BRILLIANT WORK OF FRENCH AIRMEN

Official Note Gives Examples—Four German Dirigibles Reported Destroyed.

[Canadian Press.]

Paris, March 2.—Efforts of the French aerial forces in the past ten days have been efficacious and some brilliant feats have been accomplished, according to a note issued by the war office. As an example the exploits of one aviator are described. It is said that on February 9 he discovered the location of 21 German batteries, and the next day located a heavy battery which immediately was bombarded, causing an explosion of caissons. The night bombardment of the barracks at Metz is cited as another incident.

The war office note declares that during the period mentioned there has been little aerial activity on the part of the Germans. The military value of the Zeppelin is declared to be slight. The note tells of the destruction of four dirigibles.

SERUM FOUND TO TREAT GANGRENE

Pasteur Doctor Discovers An Effective Means of Prevention and Cure.

[Canadian Press.]

Paris, March 2.—A serum said to have both preventive and curative properties in the treatment of gaseous gangrene has been discovered by Dr. Weinberg, of the Pasteur Institute.

In announcing the discovery to the Academy of Sciences, Dr. Pierre Roux, director of the institution, stated that Dr. Weinberg first succeeded in identifying the bacillus which caused gaseous gangrene. Then by a series of experiments he evolved a serum which was most effective when applied to guinea-pigs and horses.

After the experimental stage had been passed, the new serum was used in the treatment of badly-wounded soldiers, resulting in rapid and decisive improvement.

CHASED BY SUBMARINE NEAR BRITISH SHORE

Liner Kawarra Managed to Escape in the Irish Sea.

[Canadian Press.]

Montreal, March 2.—To be chased by a German submarine within a few miles of the British coast, and to get away safely after an exciting pursuit, was the experience of Capt. D. S. Davies, of the Elder-Dempster Line steamer Kawarra, now at Halifax.

For some time Capt. Davies expected he would land in boats on the Irish coast, with his vessel at the bottom of the Irish Sea, the victim of a torpedo, but by a combination of plucky seamanship and the fortunate fact that the machinery on the German submarine apparently broke down, he was able to make a clean get-away and bring his vessel safely to port.

Austrians Executed About 200 Civilians

Citizens of Stanislau Put to Death, Although They, Too, Were Austrians.

[Canadian Press.]

Lemberg, Galicia, March 2, via London, 1:25 p.m.—When the Austrians captured the town of Stanislau, in Galicia, they condemned to death and executed something like 200 civilians, according to trustworthy information which has been brought into Lemberg.

Among the executed were two Polish restaurant proprietors and a number of railroad laborers.

These individuals all had been warned by the Russian authorities, but the men refused to leave, relying upon their Austrian citizenship for protection.

AMERICAN LEGION TO BE ENROLLED

New York To Form National Defence Force of Half Million.

GOVERNED BY COMMITTEE

Five Hundred Recruits Ready To Join As Soon As List Opens.

[Canadian Press.]

New York, March 2.—Headquarters of the American Legion will be opened in this city tomorrow, and according to statements issued by organizers of the movement the enrollment of members will be begun at once. Already 500 men have signified their intention to join the organization and within a year it is expected that half a million men will be wearing the red, white and blue button of the new national defence movement.

Controlled By Four Men.

Further details of the plans of the American Legion were published today by Dr. J. E. Hausmann, its secretary. It is to be controlled by an executive committee of four men, two of whom probably will be ex-secretaries of the army, and two ex-secretaries of the navy. This committee will be announced as soon as the fourth acceptance has been received. In co-operation will be an advisory board of between forty and fifty men, chosen from all parts of the country. Their selection will probably be made in the first instance by the executive committee, who also will have charge of assigning members to their various ranks.

SECRETARY ASKS REPORT.

[Canadian Press.]

Washington, March 2.—While awaiting reply from Major-Gen. Wood in command of the eastern department to his inquiry concerning the launching of a movement in New York for the creation of a three hundred thousand reserve force to be known as the American Legion, Secretary of War Garrison today continued to decline to discuss the matter or to indicate what his official attitude would be. At Mr. Garrison's directions, Brig.-Gen. Hugh L. Scott, chief of staff of the army, has sent a clipping of a published report to Gen. Wood, with a request that Gen. Wood forward all the information obtainable on the subject.

Press Condemns Campaign of Hate

Nothing But Vulgar, Theatrical Pose, Says Frankfurter Zeitung.

[Canadian Press.]

London, March 2.—The correspondent of the Daily News telegraph from Rotterdam:

"The Frankfurter Zeitung strongly condemns the German campaign of hate.

"'For months,' says this journal, 'we have indulged in all kinds of extraordinary letter headings and forms of greetings which are un-German and are an imitation of Gallic theatricalism. The hymn of hate might well have arisen from honest internal excitement, but greetings such as the well-known "God punish England" are nothing but a vulgar theatrical pose. They are at the worst simply ridiculous, because they are spreading a spirit, even if only on the surface, which is entirely at variance with the subsequent drawing together of nations which must come.'"

CHARGES DROPPED

Sir J. H. Renals and H. Mather Freed on Fraud Charge.

[Canadian Press.]

London, March 2.—When the case against Sir James H. Renals and Henry Mather, alias Walter G. Furnald, of San Francisco, was called in the Old Bailey court for rehearing today, the prosecution announced that the charges against the two men had been dropped. Subsequently a formal verdict of not guilty was returned.

Early in December of 1914 Henry Mather and Sir James Renals were arrested in London on a charge of conspiracy to defraud the public by means of a bogus money lending scheme. A jury heard the case February 19, but disagreed. The defendants were then released on bail. Sir James Renals' father was at one time lord mayor of London. Mather was arrested in New York in September of 1913, charged by the police with swindling operations.

CHAPMAN ENLISTED AT STRATHROY; W.U. MAN HIS BROTHER

Bugler Callan Lived at Preston for Two Years—Brother Sought There by Militia Department Is Now in England.

Private Eddie Chapman, of Ailsa Craig, who is mentioned in the latest casuality list issued by the Canadian Government as slightly wounded, is a brother of Joe Chapman, goalkeeper of the Western University hockey team. Private Chapman was a member of the 26th Regiment before he enlisted, and held the rank of lieutenant. He could not go as an officer, so he decided to go as a private, rather than stay at home. He was sergt.-bugler of the 26th for several years, and is well known in the surrounding district as a baseball and hockey player. He enlisted at Strathroy when the first call for volunteers came in August.

Joe Chapman, of Western University, was informed late last night of his brother's injury by The Advertiser just after he had returned from the rink, where he played a great game in the nets against the local Feds. He was much relieved to hear that his brother was only slightly wounded. He stated that he, and his mother in Ailsa Craig, had received a letter from Private Chapman, written just as the Canadian troops were embarking for France. Since then they had been waiting anxiously for some word from him. He expressed the hope that his brother would be able to come home while convalescing.

Callan Lived in Preston.

News of Edward Callan's death reached Preston about 8 o'clock last night, when a message came from Ottowa, addressed to Fred Callan.

Fred Callan is a brother, and is not now in Preston, but in England. He is not serving in the army.

Edward, the victim of the war, it is stated, had no relatives now in Canada. He had lived in Preston about two years and was an industrious young man. He was popular, too, being a splendid cornetist, and belonged to the local band.

Though no arrangements had been made last night, it was stated to The Advertiser at Preston that a memorial service or services may take place on Sunday.

BULGARIANS PROTEST

WELSHMEN GUARD KING IN PALACE

New Corps On Duty For First Time On St. David's Day.

[Canadian Press.]

London, March 2.—The celebration of St. David's Day yesterday was marked by features distinctly expressive of what may be termed the new Welsh nationalism. The newly-formed Welsh Guards mounted guard for the first time over King George at Buckingham Palace.

David Lloyd George, chancellor of the exchequer, was present at a parade of the North Wales Brigade at Llandudno, and an address was presented to him at an eisteddfod in the evening. Flags were sold in Wales and London in behalf of the national fund for the Welsh troops raised to fight against Germany.

Welsh Are Pleased.

London, Feb. 20—(Correspondence of Associated Press).—Welshmen are delighted with the fact that a battalion of Welsh Guards has been added to the men of extra height, who for two years have been quartered at the Wellington Barracks, opposite Buckingham Palace, and have performed guard and escort duty at all military functions.

The Scots Guards have a Thistle as their emblem, and the Irish Guards a shamrock, and already there is discussion whether the Welsh Guards shall have a leek, or daffodil (the two names are the same in Welsh), or a red dragon, which is essentially a Welsh emblem, is one of the supporters of the Prince of Wales' arms and is used on national occasions.

FINANCIAL AND COMMERCIAL

THE LOCAL MARKET

Hay took a tumble on the local market today. The top price of $18.50 per ton was not realized for very many loads, the prevailing prices being $17 and $17.50 per ton. It was expected that there would be at least 50 loads in.

Straw is firm, and brings $8 to $8.50 per ton.

Dressed hogs were easier, selling at $10.25 per hundredweight.

Oats continued firm, although there was a large supply in, about 40 loads.

Butter is scarce. There are no changes in price recorded.

The supply of vegetables was not exceptionally large for such a fine day.

GRAIN.

Winnipeg, March 1.—A substantial break occurred in wheat prices today, opening 2⅞c down. In the first half hour of business there was a recovery of 2c on May and 1¼c on July from the low points of the morning, which were $1.51⅜ for May and $1.51 for July. Further declines took place at the close. Exporters report a fair inquiry for wheat for export, and some contracts were put through this morning on the breaks. The cash demand was quiet generally for all grains. Oats and flax were extremely slow.

Inspections on Saturday were 310 cars as against 238 last year and in sight today were 500 cars.

Weakness occurred at the close, influence by the report that Premier Asquith's announcement was bearish on grain.

Wheat futures closed 4⅜c to 4¾c down; cash 4c to 4¾c lower; oats, 1¼c to 1⅛c lower and flax, ¼c to ¾c higher.

Cash grain: Wheat—No. 1 northern, $1.48½; No. 2 northern, $1.46½; No. 3 northern, $1.43; No. 4, $1.38¾; No. 5, $1.34; No. 6, $1.30; feed, $1.25.

Oats—No. 2 Canadian western, 63¼c; No. 3 Canadian western, 59¾c; No. 1 feed, 59¼.

Barley—No. 4, 70c; feed, 67c.

Flax—No. 1 N. W. C., $1.62¼; No. 2 Canadian western, $1.59¼.

Liverpool, March 2.—Wheat—Spot steady; No. 1 Manitoba, 13s 7d; No. 2, 13s 6d; No. 2 hard winter, 13s 4d.

Corn—Quiet; American mixed, new, 7s 11½d; do. old, 8s 3d. Futures quiet; March, 7s 7¾d.

Chicago, March 2.—Wheat prices developed comparative strength today, after showing much nervousness at the start. The fact that Liverpool quotations did not fully respond to yesterday's severe breaks on this side of the Atlantic, had a good deal to do with restoring some measure of confidence to the bulls. Decreasing stocks in the Northwest counted also against the bears. The opening, which varied from 1⅜c off to ¼c up, was followed by a material advance all around.

HUGE WHEAT EXPORTS.

Galveston, Texas, March 2.—A total of 40,959,731 bushels of wheat has been exported from here since July 1 last, according to figures made public at the customs house here today. Shipments in February were 3,553,306 bushels, as against 295,000 bushels during February, 1914.

MONEY MARKET.

London, March 2.—Bar silver, 23¼d per ounce.

Money, 1 per cent.

Discount rates—Short bills and three months bills, 1 7-16d to 1½ per cent.

LONDON STOCK EXCHANGE.

London, March 2.—Money and discount rates were quiet today.

The stock market maintained a generally steady undertone. There were markings in war loan issues, gilt-edged securities, industrial shares and various American gold bonds, and these transactions, it is believed, indicate the reinvestment of yesterday's dividend disbursements. Mining stocks were in increased demand and oil shares continued the leading feature. Home rails were uncertain, owing to labor troubles.

American securities attracted little attention. Canadian Pacific hardened a fraction, but the rest of the list eased off and the market finished irregularly.

WALL STREET.

New York, March 2—Wall Street, 10:30 a.m.—Stocks continued to reflect the cautious attitude of traders at the outset of today's market, price changes being of a mixed character. Union Pacific, Northern Pacific and Lehigh Valley were fractionally lower, while Canadian Pacific, New York Central, New Haven and Ontario and Western made substantial gains. Specialties showed a better tone, National Biscuit gaining 2 points, with a 1-point rise in Willys-Overland, preferred. Dealings were in much smaller volume than on the preceding day. In the London market, Canadian Pacific was the only international issue to manifest strength.

Noon.—Latest developments in the international situation and the attitude of the American Government thereto, subordinated all other considerations in the local market. Prices shaded slightly, but the undertone was firm. The prominence of New Haven at a further advance was an unusual feature, that stock ranking with the leaders in point of activity, Reading, Union Pacific and United States Steel supplied about 40 per cent of the early trading. May Department Stores recovered a part of its recent severe decline, but specialties as a whole were neglected. Bonds were irregular.

1:30 p.m.—Realizing in New Haven cancelled its rise in the early afternoon, but other stocks advanced on an increased demand for eastern railway issues. Specialties continued heavy.

ADDRESSES TEACHERS

Dr. Braithwaite Speaks on "Fundamental Concerns in Education."

Dr. Braithwaite, president of the Western University, addressed local public school principals in the Industrial School yesterday afternoon. His subject was "Fundamental Concerns in Our Education." He dwelt on the fact that it was not the course of study as outlined by the teacher, but the development in every part of the pupil which made for success or failure when the scholar later entered man's state and real life work. The boy and girl should be fitted for the place they will occupy in later life by drawing out their observation and reasoning faculties, and developing these. Much could be done in preparing boys and girls for the more advanced methods of research useful to them in later careers, and especially in advance study in university work and professional life.

DACIA NOW FLYING COLORS OF FRANCE

Crew To Be Landed and Sent Back to United States.

[Canadian Press.]

Paris, March 2.—As soon as the American steamer Dacia, formerly a Hamburg-American liner, was towed into the harbor of Brest yesterday by the auxiliary cruiser Europe, Chief Naval Commissioner Lemoine, a member of the prize committee, formally seized the vessel and hoisted the French colors.

No action regarding the cargo of cotton consigned to Germany will be taken until the case goes before the prize tribunal. The crew of the Dacia, it is understood, will be landed and sent back to the United States in accordance with the conditions under which they signed articles.

MAY NOT BE CONDEMNED.

[Canadian Press.]

Paris, March 2.—Edouard Clunet, an eminent jurist and former president of the Institute of International Law, discusses in the Figaro the case of the steamer Dacia, formerly of the Hamburg-American Line. He says that while the constant practice of French prize courts would leave little doubt about the condemnation of the Dacia and the fate of her cargo, it is another question whether the French Government will ask their condemnation or the court order it.

Justice Will Be Done.

Everything will depend, he argues, on the nature of the cargo, the real nationality of the owner and the definite destination. Any opinion on this point he considers necessarily premature.

M. Clunet points out that while Britain had almost given a diplomatic undertaking to treat the cargo with every consideration, France is free from any engagements of this kind, and will give to the Germans, or persons acting for them, only the justice which is their due.

HE COULD NOT MAKE ONE STEP

Then Dodd's Kidney Pills Cured Walter J. Roberts.

Newfoundland Man Finds a Firm Cure After Suffering Ten Months of Torture—Doctors and Other Medicines Failed to Help Him.

Lewisport, Twillingate District, Nfld., March 1—(Special).—A thrilling story of a splendid cure by Dodd's Kidney Pills is told by Walter J. Roberts, a well-known resident of this place.

"My trouble started from a cold after measles," Mr. Roberts states. "For nineteen months I was confined to the house, and for ten months I could not make one step.

"I tried many doctors and medicines, but got no relief from them. The trouble was in my feet, legs and arms, and at times was almost unbearable. I could not feed myself for those ten months.

"At last I tried Dodd's Kidney Pills, taking 28 boxes in all, and am glad to say they made a firm cure of me."

Mr. Roberts' troubles were caused by diseased kidneys. That is why Dodd's Kidney Pills cured him. Diseased Kidneys fail in their duty of straining the impurities out of the blood, and the consequence is trouble all over the body. Dodd's Kidney Pills cure diseased Kidneys.
