## Now Is the Time to Plan for the Summer

We will not give a summer vacation this year as a number of students from long distances would be inconvenienced thereby.

Then, our summers are so deliciously cool that St. John is a harbor of refuge during the hot season, and study just as pleasant as at any other time. Students can therefore enter at any time.

# MARITIME FARMS FOR UNEMPLOYED

## Ontario Committee Plans to Place Unemployed on Eastern Farms.

(Toronto News.)

The federal government, through Sir Robert Borden, has expressed a desire to co-operate in working towards the supply of employment to men thrown out of work by the unsteady industrial conditions. A conference with members of the committee who last week went to Ottawa to strike plans for carrying out this policy, has been arranged for the latter part of this week. As a result it is expected that 1,000 men will be placed on farms in the maritime provinces and that half that number may be accommodated in Ontario agricultural communities. This is the aim of the special committee which organized to seek work for the unemployed, and according to W. K. McNaught, ex-M.L.A., progress is already being made. An organization meeting to form an executive of leading local men will be held today or tomorrow, and following this the trip to Ottawa will be made.

With the object in mind of providing work and not charity throughout the fall and winter months, factory owners will be approached with the suggestion that instead of dismissing percentages of their staffs, the wage roll be decreased in the same ratio. Thus 100 men would work half-time instead of 50 men for full time. In some cases at the present this method has been adopted and is working well.

The plan adopted by the committee working in co-operation with the cabinet does not involve a money-raising campaign, and the difficulty of gaining support for those whose connection with military operations is very indirect, is recognized as one requiring skill to cope with. Success is confidently expected, however.

Moncton, N. B., Sept. 6—At an enthusiastic meeting of representatives of the different branches of the I. C. R. service in the general offices here Saturday afternoon, a resolution was unanimously passed to contribute a day's pay to the Canadian patriotic fund.

The movement is entirely voluntary, and the opinion was expressed that the employes of the government railway will contribute a dozen day's pay to the fund if necessary. General Manager Gutelius presided.

ABOUT YOUR OWN VIGOR

**Sent Free to Men**

MR. READER:

Here is something I have to offer you absolutely for nothing—a little private book of special information about the legitimate use and unnatural abuses of manly vigor; about the preservation of manly strength and its possible self-restoration; an illustrated pocket compendium of 8,000 words, 72 pages and 80 half-tone photograph reproductions—which I am very pleased to send by mail, absolutely free of charge, in a plain, sealed envelope, to any man, young or elderly, single or married who writes for it.

Over a million of these books have been thus sent to applicants all over the world since my first free offer appeared. Publishers are charging as much as $2 for books on sex subjects, while my book is free. Therefore, reader, if you would like a great fund of inside information relating directly to the subject of manly vigor, all put in perfectly plain, easy-to-read language, with many hints that you can surely apply to your own self, no matter how strong you may be, or how nervous or run-down you may be—if you want to know the facts about this particular subject, given to you without a single scare, then fill in the coupon below, send to me and receive my book, sealed, by return mail. In one part of this little publication I describe a mechanical invention of my own, which I call the SANDEN Vitalizer, something you wear at night as an aid to the restoration of lost or waning strength; but you are not expected to get one of these appliances unless you decide for yourself that you want one. The book is complete, and there is absolutely nothing you are required to buy or pay, either now or in the future. Therefore, please send your names and address today.

SANDEN, Author.

MANHOOD! The quality which rules the world today. My friend, there never was a time in the history of the human race when real, sturdy manhood, manly vigor and manly courage counted for as much as they do now, this very minute. No matter what your years, whether you are 20 or 60, you must be either entirely in the race or entirely out of it. It is invariably the fellow who proves up strongest in this human strength that forges to the front, while weaklings stand aside; it is he also who is in most demand and most sought after by women and men of his community, simply because he radiates that marvellous magnetic influence which only an abundant vigor and rugged manly health can radiate. I believe any man can hope to completely develop or restore this same vigor or manly strength, no matter what his past follies may have been, provided he is willing to REALLY MAKE THE EFFORT; and provided, of course, he is not weighed down by extreme old age or is not incurably diseased. To my mind, the road of the one who wants more vigor is perfectly plain, but it is a road that any man MUST travel if he attains the highest ideals in respect to his own manhood. See information in my free book.

Manhood Wins in all Walks of Life

As to the SANDEN Vitalizer, previously mentioned, will say it is a little mechanical appliance, weighing but a few ounces, which you wear at night. This Vitalizer generates and sends forth a certain soft, penetrating force which I call Vitality. It drives this Vitality into your nerves, blood, muscles and organs as you sleep. It is quieting to the nervous system—or, at least, so users say. Men write that it takes pain out of the back often at once and restores vitality in 90 days. Remember, the general information of the free book is independent of this Vitalizer, and you are not expected to get one of these little appliances unless you want to. You can write me later as to that if you so desire. With special attachments, my Vitalizer is used by women as well as men for rheumatism, kidney, liver, stomach, bladder disorders, etc. If you live in or near this city I should be most pleased to have you call in person at my office, where you may see and test the Vitalizer free of charge. Hours—9 to 6; or if inconvenient to call, do not fail to write for the free booklet.
