A Planet "Don't."

If you ride a Planet and find it necessary to remove the back wheel you "don't" take the chain apart as in ordinary bicycles. Neither is it necessary to alter the chain adjustments.

WITH YOUR THUMB AND FINGER

you simply unloosen a nut, then turn the wheel around

AND THE CHAIN IS OFF.

It is wonderfully simple, and is so easily operated that is is in thorough keeping with the Planet construction throughout. It is just one of the 1900 features that are making us work night and day to fill orders.

AFTER HIS FIGHT WITH M'CONNELL

Bennett Meets Shifty Welterweight and Then Comes for His Battle With Ferns.

Jack Bennett writes that his only fight before he tackles Jim Ferns in Toronto two weeks from to-day will be with Dan McConnell at Niles, O., on May 17, while the Kansas Rube will confine himself to training. McConnell is the welterweight who beat Matty Matthews in seven rounds in '98, and Bennett must be in pretty good shape to tackle such game as McConnell and the Kansas Rube. The McKeesport boxer will come to Toronto with Jack Sullivan right after the McConnell fight, and his many friends here will look to see his cleverness carry him home a winner over Ferns. This will be Bennet's eighth battle in Toronto, without a defeat. Unlike some of his bouts across the line last winter, he is always trained to the minute here, and Ferns recognizes that on May 24 he will have just as hard a game as Mysterious Billy Smith or Bobby Dobbs.

The Rube is working quietly under the careful eye of Charlie Wilson at Buffalo. He is a strict trainer, and has never anything to look for on the score of condition. The weight is 142 lbs. at 3 o'clock, a limit that both Bennett and Ferns can easily do.

Jack Roach keeps working for his 12 rounds with Sullivan. Jack Kilty, a relative of Pat's, wants to meet Jim Lawless in the curtain-raiser.

FLAG FALLS IN TWO WEEKS

A Bad Track at Woodbine Park and Slow Moves Were the Order of Yesterday.

LARKSPUR WON AT LOUISVILLE.

Seagram's 2-Year-Olds, Free Play and Phosphorus, Among the Also Rans at Morris Park.

The track was in bad shape yesterday morning, and very few of the horses were asked to do more than light gallops, altho some of these turned up as fair trials.

The Hendrie lot were all worked, and the Guineas candidates—The Provost, Miss Elwood, White Clover and Barley Sugar—were galloped with Martimas and Dance.

Joe McGlone worked Adam Beck's horses. The plater, Miss Dart, cut off a mile in less than a two-minute clip.

The Dyment Guineas candidates, Magog and Belcourt, were worked a mile with Fred Perkins at a two-minute clip.

Dave Boyle's platers, Manoeuvre and Bringloe, were given useful work. Jessamine Porter was given light work.

Only light work was the order at the Newmarket track yesterday all day.

Orpen's horses again made good trials yesterday. Californian and Zambarango were worked three-eighths in 40. Livonian, the timber-topper, galloped along with Aragnol at a two-minute gait.

Boyle's 2-year-olds, Daddy and Litigation, took useful work.

Charlie Gates worked Basle and Daryl at a useful gait.

John Nixon worked all his lot at a two-minute clip.

Thorncliffe and Kenny were worked out.

Ben Pope treated the Davies string to easy work.

Duggan's Moral and Armada were given light work.

Two weeks from to-day the race for the Guineas will be run and the declarations must all be made to-day.

The track had dried out fairly well yesterday afternoon, when the harrows were put on, and by to-day it will be again fit for fast trials. Not a single kick has been registered this season against the arrangements.

Maloney's horses, Populist, Nicholas and Boy Orator, are now stabled at the Woodbine.

The steeplechase course was rolled yesterday, and this will greatly improve it.

The new roof on the members' stand is now almost finished.

Arthur W. Bryan has again been given a year's lease of the Woodbine Clubhouse.

Crooks of Hamilton has again been granted the liquor privileges for the meeting.

Orpen & Brennan yesterday disposed of Bridal Tour to McIlmurray & Nolan for $300.

Good Racing at Morris Park.

New York, May 9.—Threatening and showery weather was responsible for a small attendance at Morris Park to-day, but the racing was quite up to the standard. The Bouquet Stakes for 2-year-olds and the St. Nicholas hurdle race were the fixtures. The first resulted in a pretty race with Educate, Fake and Lanceman heads apart at the finish. Fake was the favorite and showed the way for the greater part of the journey, but hung a little inside the last sixteenth, and Educate and Lanceman passed him. He came again, however, but could not quite get up, Educate getting the decision by a short head. Summary:

First race, 6 furlongs—Lady Uncas, 100 (Dangman), 6 to 1, 1; Robert Metcalf, 88 (Slack), 6 to 1, 2; Native, 106 (Hamilton), 6 to 1, 3. Time 1.11. Elfin Conig, St. Cloud and Zanone also ran.

The Duke of Portland's Manners and Lord Carnarvon's Baldur finished second and third, respectively. Fourteen horses ran, on the old cup course (nearly two miles and a quarter).

BRITAIN CAN HOLD HER OWN

Mr. Goschen, First Lord of the Admiralty, Says the Troops Must Be Well Equipped.

BRITISH GUNS EXCEL THE FRENCH

Col. Denison of Toronto Spoke at the Dinner of the South African Association.

London, May 9.—At the banquet of the Iron and Steel Institute, given this evening at the Hotel Cecil, Sir W. C. Roberts-Austen presiding, Mr. George J. Goschen, First Lord of the Admiralty, responding to the toast "Army and Navy," said the Government fully recognized that the finer the troops sent out to battle for the country the greater was the obligation to provide for them the best means of success. Therefore, he continued, they had not forgotten, and must not forget, the manufacturers of armor-plate and of implements of war and the other scientists whom they had pressed into the ranks to aid in solving the terrible problem they had to face.

"We have formidable competitors," he said, "in Herr Krupp and in works at La Creusot and in the United States, but we may rely upon the inventive genius and the pertinacity of the English manufacturers and scientists to secure results which are so vital to the British Empire."

British Guns Better Than French.

Mr. Goschen emphatically denied the statements made in the French Chamber of Deputies regarding the quality and propelling power of British guns, declaring that these would hit harder and had greater bursting power than the French. He announced that the Government had decided to appoint a scientific committee of enquiry to examine all smokeless powder propositions and all desirable modifications of the existing guns, adding: "And the Government are not going to be strangled in the toils of red tape in this undertaking."

South African Dinner.

The annual dinner of the South African Association was held in London this evening, Baron Robert Windsor presiding. Among those present were: Mr. Frederick Rutherford Harris, Mr. Alfred Beit, Mr. Lionel Phillips and the Australian Federation delegates.

Col. Denison, former president of the Canadian Society, responding to the toast, "The Imperial Forces," referred to the seriousness of the question of the country's food supplies. He said that Great Britain ought not to be dependent for this upon foreign countries. Col. Denison advocated giving Canada, the Cape and Australia a voice in the settlement of the peace conditions in South Africa, and he urged the calling of an Imperial conference as soon as the war had terminated.

ONLY ONE GAME IN EASTERN

And Toronto, With the Advantage in Batting and Fielding, Turns Up the Loser.

WORCESTER WON BY 13 TO 8.

Barrow and His Men Make Their Bow at Home Against Providence To-Morrow.

The Torontos return to-day from a trip almost as disastrous as the one made in the spring of '97 by Irwin's team that afterwards won the Steinert Cup. Manager Barrow has encountered all sorts of untoward events this year, and, notwithstanding the lowly place in the standing, the fans should not convict him before a longer trial. Mr. Barrow has promised to fix up the weak spots, and those who know his capabilities feel sure that the Torontos will at least win a big majority of the home series of games that start with Providence to-morrow at the Island. The men will reach home this afternoon, and the game to-morrow will start at 3.30. Toronto made more hits and less errors than any other team in the Eastern League yesterday, and still turned up the only loser. Rain prevented the games at Hartford, Providence and Springfield. The record is as follows, with Toronto not at the bottom:

	Won	Lost.	P.C.
Rochester	8	3	.722
Montreal	6	3	.666
Providence	7	4	.635
Worcester	6	4	.600
Syracuse	4	5	.440
Springfield	3	4	.426
Toronto	2	7	.222
Hartford	2	8	.200

Games to-day: None scheduled.

Games to-morrow: Providence at Toronto, Springfield at Montreal, Worcester at Rochester, Hartford at Syracuse.

Only Behind in Runs.

Worcester, May 9.—Toronto was defeated in one of the greatest slugging matches this afternoon, Toronto batted harder than Worcester, and played better in the field, but at critical stages Horton was well supported. In four times at bat Suthoff struck out each time. Cockman fanned three times. A double play by Rothfuss, unassisted, was the feature.

Irwin Strengthening Up His Stars.

Syracuse, May 9.—Manager Arthur A. Irwin is continuing his weeding-out process on the Syracuse players under his charge. He has now succeeded in shaping the team about as he wants it. He has released, besides left fielder Shannon, catchers Byers and O'Neil and pitchers Ging and Brandt.

To a reporter this morning Manager Irwin state that his effort now would be devoted to strengthening the catching department of the team. He expects to sign another catcher within a day or two, and Jack Wente, the well-known Syracuse player, will doubtless be the man. Jack may be taken temporarily, to stay if he does well.

Buttermore's arm is all right, Mr. Irwin says, and he will be played in right field. Lynch will be put in left, and Bannon will be held as substitute.

Two more of the pitchers will be released as soon as Mr. Irwin can decide which ones can be the most easily spared.

With these changes made Mr. Irwin thinks that he will have a strong, well-balanced team, and is certain that they will show up well in the long series of home games which open here on Friday.

The grounds will be in condition by that time. Mr. Irwin spent all day yesterday at the grounds and is satisfied that they will be in condition for the game.

On Thursday the Stars will play Howdy Earle's State League team at Utica.

Pointers for the Plate.

First pointers on the Queen's Plate are beginning to find their way round. The races this year will doubtless create more interest than ever before. Several orders for paddock coats have already been placed with Messrs. Frank Broderick & Co., fashionable tailors, 109 West King-street, where they are made in the most artistic manner from the best materials, at reasonable prices.

200 Single Suits.

Of the two hundred single suit lengths that Henry A. Taylor, draper, the Rossin Block, is showing in fine imported woollens for spring and summer wear, every one of them is a dressy and very gentlemanly pattern. The single suit length idea is much appreciated by particular dressers.

Good Tailor Work

It Runs Without Sound

You can ride the Monarch Chainless without feeling any pedal-vibration from the gears. The gears may be separated or drawn closer together with the greatest ease. All the Monarch adjustments are made from the outside of the wheel.

The gear teeth are so scientifically cut that they run without sound. They are hardened, and will not wear out quickly. The Monarch Chainless is perfect. Come in and see it.

There is No Leverage

E & D four-point bearings deliver the load in a straight line from axle to hub. Ordinary bearings deliver the load diagonally, and the cones and cups sustain greater pressure than the load they are carrying. Ordinary bearings are worn out when E & D bearings are running as smoothly as ever.

Four-point E & D bearings are guaranteed three years, because they don't need repairs. It wouldn't cost any more to guarantee them five years.

The local guarantee on Tribunes will save you the cost of repairs made in a distant city. Guarantee repairs are locally made.

A CRACK AT JUDGE WURTELE.

Sir Edward Clarke of England on the Judgment in Mr. William Weir's Case.

Montreal, May 9.—(Special.)—Sir Edward Clarke, formerly Solicitor-General of England, has submitted an opinion endorsing Mr. Donald Macmaster's position in the William Weir case. Sir Edward says Judge Wurtele's decision was wrong regarding the indictment, which should have been quashed. He also declares that the judge's charge to the jury was a clear misdirection. The judge, he says, having amended the indictment, was bound to tell the jury that before convicting the defendant they must be all satisfied as to the wilful untruth of some one specified statement contained in the return.
