The overseas mails will close here at 4 p. m. tomorrow for the steamship Wilhelm via Quebec.

M. R. Welling, station agent at Penobsquis, was injured recently by a fall he sustained while assisting to load blueberries. He was not seriously hurt, but was obliged to lay off.

George Phair of Newcastle, an inmate of the Boys' Industrial Home at East St. John, has escaped from that institution. The police of other places have been notified to watch for him. He is thought to have gone towards Moncton.

Robert Crawford of this city, provincial constable; S. P. Chapman of Amherst and Leonard S. Hutchison of Dorchester were the applicants for the position of chief of police of Moncton to succeed George R. Rideout. Mr. Hutchinson, who was appointed chief by the council, will take charge tomorrow. His salary will be $2,000 a year.

Ex-President W. H. Taft writing from Pointe au Pic on September 18, sent the following communication to C. W. Romans, secretary of the Canadian Club: "My Dear Sir,—I have your kind invitation to address the Canadian Club of St. John, New Brunswick, and thank the club for it. I have no present expectation of being in St. John and am so engaged in the arbitration proceedings between the Canadian government and the Grank Trunk Railway system as to make it unlikely that I could come to you during the next year. I regret this. Sincerely yours, William H. Taft."

ROOSTER KILLS CAT.

Sussex, N. J., Sept. 20.—A cat belonging to Ford Ewald, a farmer near here, decided to treat himself to a bit of chicken the other day. Unfortunately for himself, he picked out a guinea rooster, a most pugnacious bird. Ewald declared that the fight lasted for about nine minutes, with the cat losing one of its lives every minute. At the beginning of the tenth minute the pussy grunted hoarsely and rolled over dead, while the rooster pruned himself and strode pridefully away, surrounded by admiring chickens.

IRON FIELDS IN PHILIPPINES

Washington, Sept. 20—The finest unworked iron fields in the world have been discovered in the Philippines, according to a report from the government experts just received here. The quantities of ore adjacent to good harbors, they state, will be sufficient to assure the future of iron and steel production in the United States for generations.

MAN STOWAWAYS.

New York, Sept. 20.—Practically every steamer which arrives from Europe brings new members for the "Stowaways' Club at Ellis Island. There are now some ninety stowaways at the detention quarters there awaiting deportation.

BAN SALE OF STILLS EXCEPT FOR DISTILLING WATER

Washington, Sept. 20—The sale of stills is being restricted. An order has been issued requiring that all purchasers of stills file affidavits that they will be used only for the distilling of water. Unless such affidavits are filed it will be held that the stills have been sold for illicit purposes. The order was issued as a result of reports of great traffic in stills.

STRATFORD ENJOYS PAVEMENT DANCE

Community Entertainment to Raise Funs for Memorial.

Stratford, Ont., Sept. 20—Community dance and promenade held on the new pavement of the main streets, will net some thousands of dollars for the Soldiers' Memorial Fund. Ontario Street from the Court House to Waterloo Street was roped off and citizens and out of town visitors by the thousands danced and promenaded to the music of two brass bands while a refreshment booth in front of the Post Office did a rushing business. The dance was under the patronage of the Retail Merchants' Association and the John MacDonald Chapter of the I. O. D. E., and the marked opening of the new pavement. The entire proceeds go to the Soldiers' Memorial Fund. The girls of the I. O. D. E., Chapter sold the admission badges as the crowds entered arches erected at the various street intersections. The stores were decorated, flags and bunting strung across the streets and every light possible turned on, making a brilliant scene.

DESPERATE BATTLE WITH MASKED MEN

Bandits Attack House to Steal 200 Cases of Liquor.

Windsor, Sept. 20—Six masked men, who attempted to steal 200 cases of liquor from the residence of Frank Belleperche, Sandwich East Township, nine miles east of Windsor, were driven off after a rifle and revolver battle lasting more than an hour. Francis Gignac, Petite Cote, is being held at Ford in connection with the shooting.

Armed with shotgun and rifle, Belleperche and his son held off the raiders until the arrival of Provincial Officers Smith and Hannah and members of the Ford police department. The party, abandoning two automobiles, which were perforated with bullet holes and spattered with blood, escaped by running through a corn field. Telephone wires in the vicinity were cut and it was some time before the police could be summoned.

DETROIT TEACHERS WILL BUILD HOTEL

Plan of Association to Avoid High Prices of Profiteering Landlords.

Detroit, Sept. 20—Driven by high rents and restaurant prices, the Detroit Teachers' Association with soon erect or purchase a co-operative hotel.

The sentiment of the last year, during which teachers were compelled to pay as high as $12 a week for small rooms and proportionate prices for meals, has crystallized in an effort to avoid landlord profiteers permanently, and a meeting of a special committee of the association has been called to plan a search for suitable sites.

Preference of the teachers as to sites will be given a hearing, and if the association does not decide on a centrally located hotel or club house it will acquire a number of residences throughout the city and convert them into teachers' homes.

Co-operative dining-rooms, designed to fit the needs of the teachers, will be one of the special aims of the committees working on the project.

PRISONERS RUN STILL ON CORN BREAD IN JAIL

Lexington, Sept. 20—A crude but complete distillery, operated by seven white prisoners, was found in the county jail at Henderson. The still had been made from a coal oil can, with a smaller can beneath to hold fire. The men used sour corn bread which they saved. For a siphon they had torn up a new disinfectant spray and inserted it in the top of the oil can. Fire was made from torn up blankets in the small can, and it was the rag smoke that led to the discovery.

ENGLISH OAK ENDURES.

Age Seems to Have Little Effect on Its Life

(Detroit News)

The durability of English oak is the greatest of any known forest timber, discoveries having been made that it is preserved almost as well under water through centuries as it is when shielded by roofs in ancient castles.

Professor Burnett, of London, possessed a piece of English oak from King John's palace at Eithani, perfectly sound and strong, which can be traced back for more than five hundred years. The oaken shrine of Edward the Confessor is more than eigh hundred years old. One of the oaken coronation chairs in Westminster Abbey has been there for more than five centuries.

In Gloucester Cathedral there are thirty-one stalls of rich tabernacle work executed in oak in the reign of Edward III., and beautifully perfect. When the foundations of the old Savoy Palace in London, built 700 years previously, were torn down, the piles, many of which were of oak, were found in a state of perfect soundness. A vessel, found in the river Rother, in Kent, said to date back to the time of King Alfred, was found to be sound, despite the fact that the oaken keel had been buried in the mud. An oak boat was found near Brigg in an almost perfect condition, despite the fact that it was nearly two hundred years old.

NEW 16-INCH SHELL PIERCES 14-IN. ARMOR

Washington, Sept. 20—On the heels of news that the Navy Department had successfully directed the movements of an 11,000 ton battleship by radio, it is learned that the department perfected a 16-inch shell which pierced 14-inch plate armor at an angle of ten degrees. The feat was made possible by the invention of an explosive of tremendous energy and by special constrictions of the head of the shell.

SIMPLE AS A. B. C. TRY IT TONIGHT FOR YOUR NERVOUSNESS

Worn out, tired in the morning, you lack the energy and ambition to work as of old. This means nerve decay—nerves that are starved for the want of good, rich blood.

It's blood nourishment that vitalizes the nerves. Your blood is thin, weak, watery. It's filled with poisons that hang on because your kidneys don't filter properly.

See here, fix up your kidneys, put new life in your liver, and you'll feel like new in a short time.

To do this, you must use Dr. Hamilton's Pills, they make life look bright and pleasant because they restore harmony and vigor to the organs that need repair.

Dr. Hamilton's Pills warm the blood and fill it with nutriment that's bound to build you up, that's sure to lift your weakness, that invariably does make joyous, robust Good Health.

Think of it, youthful strength, lots of nerve force, plenty of red blood surging through your veins—isn't this reason enough for your using Dr. Hamilton's Pills? Sold in 25c. boxes by all dealers.

A DANGER SIGNAL—TENDER AND BLEEDING GUMS

Healthy teeth cannot live in diseased tissue. Gums tainted with Pyorrhea are dangerously diseased. For not only the teeth are affected, but Pyorrhea germs seep into the body, lower its vitality and cause many ills.

Pyorrhea begins with tender and bleeding gums. Then the gums recede, the teeth decay, loosen and fall out, or must be extracted to rid the system of the poisonous germs that breed in pockets about them.

Four out of five people over forty have this disease. But *you* need not have it. Visit your dentist often for tooth and gum inspection. And keep Pyorrhea away by using Forhan's For the Gums.

Forhan's For The Gums will prevent Pyorrhea—or check its progress—if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums hard and healthy, the teeth white and clean. If you have tender or bleeding gums, start using it today. If gum-shrinkage has already set in, use Forhan's according to directions, and consult a dentist immediately for special treatment.

Tragedy Follows Family.

Paris, France, Sept. 20—A trio of tragedies took place on a farm at Barsac. The farmer saw two of his oxen fighting and shouted to his son to separate them. He threw a sharp-pointed goad at the animals, but it struck the son and the boy fell dead. The father ran to the house and called his wife. She left her baby on the step. A large hog partly devoured it. When the father learned of the second calamity he committed suicide by drowning.
