CERTIFICATE OF THE REGISTRATION OF AN EXTRA-PROVINCIAL COMPANY.

"Companies Act, 1897."

I HEREBY CERTIFY that the "Red Cliff Land & Lumber Company, Limited," has this day been registered as an Extra-Provincial company under the "Companies Act, 1897," to carry out or effect all or any of the objects of the company to which the legislative authority of the Legislature of British Columbia extends, except the construction and working of railways and the business of insurance.

The head office of the company is situate at the City of Superior, County of Douglas, State of Wisconsin, U. S. A.

The amount of the capital of the company is four hundred thousand dollars, divided into four thousand shares of one hundred dollars each.

The head office of the company in this province is situate at Victoria, Vancouver Island, and H. Dallas Helmcken, Barrister-at-Law, whose address is Victoria, Vancouver Island, is the attorney for the company.

The company is limited.

Given under my hand and seal of office at Victoria, province of British Columbia, this 23rd day of September, one thousand nine hundred and seven.

[L.S.] S. Y. WOOTTON,
Registrar of Joint Stock Companies.

The objects for which the company has been established and registered are:—

(a.) To carry on and conduct a general timber, logging and lumbering business, and the business of manufacturing timber and forest products into any and all articles of merchandise, and the business of handling and dealing in timber, forest products and articles manufactured therefrom:

(b.) To improve, and to improve the navigation of, and to erect and equip any structures and fixtures in any water-way, body of water and its tributaries, in any manner as shall be necessary for or facilitate the handling and transporting thereon of logs, timber and timber products:

(c.) To acquire, construct and operate ships and vessels of any and all kinds:

(d.) To carry passengers and goods in any ships and vessels between such places as the company may determine, and to collect money for fares and freight for the carriage of passengers and goods:

(e.) To carry on all or any of the business of ship owners, exporters, importers, carriers by land and water, stevedores, warehousemen, wharfingers, forwarding agents, general traders, dealers, merchants, commission merchants and storekeepers:

(f.) To construct, equip, maintain and operate any mills, buildings, machinery, manufactories, railways, works, plants, fixtures and structures as shall be necessary for the purposes of the company, and to contribute to, subsidize or otherwise aid or take part in any such operations though undertaken, constructed or maintained by any other person or corporation:

(g.) To direct, take and carry away water from any stream, river, and lake, the right whereto may be lawfully obtained or acquired, and to acquire water and water power by records of unrecorded water or by the purchase of water records or water privileges for the purpose of rendering water and water power available for use, application and distribution or the transformation thereof into power of any other kind, and to operate and carry on the business of a power company:

(h.) To enter into any arrangement with any government or authority, supreme, foreign, local, municipal or otherwise, or with any corporation, foreign or domestic, company or individual that may be conducive to the interests of the company, and to obtain and acquire therefrom and hold, possess and enjoy any right, licence, lease, privilege, franchise or concession that the company may deem desirable or necessary, and to carry out, exercise and comply with the same:

(i.) To carry on business as general contractors for the carrying on construction, installation and completion of works, erections and contracts of all kinds:

(j.) To lay out land for building purposes and, to build, improve, and on building leases, advance money to persons building, or otherwise develop the same in such manner as may seem expedient, to advance the company's interests:

(k.) To obtain by purchase, lease, hire, discovery, location, or otherwise, and hold, possess and enjoy mines, mineral claims, mineral leases, prospects, mineral lands, mining rights of every description or any interest therein, or options or rights for or in relation thereto:

(l.) To prospect or search for, dig for, win, raise, get, quarry, crush, wash, smelt, reduce, amalgamate, dress, assay, analyze, refine, extract, prepare for market or otherwise treat or render to the most profitable merchantable value and market, quartz, ore, minerals, mineral or metallic substances and compounds of all kinds, coal, oils, stone, and precious stones whether belonging to the company or not, and generally to carry on any metallurgical operations:

(m.) To carry on the business of a mining, smelting, milling and refining company in all or any of its branches:

(n.) To purchase, hire, take on lease or licence, or take by gift or devise, or otherwise acquire any and all kinds of property whatsoever, real, personal and mixed, and any estate, interest, licence, easement, right, privilege or franchise, in, connected with or growing out of, any property whatsoever, including without limiting the foregoing woods, timber, timber limits, timber berths, and licences to cut and remove timber from any land in the province of British Columbia, or elsewhere, and to invest, in traffic in, deal in, on own hold, possess and enjoy any interest therein, and to grant, sell, convey or authorize to be conveyed, exchange, dispose of, lease, let, improve, cultivate, turn to account, manage, hypothecate, pledge, mortgage, borrow on the security of, charge or otherwise deal with all or any portion of the property owned by the company or subsequently acquired by it, and its franchises, tolls and revenue whatsoever, and to subscribe for, take and hold, in its corporate capacity, stock or shares in any other corporation, foreign or domestic, and to do any and every act and thing necessary or proper to conduct the business and accomplish the purposes of the company:

(o.) To purchase, lease, or otherwise acquire any business similar in character to the herein stated objects, and to acquire and undertake the whole or any part of the business, property, goodwill, assets, stock-in-trade, credits, effects and liabilities of any person or company carrying on any business which this company is authorized to carry on, or possessed of property suitable for the purposes of this company, and to pay for the same either in cash or in shares of stock in this company:

(p.) To apply for, purchase or otherwise acquire any patent or patent rights containing any exclusive or non-exclusive or limited rights to use, which may seem calculated to directly or indirectly benefit this company, and to use, exercise, develop and turn to account the property or rights so acquired:

(q.) To procure the company to be registered, licensed, recognized and authorized to transact business, or to enable it to acquire the legal status of a corporation in any other state, territory or country, foreign or otherwise, and to establish local agencies and branch businesses in any places:

(r.) To carry on any other business which may seem capable of being conveniently carried on in connection with the foregoing, or otherwise calculated, directly or indirectly to enhance the value of, or render profitable any of the company's property or rights:

(s.) To invest, lend and deal with the moneys of the company in and upon any securities and property, and in such manner as from time to time may be determined:

(t.) To do any and every act or thing that is or shall be necessary or expedient to effect and accomplish the objects and purposes for which this company is organized. s29

DEATH LOSS NOT KNOWN

Thousands Left Homeless—Inmates of Prison Crazy With Fear

Rome, Oct. 24.—The details received here during the day regarding the earthquake in Calabria yesterday tend to show that the damage was more extensive than at first estimated and that the loss of life has not been so great. The lowest estimates place the number killed at 20 and the highest about 120.

The Pope, when informed of the destruction this morning, said with tears in his eyes: "Are we having a repetition of the disaster of 1905? God help the poor souls." The pontiff will send a sum of money for the relief of the sufferers.

The shocks were especially severe in the southern end of the Calabrian peninsula, but throughout Calabria today there were scenes of desolation and despair. The first shock was a tremendous one, and was followed by two others of larger proportions, which entirely destroyed two villages and reduced many houses in several others to ruins. The first shock fortunately brought the entire population of the villages into the open, many reaching the hills or open plains. Torrents of rain greatly increased the suffering among the homeless people. One of the houses of Ferruzzalo and Brancaleone collapsed, and many persons were buried in the ruins, and at Sinopoli and St. Ilario many are said to have lost their lives.

Panic prevailed everywhere. Rocella, Monica, Reggio, Cosanza, Baraclio, Callinova, Palmi, Gerica, Marina and other towns also suffered from the shocks, but not severely. The ancient cathedral at Cari di Geraca was thrown down, as also was another ancient church. Half the houses in the village of Meraca are in ruins.

During the confusion caused by the first earth shock, the prisoners in the jail at Catanazro mutinied, and were subdued with great difficulty. The female prisoners were particularly alarmed. As soon as the building experienced the first shock they began to scream and shout to the jailers, demanding their release and beating the doors until the whole place was in a terrible uproar. The prison officials did everything possible to calm the inmates, but the clamor broke out afresh every time another shock was experienced. As soon as possible detachments of troops were hurried to the scene by special trains.

The earth shocks continue but they are slight. The people are still in a condition of apprehension, which is increased by each tremor. In spite of the rain that is falling they absolutely refuse to remain under cover. They are camping out in the open. Mattresses have been spread about the squares and the fields surrounding the stricken villages, and the people are covering themselves and their children as best they can.

Many thousands will pass the night in the open air. The only buildings that the frightened people will consent to enter are the churches, and even there they will not stay long. They make supplication before the images of the Virgin and the saints, and then hurry out of the churches. Sacred relics have been exposed in the cathedral of Catanzaro, and this served in a measure to calm the population.

The heavy rains have caused floods at several places, and the work of rescue under these circumstances is necessarily proceeding slowly. The people are too frightened to assist in the rescue work. No bodies had been recovered from the ruins until 6 o'clock this evening. At that hour about two hundred were taken out. It is now estimated that the deaths will surpass 500, but it is impossible to get actual information on this subject, as many villages are still cut off by the floods, and the destruction of roads and telegraph lines, and no word from them can be had.

The earthquake bids fair to rival that of 1905. It is hoped, however, that it will not last long. The second shock lasted for 24 seconds. It seemed as if the earth never would stop rocking. Many persons cried out that the end of the world had come. The oscillation was so violent that the needle in the recording instrument at the observatory was broken.

WILL TRANSFER NAVAL STATION

Imperial Authorities Ready to Hand Over Control to Canada

Ottawa, Oct. 24.—Notwithstanding rumors to the contrary, the naval station at Esquimalt, B. C., will shortly pass into the control of the Canadian Government. The imperial authorities, after having arranged nearly two years ago to hand over the drydock and station at Esquimalt to the Dominion, experienced some doubt as to whether the Canadian Government was in a position to maintain the efficiency of the establishment there as a naval base. During the recent visit of the Minister of Marine to England he gave the necessary assurances, with the result that the transfer is to be completed at an early date.

Criminal Negligence

Toronto, Oct. 24.—Wm. Chessar was committed for trial this morning on a charge of criminal negligence, thereby causing the death of Jas. Ribby, who was killed by the collapse of a scaffold on a new building where Chessar was foreman. The evidence before the coroner's jury was that the scaffold was badly constructed and insecure.

LONDON COMMENTS

Different Views Taken of President Roosevelt's Course

London, Oct. 24.—The financial writers express continued confidence today and the editorial writers do likewise, that the British public will not be greatly affected by the financial crisis in the United States, unless it should lead to a drain of gold to New York, and in this connection there was considerable interest as to whether the Bank of England would raise the bank rate of discount today. The rate was left unchanged at 4½ per cent.

The Daily Telegraph says editorially that President Roosevelt's anti-trust campaign has done much to shatter confidence in the United States. The president's object is beyond reproach, the paper says, but is it absolutely necessary that the sky should be dragged down in order to catch the few larks the president is bent upon netting? Could not the guilty parties be brought to book without involving thousands of investors in their punishment? "We fear," the Daily Telegraph says in conclusion, "that the innocent will suffer more seriously than the guilty."

The Standard reflects more the general opinion and thinks that a crash was inevitable sooner or later and that the action of the American government did not more than precipitate it. This paper says that probably President Roosevelt was justified in declaring that he had "only turned the light on."

Labor Statistics

Ottawa, Oct. 24.—The September report of the department of labor shows the following: Accidents to work people, 340; of which 96 were fatal and 244 resulted in serious injuries. Fatalities were 70, less than in August, but six more than occurred in September, 1906. Twenty of those killed were farmers, 20 in the railway service, 16 in mining and 11 in navigation. Canadian industries were affected by strikes during September involving 950 work people.

Dulness in Iron Trade

Toronto, Oct. 24.—Forty blacksmiths have been laid off at the Canada foundry. Mr. Nicol, president of the company, says the action was taken because of the condition of the market. They are behind their orders, but it is imperative that they shorten expenses. He believes that all other big firms will have to adopt a similar policy.

Brewing Trouble

Ottawa, Oct. 24.—Local retailers are sore over the surprise sprung upon them by the brewers in raising the price of beer. It is alleged that the association with the high sounding title and high fees, which was supposed to be formed for the purpose of fighting local option and other probable measures, is in reality to assist the brewers' trust. Local temperance people are aiding them, say the local retailers, and they suggest that the government should investigate one Ontario combine.

RAISE SALARIES OF MINISTERS

Manitoba to Increase to Same Amount as Paid in Other Provinces

Winnipeg, Oct. 24.—Considering that the salaries of cabinet ministers of the Provinces of Alberta and Saskatchewan are so much higher than those of members of the Manitoba cabinet, at the next session of the local parliament the matter will be adjusted.

The salary of the premiers of Saskatchewan and Alberta, as of other members of the cabinet, is $5,000, but the premier receives in addition $1,000 as president of the council, while all the cabinet, together with all the members of the House, receive a sessional indemnity of $1,000, which brings the Premier's salary to $7,000, and the ministers' to $6,000.

In the Manitoba cabinet the ministers receive $3,000 each in addition to their sessional indemnity of $500, and the Premier receives in addition a salary of $1,000 as president of the council. All the members also receive milage for attendance at the sessions.

It is understood that the salaries of the Manitoba ministers will be raised to the same amount as is paid in the western provinces. In this connection the sessional indemnity will probably be increased to $1,000, as the members of the Government consider that they do as valuable work as is done in the western province, where the population is smaller.

Old Dominion Official Dead

Ottawa, Oct. 24.—Capt. Robt. McCuaig, for twenty years measuring surveyor of shipping for the Dominion, died last night.

New Banking Superintendent

Albany, N. Y., Oct. 24.—Clark Williams, the new superintendent of the state banking department, took the oath of office at the state secretary's office today.

HON. MR. AYLESWORTH.

Minister Will Retire if Deafness Cannot Be Cured.

Ottawa, Oct. 24.—Hon. A. B. Aylesworth and Mrs. Aylesworth will leave tomorrow for New York, where the Minister of Justice will consult a specialist in regard to his deafness. After that the minister and his wife will go to Clifton, N. Y., where Mr. Aylesworth will take a rest. He himself hopes that a rest for four or five weeks will completely relieve him of his present malady, but should that hope prove unfounded he will certainly insist upon retiring from the cabinet and from public life.

Ghost Libel Suit.

Ottawa, Oct. 24.—In the supreme court today the case of the Manitoba Free Press Company vs. Nagy was heard. In October, 1905, the Free Press as a news item published a report that an unoccupied house on St. John avenue, Winnipeg, was haunted by a ghost. Nagy, who is the owner of the house said to have been haunted, brought suit against the company for $10,000. The action was dismissed by Justice Macdonald at the trial court, but on appeal Nagy was awarded $1,000. In the present appeal the company contends that the item was not damaging or published maliciously, that no particular premises had been indicated as haunted, and no malice or special damage had been proved, and that the claims for damages were cooked up and absurd. Judgment was reserved.

EMPRESS OF CHINA IS AGAIN AFLOAT

Vessel is Expected to Be Entirely Freed of Water Early Today

MANY SACKS OF FLOUR WET

Steamship Likely to Get Away One Day Behind Her Schedule

Vancouver, Oct. 24.—The Empress of China is now well above water, and level with the dock, and it is expected that by morning all the water will be pumped out. In spite of the delay C. P. R. officials are quite hopeful that she will get away on Wednesday next, only one day behind her schedule sailing date.

It is now ascertained that three thousand sacks of flour are entirely spoiled. A great deal of the remaining cargo was made up of pig lead. The engines and machinery were not injured.

The officers are still of the opinion that the sinking was due to carelessness on the part of some one who left a valve open. In the opinion of Diver Moore the hull of the ship is uninjured.

The Salvor has been pumping steadily all day, and by last report the water in the ship was down to seven feet. The interior fittings are naturally very much damaged, but a small army of men will be put to work refitting her, so that she may get away as soon as possible.

Capt. Balder, of Gann & Co., and a Deputy game warden, left for Spring Island.

The following company has been incorporated under the "Companies Act": Pacific Mill and Timber Co., with a capital of $20,000, to carry on the business of a sawmill, manufacture of lumber, etc., the principal place of business being at Victoria. The following are the directors: Alexander Lucas, of Victoria, merchant; Ewen McLeod, of Victoria, merchant; Frederick William Vigelius, of Victoria, merchant; George A. Shade, of Victoria, merchant; Donald J. McDonald
