FROM ALL OVER THE MARITIME PROVINCES

Saturday, July 15.

Far famed as St. John is as a cool summer resort, the fact has never been so emphasized as during the present season. When our neighbors in the United States and upper Canada are dropping in the streets like leaves from the trees in autumn, from excessive heat, we in this city are rejoicing that the weather so far has been a trifle warmer than usual. Is it any wonder then, that over and over again, we hear tourists exclaim: "Oh, you people down here don't know what you have." But we do, it is only "the others" who are ignorant. That they are learning of our happy condition is evidenced by the number of visitors in the city. A pity it is that the taxicab is not on hand so that "the stranger in our midst" might be given the opportunity of viewing some of our beautiful country, but it, like many other good things promised for our city, will be here soon. Motor cars are greatly on the increase in St. John. Some new ones were added to the list recently. Those of Mr. John E. Moore and Mr. L. G. Crosby are the latest.
