IF YOU RECEIVE A SALARY

You know exactly how much is coming in each week, and how much you have to spend. But it is the height of folly to spend it all. It is an easy matter for you to arrange your expenses so as to leave something to put in the bank, and it is the only way to earn your independence. Surely you are not content to be "owned" by someone else all your life.

ELEVATOR BOARD

Manitoba's Public Ownership Commission Has Started Work.

Winnipeg, Man., May 18.—The three men who will handle Manitoba's grain elevators under the public ownership act, passed at the recent session of the Legislature, were named at noon. They are D. W. McCuaig, of Portage; W. C. Graham and F. B. MacLennan. McCuaig came west from Glengarry County, Ont., in 1877, and is a farmer. He is president of the Grain Growers' Association. MacLennan is also a grain dealer and Graham is a grain insurance man. This body is non-political and their appointment absolutely guarantees their freedom from political interference. The salary of the chairman is $8,000 and the others of $3,000 per annum.

The board will meet at once and proclaim a policy of securing grain elevators all over the province to be operated by the Government.

Existing elevators can be secured at reasonable figures they will be purchased, otherwise they will be duplicated.

HEIR TO A THRONE IN ROLE OF HERO

Twelve-Year-Old Grand Duke Saves His Aunt.

Berlin, May 18.—The twelve-year-old hereditary Grand Duke Nicholas of Oldenburg, eldest son of the reigning Grand Duke, rescued his aunt, the Grand Duchess Marie of Mecklenburg-Schwerin, from drowning last Sunday. The Grand Duchess had just stepped into a boat when it suddenly capsized, throwing her into six feet of water. Grand Duke Nicholas, who was standing on the pier, instantly jumped overboard and grasped the sinking woman.

He pulled her to the surface, and although he was not strong enough to get her out of the water he supported her until his shouts for help were answered.

The Grand Duke of Mecklenburg has conferred the Grand Duchy life-saving medal on the boy.

BOY STOLE HORSE.

Windsor, May 18—Because he wanted to see his aunt, Clifford James Darling, 12 years old, Chatham, stole a horse and rig and drove from Chatham to Windsor, a distance of fifty miles. He was given up to the police in Windsor, and returned home in charge of an officer last evening.

FIRE BUG VICTIMS

Man, Wife and Daughter Perish in New York Tenement Fire.

New York, May 17.—The police are looking for incendiaries whom they charge with starting a tenement house fire that early today caused the death of three persons and burned two others so badly that one of them cannot live.

The structure located at 73 Sullivan street on the East Side, blazed up so rapidly that the other tenants barely escaped with their lives. It is believed that the fire was set by enemies of the residents who for the most part were Italians. The lower floor where it started had been soaked with oil.

The victims were Vincenzo DeBiaso, a laborer, 60 years old, his wife Clara, aged 50, and their 7-year-old daughter Marie.

Do You Realize What an Important Work the Kidneys Do?

Do you know that every drop of your blood goes to the kidneys hundreds of times every day? Do you know why?

To be filtered and purified from its impurities. That is the great work the kidneys have to do. They filter the blood. Then these impurities go to the bladder and are passed out of the body along with the urine.

Do you think it possible for you to be well, unless the kidneys do this work thoroughly?

It is these impurities—this unfiltered blood—that causes backaches, headaches, rheumatism, diabetes, Bright's disease, etc. They poison and interfere with the whole system.

If you have any kidney trouble let Doan's Kidney Pills do for you what they have done for thousands of others. They cure all forms of kidney trouble, and they cure them to stay cured.

Mrs. Maurice Doiron, Charlottetown, P.E.I., writes:—"I was troubled with my kidneys for five years. They were so bad at times that I could not cross the floor for the pain. I went to a doctor, but he did me no good at all. I sent to the druggist and got five boxes of Doan's Kidney Pills, and I am glad to say that after taking them I was cured. I have had no trouble for nearly three years now."

Price 50 cents per box or 3 for $1.25 at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

In ordering specify "Doan's."

U. S. COMMANDER BARS BOMBARDMENT

Washington, May 18. — Commander Gilmer, of the United States gunboat Paducah, has served notice on General Irias, who is in command of the Venus, that he will not permit a bombardment of the city of Bluefields, General Estrada and General Madriz that he will not permit any armed conflict within the city.

IN COLD STORAGE FROM NEW YORK

Windsor, May 18.—After riding all the way from New York in cold storage, two men, who gave the names of Mortimer Davis and Wm. Riley, were taken from an express train in the Windsor yards of the Michigan Central, and locked up on a charge of trespassing. In New York city Davis and Riley climbed through the roof of one of the coaches into the ice-box. When the train stopped at St.Thomas, Ont., one of the men peeked out. A railway official in the upper story saw him, a message was sent here, and Special Officer Cassidy was waiting when the train arrived.

CONSPIRED TO PROCURE

Robert Ewers Convicted in General Sessions at Toronto.

Toronto, May 18. — Robert Ewers, a commercial traveller, was found guilty of conspiring with Mrs. Laura Payne to procure 16-year-old Mary Allison, by a jury yesterday in the general sessions. The prisoner, who was remanded until the close of the sessions for sentence, was admitted to bail in one surety of $2,000. While Mr. T. C. Robinette, K. C., his counsel, made no formal application to the court for a stated case after the verdict had been rendered, he subsequently stated to the press that he would do so in a few days.

Mr. Robinette will ask for a stated case on the ground that Mrs. Laura Payne, who is awaiting sentence on a charge of procuring, and who was called by the crown yesterday to testify against Ewers, positively stated that she had entered into no arrangement with the prisoner for his meeting with Mary Allison at the Clyde Hotel. As the defence offered no evidence the crown put in as evidence some of Ewers' admissions at the trial of Mrs. Payne.

While in the witness box, Mrs. Payne stated that in giving evidence on her own behalf at her trial she had made some untruthful statements. "I met Ewers on the street," continued Mrs. Payne, "and he promised to give me $100 if I would swear falsely when our cases came up for trial. He practically bound me over to tell these lies. During the night I thought the matter over and I came to court today determined to make a clean breast of the whole thing." Mrs. Payne also added that Mary Allison in her evidence had told the truth in some respects but had been very untruthful on some of the most important points.

REV. ROBERT GRAY DEAD

Was a Retired Minister of the Presbyterian Church.

Toronto, Ont., May 18. — Rev. Robert Gray, a retired minister of the Presbyterian Church in Canada, passed away yesterday at his home, 324 Markham street, in his 84th year. Death came following an illness of only two weeks. Born in Denny, Scotland, in 1827, he spent his boyhood days in Stirling, and was educated at Glasgow University and the Free Church College, Edinburgh. After undertaking some mission work in Scotland, Rev. Mr. Gray came to Canada and held pastorates at York Mills and Fisherville in York County. His last pastorate was at Kinlough, Bruce County, from which he retired fourteen years ago and came to live in Toronto. Until compelled to give up religious work by advancing years, Rev. Mr. Gray was associated with College Street Presbyterian Church, and at the time of his death was an elder.

The members of the family who survive are three daughters — Mrs. Craw, wife of Rev. A. W. Craw, Bracebridge; Mrs. McCrae, Caron, Sask., and Miss C., at home—and two sons David T. and A. R. Gray the latter principal of the Malvern high school.

CARS TO CARRY AUTOS

The Grand Trunk Places a Big Order at Chicago.

Chicago, Ill., May 17.—The Grand Trunk and Grand Trunk Pacific Railways have placed an order with the Western Steel Car and Foundry Company, of Chicago, for 2,000 steel frame box cars of 60,000 pounds capacity each. These are to cost about $1,600 each, so that this order represents more than $2,000,000.

The importance of the automobile trade to the railways is shown by the fact that the Grand Trunk has ordered 500 special automobile cars. These are large box cars, with specially designed doors at the ends which will allow a large touring car to run in or out without difficulty. The Grand Trunk touches Detroit, Lansing and other cities in the west, which have large automobile factories, and the cars have been found necessary to handle this trade.

This system also has been considering the purchase of a number of steel frame box cars of 100,000 pounds capacity each for the wheat-handling trade.

POINTERS FROM ENGLAND

Superintendent of Exhibitions Going Abroad for Information.

Toronto, May 18.—Mr. J. Lockie Wilson, provincial superintendent of agricultural exhibitions, leaves this evening for Quebec, whence he will sail on Friday for the old country. Mr. Wilson travels as a commissioner for the Ontario Government to investigate the improved methods in the different branches of agriculture. His tour will probably take six weeks.

In addition to the work of investigation, Mr. Wilson will engage in a colonization mission. He will hold a series of meetings in the rural districts of Scotland among the best class of farmers, presenting the opportunities in Ontario for men of thrift with limited capital. He will also attend and take part in the Royal Agricultural Show at Liverpool, and other agricultural and horticultural exhibitions held in June.

It is expected that Mr. Wilson will look into the methods of intensive farming and the growing of vegetables. He will also make a report on the successful system of market-gardening in France.

PLEA FOR COUNTESS

Fate of Mme. Tarnowski and Her Accomplices Soon To Be Decided.

Venice, May 17. — The famous Komarowski murder trial reached its closing stages today, when the public prosecutor and counsel for the defence made their addresses.

The defendants in the case are the Countess Tarnowski, two of her lovers, Dr. Naumoff and Lawyer Prilukoff, and her maid, Elise Perrier. The countess, whose first husband divorced her because of an affair with an officer, a relative of his, and who afterward eloped with her attorney, Prilukoff, who deserted his family, agreed to marry Count Komarowski if he would take out an insurance policy of $100,000 in her favor. The count did so, whereupon, it is charged, the countess arranged for Prilukoff to kill him. Dr. Naumoff, however, it is alleged, did the shooting.

The public prosecutor in his address told the jury that the charges they should sustain were that Dr. Naumoff was guilty of premeditated homicide, that the countess and Prilukoff between them instigated the crime, and that the maid, Elise Perrier, was guilty of necessary complicity in the murder.

Counsel for Naumoff and Prilukoff asked the jury to accept the expert view that they were irresponsible for their actions because they were completely under the fascinating influence of the countess.

The attorneys for Countess Tarnowski urged that her serious physical condition must be taken into account and furthermore that the part played by her in the tragedy was a subordinate one. It was also argued that there was a possibility that the treatment of Count Komarowski's wounds by the hospital doctors might have been the cause of death.

For the maid a plea of absolute innocence was put in.

The officers of the garrison who will attend have not notified the city clerk as yet.

The Royal Salute.

It was the intention to have the royal salute fired at noon on Friday, but that order has been changed. It will be fired in Victoria Park at 6 o'clock on Friday. The officers of the garrison, with the Sixth Field Battery, will assemble at the Armories at 5:30 p.m., and march to the park, where the minute guns will be fired and "Last Post" sounded.

"Owing to the fact that the manufacturers will not cease work on Friday, and also because the merchants will continue to do business for most of the day, it will be impossible for the Seventh Regiment to turn out in force as was expected," said Mayor Beattie. "However, the officers of the regiment and the officers of other regiments, the R. C. R., No. 1 Company, Wolseley Barracks, and the Collegiate Cadets will turn out, and will bring the force up to 150 strong. The other details have been carefully looked after.

"The military will form up at the Armories, while the civic bodies and societies will meet at the city hall. All should be in their places at 9:30 sharp."

FILIPINO FREEDOM.

Washington, May 18.—"Our desire for independence remains unalterable," declared Speaker Serjio Osmena, of the Philippine assembly, in a cablegram to Delegate Queezon, who petitioned the House Saturday for immediate independence of the Filipinos. The message was one of a number congratulating Mr. Queezon on his speech. Speaker Osmena cabled that the Filipino craved the advancement of the national cause by all possible means, that the years of American administration showed that the Filipinos were capable of maintaining an independent government, and that justice of the American people would decide in favor of Filipino freedom.

NO MORE TORTURE FROM ECZEMA

RELIEF QUICK AND CURE CERTAIN WHEN DR. CHASE'S OINTMENT IS USED.

There is no form of itching skin disease which can defy the extraordinary curative powers of Dr. Chase's Ointment.

This is a strong statement and is only made after years of experience with the use of this preparation in the most horrible cases of eczema which you could imagine.

Relief from the terrible itching comes with the first few applications, and then it is a question of patiently applying the ointment and watching the natural process of healing which is set in operation by this great healer.

There are lots of cures to refer to, but what you want is actual trial in your own case, when you will soon realize that there is no disputing the wonderful healing power of Dr. Chase's Ointment.

If you have Eczema or any form of itching skin disease don't let an hour pass before sending for this treatment. Sixty cents a box, all dealers, or Edmanson, Bates & Co., Toronto.

TODAY IS COMET DAY

(Continued from Page One.)

fact, the event was not known until revealed by observations afterward.

Professor Bayard, of the Yerkes Observatory, says the most probable phenomenon that all laymen may observe tonight will be the anticipation of the compass. It is generally believed that the resistance between the comet's tail and the outer atmosphere of the earth will surcharge the air with electricity. While some astronomers, headed by those at Mount Wilson, go so far as to predict that there may be electrical flashes. It is generally believed that magnetized compass needles will behave much as they do at the appearance of a strong aurora borealis.

The speed of the comet is today about 1,642 miles a minute, as it approaches the region of the earth. The tail recently has lengthened, according to some observers until it is now estimated at 20,000,000 to 46,000,000 miles.

The comet itself (its head or nucleus) is 9,000 miles in diameter. To determine the character of the dust Halley's comet is said by some to be carrying in its tail, members of the United States geographical survey will attempt to trap some of the particles at the observatory on Mount Wilson today as the earth passes through the tail.

Berkeley, Cal., May 18.—The first part of the calculations on Halley's comet has been completed, and cabled to the American astronomers, who went to Honolulu to observe the transit of the comet across the sun's disc today.

The comet will cross the sun three degrees of arc above the sun's centre from west to east. The instant of conjunction is May 18, 16 hours 7 minutes 3 seconds, Greenwich time. The phenomena will not be observable in any part of the United States.

Director Leuschner, of the Students' Observatory said:

"According to photographs taken on May 11, the tail of the comet was two million miles in diameter at the distance from the nucleus at which the earth will cross it, but according to information received from Lick Observatory the tail is diminishing rapidly in width and length.

"Thus, photographs taken at Lick Observatory yesterday, give the estimate that the widt of the tail through which the earth will pass, will have shrunk to one million miles. We may expect to enter the tail at about 5 o'clock in the afternoon, and to come out of it about 11 o'clock in the evening, Pacific standard time."

RECEPTION TO MR. SHIELDS.
