

## JOYFUL MATERNITY.

Hopeful Words to Childless Women.  
Two Grateful Women Tell How  
They Were Helped by Lydia E.  
Pinkham's Vegetable Compound.

How shall a mother who is weak and sick with some female trouble bear healthy children?

How anxious women ought to be to give their children the blessing of a good constitution!

Many women long for a child to bless their home, but because of some debility or displacement of the female organs, they are barren.

Preparation for healthy maternity is accomplished by Lydia E. Pinkham's Vegetable Compound more successfully than by any other medicine, because it gives tone and strength to the parts, curing all displacements and inflammation.

Actual sterility in women is very rare. If any woman thinks she is sterile, let her write to Mrs. Pinkham, Lynn, Mass., whose advice is given free to all expectant or would-be mothers.

The Story of Mrs. De Bett and Her Baby Girl.

"DEAR MRS. PINKHAM:—Before I took your medicine I suffered for years. Life to me was a torture. I often wished I were dead. I had no children, and the doctor said I never could have. Menstruation was very painful, also, and I suffered with severe pains in my back and legs, and terrible headaches, and weakness of the kidneys. I tried everything, but would dilate twice but that did no good. I got discouraged and concluded to let the doctors go and try your medicine. After writing to you explaining my case, I followed your advice carefully and with the result that I never felt so well in all my life. I am indeed a new woman and have a lovely little baby girl which is the happiness of my home. I feel that I owe my life to Lydia E. Pinkham's Medicine, and feel very proud to recommend it to all others. I hope that many others will follow my example and that homes may be brightened as mine has."—Mrs. LUCY DE BETT, 304 S. Halstead St., Chicago, Ill. (March 1, 1901.)

"DEAR MRS. PINKHAM:—I must write and tell you what your Vegetable Compound has done for me. Before taking your medicine I was unable to carry a babe to maturity, having lost two—one at six months and one at seven. The doctor said next time I would die, but thanks to Lydia E. Pinkham's Vegetable Compound, I did not die, but am the proud mother of a six months old baby girl. She weighs nineteen pounds and has never seen a sick day in her life. She is the delight of our home."—Mrs. A. D. JARNEY, Belmont, Ohio.

## Get Mrs. Pinkham's Advice.

It is free as the air. She has been the means of making many a miserable life turn into one of joy—no other living person has had such wide experience with woman's ills. Her address is Lynn, Mass.

Minard's Liniment Cures Distemper.

## DRESS HINTS.

If you want a white dress that will wear two seasons, wash well and never look old-fashioned, have one of lawn trimmed with white insertion. Kid boots and shoes may be cleaned by dipping a little bit of sponge in white of egg to which have been added a little ink and a few drops of oil and rubbing well.

Powdered French chalk will work wonders in removing dirt and grease spots. Rub the place well with the chalk, cover with paper and leave for twelve hours; then brush.

Faded printed art muslins take a new lease of life when starched with cream instead of white starch. It entirely restores the ground and also brightens the colors and patterns thereon.

To remove mildew from white cloth dip in a hot solution of a teaspoonful of chloride of lime dissolved in a quart of water. The cloth should be thoroughly washed in warm water as soon as the spots disappear.

To take off the disagreeable shine from worn garments lay a wet cloth over the shiny place and then rub with a hot iron, not allowing the cloth to become wholly dry under the iron or it will leave its mark. The cloth should be kept steaming.

## Fond of Their Empress.

The empress of Japan inspires the people with an affectionate veneration. There is no dispute about her virtues and her intelligence; but, of course, her influence does not penetrate beyond the narrow limits to which the Japanese woman is confined.

Her majesty has overcome her natural timidity in order to appear before the eyes of Europe as a free sovereign of the east. She has performed the dress and manners of her court, and her heart has discovered subtleties of conduct which she never learned from the protocol. Thus, when the present czar was almost assassinated on the road at Nara, it was the empress who, on her own initiative, wrote a personal letter to the empress of Russia. She remains faithful to the usages of her country, and she has done much to make fashionable again the home cultivation of the silkworm.—American Review of Reviews.

## The Best Room.

"I look forward to the time when it will be possible to have the best room in the house the kitchen," said Professor Luther Gulick of the Pratt high school before a convention of the Woman's Household Economic Association. And it was reported that this produced a sensation. Well, some of us can look back to the time when the kitchen in grandmother's house, where we went to visit in vacations, was far and away the best room in the house. The shut up parlor couldn't hold a candle to it. No room was so bright, so cheerful, or had such comfortable old rocking chairs with patchwork cushions in them. And, then, to be always on hand when doughnuts were fried or preserves were made was a privilege one could have only by haunting the kitchen. Best room in the house? No question about it.—New York Press.

## The Chimney and the House.

There is one thing in the construction of a house which should have careful attention, yet seldom gets it—the chimney. If you want a good one, you will probably have to engage a competent disinterested person to supervise its construction. Every chimney should begin in the cellar and have the points well filled and smoothed on the inside. If it is not double cased, it ought to be incased by galvanized iron boxing in the attic. This boxing should reach from the lower edge of the joints to the top of the rafters and may be made in sections like a stovepipe for convenience. With such chimneys and a slate or metal roof an attic fire would be a rarity indeed.—Good Housekeeping.

## Silk Handkerchiefs.

Silk pocket handkerchiefs should be washed by handkerchiefs. Put them in cold water for an hour or two. Then wash them in water, soaping them as they are washed. If the stains have not then disappeared, wash through a second water of the same description. When finished, they should be rinsed in cold soft water in which a handful of common salt has been dissolved. Then rinse again in water containing a little bluing.

## A Foot Salve.

The very best salve for tired and aching feet may be made at home of mutton tallow and camphor. Cut the clear fat, which may be the trimmings from chops or the kidneys, into small pieces and add to them a piece of raw potato, peeled and all. Cover with water and try out in the oven. When nothing is left of the fat but the cracklings, strain, add a few drops of camphor and pour into eggshells or small jars.

## The Toothbrush.

In a drugstore the following suggestion appears on an label pasted inside the glass cover of a showcase where brushes of various kinds for toilet use are kept: "Soak a toothbrush in water for a couple of hours before using. It has probably been in the store for some time and become dry. If this bit of advice is heeded, there will be little cause for complaint about bristles falling out."

## Mating.

Mating on rooms that are little used should be swept very clean, then wiped with a cloth wrung out of sweet milk. If done once a year, it is said to keep the room pleasant to a certain extent. The milk wash should be followed with a wiping with very hot water to prevent the matting from becoming sticky and drawing flies.

## BABY'S OWN TABLETS

A Positive Cure for Hot Weather Ailments

In the hot weather the little ones suffer from bowel troubles, are nervous, weak, sleepless and irritable. Their vitality is lower now than at any other season. Prompt action at this time often saves a valuable little life. Baby's Own Tablets is the best medicine in the world for little ones at this time. They speedily relieve, promptly cure, and give a good, refreshing sleep. The Tablets should be in every home where there are little ones during the hot weather months. Mrs. P. Ferguson, of 105 Mansfield street, Montreal, says:—"I have found Baby's Own Tablets the best medicine I have ever used for children. My baby was attacked with dysentery and was hot and feverish. I gave him the tablets and they promptly cured him. Before this he had been rather delicate but since using the Tablets, he has been much better in every way. I can sincerely recommend the Tablets to all mothers of little children."

Baby's Own Tablets are guaranteed to be absolutely free from opiates and harmful drugs. Children take them readily, and crushed to a powder they can be given to the youngest infant with perfect safety. They are sold at all drug stores or will be sent post paid at 25 cents a box by writing direct to the Dr. Williams' Medicine Co., Brockville, Ont., or Schenectady, N. Y.

## GAYNOR-GREENE CASE.

Washington, July 10.—The papers in the case of Gaynor and Greene, in which the department of justice seeks the aid of the state department to secure the extradition of the men named, have reached the state department. They have been referred to the department of justice. Secretary Hay is in possession of all the essential points in the application, he will proceed to consider the case. It is not certain when the application will be presented.

Paine's Celery Compound  
Saves The Life Of A Manitoba Lady.

It Completely Banishes The  
Agonizing Troubles That  
Were Dragging Her  
to the Grave.

There never was a remedy so highly recommended as Paine's Celery Compound. There never was a remedy in such demand. It is popular, and is used in tens of thousands of homes, because it makes sick people well.

Paine's Celery Compound has saved thousands from nervous prostration and collapse. It has effected wonderful cures in kidney and liver complaints; its victories over rheumatism and neuralgia, have commanded the attention and admiration of our best physicians in every clime. When everything else has failed, the following voluntary testimony from a Manitoba lady who owes her life and good health to Paine's Celery Compound will cheer the souls of many despondent sufferers. Mrs. Annie R. Cobb, of Seaside, Mass., says:—"Before using your valuable Paine's Celery Compound I was so crippled with rheumatism that I had to crawl on hands and knees from one place to another. I also suffered from neuralgia and dreadful headaches, and could not get more than one or two hours' sleep each night. I often thought it would be better to die than live and endure my terrible agony. I was happily advised to use Paine's Celery Compound, and after use of six bottles the rheumatism and neuralgia are banished, and I now rest and sleep well. My present improved state of health is due to the virtues of Paine's Celery Compound, which has done wonders for me. My husband is now using it for dyspepsia, and it is doing wonders for him."

Suing them for his pay is one thing that tries a doctor's patience.

A literary pursuit is usually a race for the elusive dollar.

## Pimples and Blisters

How unsightly, sometimes disgusting, mortifying to the sufferer and unpleasant to all. An evidence of poor blood and lowered vitality of the eliminating organs. They need toning up the whole system does. You can quickly bring about the improved condition by using Ferrozone. Pimples are driven out of the blood, organs grow stronger, the blood purifies the nerves. Pimples and blisters disappear, color becomes good. Glad! try and see how much joy can be gotten out of a box of Ferrozone.

The less a man thinks or knows of his virtues the better he looks.

Truth does not make everybody free; it sends some men to jail.

## Cramps are Like Burglars.

They come unexpected, and when they are least welcome. Be armed with a one minute cure for cramps and keep Paine's Nervine handy; it acts instantaneously. Nervine's anodyne power is unique, for its composition expresses the highest medical progress of the age. Paine's Nervine is a true comfort in the family for in all derangements of the stomach and bowels it is an absolute specific. Nervine has five times greater medicinal value than any other remedy and is sold in large 25 cent bottles. Try it.

Clever men are good, but they are not the best.

Minard's Liniment For Rheumatism.

## LAUNDRY LINES.

Cool rainwater and soda will remove machine grease from washable fabrics.

Rainwater and lukewarm soda of white castle soap make the best mixture in which to wash embroideries.

Silken fabrics, especially white silk handkerchiefs, should not be dampened, but ironed with a moderately warm iron when taken from the line.

Yellow stains left by sewing machines oil on white may be removed by rubbing the spot with a cloth wet with ammonia before washing with soap.

All friction towels should be washed very rapidly, stretched into shape and dried as quickly as possible. It is unnecessary to add that they should never be ironed.

Fruit stains on white material may be removed with spirits of camphor if applied before the material has been wetted. Afterward wash and boil in the usual manner and the stains will vanish.

Fanslin in starch is frequently employed to give a brilliant finish to the starched article and also to prevent the iron from sticking. Add a piece the size of a walnut to the boiling starch.

## For the Housecleaning.

No home can be comfortable unless it is not only clean, but thoroughly clean. If carpets are not thoroughly swept, glass and china really clear and bright, the effect is almost as bad as if they were really dirty. A cleaner that will keep the furniture looking nice, remove the stains and soil and does not cost a great deal in time and money is a great boon to housewives. To reach this end there is nothing better than a mixture of linseed oil and kerosene. If the article to be polished is very much soiled, wash it thoroughly with warm, soapy water, drying as quickly as possible. Then, with a dandel grass dipped in a mixture of two parts linseed oil to one of kerosene, rub the surface thoroughly. Let it stand awhile until you have rubbed another piece, and then, with a perfectly clean piece of flannel, free from oil, polish until it shines to your taste. Bronzes and bent ironwork, fenders and grate fixings all look brighter and fresher for a little rubbing with the oil rags, and the room and its furnishings that you have thus treated present a look of daintiness, refined cleanliness that is worth a great deal of work and infinite trouble to produce.

## Make Home Pleasant.

If you are a big sister, don't be too strict with your little brothers. Try to be patient with your blessings and make home pleasant. You know you go to bed later than they do, and when the house is silent and still just think how solemn and sad it would be were the days as quiet as the evenings.

If you are a plain girl and one of your brothers has a pretty sweetheart, do not roam about the house repeating the stale saying that is to the effect that beauty is only skin deep. Do not be ashamed of dusting the drawing room, darning your brother's socks or doing any little kindly act for them. If you are musical, see to it that your performances are really meritorious ere you get into the way of wearing out the nerves of your family instead of affording them pleasure.

## A Cup of Chocolate.

Chocolate as a drink is often unpalatable because it is improperly made. A good formula which, if carefully followed, brings about sure results should allow two ounces of chocolate to half a pint of cold water. Use the unsweetened chocolate and break into small pieces, letting it stand in the water until soft, when the mixture is put on the fire and brought to the boiling point. Cook exactly one minute after it boils and no more. Remove from the fire and beat quickly with a chocolate muddler or an egg beater and serve at once, putting a tablespoonful of whipped cream on the top of each cup at the last moment. The mistake most persons make in serving a cup of chocolate is to cook it too long. This brings out a strong, rank taste that is not agreeable.

## An Open Kitchen.

"I never allow a single enclosed space of any kind in my kitchen," said a very good housekeeper. "My cupboard or closet becomes a sure receptacle for rubbish unless most carefully watched, and no cook, however tidy, likes to have the 'mistress' opening doors and looking in, as though investigating the state of affairs. So I have found that by far the best way is to have everything open—no kitchen closet, no enclosed space under the dresser or above all the sink, and in this way I pass all the pots and kettles and pans under a daily review without hurting the cook's ever susceptible feelings."

## A Clothes Hanging Hint.

A woman who treats her clothes with beautiful care says that she hangs her silk petticoats or skirts of silk, chiffon, or anything adorned with flounces she wears three or four loops along under the facing of the skirt rather than in the waist belt, by which the average woman hangs her clothes. She claims when flounces are hung the opposite way from that in which they are worn they are fresher and take on a new lease of life.—Good Housekeeping.

## The Bathroom.

Don't put a cheap wall paper in a bathroom. It should be a thick, sanitary paper, highly glazed, and ought to have a final coat of clear varnish when it is on the wall. A thin glazed paper peels off and gets quite discolored in a few months with the steam arising from the hot water. A washable distemper is excellent for coloring the walls of bathrooms.

## A RAILWAY MAN

Extraordinary Unpleasant Symptoms of Kidney Trouble in This Case.

Tortured by all kinds of Pains and Aches he Tries Everything, but fails to Find Relief Till Friend Advises Him to Use Dodd's Kidney Pills—They Have Made a Well Man of Him and he is Grateful.

Ottawa, July 11.—(Special)—Frank Chartrand, a railway man, whose home is 138 Little Claudine street, has acknowledged that Dodd's Kidney Pills have done more for him than anything else in the world has ever done. He says: "I suffered with backache and was always drowsy and had a very heavy feeling in my limbs. I had frequent severe headaches and more times very sharp pains in the top of my head, which gave me much annoyance in my work."

"My fingers would cramp and I would have an uneasiness in my legs and occasional pains in the loins. I was dizzy in spells and short of breath. If I ate a hearty meal I would have a pain in my left side. My appetite would sometimes be very good and sometimes I couldn't eat anything."

"I had a constant soreness and tenderness over the spine and tired feeling in the region of my kidneys. I suffered quite a little with a dragging heavy feeling across the loins."

"Dodd's Kidney Pills were recommended to me by a friend of mine who had been cured, and I began to use them."

"Almost from the start I began to feel the wonderful improvement, which continued as the treatment proceeded, till the unpleasant symptoms had one by one entirely disappeared."

"Dodd's Kidney Pills have worked a wonderful cure in my case, and I cannot speak too highly at this great and good remedy."

What Dodd's Kidney Pills have done for Mr. Chartrand they have done for thousands of others, and they'll do the same for you if you give them a chance.

There are many railway men in Canada to-day who find Dodd's Kidney Pills indispensable. They are the railway man's surest and best friend.

The constant vibration on trains and engines is very hard on the kidneys, and Dodd's Kidney Pills make these organs well and able to resist disease.

## ALLEGED DEFAULTER.

Hamilton, Ont., July 10.—J. C. McKeand, who has been the greatest book-keeper for E. T. Wright & Co. for the past nine years has been missing since last week, and an examination of his books shows a large shortage in his accounts. H. G. Wright says he believes McKeand is in the United States, and will likely stay there. The exact amount of his defalcation cannot be stated until a complete audit of the books has been made, but it is estimated at over \$5,000. Dabbling in the bookish shops is supposed to be the cause of McKeand's downfall.

## The Sight of it Whets The Appetite.

Malt Breakfast Food  
ALWAYS A WELCOME DISH AT THE MORNING MEAL.

Many Use It Twice a Day in The Hot Weather.

Malt Breakfast Food is a blessing to thousands in the hot weather. Amongst those who toil with brain and muscle, a large proportion have weak and failing appetites, and were it not for a relished dish of delicious Malt Breakfast Food, the duties and labors of the day could not be properly met. Malt Breakfast Food whets the weary appetite. It is always a welcome dish at the morning meal. Many with great advantage use it for breakfast and supper in the hot weather. Try it for a week and note your gain in strength. Your grocer recommends it.

If bald spots were a sin, false hair would be the charity that covers a multitude.

## Catarrh is a Germ Disease

Science, armed with the microscope, has established it a fact, and this conclusion renders obsolete the practice of treating Catarrh and Bronchitis by stomach drugging, or sprays, snuffs, etc. Such treatments are an utter failure because they cannot penetrate the delicate air cells of the lungs, or permeate the air passages of the nose and bronchial tubes where the germs of Catarrh have their stronghold. Catarrh is the only certain remedy. It is inhaled by the mouth and after spreading through all the respiratory organs is exhaled through the nostrils. Catarrh kills the germs, heals the inflamed tissues, clears the head and throat in two minutes, and cures in a few hours. Nothing is so effective, pleasant and simple as Catarrh. Two months' treatment \$1; small size, 25c. Druggists or N. C. Polson & Co., Kingston, Ont.

If you have faith in your watch remember that "faith without works is dead."

## "DRINK GRANO, CEREAL COFFEE."

An ounce of mother is worth a pound of clergy.

If you are scrofulous, dyspeptic, rheumatic, troubled with kidney complaint, general debility, lacking in strength, take Hood's Sarsaparilla.

God's showers can bring no blessing to seedless soil.

## LODGES.

WELLINGTON Lodge No. 45, A. F. & A. M., G. R. C., meets on the first Monday of every month, in the Masonic Hall, Fifth St., at 7:30 p.m. Visiting brethren heartily welcomed.

J. S. BLACK, W. M. ALEX. GORE GORE, Sec.

## ANCIENT ORDER UNITED WORKMEN.

As we need sympathy and help in what we endure, so do others in their tribulations, and it becomes us to give out, as well as take in, kindly consideration and assistance. You can, by becoming a member of our noble Order, place yourself in a position, not only to perform this twofold duty, but also to receive the contentment that comes out after protecting the home.

Visiting brethren always welcome. W. G. ARVOLD, J. R. SNELL.

## LEGAL.

J. B. RANKIN, K. C.—Barrister, Notary Public, etc., Victoria Block, Chatham.
