TIPS FROM WALL-STREET.

The market was steady at the close.

A dividend of 2 per cent. was yesterday declared on Rubber common.

The weakest stock on Wall-street to-day was New York Gas, which sold at 139½.

St. Paul's earnings for the third week of December show a decrease of $33,289.

CHICAGO GOSSIP.

Henry A. King & Co., 12 King-street east, received the following despatch to-day from Chicago:

Wheat has been very dull and narrow but firm, the transactions being mostly of an evening up character, both local longs and shorts being adverse to carry their lines over the holidays. All the news was of a moderately bullish character. Barrett was a considerable buyer, and Baldwin & Farnum were on the same side. This was set down to covering. Gifford was principal seller. New York early seemed to be disposed to sell, but was the best help later in the day after the export figures were out. The sentiment on the floor is decidedly bullish, almost everybody talks and believes in higher prices. This is a market which convinces everybody who believes in higher prices that he is right and leads one who is bearish to wonder whether he is right or not. The short interest has been cut down considerably, and is smaller to-night than for several days.

Provisions—Shade lower, with undertone somewhat weak. Packers sell whenever market shows tendency to advance. Commission houses are about the only buyers.

McIntyre & Wardwell (John J. Dixon) send the following despatch to their branch office in Toronto from Chicago:

Wheat—There was an effort made by local traders to depress the market owing to recent extensive short covering, but as buying demand was quite fair in view of Christmas holidays, they only created a short interest which had finally to be liquidated at higher prices. The news was in favor of holders. Cables were firm and New York reported fair buying for foreign account. Cash demand was unusually good here, purchases aggregating 105,000 bushels, 50,000 bushels of which was for export and 55,000 for winter wheat millers. The final estimate on Manitoba yield was given as 14,000,000 bushels. We understand The Corn Trade News cables that amount of wheat afloat will show an important reduction. The situation looks very firm.

Provisions opened steady and sold lower on selling by packers. New York bought May lard and sold January at 20c difference. Pork was changed from January to May at 30c to 32½c difference. At the close New York bought May lard. Carrying charges on ribs from January to May have widened to 17½c to 20c. Estimated receipts of hogs Saturday 19,000, Monday 40,000, next week 70,000.
