BRIGHTON, ENG., Aug. 16.

At the sitting of the British Association to-day, Stanley gave an account of Livingstone's travels and discoveries in Africa for the past six years.

Col. James A. Grant, who explored the sources of the Nile with the late Captain Speke, from 1863 to 1865, called in question the correctness of Livingstone's observations and conclusions.

Stanley replied, defending the Doctor, and was loudly cheered.

Sir Henry Rawlinson followed and cordially acknowledged Stanley's services at the meeting to-day.

Stanley was introduced to Napoleon, Eugenie and the Prince Imperial.

NEW YORK, Aug. 17.

At meeting of Emperors at Berlin a proposition will be made for a Congress of European powers to sanction territorial modification of France, occupation of Rome and revision of Treaty of Paris.

It is rumored that Court of Impeachment at Saratoga has rendered a verdict of guilty on several articles against Judge Barnard.

ST. THOMAS, Aug. 4th.—There is to-day no sugar order in the market from either Porto Rico or Cuba. A quantity of sugar, however, remains yet to be shipped from the north side of Porto Rico, near Arecibo, and it is probable that a few more vessels will be wanted this year. Wood from St Domingo is offered at $5½@$6, gold, f o b, according to size of vessel, and salt from Inagua at 10c@11c, gold, all to United States. At present no demand for tonnage to load salt in Turks' Island, owing probably to the number of vessels is taken up at home. There may be, however, some want in about a month's time.

"Why is it that French travellers so universally excel English tourists, not only in selecting the salient points of a country or a population for description, but in pith and vigor of style? The present octodecimo volume would have been swelled into a couple of octavos, if an Englishman had undertaken the task of describing a voyage 'On the Nile,' which is so full of matter as M. Laporte's. The book is as attractive as it is instructive."—*The Globe.*

Watchmaking in Switzerland.

[From the Swiss Times of May 30th.]

WE have already drawn attention to the annual meeting of the Society of Arts held, on the 23rd current, under the presidentship of M. Th. de Saussure, and are now able to furnish some further details.

Professor Soret, in delivering a most interesting report, passed in review the operations of the Industrial section, in reference to Commerce, laying great stress upon the competition that has taken place in the manufacture of chronometers. This competition was instituted with the object of testing the workmanship and precision of chronometers turned out by Genevese manufacturers, and none but those adopted for pocket use were admitted. They were deposited in charge of the authorities at the Observatory, and underwent the most searching ordeal possible to be applied to pocket instruments of this class. The jury specially retained to decide the difficult question as to whom to award the palm of excellency unanimously decided in favor of Messrs. J. M. Badollet & Co. This firm having carried off the sole prize by exhibiting a chronometer which fulfilled in the highest degree every condition required, crowned their first success by gaining honorable mention for two other chronometers. The allusion to this triple honor was received with enthusiastic applause, and Professor Humbert, President of the Fine Arts Section, closed the meeting with a happy and humorous dissertation upon subjects connected with this department.

An assortment of

of different grades, from the eminent manufacturers above referred to, always kept in stock by
