WRITTEN FROM THE WEST

The Planet's Correspondent has Reached Portage La Prairie.

His Impressions of that Rapidly Developing Country—Other Incidents.

Portage La Prairie, Aug. 12, 1901.
Tuesday, August 6th, bidding goodbye at Ottawa station to Rodney Smith and Alex. Ross, I started on my trip west. In real earnest, I felt happy because now I was really going to see that country which I had often heard described as "the glorious west," "God's country," etc. I have already seen part of it and I must say that I have yet to be disappointed in my expectations. It is a grand country.

The Imperial express, a through train from sea to sea, furnishes a delightful means of travel. The coaches are all handsomely fitted up and vestibuled. The train consists of a sleeper, a parlor car, a tourist coach, a first class day coach, and a colonist car, besides two baggage and express coaches. The travellers can enjoy the greatest comfort on these trains. Since leaving Ottawa I have travelled with six different C. P. R. conductors and I have never on any road met with so many nice men. They were all very courteous and kindly and pleasantly answered all the questions asked of them. It is a pleasure to travel with such men in charge of the train. The Imperial Limited runs at good speed and it was really funny to see some farmers from Ohio holding their breath and grasping the seats as the through express sped along rocky cliffs and across deep ravines along the north shore of Lake Superior.

From Ottawa the C. P. R. follows the river through the beautiful Ottawa valley, and the passenger can look down farm houses and splendid barns. Towards the north the Laurentian Hills rise, and at their base the Ottawa river flows. Carleton Place, Almonte, Arnprior, Renfrew and Pembroke are the important places which the C. P. R. touches on its way to the west. They are all manufacturing towns, using for the most part water power.

It was quite late when we reached North Bay, and so I slumbered as the train passed through Sturgeon Falls, a town called after the eponymist in the river of that name. I awoke about six o'clock Wednesday morning. The day gave promise of being dreary and drizzling, but it cleared up towards noon. The landscape looked so dismal in the rain that one performer turned to his fellow travellers for companionship. Chapleau was the first station we passed through after awake. A man on the train, who apparently knew the country, said that this was the point farthest north on the C. P. R. in Ontario, and it was only 150 miles from James Bay. The scenery from Chapleau on proved very entrancing. The C. P. R. here passes through a land of hills and lakes. The hills are well wooded for the most part, and occasionally places will be seen where the fire has swept through and left nothing but bare and blackened tree trunks. The train would dash out from between two hills passed a sylvan lake and then through a level tract studded with huge boulders. The C. P.

R. roadway for the most part of the way along the north shore of Lake Superior has been blasted out of the solid rock. This country seems to have been of volcanic formation and it looks as if a huge mass of molten stone had suddenly cooled. As time passed on, vegetation has taken root and secures a precarious life in this rough and rugged land.

Joseph Young, a namesake, but an Irishman, who went west from Huron county, Ontario, and prospered as a Manitoba farmer was on the train. He is colonization agent for the state of Ohio, and has his headquarters at Columbus. He had a party of American delegates from different places in that state, whom he was taking west to see the country. The members of the party were, M. E. Winter, Junction City, O., W. S. Chambers, Deshler, O., J. H. Hodson, Sandusky, R. D. Herrick and W. H. Peabody, Oberlin, C. J. Petrie, and W. Workman, Cleveland, R. D. Woodmancer and O. L. Rowland, Columbus, H. W. Nieman and L. G. Long, Elmore, John Henderson and E. B. Tracey, Gilboa. There was one lady in the party, Miss R. R. Shepherd, Junction City, quite an appropriate name. The delegates represented about 25 families altogether. They were very enthusiastic about the west. Some of them talked of staying in the glorious land of the prairie and fine wheat. They carried huge lunch baskets with them, and it was amusing to see how they enjoyed the trip. Joseph Young told me that the west was a great country and he wouldn't leave it to live in any country he knew of. When he went west he had no money, but borrowed \$200 at 20 per cent, and thus got a start. Now he owns two large farms in the west country.

There were other passengers on the train, though you might not believe it. One was Walter Maxfield, Berea, Ohio, a returned South African soldier. Maxfield went on a visit to England, and from there went to South Africa, where he served for 15 months with the South African Light Horse. He said he thought that the British would get the country conquered in time, but if Kitchener could not do it no one could.

B. R. Sheridan, an Englishman, who had spent five years in South Africa, was also a passenger on the train. He was going to the coast. A South African colonial, from Edmonton, who had been with Burnham's Scouts, I did not meet. It is surprising the number of South African veterans in the west. I am meeting them every place I go.

Concluded on Monday.

Michigan City, Ind., August 23.—John Fleming, a life convict, in the penitentiary, has been given a ten days' pardon by Gov. Durbin in order that he may visit his dying father at Kokomo. The officers have full confidence that he will return at the end of ten days.

This is said to be the first case on record where a life convict has been permitted to leave the prison.

Dear Sirs,—I have great faith in MINARD'S LINIMENT, as last year I cured a horse of Ringbone with five bottles.

It blistered the horse, but in a month there was no ringbone and no lameness.

NO JOY IN LIFE

SO SAY THE SUFFERERS FROM CHRONIC DYSPEPSIA.

A Trouble That Makes the Life of its Victims Almost Unbearable—Causes Headaches, Heart Palpitation, Dizziness, a Feeling of Weariness, and a Dislike for Food.

From "L'Avenir du Nord," St. Jerome, Que.

Sufferers from dyspepsia or bad digestion are numerous in this country. Almost daily one hears some one complaining of the tortures caused them by this malady, and it is no uncommon thing to hear a sufferer say "I wish I was dead." And no wonder, the suffering caused by bad digestion cannot be imagined by anyone who has not suffered from it. The victim is a constant sufferer from headaches, heartburn, heart palpitation, and nausea. He has a bad taste in his mouth, is unable to obtain restful sleep, and has always a feeling of weariness and depression. But there is a sure cure for this trouble and it is found in the greatest of all known medicines—Dr. Williams' Pink Pills for Pale People.

Among those who have been cured of this distressing malady by Dr. Williams' Pink Pills is Mr. Alfred Chasbot, a well known farmer living near St. Jerome, Que. To a reporter of "L'Avenir du Nord," Mr. Chasbot told the following story of his illness and subsequent cure.

"For three years I was an almost continual sufferer from the tortures of bad digestion. After eating I felt as if some heavy weight was pressing against my chest. I was wracked with violent headaches; my temper became irritable; my appetite uncertain; my nerves were a wreck and I was always troubled with a feeling of weariness. I was able to do very little work and sometimes none at all. Although I tried many remedies I was unsuccessful in my search for a cure until a friend advised me to try Dr. Williams' Pink Pills. Any doubts I may have had as to the merits of these pills were soon dispelled, for I had not been taking them long before I noticed an improvement in my condition. I continued the use of the pills some weeks when I considered myself fully cured. To-day I am as well as I ever was in my life, and would strengthen the nerves and thus tone up the whole system. Sold by all dealers in medicine or sent by mail, post paid, at 50 cents a box of six boxes for \$2.50 by addressing 'The Dr. Williams Medicine Co., Brockville, Ont.'

Barton Reddick, of Detroit, an old Chatham boy, who has been spending a couple of weeks at the Eau, returns to Detroit to-day.

It is reported that the steam launch "Adieu," owned by a number of Detroit people, made over \$40 last Tuesday running short excursions from Rond Eau to Government Park. By so doing they were violating the coasting laws, as no American boat is allowed to ply between two Canadian ports.

"I wish that you would make a correction to an article which appeared in the Banner last Friday," said Detective Skiving, of the L. E. & D. R. R. to The Planet last evening. "They stated that one of the mail bags had been stolen from the L. E. & D. R. train, the contents taken and the bag cut up and afterwards found on the track. This, however, is not true, and besides, reflects discredit upon the railway employees. As a matter of fact the mail bag was not on the train at the Eau and arriving at Chatham was put off at the G. T. R. Junction. Here it was noticed that the bag, which was a very old one, was slightly ripped. It was pinned up by the yard master and the conductor of the train, and put on the mail train which comes into Chatham from Ridgetown shortly after the Eau train comes in. Both the postmaster here and the postmaster at the Eau say that nothing was missing. The Banner did not correct the article, as they were asked to do, and we would like to have the public know that the story is false and that the railroad men were not guilty of any tardiness, as they certainly would have been if the bag had been stolen."

It Isn't One Bit

Surprising that values should be reversed during August. Instead of making a reasonable profit, trade conditions demand lowest prices—less than the cost of manufacture.

We're busy—all over the house we're busy—and the keener fact is that business grows on us continually.

There isn't even a bowing acquaintance between the clothing we sell and the kinds that find favor in some stores. Ours is fully equal to the tailor-made. It is tailor-made. We do our own tailoring and know all about the suits we own.

It's just as much our business to supply you with proper Hats and Furnishings. Bargains in both. No trouble to show goods.
