St. John Men Abroad.

J. FRANK MORRISON, PRESIDENT OF THE CRESCENT CLUB OF BALTIMORE.

(Baltimore American.)

James Frank Morrison was born at St. John, New Brunswick, April 18, 1841. His parents on both sides were natives of the North of Ireland—his father of the city of Derry, and his mother of Moville, County Donegal. Their ancestors were of Scottish origin. On the maternal side, Highlanders; on the paternal Lowlanders. They thus united the two principal streams in the blood of the Scotch race with that of the North of Ireland, forming that distinctive type of the human family known as the Scotch-Irish, whose sterling virtues and enterprise are pre-eminently historic. Mr. Morrison's parents came to America in 1823, landing at Boston, where they resided until 1838. Two children were born here and during the year they removed to St. John, N. B., where J. Frank was born. He lived at home until he was fifteen years of age, and received instructions from a private tutor, thus becoming equipped with a good education. In 1855 he left home and went to Boston, where he obtained a situation in a commercial house. During this time he studied telegraphy. In 1862 he came to Baltimore and shortly thereafter entered the telegraph service of the Baltimore and Ohio Railroad Company, in which he remained until 1868. During this period he and Geo. W. Spicer, secretary of the club, then a conductor, were constantly together. He soon became a recognized expert in all branches of the telegraph business. He was for a short time on the local staff of the old Baltimore *Gazette*. Having been appointed superintendent of the old fire alarm system then in existence in this city, he reorganized the whole department. The fire and police alarm telegraph system of this city in its present high state of efficiency is due mainly to his skill and intelligence. About that time he was elected clerk of the Maryland State Senate. He was subsequently appointed a fire commissioner by Mayor Letrobe, and while serving in that capacity he was appointed by the same mayor to the wardenship of the city jail, a position which he still holds.

The condition and discipline of the jail have undergone a complete revolution under his charge, and its conduct receives the commendation of experts in prison management. An English Inspector of prisons, who paid it a visit, pronounced the jail the model institution of the kind in the United States.

In 1878 Mr. Morrison constructed the first long-line telephone in the world, the length being 210 miles, from Georgetown to Cumberland. He was the first to introduce and successfully light the streets of Baltimore by electricity, having introduced the Brush system and organized the existing Brush Electric Light Company. He also erected the Morrison Electric Works and established the Southern Electric Company.

Mr. Morrison married a daughter of the late Captain John Sifford, a leading and wealthy citizen of Frederick, Md. Mrs. Morrison is a sister of the wife of Aubrey Pearre, a stock director in the Baltimore and Ohio railroad, and head of the importing and jobbing dry goods house of Pearre Bros. & Co. of this city.

In person Mr. Morrison is of stalwart and compact frame and of pleasing manners. He has great administrative talent, and his knowledge of men aids him as an organizer, for which he appears to be especially fitted. He has one of the best private libraries in Baltimore, and has not neglected to cultivate his mind by an acquaintance with literature. As a recognition of his service as a trained and skilled electrician, the National Electric Light Association of the United States, at their first convention, which met at Chicago in February, 1885, unanimously elected him president—an honor which they have not since permitted him to decline. Mr. Morrison is president of the Crescent Club, of which he was one of the organizers, and to his abilities, no doubt, much of its success is due. He was one of the first to suggest and carry out the splendid scheme on so grand a scale which has resulted in giving the club its present elegant quarters.

A. K. DOUGHERTY OF ELK RAPIDS,

The gentleman's many friends in this city will be glad to hear that A. K. Dougherty, formerly of Carleton, but now a resident of Elk Rapids, Michigan, has been elected to the legislature of that state. Hon. Mr. Dougherty is a brother of Wm. Dougherty of the customs service, and has been at the head of an extensive manufacturing business in Michigan for a dozen or more years.

The Fire at Hampton Court.

SEVERAL APARTMENTS IN THE PALACE DESTROYED BY THE BURSTING OF A LAMP.

LONDON, Nov. 19.—Hampton Court Palace, in Middlesex, on the Thames, twelve miles from the city, was set on fire today by the bursting of an oil lamp. The fire started in the apartments abutting on the tennis court, and all these apartments were destroyed. The flames spread to the adjoining buildings, but were finally extinguished without having reached the state apartments. Forty rooms were more or less damaged by fire and water. It is estimated that £10,000 will cover the loss. No national property was destroyed, the damage being confined to china, pictures and family relics belonging to the inmates.

WOLSEY'S GIFT TO HENRY VIII.

Hampton Court Palace is thirteen miles distant from London by rail, or twenty-four by the Thames. It is very near the river, seen from which it presents a magnificent appearance, looking like quite a village, as it covers an area of nearly ten acres. Every one knows the history of Hampton Court; how it was built by Cardinal Wolsey in the flood tide of his greatness, and how he presented it to Henry VIII., doubtless as a peace offering against the fall which was so surely coming to him. Formerly its most important treasure was the collection of the original cartoons by Raphael of his frescoes in the Vatican, but these are now in the South Kensington Museum. The palace still contains a gallery of a thousand or more paintings, some of which are valuable, but the most not highly considered. Hampton court was occupied as a residence by English sovereigns until George II.'s time. Since then it has been a slow place, with apartments where live such of the decayed English gentry and nobility as are permitted by the Queen out of respect for their services or those of their ancestry, or for their blood and their poverty combined. A portion of the palace was burned about four years ago, including a number of private apartments occupied by the royal pensioners.

Disraeli's Opinion of Gladstone.

BERLIN, Nov. 6.—The publisher Cotta, of Stuttgart, will soon issue the memoirs of Count Vitzthum while Saxon Minister of London. It contains much of the unrevealed history of the period between 1853 and 1859. It records that in the course of a conversation at a dinner Disraeli said: "Gladstone, Bright and myself are the three most energetic men in parliament. Gladstone's energy is invincible."

The Best Combination.

The best combination of blood cleansing, regulating, health giving herbs, roots and barks enter into Burdock Blood Bitters—a purely vegetable remedy that cures diseases of the blood, liver and kidneys.

A Double Purpose.

The popular remedy, Hagyard's Yellow Oil, is used both internally and externally, for aches, pains, colds, croup, rheumatism, deafness and diseases of an inflammatory nature.

A Common Expression.

"I was troubled with liver complaint for three years, tried many remedies but never found any that has done me so much good as Burdock Blood Bitters." James Higgins, East Templeton, P.Q.

WANTED LADIES to know that the Remedial Compound will cure all female complaints. One trial will charm and excite your enthusiasm. Had from druggists. Address: Remedial Compound Co., Stanstead, P. Que., Canada. 5620 tf

What Physicians Say of Dr. Crumb's Inhaler.

(From a "Fellow of the Royal College of Surgeons.")

I consider the Crumb's Pocket Inhaler the most perfect and complete Inhaling Apparatus invented, and charged with the Ozonized Inhalant, the best treatment for any stage of Catarrh that can be given.

B. DUKE, M.D., F.R.C.S.

(From a Physician in New York State.)

W. R. CRUMB, M.D.: EAST AURORA, N.Y.

SIR—Your Pocket Inhaler has now been employed by patients under my observation for many months, and in every instance the result has been satisfactory.

Courteously yours,

DR. J. W. STONE

(St. Elizabeth's Hospital, New York City.)

MY DEAR DOCTOR—Received your Pocket Inhalers sent me on trial. Have used them in my hospital and in private practice. After a fair trial, I have no hesitation in regarding it as an important means for the relief and cure of Catarrh.

Yours, etc., O. S. PAINE, Surgeon in charge.

(New York Physician and Pharmacist.)

Of the several Pocket Inhalers that have been brought to our notice, we have seen none that seemed to possess so completely every requisite as to portability, compactness, and ability to carry out the perfect inhalation of medicated vapors, as the one invented by Dr. Crumb."

There Is Nothing Like It.

There is no one remedy offered to suffering humanity whose use is so universally and frequently required as Hagyard's Yellow Oil, for rheumatism, neuralgia, colds, sore throat, deafness, croup, lumbago, and aches, pains, lameness and soreness of all kinds, when internally and externally used.

A Good Investment.

"I suffered with eruptions on my face for over two years. I determined to give Burdock Blood Bitters a fair trial. After taking four bottles, I can say it was the best investment I ever made. Jean Clarey, Beauseejour, Manitoba.

ANOTHER PROOF.

PORT HAWKESBURY, N. S.

I beg leave to certify that I have used "Puttner's Emulsion with Hypophosphites" with great satisfaction, and in cases where Cod Liver Oil was called for. I can heartily recommend it as an agreeable mixture, assimilating so successfully the nauseous taste of the oil, that in no instance have I seen patients refuse to take it. * * * * *

D. M. JOHNSON, M. D.

The Right Way.

The only proper way to cure a cough is to loosen the tough mucous of phlegm that clogs the bronchial pipes. This is why Hagyard's Pectoral Balsam is the most successful remedy for coughs, colds, throat and lung troubles.
