Gentlemen,-About a month ago I began to suffer with a feeling Gentlemen,—About a month ago I began to suffer with a feeling of pressure over my heart, my breath was short and I grew rapidly weak. I consulted my doctors and hey very skilfully drew two quarts of water off my left lung. They gave me the best treatment and I thought I would soon be well, but instead, my lung began to grow to my side, my breath grew short and tight, and I list color and flesh as well as strength. To walk up stairs put me fearfully out of breath. I found that it was getting harder and harder to get my breath down into my lungs. Nothing seemed to check my case, and both I and my wife began to be very much seemed to check my case, and both I and my wife began to be very mucl alarmed, when a doctor, a friend of mine, recommended your Capsuloids I started taking one with each meal and soon improved. I am now tak ing two with dinner, two with supper and but one with breakfast. The stlffness and soreness have nearly all left my side. I can stand up much straighter, I can go up stairs and can take long walks without getting out of breath. My lung is, I am sure, softened away from my side entirely, and I have gained so much in color, flesh and strength that I have not much to complain of, and feel that a few more boxes will cure me. much to complain or, and feel that a few more boxes will cure me. My blood is very red, and I think I just got your Capsuloids in time, for my lung was getting so fast to my side that it could never have been separated. I recommend them to all my friends who are run down, or who have old complaints.
