PETROLEA.

Petrolea, June 23.—Mr. J. L. Englehart has returned from a business trip to New York.

A very interesting golf tournament took place on the links last week, when Mr. George Moncrieff won the contest by a good margin of points, while Mrs. W. F. Cooper carried away the trophy for the ladies.

Mr. Ross Malton, of the Bank of Toronto, Cobourg, is renewing acquaintances in town this week.

The garden party given under the auspices of the Baptist Young People last week was a success. The attendance of the band added considerably to the pleasure of the evening.

Mrs. Robert Ewing, of Denver, Col., is visiting friends in town.

The recent rains have produced a very enlivening effect upon vegetation in this neighborhood, and the farmers are all pleased with the prospects of a more copious harvest than otherwise was expected.

MOUNT BRYDGES.

Mount Brydges, June 22.—The people of our village are busy at their statute labor. We are looking forward to enjoying some more good sidewalks.

Mr. J. Hawes, of Chicago, is visiting his parents here.

The entertainment given in connection with the Methodist Church on Wednesday night was a success. The programme was well rendered and highly appreciated. The proceeds amounted to over $47.

The Ladies' Aid are doing quite a business with ice cream on Saturday nights.

A welcome little visitor came to the Baptist parsonage on Saturday night.

A Middlesex Farmer Cured

Of Itching, Bleeding Piles by Dr. Chase's Ointment—Had Tried Nearly Everything in Vain.

Many readers of this paper will know the writer of the letter quoted below, and some will be able to consult him personally about his case. Only those who have suffered from piles can realize what he suffered.

Mr. F. G. Harding, a retired farmer, living at Nilestown, Middlesex County, Ont., writes as follows: "I have, in some heaven-directed way, itching piles for four or five years, and suffered intense agony at times. I had tried almost everything, but could get nothing that would give relief. On hearing of Dr. Chase's Ointment I procured a box, and it only required part of it to completely cure me. I am recommending it to all afflicted as I was."

Dr. Chase's Ointment is the only absolute and guaranteed cure for every form of piles. It has a record of cures unparalleled in the history of medicine. Sixty cents a box at all dealers, or Edmanson, Bates & Co., Toronto. To protect you against imitations the portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every box.

HAD QUICK CONSUMPTION.

"Three doctors said I had quick consumption. Angier's Petroleum Emulsion was prescribed. In six months I had gained 59 pounds in weight, had no more night sweats or hemorrhages. Am now in perfect health."—B. H. Walton, Medford, Mass.

Of the 2,894 Congregational ministers in England and Wales, 2,573 are stated to be teetotalers.

THE UNIVERSE MOURNED

Body of Li Hung Chang Interred in His Native Village.

Pekin, June 23.—Not until Saturday last was the coffin of Li Hung Chang, who died a year ago last November, placed in its last resting place in the tomb erected to his memory, near the temple in his native village in Naghwai Province. The casket lay long upon the ground, covered with a mantle of purple silk, on which was embroidered in letters of gold: "The universe is in mourning."

Astrologers made careful calculations in order to find a propitious date for the permanent "laying away" of the great Chinese statesman, but such a date was not found until recently. On the door of the tomb is inscribed: "He shook heaven and upset the earth." In front of it rises a huge altar covered with candelabra, vases and golden censers.

THE BRITISH COMMONS

Mr. Chaplin's Grain Tax Motion Defeated 416 to 32.

London, June 23.—When asked in the House of Commons yesterday what steps were being taken to induce Germany to cease differentiation against Canada, Colonial Secretary Chamberlain replied: "I am not aware that there are any effective steps that can be taken under our present fiscal system."

When the house went into committee on the budget bill, Henry Chaplin (Conservative), former president of the Board of Agriculture, moved the rejection of the clause providing for the repeal of the grain tax.

After a discussion, during which Mr. Ritchie, the Chancellor of the Exchequer, declared the tax had been of no advantage to the British farmers, and had been a disadvantage to the dairymen, by increasing the price of foodstuffs, and pointing out that the whole tax fell on the consumer, the motion was defeated by 416 to 32 votes.

CUNARD LINERS ARE WITHDRAWN

British Company Annuls Agreement With Morgan's Combine, Alleging Unfair Treatment.

New York, June 23.—Various reports having been circulated as to the attitude of the Cunard Steamship Line toward the International Mercantile Marine Company, the following official statement as to the Cunard Line's position was obtained yesterday:

"February last the Cunard Steamship Co. gave the necessary three months' notice to the North Atlantic conference at Liverpool, as provided in the agreement, of its withdrawal of its passenger service from the continental and British agreement. Three months having expired and nothing having been done to meet the demands of the Cunard Line, nothing further remained but to make the withdrawal final.

"The company feels that there are too many ships in the trade—in other words, the supply exceeds the demand, and there can be no relief from the existing situation without the withdrawal of the extra tonnage which had been put into the trade by our competitors; and further, the Cunard Company demands a readjustment to correct the inequalities which now exist in the classification of some of its steamers, so far as passenger rates are concerned.

"The object of the Cunard Company in withdrawing from the agreement is simply a desire to place itself in a position where it can protect its share of the trade. We have no desire to provoke a fight or inaugurate a cut in rates, and all we want is a reasonable share in the business without being unreasonably handicapped, and we take it we are entitled to that."

When James A. Wright, of the International Navigation Company, was shown the Cunard line statement and asked what he thought about that line's position, he replied: "I don't think there is any danger of a rate war. When several parties are doing business together under an agreement, and when one of those parties think that certain things are necessary, they give notice and wish to have the agreement revised. This seems to be the condition of the Cunard line. They have asked for a revision of the agreement. So far this revision has not been accomplished, and they have exercised their privilege to withdraw. I cannot prophesy what the outcome will be, but whatever is done will probably be settled upon at the other side."

Mr. Steele, of J. P. Morgan & Co., said concerning the withdrawal of the Cunard line: "It is a tempest in a teapot. The talk about it is absurd."

UNLUCKY THIRTEEN

Were the Years Valentine Fisher Suffered From Sciatica—Dodd's Kidney Pills Cured Him.

Collingwood, Ont., June 22.—Collingwood is in line with its list of complete and permanent cures by Dodd's Kidney Pills. Valentine Fisher, well known in the town and surrounding country, is one of the cured. He says:

"I was troubled with Kidney Disease for thirteen years. It developed into Sciatica, which located in my side, so that I could not walk without a cane. I had to use hypodermic injections of morphine to ease the pain.

"I tried medical men and medicines but got no permanent relief. Then I tried Dodd's Kidney Pills and three boxes effected a perfect cure. I can recommend Dodd's Kidney Pills."

Dodd's Kidney Pills cure any form of Kidney Disease from Backache to Bright's Disease.

ONTARIO'S PEACH CROP

Owing to Leaf-Curl Only Half a Crop Is Expected.

Toronto, June 23.—J. F. Smith, government San Jose scale inspector, told a representative yesterday morning that the fruit prospects of Western Ontario from Niagara to Essex county indicate an abundant crop of plums and apples, but only about a half crop of peaches. The leaf-curl, caused by east winds and certain adverse atmospheric conditions this spring, has developed to a large extent in the peach orchards, and will spoil nearly half of what promised to be a splendid crop. However, on the whole, and after inspection of the fruit districts, Mr. Smith expects a fruit crop above the average. The great trouble will be to find a market for it next fall.

MALT BREAKFAST FOOD

A Delicious Cereal Always Welcomed at the Breakfast Table.

Malt Breakfast Food, a wonderful revelation of food purity and true nourishment, is always welcomed at the breakfast table. No other breakfast food sold by grocers has ever attained such widespread popularity or given such satisfaction to young or old. It is specially mentioned and recommended by Webster Edgerly, president of the Ralston Health Club.

Malt Breakfast Food is entirely free from all starch elements and irritating properties which characterize oatmeal and the common package foods. The regular use of Malt Breakfast Food is a guarantee of perfect digestive vigor and good health in the summer months. Ask your grocer for it.

Human Flesh For Sale.

Pekin, June 3, via Victoria, B. C., June 23.—The famine in Kwang-Si is growing worse by degrees, the mortality being estimated at 200,000 deaths daily from starvation. The British authorities in Hong Kong, aided by public subscription, have been sending aid for two months. A Japanese report says cannibalism is being practiced, and human flesh is publicly offered for sale.

A WAR AGAINST MEDICAL QUACKS

100,000 Men and Women Are Illegally Practicing Medicine in Germany.

Berlin, June 23.—The German authorities have begun an active campaign against medical quacks. In no other civilized country are there so many quacks of all sorts, and nowhere else are they so rewarded by numerous and well-to-do patients.

The German government has finally determined to subject all professed curers who are not recognized medical practitioners to the severest surveillance. They will be given a month to secure other employment, and if at the end of that time they persist in practice they will be prosecuted.

The Government is in possession of statistics which show that more than 100,000 men and women are illegally practicing medicine and the art of healing in Germany, and that this number is rapidly increasing.

One medical statistician says he has found 150 cases of cancer in his province. Of these twenty-five are attended by authorized physicians and 108 by quacks. He maintains it is nearly as bad in other diseases which particularly call for trained medical aid.

Most of these quacks allege that they have occult powers, personal magnetism, "magnetic eyes and hands," and that a cure will be the immediate consequence of implicit reliance in this treatment. German doctors are indignant at the incomes enjoyed by some of these rivals. In the large cities of Saxony, Dresden, Leipsic, and Chemnitz, it is not unusual for an ignorant quack to receive from $1,500 to $2,000 a year, an income beyond the average earnings of the scientifically equipped medical man throughout Germany.

Attention is also directed to the number of women quacks who profess to have magnetic powers. In Saxony alone there are several hundred, and among their patients are some of the proudest names in the land.

SERVANT WON'T QUIT HOUSE

She Has an Epileptic Fit and a Month's Contract—So Family Goes.

New Haven, Con., June 23.—Mrs. Charles Johnson, of this city, recently made a trip to New York to get a cook, and she brought back with her Katie Morrison, who had been well recommended and who was engaged for a month.

Katie pleased the family and Mr. and Mrs. Johnson the first three days of her stay, but on the fourth day Mrs. Johnson was frightened at hearing a strange noise in the kitchen, and on entering found her new servant stretched on the floor in an epileptic fit.

When she and Katie had recovered Mrs. Johnson told the girl she must go, but Katie refused, saying that as she was under contract for a month she would remain until her time was up. Mr. Johnson was then called in, and he demanded that Katie leave at once, which she refused to do. Then he told her he would pay her her month's wages if she would go, but Katie said she would not be bribed.

The city attorney was then called in by Mr. Johnson, but he said that the law upheld Katie in her stand. He hinted, however, that she might be enticed from the house, and then readmittance be refused her. Katie said that she was hired to do the work for that house for a month and that she would not stir her foot out of it until her time was up.

Today Mr. and Mrs. Johnson began to pack up preparatory to moving into another house and leaving Katie in the one vacated.

THE CREDITORS AGREE

Ames & Company's Proposal for Settlement Is Approved.

Toronto, June 23.—A. E. Ames & Co. yesterday morning issued the following statement:

A. E. Ames & Co. report that their proposal to creditors is meeting with acceptance, yesterday morning's mail having brought the consent forms in in large numbers. A great many more are expected in today, while it will take a few days before distant points can be heard from.

WHY MANNING FAILED

Cowardice of Native Troops in Somaliland Largely Responsible.

Simla, India, June 23—Gen. Manning, who took command of the British expedition in Somaliland last November after a reverse suffered by Col. Swayne, has not proved successful in his campaign. Columns detached from the force have been badly mauled by the Mullah's followers, the most serious British defeat being the ambushing of Col. Plunket's flying detachment of 208 men, with two maxims, on April 17, when Col. Plunket, all his officers and practically the entire force, were wiped out. The last advices received in London June 16 were to the effect that Gen. Manning himself was surrounded and unable to assist Col. Cobb, whose column was in a serious position at Callady and on half rations. One of the causes of the non-success of the expedition has been the cowardice of the native Somali regiment, of which so much was hoped when it was formed recently. Only a few days after the news came that the native camel corps had mutinied. The operations against the Mad Mullah, who first raised the tribes against the British in 1899, have already cost $2,000,000. A desire has been manifested to abandon the campaign, but in view of the predicament of Gen. Manning's forces it has been found necessary to order British troops from India. When they arrive the British expedition in Somaliland will consist of 800 British, 1,200 Indian troops and 4,000 natives.

Read what Mrs. Geo. H. Alward, Whites Point, N.B., has to say about them: "This is to certify that I have used Doan's Kidney Pills for pain in the back and kidney trouble and I do most gratefully recommend them to any person suffering in this way. I was so bad with kidney trouble that I could not get around the house. My feet and ankles were so swollen and painful that I could get no rest day or night. I tried several remedies but could get no relief whatever until a friend advised me to try Doan's Kidney Pills. I soon perceived a decided change for the better and had only taken two boxes when I was able to do my housework again, and three boxes made a complete cure."
