"The Indians from the Lake Superior region used to come down to visit the Captain and his wife, and a fine looking lot they were. My farm lay on the road traversed by the Indians when coming from the north land and they used often to stop over night at my fireside. On these visits to Captain Keating the Indians used to hold war dances and have a generally good time.

"In my intercourse with the Indians I made a discovery which I have since learned has been made by others. Any person who can talk Gaelic can read the Indian language and pronounce the words correctly although he doesn't understand a word of what he is reading. I learned this by reading to the Indians myself. There surely must be some connection between the two languages and I wonder if it will ever be discovered. "One day I heard a shot fired in my woods and, on going back, I found an Indian cooking a piece of venison over a fire on a spit. The half-skinned carcass of a deer lay near, from which the roast had been cut. The Indian told me that he had wounded the deer on the previous morning and had followed the animal till he had killed."

DE WET HAS FEW FOLLOWERS.

London, April 22.—A despatch to a news agency here from Harrismith, under date of yesterday, located Gen.

De Wet near Kroonstad, and says he has few followers, and is unable to recruit a sufficient force to make an offencies measurement. There have been offensive movement. There have been numerous surrenders of starving

Boers.

The War Office has received a despatch from Lord Kitchener reporting that since April 18 various British commanders have taken eighty-one commanders have taken eighty-one prisoners, together with 100,000 rounds of small ammunition and many horses, cattle and wagons. Lord Kitchener reports also the surrender of twenyt Boers since that date.

Sir Alfred Milner's depressing account of the situation in Cape Colony is emphasized by a telegram from East London announcing that the Boers held up a train near Molteno on Thursday night, notwithstanding the recent severe measures dealt out to train wreckers. The people here fall to understand why marauding commandoes are still able to roam about the colony without fear of being captured.

Jackson, Mich., April 22.-David H. Creech, a capitalist, aged 70 years, and for fifty years a resident of this city, shot his wife on the street yesterday afternoon, firing four bullets into her head, neck and mouth while he held her fast with his left arm about her waist. Mrs. Creech, who was forty years old, was married to Greech twelve years ago. Previously she had bee his housekeeper. They lived unhappily. his housekeeper. They lived unhappily. Three years ago Mrs. Creech began divorce proceedings, and after they had made several futile attempts to live together again, she was granted a divorce. Tuesday the Supreme Court affirmed the divorce, and yesterday's shooting was the result. Mr. Creech was arrested, and a second loaded revolver was found in his possession. He said he had intended to kill himself.
