CORRECTION.—In our reference last week to the gentlemen visiting here in the fruit tree business, by a typographical error we were made to name one of them as Mr. "Chase," it should have read Mr. Clerke.

REMOVAL. — Mr. J. H. Ogden moves his jewelry store to-day into one of the new stores of the Music Hall where he intends to keep a fancy assortment of jewelry as well as giving his attention to the repairing of watches, &c.

WOOD POINT QUARRY.—The quarrying property at Wood Point, formerly operated by the Bay of Fundy Co., has been leased by Mr. Foster Pickard. It is proposed to commence operations immediately and ship stone this fall.

WE are in receipt of a correspondence from Baie Verte referring to Sunday drinking at that place. If the facts are as stated by our correspondent, Baie Verte is certainly in need of reform. We cannot publish the communication as it comes unaccompanied with a name.

DEATH OF JAS. H. BARTLETT.—Mr. James H. Bartlett, one of the oldest employes on the Intercolonial, died last week. Mr. Bartlett, who was in the railway service for over a quarter of a century, through his genial manner won for himself many friends who will regret his demise.

COL. HICKMAN, of Kentucky, addresses the people of Sackville at Lingley Hall to-morrow evening. He is a platform speaker of great power, his originality and humor invest the old topic of Prohibition with new interest. Those interested in the liquor traffic and those who use the product of fermentation moderately, are especially invited to attend. Col. Hickman's appeals are to common sense and right and are free from abuse.

THE S. & W. Agricultural Society hold their Exhibition on Friday week 28th inst., a little earlier than usual to avoid the Dominion Exhibition. Members of the Sackville and Westmorland Agricultural Society residing in Sackville can hand their entries for the coming exhibition to the treasurer Mr. J. F. Allison, not later than Wednesday the 26th Sept., on which day the secretary will be there to receive them and make other necessary arrangements.

P., left for Montreal on Monday.—Dr. Lebaron Botsford expects to leave Sackville on 12th prox., to settle near Jacksonville, Florida.—Mr. J. T. Bulmer, librarian of Dalhousie Law-School, is in Sackville.—Mr. Beckwith, Government Engineer, started yesterday on a tour over the Cape Railway, accompanied by Mr. J. L. Black.—Mr. G. Bryan, of Halifax, is visiting Sackville in the interest of snipe.—Messrs. W. B. Dixon and Harvey Phinney leave for St. Louis, Mis., on Tuesday to attend the Great Trade Fair there.

LEGAL.—A curious case is now pending in Commissioner Cahill's Court, viz: Geo. E. Ford vs. H. L. Mitchell, for balance of account $79. It appears the accounts of both parties aggregate some $1,200. Each item is contested and its sale and delivery is required to be proved. As the accounts have been running a number of years, this is a difficult process. The case has been on three days and will probably consume a week longer. The counsel are Messrs. Powell and Kinnear. The moral of short credits and quick settlements is obvious. It is certain that merchants who employ clerks and agents, who are changed from time to time, cannot successfully sustain a long standing account.

From Mr. James McGrath, 6th Tier, Jacksontown—For a year and a half I was troubled with a severe pain in my side, which the greater part of the time prevented me from going about. I tried everything to be had without effect, until I was advised to use W. T. BAIRD'S CURE-ALL-LINIMENT, which I did, and was well repaid, for two bottles made a complete cure.

That poor bedridden, invalid wife, sister, mother, or daughter, can be made the picture of health by a few bottles of Hop Bitters. *Will you let them suffer!* when so easily cured!

The cattle and sheep could be saved if flat-bottomed schooners were sent immediately. Later: Two hundred cattle, three horses and sixteen of the crew have been saved by a Government steamer from the wrecked "Viking."

—Times have been quite brisk here during the past summer. The vessels at this place have been fairly remunerative. Work and money quite plentiful.

—The shipyards at the Cape are silent at present. This state of affairs will not long continue. The probability is that two large schooners will be built here this winter.

"Jessie," Albert Bishop, master, on her voyage to St. John, was off our village, the Captain's son, about 15 years of age, was struck by the boom and knocked overboard. Coroner Lynds held an inquest and the jury returned a verdict in accordance with the circumstances. We deeply sympathize with the parents in their sad bereavement.

THE "Siddartha" arrived off Roshea on Sunday night and in the fog went on the western reef. She scraped off and went ashore at Barnsmarsh Cove. The reef protected her from the sea and she received only trifling damage. On Monday night, Capt. Moore got her off and she arrived at Wood Point on Tuesday morning. As she had been out 47 days from Liverpool, fears had been felt that the late disastrous cyclone had engulphed her. Capt. Moore further reports severe gales which split her sails. He picked up on the Banks of Nfld. two French fishermen, belonging to St. Pierre, who had been three days out in a dory and were nearly perished. These men are to be forwarded to their homes at once. Capt. Moore states he depended somewhat upon hearing the fog whistle at Roshea, and not hearing it he was misled; that he has been four days in the Bay, in dense fogs for the quarter part of the time, saw nothing after Brier Island light was lost Saturday night; made St. John fog whistle Sunday morning, then proceeded up the north shore until, by course and distance run and by the soundings, which were taken every few minutes, the ship was supposed to be about two miles off Herring Cove Head, and steering for Cape Enrage, expecting to hear the fog whistle every minute, when suddenly the land appeared under the leabow and ahead. The ship was luffed to the southward instantly, but grounded under the cliffs beam on. The Capt. was informed that the fog whistle had not been blowing for some weeks being out of repair, but that the repairs had been completed some two weeks since. The ascribed cause of it not at present blowing is want of water, which is said to be supplied by rains only. Whistles, signals and lights for the guidance of mariners ought to be made before all things *certain*, and if mariners cannot depend upon them at all times and seasons, they are only a delusion and a snare; in the present case, a large and new ship after safely braving the dangers of the deep, arrives home, and only escapes having her brains knocked out within sight of her port by a lucky chance—all through a defective whistle.

THE excessive drouth was relieved by welcome showers on Monday evening. Wells and springs in many places had gone dry and the water in streams had vanished. Pastures have been greatly affected and on the Tantramar marshes cattle suffered and in many cases had to be removed. The atmosphere was charged with smoke from fire in the woods, and fears were felt that the fires might reach and overrun the settlements. Dry weather for so continuous a period has been taken advantage of by the harvester, and grain and grasses generally are now stored.

—About the P. E. Island crops, an exchange says:—We have an unusually large crop of everything here this season. The only article that is scarce is butter; that must be owing to so much dry weather and so many new cheese factories. The canning factories also use a lot of milk. Prices for produce are low. White oats are from 38 to 40 cts. and black 30 to 32 cts.

The Wild Strawberry leaf is a good antidote to the poison of the green apple and cucumber. In other words, Dr. Fowler's Extract of Wild Strawberry is a sure cure for Colic, Cholera Morbus, Cramps, Dysentery, and all Bowel Complaints so often caused by the irritating effects of unripe fruit.

D. McCrimmon, of Lancaster, writes that he has suffered with inflammatory rheumatism, more or less, from childhood, and had tried nearly all advertised remedies with but temporary effect. Burdock Blood Bitters have radically cured him, and he authorizes us to say so.

—The barque "Britannia," of Shoreham, E., from Jamaica to Montreal, was wrecked a few days ago on the sand bars of Sable Island and thirteen lives lost.

—Herbert Eaton, who killed Kelly, at Calais, will be tried at the next term of the Supreme Judicial Court for Washington County, which begins in October.

Suffering Children.

Many children live lives of suffering from being troubled with Worms. McLean's Worm Syrup is an effectual as well as a pleasant remedy. At nearly all stores.

Of far more importance than the National Policy or the Irish Question is the question of restoring health when lost. The most suddenly fatal diseases incident to this season are the various forms of Bowel Complaint, for all of which Dr. Fowler's Extract of Wild Strawberry is specific.

A SURE CURE FOR SUMMER COMPLAINTS.—Procure from your druggist one 37½ cent bottle of Dr. Fowler's Extract of Wild Strawberry, and use according to directions. It is infallible for Diarrhœa, Cholera Morbus, Canker of the Stomach and Bowels, and Cholera Infantum.

Never undertake a long journey without a bottle of Dr. Fowler's Extract of Wild Strawberry in your travelling case, to guard against sudden attacks of Colic, Cholera Morbus, Diarrhœa, Sick Stomach, Sea Sickness, and troubles incident to change of climate, water, diet, etc. It is a ready and reliable relief.

THE GREAT SECRET OF BEAUTY lies not in the enamellers of the tonsorial art, but it depends upon good health, a fair, brilliant complexion, rendered so by pure blood.
