RECIPROCITY IN TARIFFS.

THE ONLY RECIPROCITY BELIEVED IN BY MR. MACLEAN.

Specific Duties—The Linchpin of the National Policy Should Be Retained—The Time Not Ripe for Tariff Reform—The Government Will Revise the New Schedules.

OTTAWA, April 6.—In the House this afternoon a number of bills were introduced, amongst them one by Sir C. H. Tupper, to amend the Harbor Masters' Act.

By Mr. McKay—To incorporate the Welland Power and Supply Canal Company.

By Hon. T. Daly—To make further provision respecting grants of land to members of the militia forces on active service in the Northwest.

By Mr. Dickey—To amend the Electoral Franchise Act by providing for female suffrage.

Reciprocity of Tariffs.

After a few unimportant questions had been answered, Mr. Maclean of East York resumed the debate on the Budget. He spoke for half an hour, occupying his first 10 minutes in showing that he was a protectionist out and out, that he did not believe in tariff reform at the present moment and that as for reciprocity in trade with the United States he thought that that was impossible, and the only reciprocity he believed in was one of reciprocity in tariffs, dollar for dollar in specific duties, eye for eye, tooth for tooth.

Concessions to Unjustified Clamor.

As a stalwart protectionist, one who was sent to Parliament to support the National Policy, which had done good for the country and would do good hereafter for the country if maintained, he regretted that the Government had made so many changes, which had been conceded to an unjustified clamor made by the Opposition in behalf of the farmer; a claim made by the member for North Simcoe, who, if he was arguing for anything, was advocating a Protestant tariff, and to a clamor against specific duties.

Specific Duties the Linchpin of the N. P.

Specific dutses, Mr. McLean contended, were the linchpin of National Policy. They were in the interest of the revenue, of the honest importer and real protection to the manufacturer. The speaker next took up what he called a scientific reason for protection and concluded by showing that for patriotic reasons Canada was justified in adopting a national policy of protection.

Mr. Davies followed, speaking up to recess.

Will Stand By Protection.

After recess Mr. Davies continued his remarks for some time and was followed by Sir Charles Hibbert Tupper, who made a rattling good protection speech, pitching into free trade theories and saying that the Government intends to stand by the principles of protection in the future as it had in the past.

Borden continued the discussion.

Will Revise the New Tariff Bill.

The situation in regard to the tariff is undergoing considerable change to-day. The Government is finding out, as was pointed out in the debate this afternoon, that their proposals involved a serious disturbance of the industries of the country and that they must either recall some of their changes or make still other ones, so that the industries imperilled may obtain some relief.

John Jacob Astor at the Capital.

Dr. Seward Webb's private car at the Canada Atlantic station this afternoon was the scene of a gay luncheon party, at which Lord and Lady Aberdeen were present. Other guests were Mr. and Mrs. Astor of New York, Capt. Kendersley, F. C. Patterson, Mr. Sands of New York. The Webb-Astor party left for Montreal and will attend the performance of "The Private Secretary" in that city to-morrow night.

Mulock's Ocean Freight Bill Objected To.

Sir John Thompson and Solicitor-General Curran this afternoon were interviewed by a deputation from Montreal with reference to Mr. Mulock's Ocean Freight Rate bill. The deputation consisted of Mr. Andrew Allan and Mr. A. A. Allan, representing the Allan steamship line; Mr. David Torrance of the Dominion line, and Mr. H. C. Murray of the Beaver line. The deputation submitted a comparative statement of the expense of steamers at New York as compared with Montreal, and also compared the regulations. These latter were much more favorable to the steamship company in New York than they were in Montreal. The Canadian regulations required from three to four inches more space for each animal than did the regulations in the United States, which enabled vessels sailing from United States ports to take a good many more cattle than vessels sailing from Montreal. The Canadian vessel also had to be provided with ventilation, while the other did not. They contended that no hardship was experienced by the cattle.

Cattlemen and a Fast Atlantic Service.

The deputation also touched on the proposed fast Atlantic service and contended that a 20-knot service for Canada was a commercial impossibility. No line running at that rate of speed could be certain of paying. The round trip would cost about $75,000, the subsidy towards which would be $15,000, leaving $60,000 to be made up in freight and passengers. Mr. Torrance thought that a 17 knot service was the best which could be counted on to pay and Mr. Allan was disposed to think that more than 16 was very doubtful. Both the gentlemen stated that none of the fast lines from New York, with all their advantages, were paying, and they warned the Government not to take any action with reference to a 20 knot service without taking care to have good security.

In the Senate.

In the Senate to-day the debate on Mr. Bernier's motion for papers in the Manitoba school case was continued by Mr. Bellrose and concluded by Hon. Mr. Angers, who made a very careful review of the case, justifying the course pursued by the Government and saying that there was no other course which could legally and properly have been followed. As to the Northwest school ordinance which has been incidentally discussed with the Manitoba school case, he said that the House was aware that certain representation had been made to the Northwest Assembly through the Lieut.-Governor and he would not discuss the matter until an answer had been received.

William Harvey of Sudbury, has been appointed sub-collector of customs and James A. McLean of Bridgewater, N.S., revising officer for the electoral district of Lunenburg.

An Increase in the Revenue for March.

The statement of revenue and expenditure for the month of March shows the former to have been $3,759,327 and the latter $1,609,292, an increase of $452,089 in revenue over last March and of $80,106 in expenditure. The increase in revenue is wholly in excise and indicates that holders of whisky and tobacco were afraid of an increase of duty and took large quantities out of bond. This increase in excise brings the total for the nine months up to $27,845,846, an increase of $4216 over the same period last year. The expenditure for the nine months has been $23,331,755, an increase of $638,848 over last year.

On March 31 the net public debt was $240,189,803, a decrease of $1,693,560 during the month.

Civil Service promotion examinations will be held in Toronto, Montreal and other places on May 15.

Supplementary letters patent have been issued to the St. Lawrence and Chicago Steam Navigation Company increasing the capital stock from $100,000 to $200,000.

SUDDEN DEATH OF A MINISTER.

Rev. A. Dowsley of Campbellford Carried Off By Heart Disease.

CAMPBELLFORD, Ont., April 6.—Rev. A. Dowsley, Presbyterian minister, died here last night. He labored for many years as a missionary in India and China, and settled in Campbellford a few years ago. He was about 50 years of age, and leaves a widow and four children.

TIED STONES ROUND HER NECK,

Then Committed Suicide by Drowning in the Cistern.

STRATFORD, Ont., April 6.—This afternoon the wife of William Nichols, storekeeper, Ontario-street, committed suicide by drowning in a cistern at her residence. She had evidently deliberately planned it, as a bag containing stones was found tied round her neck.

"I'M DONE."

Sudden Call To a Tecumseth Farmer in Tottenham.

TOTTENHAM, April 6.—Thomas McMahon of Tecumseth, apparently in the best of health, was walking up from the postoffice, and when passing the Queen's Hotel suddenly put his hand to his heart, saying, "I'm done, send for the doctor." He was carried into a room and immediately expired. Cause, heart disease.

Her Babe Laid Dead Beside Her.

WYEBRIDGE, Ont., April 6.—Mrs. Benjamin Gardiner, who resides about one mile south of Wyebridge, was horrified on awakening to find her 5-weeks'-old baby boy lying dead beside her. At about 2 o'clock the child was apparently quite well, and whether the child was accidentally smothered or died from natural causes the parents are unable to say.

Died Beside His Daughter's Bier.

ELIZABETH, April 7.—Grief over the death of his daughter drove James P. Williams to suicide. He poisoned himself with morphine while standing beside his daughter's bier.

Found Dead in the Kitchen.

BRIGHT, Ont., April 6.—Mrs. Peter W. Bristow was found dead in her kitchen this evening. She had evidently fallen against the stove, as there was a small wound on her forehead.

An Early Morning Blaze.

At an early hour this morning two sheds in the rear of 21 Davenport-place and owned by Mr. William Spence, were destroyed by fire. The sheds burnt like tinder, the lurid light that lit the heavens giving those who first saw it the impression a great conflagration was in progress. Damage $150. Cause unknown.

Conversion of the Egyptian Debt Agreed To.

CAIRO, April 6.—The proposal of the Egyptian Government for the conversion of the unified debt has been assented to by Great Britain.

Crowds tell where the attraction is. Find the crowds and you'll find yourself inside one or other of our clothing stores, and the crowds clamoring for those irresistibly cheap spring overcoats and suits we're selling at the Army and Navy stores.

Love at First Sight.

When the hard-time winds were blowing last January we came to the conclusion that this spring trade was going to be a critical one, and, with that impression on our minds, we bought with special care, trying to procure patterns that were stylish and dressy, so that we could offer them at a price that would suit the times.

We think we have succeeded and are now prepared to have you call and pass an opinion. It will please us to have you do so, and perhaps you will fall in love at first sight with our overcoatings and suitings. Ask prices. See styles, and get ideas at Waterson's, the tailor, 126 Yonge-street.

English Opinion.

A writer in Herapath's London, England Railway and Commercial Journal of February 6, 1892, in an article on American Railroads, says:

"The railway system of America is vast. It extends to 171,000 miles, which, compared with our 20,000 miles, is big."

After commenting at considerable length on the comparative merits of various American railroads he closes with this remarkable sentence:

"The New York Central is no doubt the best line in America, and a very excellent line it is, equal probably to the best English line."

We always give a heaped-up, pressed-down, overflowing measure of value for every dollar spent in the Army and Navy stores.

We cannot make you look. We cannot make you buy; but is costs nothing to look and you save money if you buy. Come and get an idea what your spring suit will cost you, or what you can get an overcoat made for that will fit you. Waterson, 126 Yonge.

An Excellent Investment.

The Compound Investment and Investment Annuity policies of the North American Life Assurance Company, Toronto, give the insurer many desirable and valuable advantages. The 7 per cent. guaranteed income bond also issued by this sterling home company presents to the insurer a very desirable mode of investment, combined with the protection of life insurance.

For particulars respecting these excellent plans of insurance apply to the head office of the company, 22 to 28 King-street west, Toronto, Ontario, or to any of the company's agents. 246

CABLES CONCERNING CANADA.

MR. HUDDART FAVORS SOUTHAMPTON AS A BRITISH PORT.

Lord Rosebery Favors the Pacific Cable, but Declines To Consult the Governments To a Subsidy—Meeting of the Colonial Party — Comments On the Behring Sea Bill Debate.

LONDON, April 6.—James E. Huddart, promoter of the Canadian Pacific mail route to Australia, has been examining the various mail lines from England to America. After careful inspection and inquiry, he said this evening he had become convinced of the paramount advantages of the route via Southampton. He had been greatly impressed with the enterprise of the South-western Railway Company's enterprise in improving the docks. He believed that the American line would prefer that Canadian vessels dock at the same port rather than Liverpool, despite the competition which might result. He admitted that there was a possibile drawback in the habit of merchants to ship by the old Liverpool lines, and in their disinclination to change the hands into which they would deliver their cargoes. Nevertheless, he added, the experience of the American line had been such as to prove that these habits and prejudices were easily overcome.

Meeting of the Colonial Party.

LONDON, April 6.—Sir Charles Dilke presided yesterday at a meeting of the members of the colonial party of the House of Commons. Among those present was the Hon. Hugh Muir Nelson, Prime Minister of Queensland. He made a speech dealing with the question of a Pacific cable, urging that nothing would bind closer together the empire than a cable to Australia. He also maintained that the mail route to Australia by way of Canada ought to be given Imperial support. A long letter was read from a gentleman who for fifty years has been a resident of Samoa. The writer declared that the triple control of the Samoan Islands had failed, and he urged the annexation of the group of Great Britain. After debating the question the meeting resolved that in view of the importance of British interests in Samoa the Imperial Government should at an early moment consider the situation.

Rosebery and Ripon Interviewed.

On Wednesday a deputation waited upon the Marquis Ripon, Secretary for the Colonies, when Sir Charles Tupper, High Commissioner for Canada, introduced the subject of a subsidy for the projected line of steamers between Canada and Britain and aid for the Pacific cable, both of which would remove many obstacles now preventing the colonies from trading with each other. Sir Thomas McIlwraith and Hon. Robert Reid, Trade Commissioner from Victoria, supported the contentions of Sir Charles.

Both Lord Rosebery and the Marquis of Ripon expressed sympathy with the proposed enterprise, but were very cautious in their replies, and would not commit themselves to any definite pledges. They said it was desirable to await the result of the Parliamentary conference at Ottawa. They also expressed the necessity for a cautious treatment of the subject, as trade relations between the Mother Country and the colonies had an important bearing upon the trade between Great Britain and the foreign powers.

Two Outside Views.

Sir J. Colcomb has written another letter to The Times in reply to Mr. Samuel, in which he admits the desirability of a fast Atlantic mail and Pacific cable service, but contends that the basis of the arrangements for the carrying out of the projects is not fair to the British taxpayer.

Sir George Baden-Powell, in another letter, reaches conclusions precisely the opposite of Sir John Colcomb's and expresses the belief that the Imperial Government will finally decide in favor of co-operation with the colonies.

The comments of the papers generally are favorable to the Pacific cable scheme.

Regrets Discordancy Over the Seal Bill.

LONDON, April 6.—The Pall Mall Gazette, commenting on the debate in the House of Commons on the Behring Sea bill yesterday, says it is a great pity that discordant voices should have disturbed the harmony which had been achieved. The result of the deliberations of the arbitration tribunal afforded an honorable and practicable escape from the difficult position and a means of strengthening the excellent relations existing between Great Britain and the United States, against which no opposition should have been raised.

Objections Serve no Good Purpose.

The Times says: "We have often had occasion to criticize the lack of dignity of our kinsfolk of the United States when international relations were concerned, and we should have been glad if not even two members of Parliament had challenged even in appearance, the necessary sequence to submission to the award. We do not understand that either Sir George Baden-Powell or Mr. Bowles disputes the validity of the award or the necessity of giving it effect; but to raise objections which cannot be practically enforced does not seem likely to accomplish any good purpose, while it may tend to diminish the wholesome moral influence of the Pacific decision of a controversy that produced a disagreeable and even dangerous amount of friction between the two great nations of the Anglo-Saxon race."

ANOTHER IRISH PARTY.

With Healy as the Head—Liberals Growing Disgusted.

LONDON, April 6.—It is understood upon good authority that the formation of another section or faction of the Irish party is probable. The recent ousting of Mr. Healy from the board of directors of The Freeman's Journal has enraged that gentleman's friends, who regard Mr. Healy's treatment as an act of gross ingratitude, and it is understood that they are endeavoring to form another Irish party, of which Mr. Healy is to be the leader.

The lack of harmony in the Irish party, which the recent disputes have accentuated, has rendered many Liberals lukewarm toward Home Rule, and the apparent hopelessness of bringing the faction together will make it still more difficult to hold the Liberals to energetic support of an Irish measure upon which the Irish members are divided beyond the possibility of reconciliation.

TO OVERTHROW ROSEBERY.

Reported Amalgamation of the McCarthy and Parnellite Factions.

LONDON, April 6.—The Westminster Gazette calls attention to the reported intention of the McCarthy faction of the Irish party join the Parnellite wing and endeavor to overthrow the Rosebery Government, and adds: The Liberal party will certainly not bend its knees to beg for their support, and the result of such a course would be to set back Home for ten years. Unfortunately the misunderstandings within the Irish party are producing a bad impression in the country and are certainly damaging the zeal of the Liberals. The (the Irish) have need of a strong man to lead them.

FATAL COLLISION IN LONDON.

Pilot Engine and Freight Collide—One Man Killed—A Second Will Die.

LONDON, Ont., April 6.—A misplaced switch on the G.T.R., near Waterloo-street, resulted in a collision between a pilot and a freight train. A little after 6 o'clock George Ingram and anothe man named Fortner jumped onto the tender of an east-bound freight train for the purpose of getting a ride home. The men were caught between the tender and a stock car, Ingram being instantly killed and Fortner fatally injured.

PATTI AND NICOLINI ARE OUT.

Trouble Said To Be Brewing That May End in Another Divorce.

NEW YORK, April 6.—For some time past the relations of Patti and her second husband, Nicolini, were becoming strained. There is a possible divorce case looming up in the near future. Patti has a ruler, but it is not her husband, Nicolini, but her waiting maid, Caroline Bauermeister, a shrewd, clever German woman, who watches over Patti like a dog. The bone of contention in the present case is Caroline, and Nicolini, it is said, swears that he will get a divorce from la diva unless the wily maid is discharged. Patti will never part with Caroline.

Natural Catacomb in Mexico.

MEXICO, April 6.—The French engineer, P. Le Royal, recently discovered an immense natural cave in the district of Guerrero, state of the same name. He explored the cave with four indians. He followed it for nearly 15 miles under ground, but failed to find the end. In one place he found the petrified bodies of over 400 Indians and many idols and stone instruments.

King Humbert At Venice.

VENICE, April 7.—King Humbert arrived here last evening. He was vociferously cheered. A gondola of state conveyed him through the grand canal to the palace, a great number of gondolas following the procession. The entire city of Venice is decorated in honor of the royal and imperial visitors. It is probable that King Humbert will go from here to Florence and call upon Queen Victoria.

An Italian Banker Absconds.

In spite of hard times and lack of ready money quinn's necktie trade seems to flourish amazingly well. One cannot wonder at this evidence of indulgence when one considers that the majority of his charming and exquisite neckties may be purchased at 50c each. The new English Buckingham has become quite the rage and is having a marvelous run.

CONSPIRACY IN CUBA.

A Plot to Overthrow the Government Discovered.

MADRID, April 6.—A despatch from Havana, Cuba, says that Capt.-General Calleja has just learned of the existence of a plot to overthrow the Colonial Government. The labor agitator Marti is said to be the author of the plot, and Gen. Martinez Gomez is believed to have been chosen to lead the movement. It is reported that a large quantity of arms and ammunition which had been collected by the plotters was discovered this week at Puerto Prince.

DISMISSED BY GOVERNOR O'BRIEN.

Surveyor-General Woods Refused To Resign, But Had To Go.

ST. JOHN, Nfld., April 6.—Gov. O'Brien has dismissed Surveyor-General Woods from office and from his seat in the Executive council, as Woods would not resign. Speaker Emerson has received notification from the Governor that Woods and Moore are no longer members of the Legislature, but he cannot act upon this, as the assembly has not had a quorum for a week, the Government members remaining away. There was an attempted riot here last night. It was started for the purpose of doing damage to the property of the opposition members of the Legislature, but was quelled by the police, who arrested the leader. The Governor has wired the admiralty, asking that warships be immediately sent. He desires to prevent a possible outbreak. It is rumored that the Governor will reply Saturday to the memorial presented by the Opposition.

Deported Chinamen Landed at Victoria.

VICTORIA, B.C., April 6.—Yee Lee, Lee Chung and Fung Chong Yuen, who were deported from the United States of America and shipped to China on the steamer Tacoma, were landed here yesterday on writs of habeas corpus sworn out by friends here before Justice Drake. On arrival of the ship an head tax of $60 was paid for each man, and they showed the receipts to Captain Hill of the Tacoma. He refused to recognize them, holding that he had contracted with the United States Government to deliver them in China. The writs of habeas corpus were then obtained and orders issued for the realease of the Chinamen.

No Likelihood of a Change.

An unwarranted report having been circulated to the effect that the Canada Accident Assurance Company had dismissed its agents here and intended to abolish the Toronto office, Mr. John Gouinlock, the Toronto agent, informs us that the company has no such intention. The company recently reorganized the Toronto agency by appointing Mr. Guinlock general agent for plate glass (in addition to his general agency for accident) in place of Mr. Beemer, who no longer represents the company.

The Canada Accident has the largest Canadian deposits of any accident company doing business in Canada and has proved itself during the past year to be an exceptionally prosperous and progressive concern, of which their handsome office at the corner of Toronto and Adelaide is a strong evidence.

HIS GOVERNMENT CANNOT EXIST MUCH LONGER.

Beaten by a Majority of One in a Division on a Private Bill, Despite Unusual Energy of the Government Whips—Absentee Irish Members Blamed—Conservative Papers Jubilant.

LONDON, April 6.—The defeat of the Government in the House of Commons last evening, when it was beaten by a vote of 228 to 227 on a private bill, has been the chief topic of discussion in political circles to-day, and the prediction is freely made that the Rosebery Government cannot exist much longer.

Other votes were taken on various questions and the normal Government majority fell off from 25 to 18 votes in several cases, until finally a majority of one was recorded against them in spite of the vigorous efforts of the whips.

It was on the question of the second reading of the East London water bill that the vote was taken. The bill was opposed on behalf of the Government by Mr. G. J. Shaw-Lefevre, President of the Local Government Board, and the Government whips were energetic in their endeavors to rally their forces, but despite this the bill was passed by the vote mentioned—228 to 227. None of the Parnellite members were present and many of the anti-Parnellites were away, but all had arranged pairs before going.

External Vigilance the Price of Office.

The Daily News (Liberal) commenting on the matter admits that the Government will meet with serious disaster unless greater vigilance is observed.

The Westminster Gazette is inclined to place the blame upon the Irish absentees, remarking that "the serious feature of the situation was in the absence of 10 Nationalists and the Redmonites from the House."

The Conservative papers are jubilant at the position in which the Government is placed and regard the downfall of the ministry as merely a question of a short time.

EMIGRATION FALLING OFF.

6000 Less for Canada Than in the First Quarter of 1893.

LONDON, April 6.—There is a conditinued heavy decline in emigration through British ports to America.

For the first quarter of last year the figures show that there were 58,547 emigrants as against 32,198 in the first three months of this year. The emigrants to Canada declined from 9702 to 3399, especially in foreigners.

The emigration to the United States declined from 39,114 to 19,325. The emigration agents report that the immediate prospects for emigration to Canada are very dull. This they attribute to the low prices of wheat and the increased rates.

EXPLORATIONS IN THE FAR NORTH.

The Canadian Stanley Tells His Story.

The April number of The Canadian Magazine is one of the brightest publications in America. The instructive, the entertaining, the racy and fresh, are combined in such a manner as to please the intelligent classes. W. Ogilvie's narrative of discovery and adventure in the far north Mackenzie River basin; the illustrated articles on Sir Oliver Mowat, lumbering, Irish scenery and Lieut.-Governor Schultz's description of a vast and solid old fortress on Hudsons Bay are interesting in high degree. Sold by John P. McKenna, Bookseller and Newsdealer, 80 Yonge-street, near King. All of the other contributions are excellent.

St. George's Society.

St. George's Society met last night, with President D. T. Symonds in the chair. Messrs. Barnett, Lawrence, J. A. Sauter and C. J. Boulder were elected ordinary members, and Mr. A. M. Greer a life member. A resolution of condolence with the widow of the late George Virtue was unanimously passed. Arrangements were made for the society's annual celebration of St. George's Day. Divine service will be held at St. James' Cathedral on the afternoon of Sunday, April 22. On the evening of St. George's day, April 23, the annual dinner will be held in St. George's Hall, Elm-street.

Good Thing He Changed His Mind.

LONDON, April 6.—The Paris correspondent of The Daily News says that the Prince of Wales planned to go to the Odeon Theatre and to dine at Foyot's on Wednesday evening. He would have occupied the room which was the most damaged by the explosion. After all arrangements had been made the Prince changed his mind and went elsewhere.

We ought to clothe every male inhabitant of Toronto—if each were an expert judge of clothing values and would compare our clothing and prices with those of our competitors. The Army and Navy stores, King-street east and Yonge-street, cor. Temperance.

The Best Native Wine in Canada.

We have some of the choicest native wine ever sold in Canada, seven years old, at $2 per gallon or $5 per dozen. William Mara, 79 Yonge-street.

Musicians, the musical columns in The Toronto Sunday World are worthy your attention.

Druggists say Coughicura is booming.

The Fort Dalhousie Trips.

The Garden City and Empress of India will probably be competitors for the Toronto-Fort Dalhousie traffic this season. The Lakeside, which has for the past two years been upon this route, is to be transferred to Lake Erie, to ply between Port Stanley and Cleveland. Parties purchasing tickets now will not have access to the local and popular steamer Garden City, which will be the only boat up to St. Catharines this season. The Garden City will commence her regular trips between Toronto and St. Catharines about the 10th of May.

There is but one journal devoted exclusively to insurance published in Canada—The Bulletin. See the latest number. Office 34 Victoria-street.

The Visiting Hotelmen.

The hotelmens' convention held here this week was a success in every way. The visitors not only got through a lot of business, but had time to look around for the latest wrinkles. Among other things they found that Obico is not only the best, but the most popular mineral water on the market to-day.
