HOLLANDERS EN ROUTE FOR JAVA HAD GLIMPSE OF LONDON YESTERDAY

Three hundred and thirty-six Hollanders passed through London on Monday in the G. T. R. "Dutch Special" en route for San Francisco. They are on their way to Java, where they will remain for five years. It has been the custom of the Holland Government to send out a lot every five years to work on the island plantations. They made a rather interesting party with their quaint but picturesque costumes. Fifteen coaches were occupied by them. The train did not stop long at London, and they had no time for sight-seeing. They were taken on their way to the west via Port Huron.

TANK UNIT IN ENGLAND.—Mrs. Gordon Tennent received a cable from her husband, Lieut. Gordon H. Tennent, who went over with the 2nd Tank Battalion, under Major N. K. Cameron, saying he had arrived safely and was well.

BUY YOUR CHILDREN'S SHOES WITH CARE---
Buying shoes for the children should be attended with just as much, if not more, care than when parents are buying shoes for themselves. In the growing period it is so easy to do the child's foot an injury by an ill-fitting shoe, and the responsibility for future trouble from that cause must rest with the parent who was not sufficiently careful. Our stock comprises shoes of every kind, of every size for children, from the tot to the youth or miss. Our staff are trained and experienced in fitting, and take as much pains with the child as with the adult.
BRING THE CHILDREN TO THIS STORE FOR SHOE SATISFACTION. WE GUARANTEE IT.

THREE OF FAMILY ARE VICTIMS OF "FLU" IN PERIOD OF TWO WEEKS

O. H. Littleford, Wife and Child Die—Two Sons Orphaned.

O. H. Littleford of Cartier, 39 miles north of Sudbury, his wife and child, have succumbed to pneumonia developed from Spanish influenza, all within two weeks. Mr. Littleford was the first victim. He died on October 17. His wife and three children accompanied the body to Denfield, where interment was made, but on the way, Mrs. Littleford was taken sick, and was unable to attend the funeral. She was taken to the home of her father, George Brown, of Lobo Township. The little 4-year-old daughter of Mrs. Littleford was also taken ill with Spanish influenza, and died a few days after their arrival from Cartier. Mrs. Littleford died on Sunday from pneumonia. Two little sons, Edward and Osborne, survive their father, mother and sister. Although they are both ill with influenza, it is expected that they will recover. The funeral of Mrs. Littleford will be held from the residence of her father on Tuesday afternoon. Interment will be made in St. George's Cemetery, London Township.

Iron Recommended After Influenza.

Any doctor will recommend that people take iron to build up the blood after an attack of Spanish Influenza. The germs of this dread malady impoverish and poison the blood, and as a result the system is left in a weakened condition. The limbs feel weak, and the man or woman recuperating from "Flu" find they have no inclination to perform their duties. The best and most modern way known to science to take iron is in the form in which it is put up in Tonal-Iron Capsules, the new French gelatin remedy, and hundreds of people are using it after an attack of influenza with excellent results. These capsules are soft and dissolve very quickly in the system, and all the iron they contain is quickly absorbed. This remedy also contains several other non-narcotic stimulants, and creates an appetite, as well as working on the bowels, liver and kidneys. When hard pills are taken into the system they frequently pass through whole without benefiting in any way. Tonal-Iron Capsules are guaranteed by the manufacturers, and are sold by all druggists in Canada and the United States for $1 a box, or mailed anywhere in Canada on receipt of the price. Tonal-Iron Company, Box 184, London. ywt

FARMERS CAN BUY COAL ONLY AFTER GETTING A PERMIT

Ontario Controller Orders Regulation Enfoced Here.

MAY CUT CITY'S SHARE

Over Fifty Per Cent of Coal Received, Declare Dealers.

Any person living outside the city limits, except those living in the immediate vicinity of London, will be required to get a permit from J. W. McCallum before he can purchase coal in London in future. This was decided at a meeting of the coal dealers with J. W. McCallum, local fuel controller, on Monday afternoon. Ald. F. E. Harley and Controller J. M. Moore were also present. It was decided to take this action on account of the order which Mr. McCallum received recently, stating that this course would have to be followed in the case of the farmers.

Will Report Weekly.

A weekly report of the coal received will also be made to J. W. McCallum by all the dealers. He has been asking for some method by which he can keep tab on the amount of coal which London receives, and it was decided that in this way it could be done.

Mr. McCallum received a telegram from E. L. Cousins, fuel administrator for Ontario, stating that on account of the "flu" epidemic there was a possibility that London might have to cut still further on its supply of anthracite coal. It also suggested that the dealers be called together for the purpose of laying the matter before them, with the idea of urging them to secure a supply of bituminous coal to make up for any possible deficiency in anthracite.

Situation Encouraging.

In the opinion of those present the coal situation this fall is far more encouraging than it was during the corresponding period last year. It was agreed that London already has between fifty and fifty-five per cent of its allotment of coal delivered. If this estimate is correct many will conclude that it has not been evenly distributed, as there are many families in the city who have no coal in yet.

"This condition would have been remedied by a card system of distribution," says Mr. McCallum.

It was decided by the dealers that they would not stock up with bituminous coal for fear that it might be a white elephant on their hands.

Practically all the coal yards were represented at the meeting.

SOCIETIES TO JOIN TOGETHER TO HELP SOLDIERS' FAMILIES

Joint Bureau to Prevent Overlapping—May Ask for Funds.

Considerable overlapping has taken place in London in handling relief work for returned soldiers, and their dependents. This is going to be prevented in the future, if possible, by having a bureau where all in need of help may apply. A file of the names of those receiving help will be kept. This bureau will be operated by two representatives from each of the organizations interested in the welfare of the soldiers. Each society will choose its own representatives to make investigations among those that are in need of help. A report will be made in each case to the bureau, where it will be filed.

This was decided at a joint meeting held last night by the G. W. V. A. relief committee and the executive of the Soldiers' Aid Commission. It was stated that the applications for help come mostly from persons with money due them. They are in immediate need of it, and apply to the Soldiers' Aid Commission for a loan, which they return in a lump sum or in payments. It was suggested that the funds of the different organizations be pooled. One has already used up its money in relief work, and is at present short of funds.

It is likely that the city will be asked to make a grant to the bureau when it gets under way. Letters are being sent out to the different societies giving full particulars and asking for their aid in the matter. Quite a number of persons are getting relief from the Soldiers' Aid Commission, and then asking for aid from other societies, while the most distressing cases are hardly ever heard from, and then only through indirect sources.

"NATIONAL FISH DAY" IS HEARTILY APPROVED

It Will Take Years to Stock Europe With Meat.

OTTAWA, Oct. 28. — The naval service department in a memorandum issued today commends the action of the Canadian Fisheries Association in setting apart April 31 as a "national fish day," and expresses the hope that the press and the people will do their part to make the day a notable success.

The department points out that it will be the duty of Canada for years after the war to send overseas every ounce of meat available, and that the substitution of fish for meat is possible, because fish can be delivered in one form or another in perfect condition in any part of Canada.

QUERIES REGARDING MILITARY SERVICE

Address Your Problems to the Military Editor of The Advertiser and They Will Be Answered From Official Information.

Notice: Information given out at local military headquarters states that recruits are now being accepted for reinforcements to the Tank Battalions overseas; infantry of the Siberian Expeditionary Force, and artillery of the same force, if recruits are qualified. Recruits are also being accepted for the Machine Gun reinforcements to be sent to France. Recruits for enlistment should apply at any recruiting office in this military district or to the Mobilization Centre, Carling Block, London, Ont.

MAC OF IOLA: Q.—1. Will men reporting from harvest leave be quarantined in; if so, for how long?
2. Are they extending passes on account of the Spanish influenza being at the camp?
3. Are they re-examining men from harvest leave when they report?
A.—1. No. They will be given a searching medical examination only, and if suspected Spanish influenza cases will be isolated.
2. No, not according to present regulations. But it will be announced in the news columns of this paper that harvest leave is to be extended to November 15 in this military district.
3. Yes.

IGNORANT: Q. — Who is in charge of all soldiers in this military area?
2. How should a letter to him be addressed?
A.—1. Brig.-General L. W. Shannon, C. M. G.
2. Wolseley Barracks, London, Ont. If the letter is regarding a soldier and not of a personal nature it should be addressed to the A. A. G., Military District No. 1, Wolseley Barracks, London, Ont.

A.B.C.: Q.—A father with four sons (all he has) in France is unable to work his farm. One has been badly gassed and two have been wounded. Could he not get the youngest, who is only 19, back to Canada to help him?
2. If it is possible to do this, to whom should I write regarding same?
A.—1. It is possible that he may be permitted to return on compassionate grounds?
2. Forward your application with the facts of the case in full. Names of four sons, regimental numbers, dates of enlistment, units in France, to the district intelligence officer, Wolseley Barracks, London, Ont., and the case will be forwarded to Ottawa for consideration and action.

J. B.: Q.—Is the heavy artillery open for recruits in Ontario at present?
2. Could you give me any information regarding the Engineers and Signal Corps?
A.—1. No, there may be an opening for recruits in this branch of the service at Halifax, and the officer in charge of recruiting at military headquarters here has written for information regarding same. If you will address a query to this department in about ten days time this information, if available, will be given you.
2. The Engineers are accepting A2. recruits of good ability, qualified as clerks, signallers, carpenters, builders, electricians, wireless operators, etc., for immediate service overseas. The Signal Corps is not open for recruits here, but signallers are accepted for the Engineers, or Inland Water Transport service. Apply to any recruit officer in the district, or at the mobilization centre, Carling Block, ondon, Ont.

VOLUNTEER: Q.—Is a soldier honorably discharged after service in England eligible to become a member of the Great War Veterans' Association?
A.—Yes. He is eligible, having served in the Canadian army overseas.

B. B. Q.—I am an American, registered with the American consul at Windsor, in September, for United States service. Can I be taken to serve in the Canadian army?
2. What is meant by diplomatic exemption?
A.—1. No. You must register for service under the military service act in order to protect yourself while in Canada, after which you will receive exemption papers, and be allowed to serve in the American army when called upon to do so by the United States authorities.
2. Diplomatic exemption is exemption granted to Americans resident in Canada by their consul, or exemption granted to Canadians resident in the United States by the British consul.

GALT. Q.—Are all men in lower categories to be examined?
2. Has not this district already been re-examined?
3. If not, when will the rest be re-examined?
4. Is category C3 being re-examined?
A.—1. Yes, provided that the need for men warrants such procedure in the future.
2. No.
3. The deputy registrar here has received no instructions to re-examine all men in categories lower than A as yet, and therefore the date of such re-examination is not known.
4. No, not yet.

PTE. J. A. B. Q.—What branches of the service are open for category A2 men in the Western Ontario Regiment to transfer to?
A.—Siberian Expeditionary Force (infantry, also artilllery (if specially qualified), Canadian Engineers and machine gun section. It is likely that an opportunity will be given such men to transfer to the tank battalion in the near future, but there is no official authority for such procedure at present, the tank battalion being a selective unit.

LATE DR. BEAL WAS FIRST TO LECTURE TO WOMEN'S CLASSES

Work Which He Started Has Grown to Huge Proportions.

Few people are ignorant of the wonderful work being done by the women of London in caring for the sick in the present epidemic, yet not many are aware of the fact that the unselfish accomplishments of the women of this city in the big emergency are, to some extent at least, a silent but beauteous monument to the memory of the late Dr. Norman H. Beal.

This fact was brought to the attention of The Advertiser by William Loveday, secretary of the St. John Ambulance Association here.

"Dr. Beal was the first doctor to deliver a course of lectures to women in this city," said Mr. Loveday, and it is largely to his foresight and breadth of vision that the work was started among women here.

"There were ten girls in the first class, and Dr. Beal began the lectures in 'first aid' on January 16, 1913, in connection with the Y. W. C. A. The lectures were delivered at the Y. W. C. A. residence on Wellington street.

"To many persons the work probably seemed somewhat of a joke at first, but to those who know what is being accomplished in London today by the women nurses, and others assisting in the care of the sick, the vast possibilities of it, as visioned by Dr. Beal, are apparent."

A Law To Which Two and One Half Million People Must Bend
In Ontario, when a man neglects the duty of making his will, the "Devolution of Estates Act" upon his death breaks up his estate into certain fixed portions regardless of his family's requirements.
Are you a married man without children? This law, if you leave no will, will distribute your estate as follows:
If you are survived by:
(1) Wife only . . . First $1.000 to wife. Balance—half to wife and half to next of kin.
(2) Wife and father . . . Half to wife—half to father.
(3) Wife, brother, sister and mother . . . Half to wife, half to brother, sister and mother equally.
Imagine the hardship this might cause for your wife!
Have your lawyer draw your will. Make sure your wife will receive what she is justly entitled to—not what the law will give her.
As for your executor, your estate will need the best service available—that of **The Canada Trust Company.**
By naming this Company you inspire for your heirs—protection, experienced service, impartial distribution and freedom from unnecessary costs.
Call and discuss the service we can render your estate.

NOT AN INFLUENZA CASE AT PROTESTANT ORPHANS' HOME HERE

Children Kept Well by Sane and Careful Methods.

"Not one case of influenza—not even the suspicion of a case." This is the report from the Protestant Orphans' Home on Richmond street north.

In the home there are 27 children, under the personal and particular supervision of Miss E. Auld, and members of the board attribute the really remarkable health record of the children to the judicious management and constant care of Miss Auld. Every day the youngsters are inspected, and the least disorder is noted and treated immediately. During the epidemic mothers are not permitted to come and take their children out, and, so far as possible, every avenue of infection is kept shut.

"Are there any special precautions taken?" asked the reporter.

"We give them all lots of good food, keep them in the fresh air as much as we can, insist on cleanliness, and send them to bed early," was the reply.

If this is not a direct preventive of influenza, most people will agree that the treatment is likely to maintain a standard of health which is good insurance against any infectious illness.

DOCTORS STEVENSON RECOVERING QUICKLY

Drs. H. A. and W. J. Stevenson are progressing quickly towards recovery from their attack of influenza, gaining strength daily. There is every likelihood that they will be able to resume their duties in a few days.
