A FAMILY NECESSITY.

No other journal caters so intimately and minutely to the needs of the agriculturist as does the Family Herald and Weekly Star of Montreal. From his medical to his religious needs, from the health of his stock to the capabilities of his machinery, from his ladies' embroidery to their pickles, from the minerals on the land to the fish in his brooks, from the books of his leisure hours to the amusements of his children, from his individual cares to his public duties, he finds companionship, help and guidance in the same old journal, which delighted his fathers and is the joy of his children to-day. He could not afford to be without the Family Herald and Weekly Star of Montreal. The subscription price is $2.00 per year.

ACCIDENT WHILE HUNTING.

Lindsay, Ont., Sept. 7—Hr. Howard Fairbairn, of Bobcaygeon, met with a painful and serious accident Tuesday while out duck hunting with his friend Wm. Hill. While getting out of the canoe at Nogies Creek, Fairbairn pulled his gun after him, the trigger caught and an explosion followed. The shot entering Fairbairn's right arm. Although his companion, Hill, has one arm he managed to paddle the canoe several miles to their car and then motored to Lindsay Hospital, where Fairbairn's arm had to be amputated. Fairbairn's left arm was injured while overseas. Wm. Hill is a former Ferguson Manor young man a son of Mr. and Mrs. John Hill of that place.

SEARCH FOR TREASURE SHIP

£300,000 in Specie and Jewels Believed in Armada Treasure Ship.

London, Sept. 18.—Search is once more being made for supposed sunken treasure in Tobermory Bay, where the Spanish ship Almirante de Florencia was sunq after the defeat of the Spanish Armada as the result of an explosion. It was thought that she contained specie and jewels to the value of about £300,000, and orders were given to prevent her escape. An explosion, however, occured on board, and after taking fire she went to the bottom of the bay in sixty feet of water.

Several attempts have been made to discover whether the wreck contains treasure that may be recovered, but these have not been carried to a successful conclusion. The present operations are being carried out by a syndicate with the best available machinery and at big expense. So far actual timber of the ship have been encountered. Recently a heavy piece of timber which is supposed to have formed part of a mast was taken up.

The operation consists chiefly of cutting down with a circular saw everything in the old ship that may be cut, and bringing it all to the surface by means of a suction pump. The spoil is then into a large box with sluices in the stern of the salvage steamer Lincolm, where men with rakes take all solids to one side for careful examination. The work is in charge of Captain Irons, Harbormaster of Dover, assisted by Commander Strickwood, R. N., and all the officials engaged are men skilled in salvage enterprises. Three expert divers are engaged in the work.

CANADIAN MARKET IN SOUTH AMERICA

Movement to Aid Trade Between Continent and Canada.

South America offers as good an export market for Canadian natural products as any other country in the world, especially as in that country United States funds are at a discount according to R. W. Gould, secretary of the Canadian Export Club.

He says a movement is on foot to bring about better export trade with South American and to change the present system of imports into this country by way of New York, thereby creating direct import trade.

Dried codfish formed chief of Canadian export to Brazil up to the end of the fiscal year March 31, 1920, 99,349 cwts. to the value of $1,379,771 being exported. Pollock came next with 7005 cwts, valued at $77,284.

Over 2,900 barrels of flour went from this country to Brazil valued at $30,434. Malt, 1,863 bushels, valued at $4,989 was exported and pneumatic tires valued at $66,914 and other tires to the value of $9,447.

Locomotives and parts held a good place on the export list, $245,385 being the value. A few exports were sewing machines, $285,214; autos $181,304; coal, 1587 tons, $19,837; glass, $21,280 and calcuim carbide $13,334.

A comparison of Canadian exports to South America since 1916 shows $1,059,700 in that year; in 1917, $1,028,163, 1918, $974,368, 1919, $4,068,534, and 1920 $2,703,488.

The one drawback to a much more extensive export trade is the 20 to 30 per cent off duty allowed to the United States, said Mr. Gould.

Canada is not directly interested in the big exposition which will be held in South America in 1923, but as the United Kingdom has a building there it is quite likely that the Dominion will be allowed space in the building.

Ended the Stiffness in his wrist

Isaac C. Mann, of Matapedia, Que., has written us as follows:

"Fourteen years ago I got the cords of my left wrist nearly severed, and for about nine months I had no use of my hand. I tried other liniments, also doctors, and was receiving no benefit. Under persuasion from a friend I got Minard's Liniment and used one bottle which completely ended my trouble. I have been using Minard's Liniment in my family ever since and find it the same as when I first used it". 30

"I Was Run Down"

"Body was completely covered with Boils"

"If you have ever had boils, you know how painful and annoying even one or two can be. But imagine having your whole body almost entirely covered with them! I am a watchmaker by trade, making a specialty of repairing the highest grade movements. This is probably the most trying of any mechanical work, particularly for a nervous individual like me. Working under great strain both day and night for three months, brought me almost to a state of collapse. I was so irritable and nervous that the slightest thing would 'send me up in the air.' If I managed to get a few hours of sleep at night I was lucky. I had no appetite for food. I certainly was miserable. During this time boils began to appear on different parts of my body and the pain from them made life a misery. My suffering was so great at times that I felt there was nothing left for me to do but to end it all. I consulted doctors but they all told me that if I didn't give up my work and live out of doors, I would go into a decline. As I had no money I couldn't do this. In fact paying doctors' bills and buying medicines used up all the money I made. Finally in desperation, I decided that I would either kill or cure myself, so I began to study my case. I realized that I was as completely rundown as any one could possibly be with a bad case of nerves. What I needed was building up. After reading descriptions of different preparations, the one which appeared to be the best for me was Carnol. It has simply performed miracles for me. Four bottles have done more than months of travel abroad. I feel like a two-year old. I sleep eight hours every night and eat three good meals a day. My skin is like a baby's, free from blemishes of any kind and I have now almost forgotten that I have ever had such things as nerves. I want everybody who is ailing to know about Carnol, because I have such faith in it I believe it will cure any human ill."

Mr. J. H. Mc. C.

Carnol is sold by your druggist, and if you can conscientiously say, after you have tried it, that it hasn't done you any good, return the empty bottle to him and he will refund your money 1-623
