 bushels, against 6,164,451 bushels last week and 2,396,733 the corresponding week last year.

Chicago Gossip.

Henry A. King & Co., 12 King-street east, received the following despatch to-day from Chicago:

Wheat—The speculative wheat market opened about ⅜c lower than yesterday's closing prices and has ruled easy most of the short session. Liverpool came higher, showing an advance of ¼d, but Paris was unchanged to 35 centimes lower on wheat and 20c up to 50c lower on flour and Antwerp closed 25c higher. Exports for the week were 5,248,086 bushels, against 4,309,133 last week and 2,620,083 last year. Foreigners were sellers of September early. July ruled firm and in good demand. Northwest receipts were moderate, 164 cars, against 340 cars a year ago. Bröomhall cable says arrivals of breadstuffs in the United Kingdom past week were 2,400,000 bushels, against the same previous week and 3,136,000 bushels a year ago. British ports stocks 8,000,000 bushels, compared with 16,000,000 bushels last year. The interest in the wheat markets seems to be flagging, and the trading everywhere shows quiet and dull markets. The business in wheat here to-day has been limited as compared with recent dates. During the last half hour of the session the market turned weak and dropped off over a cent. Commission houses sold some good lots of September. Sample wheat was rather steadier both here and in the Northwest, demand being especially good for spring grades. Primary receipts were 252,839 bushels, against 331,000 bushels last year.

Corn and Oats—Both markets ruled lower and were heavy in sympathy with weakness displayed in the wheat market. Cables were ¾d lower on corn. Barrett and Farnum were good sellers of corn early. Elevator people sold oats. Receipts were large, corn 1003 cars and 197 oats.

Provisions opened higher this morning; offerings were rather light at the advance, and only a light demand. Anglo and Chicago Packing Co. were the leading sellers. Hogs closed quiet. Clearances fair. The different articles sold off sharply in sympathy with prices in wheat and closed at low prices for the day. Estimated receipts of hogs Monday 29,000 and next week 140,000. Fairbank's report shows the world's stocks of lard May 1, 323,000 tierces, against 305,000 tierces April 1.

East Buffalo Cattle Market.

East Buffalo, June 4.—Cattle—Receipts light and about all composed of Canada stockers and a few odd lots of fat cows, which were peddled out to the local trade, nothing being done with the Canada stockers.

Veals and Calves—Receipts light; market ruled slow for all but the best fat veals, and these sold at about steady former prices. Top veals brought $5.85 to $6.25; common to good, $4.50 to $5.75.

Hogs—Receipts fair; market slow and weak for the lighter grades and pigs and steady for others. Good to choice Yorkers, $4.25 to $4.30; light to good Yorkers, $4.10 to $4.15; mixed packers' grades, $4.35; medium weights, $4.40; heavy hogs, $4.45; roughs, $3.85 to $4; stags, $3 to $3.25; pigs, $3.50 to $4.

Sheep and Lambs—Light supply of fresh sale stock, but quite a number held over from yesterday's late advance. The market was slow and easier for sheep, with lambs also weaker for all but the best handy lots. Native lambs, choice to extra, $5.25 to $5.35; fair to good, $5 to $5.15; culls to common, $4.25 to $4.75. Native clipped sheep, choice to selected wethers, $4.60 to $4.70; good to choice mixed sheep, $4.20 to $4.50; common to fair, $3.50 to $3.90; culls to common sheep, $3.25 to $3.50.

Securities on Saturday Resumed the Strong Tone

Which Characterized Both American and Canadian Lists Early in the Week—Prices of Leaders, as Compared With a Week Ago—Gossip.

Saturday Evening, June 4.

During the past week there has been a marked appreciation in Canadian securities, the improvement being attributable partially to sympathy with Wall-street, but more directly to generally good trade conditions, increased earnings of transportation companies and the ease of money. The distribution of bank dividends in Montreal on Wednesday rendered about a million dollars available for investment purposes. On Thursday and Friday the market showed a slightly weak tone, but to-day the list recovered its firmness, and scored a general fractional advance. The week's advance in the leaders on the Toronto board has been: C.P.R. 3 points, Toronto Electric 1⅝, Cable 3¾, Richelieu 2⅝, Montreal Gas 4½ and War Eagle 14 points.

The week's movement at Montreal was in accord with that at Toronto, War Eagle being the feature there, as well as here.

During the week the trend of Wall-street has been again upward, and the list as a whole continues to throw in the shade the prices that ruled before the war. The ease of the money markets and the increased earnings of railways and industrials, are responsible for the advances, and, of course, the drift of the war has also exerted a sentimentally bullish influence. On Thursday and Friday the market experienced a slight setback, largely because of profit-taking sales, but to-day the firm tone was again in evidence, and leading stocks rose from a fraction to two points. Following are some advances for the week: Sugar 5⅝ points, B.R.T. ¾, C. & O. 1¾, L. N. 1¼, N.P. pref. 2⅝, St. Paul 2½, Rock Island 1 and Southern pref. 2 points. One cause of to-day's strength was the feeling that Congress would throw out the silver coinage amendment to the war revenue bill.

Consols closed ⅛ lower in London.

In Paris, 3 per cent. rentes were at 103f 22½c.

At London, Spanish fours closed at 35¾, and at Paris at 36.

At New York, United States bonds closed: U.S. new fours, reg., 123; do., coup., 123; U.S. fours, 108½; do., coup., 111; do., seconds, 95½; U.S. fives, reg., 111½; do., coup., 113.

There is a rumor that a dividend will soon be declared on Northern Pacific common.

Wabash earnings for the fourth week in May increased $61,213, and for the month $210,488.

Missouri Pacific earnings for the fourth week of May increased $104,000, and from January 1 increased $1,448,407.

Montreal Street Railway earnings for Thursday, the 2nd inst., were $4278, an increase of $777.

A Washington despatch says: Notwithstanding the large majority for the proposition providing for coinage of the seigniorage on the part of the Senate, Senators says that the House will refuse to concur and the Senate will recede after a speech-making contest.

C.P.R. earnings for May were $2,229,000, an increase of $281,000 over the same month last year.

Grand Trunk earnings for May were $1,940,980, an increase of $196,538.

Money Markets Easy.

Money grows easier in the world's markets. This week the Bank of England has reduced its discount rate from 3½ to 3 per cent., making a total reduction of 1 per cent. in the course of a few weeks. The open market rate in England has come down to 1⅛ per cent., and in New York call loans are quoted at 5 per cent., but a decline to 4½ per cent. is likely any day. The distribution of dividends by several Canadian banks this week leaves considerable money floating around for speculative investment.

Though money is so easy in London today, there are indications that the present overplus of gold in the Old Land will not continue. For the first time in nearly two months, the weekly account of the Bank of England shows a decrease (£168,000) in bullion holdings, which may be taken to indicate that the process of strengthening cash resources by diverting into the bank treasury incoming supplies of gold has, for the time being at least, ceased. The truth is that in the present ease of the London money market the natural tendency of the gold movement is rather out of than into the country. Already the demand for British funds to move the Russian and Indian wheat crops is making itself felt, and the recent decline in sterling exchange on the Continent of Europe, particularly at Berlin, suggests that British capital may soon find a more profitable use abroad.

Money Markets.

Money markets continue easy. On the local market call loans are quoted at 5 per cent. In New York call loans to-day were at 1¼ to 1½ per cent. The Bank of England discount rate is 3 per cent., and the open market rate is 1 13-16 to 1⅞ per cent.

New York Gossip.

Henry A. King & Co., 12 King-street east, received the following despatch today from New York:

The stock market recovered promptly from the reactionary movement of yesterday afternoon. Belief that the silver coinage amendment to the war revenue bill would be eliminated in conference committee helped to rob of importance the action of the Senate yesterday. The improvement in London also contributed to the better temper of speculation, and the defeat of the paper money issue provision in the Senate was accounted as favorable. There was aggressive strength in the Northern Pacifics, the common stock being influenced by rumors of an early dividend declaration. Union Pacific preferred and the Grangers recovered sharply. There was an advance of nearly 4 per cent. in C. C. C. & St. Louis on reports that the back dividends on the preferred stock were to be cleaned off, so that dividends could be resumed on the common stock. There also was talk of plans of consolidation with the C. & O. General Electric was very strong rising over 1 per cent. on account of the large improvement in the company's earnings. People's Gas rallied nearly a point on assurances that Chicago's Mayor was opposed to the latest striking scheme of the aldermen of that city. M., K. & T. recovered over 1 per cent. and Pacific Mail was decidedly strong. There was hardly an exception to the general improvement recorded. The market closed strong and confident. Government bonds were unchanged. Railroad bonds were strong and active.

London Money Markets.

New York, June 4.—The Evening Post's financial cable from London says: The stock markets here were quiet to-day. The tone was steady, but consols and India issues were a shade lower. Americans were steady and quiet, and mostly above the New York parity. Spanish bonds were strong. The Paris Bourse was good.

At New York.

New York, June 4.—There was no trace left to-day of the reactionary tendency manifest in the stock market late yesterday.

The use of money reflected in the loan expansion is a healthful feature of the business outlook. The closing was active and strong, near top prices, net gains in the case of most active stocks ranging between one and two points, and in exceptional cases above that.

A HEAVY FAILURE

Which Involves a Number of Big Concerns—Ottawa Interested.

Elmira, N. Y., June 4.—A. Weston & Co., bankers, at Painted Post, N. Y., and the Weston Engine Company, made a general assignment to Hon. John B. Stanchfield of this city yesterday. Assets large and liabilities larger, but amount unknown.

Enterprises at North Tonawanda, N. Y.; Manistique, Mich.; Ottawa, Ont., and Governeur, controlled by A. Weston, may be involved, tieing up from $2,000,000 to $5,000,000 worth of property.

S. Ackerman, commercial traveler, Belleville, writes: "Some years ago I used Dr. Thomas' Eclectric Oil for inflammatory Rheumatism, and three bottles effected a complete cure. I was the whole of one summer unable to move without crutches, and every movement caused excruciating pains. I am now out on the road and exposed to all kinds of weather, but have never been troubled with rheumatism since. I, however, keep a bottle of Dr. Thomas' Oil on hand, and I always recommend it to others as it did so much for me." ed

The choir of Sherbourne-street Methodist Church, under the leadership of Arthur Blakely, rendered special musical selections during the service last evening. The church was comfortably filled, and the sermon was delivered by the pastor, Rev. James Allan.

Young Men's Hats
The Silk Hat is essentially the correct dress hat for a young man—and every man should count himself young until he is well past fifty. But the nobblest shapes in Silk Hats designed for this season are for the coming men who are just rounding the first turn in manhood—for bridegrooms and others just embarking in business on their own account. Exquisite styles in Silk Hats for Young Men are shown at Dineens' from $5 up.
