MIXED FARMING IN WESTERN Canada—In Central Alberta and Saskatchewan are rich park lands—open prairie ready for the plow, interspersed with trees, which afford excellent shelter for stock. Here grain growing, dairying and live stock raising are being carried on successfully. The country is ideal for mixed farming. The Canadian Pacific Railway is offering a large area of these fertile lands in the neighborhood of Lloydminster and Battleford. These rich districts will become the home of thousands of prosperous farmers. On similar land Seager Wheeler grows the world's prize wheat. Near Lloydminster the world's prize oats have been grown and butter of the highest quality is made. A man can soon become independent on a farm here. These lands can be bought now at prices averaging about $18. You pay down 10 per cent. If land is purchased under settlement conditions, no further payment of principal until end of fourth year, then sixteen annual payments. Interest is six per cent. Irrigated lands in Southern Alberta $50 an acre upwards. Same terms. Write for illustrated booklet. H. La Due Norwood, C. P. R. Land Agent, Windsor Station, Montreal, Que. June 5,19
