Chatham, Ontario.

### TO OUR CUSTOMERS.

We have just put in, at great expense, a WOODBURY MACHINE, heated by steam, work only passing through the rollers once; the result—WORK IS ELASTIC, WILL NOT BREAK, and will last much longer than when ironed by the old method, heated by gas, which has to pass through the rollers eight times.

P.S.—We have also added a newly invented machine to Iron the edges of Collars and Cuffs.

### CAPTURING A TURTLE.

White Traveler Admired the Ingenuity of the Indians.

Turtle soup is as welcome to travelers in the wilds, who have long existed on corned beef, as to the guests of a metropolitan hotel. Mr. Francis C. Nicholas, in "Around the Caribbean and Across Panama," tells of a feast which he and his companions enjoyed, but only after a severe struggle. His party had been following the beach, looking for turtles, and finally a really large one was discovered resting quietly on the sand.

"Immediately the Indians were upon it," says Mr. Nicholas, "and for a moment I could not tell which was Indian and which was turtle. In the general confusion one man was sent rolling over and over at a blow from one of the flippers; in an instant he was on it again, and then the struggle was over; the turtle was turned on its back, hauled to a safe place, and we returned triumphantly to camp."

"The next morning four Indians said they would bring the turtle in with ropes if I would lend them; I thought they must be very strong, and rather doubted their ability, but I gave them such things as they wanted, and, taking my rifle, followed, to see what they would do. "After a tramp of about three hours we reached the turtle, and found it just as it had been left the night before. The Indians began at once tying up the turtle for the return to camp. I could not help admiring their ingenuity. A rope was tied to each flipper; then the turtle was allowed to crawl back to the water, where the Indians, holding the ropes from the shore, could guide it as they wished. We went toward camp with some enthusiasm at the thought of the supply of fresh meat that was swimming along before us.

"Presently we came to the mouth of a river, where we all crowded into a small canoe, one man holding the turtle and three attempting to paddle. But the turtle was too strong for us; and began at once to drag the canoe down the river toward the breakers on the bar. Here was danger. Round us an ever-increasing company of sharks came, gathering closer. Some even brushed against the canoe and rocked it violently, while the efforts of the turtle threatened to upset us every moment, and once in that water there would have been little chance for us.

"We were now nearing the breakers, and the canoe began to race ominously. I called to the men to cut the ropes and let the turtle go. One seized the hatchet, but at the instant the turtle turned down the coast instead of up the river, and this gave the Indians a chance to reach the other shore. We soon had the turtle hauled up close to camp. That night he was made into soup, a whole turtle stewed in a great iron pot; and it was good."

### WORTH KNOWING.

How to Cure Sore Feet—Some Other Valuable Pointers.

An eminent doctor recommends the following as a cure for sore feet: Alum, three ounces; tannin, one ounce; brown vinegar, one pint; rose water, half a pint. Mix and apply a little as a lotion after washing the feet.

A good recipe for insomnia is to slip a tumbler of hot milk before going to bed, as the milk and the heat thereof have a soothing effect and produce a dreamy sensation. A quick and effectual way to remove discoloration from bruises is to apply freely warm olive oil on cotton wool. Do not rub it in; simply apply it.

To cure inflamed eyelids bathe the eyes repeatedly in a solution composed of two teaspoonfuls of brandy added to a cup of tea. If it is possible, keep the eyes open once or twice while bathing them.

A small roll of paper or muslin placed above the front teeth under the upper lip and pressing hard upon the same will often arrest nose bleeding.

To stop hemorrhage of the lungs, wrap the thighs and arms above the elbows with small strong cords tightly drawn and tied. This will stop the flow of blood almost instantly.

A caraway seed between your teeth should not be tackled with a toothpick. Press your tongue firmly against one of the teeth next to which the seed is, avoiding the seed itself, or you would press it in more firmly, and you will find it fall.

A severe paroxysm of coughing may often be arrested by taking a tablespoonful of glycerin in a wineglassful of hot milk.

### Morgan and the Snapshot Fiend.

Mr. Pierpont Morgan once entered a Law Court as a witness, when a photographer secured a flashlight photograph of him. Mr. Morgan, seeing what had happened, raised his cane involuntarily; then he thought better of it, and decided to resort to law. He demanded that the plate be broken then and there "in his presence," or he would do terrible things. The photographer demurred, but the millionaire was grimly rigid. "All right," said the man, and he brought out a plate from a holder, and broke it into pieces with many sighs. Next day, Mr. Morgan's photograph appeared in gorgeous colorings in a daily paper. The plate broken was one on which another exposure had been made, not the one which Mr. Morgan appeared.

### Some Big Fliers.

Of birds now in existence probably the one with the greatest expanse of wing in proportion to the body and with the greatest power of flight is the frigate or man-of-war bird. This bird apparently flies more by skill than by strength, for it has no great carrying powers. The wandering albatross, the largest of all sea birds, is also one of our strongest fliers. One bird was known to fly at least 3,150 miles in twelve days. This bird was caught, tagged, released and caught again.

## Out of Plumb.

When the wall is out of plumb the building is more or less unsafe, and the higher the wall is carried out of the perpendicular the greater the danger of collapse. It's about so with the health; it is out of plumb when the digestion is impaired, when there is a dull, sluggish feeling, with nervousness, irritability and sleeplessness. Every day that these symptoms are neglected increases the liability to physical collapse.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It purifies the blood and cures nervousness, irritability and sleeplessness by curing the diseases in which they originate.

"For three years I suffered untold agony," writes Mrs. H. R. White, of Stanstead, Co. Quebec. "I would have spells of trembling and being sick at my stomach, pain in right side all the time; then it would work up into my stomach and such distress it is impossible to describe. I wrote to the World's Dispensary Medical Association, stating my case to them, and they very promptly answered and told me what to do. I took eight bottles of Dr. Pierce's Golden Medical Discovery, and five vials of Dr. Pierce's Pleasant Pellets. Thanks to Dr. Pierce and his medicine I am a well woman today. I had been ailing for years, and my mother of liver complaint from which she has been a sufferer for fifteen years. We highly recommend these medicines to all suffering people."

The People's Common Sense Medical Adviser, containing 1008 pages, is given away. Send 31 one-cent stamps for expense of postage and mailing only, for the book in paper covers, or 50 stamps for the volume bound in cloth. Address Dr. R. V. Pierce, Buffalo, N. Y.

### Banana Crop Every Fifth in Days.

"There is evidently an erroneous idea abroad concerning the harvesting of the banana crop," said a man who has been for seven years on a plantation in Honduras.

"The statement that four or five crops of bananas are harvested a year is entirely incorrect. A crop is harvested on an average of every fifteen days throughout the year. Each thrifty banana plant has many suckers or stalks growing from a single root at the same time. One or more bunches of the ripening fruit are cut from a single stalk, while the other stalks growing from the same root are left untouched, and in fifteen days another of the stalks is shorn of its fruit. This process continues incessantly during the year. In July and August it is necessary to cut off the ripening bunches every ten days, while in December and January about once a month is sufficient, the average throughout the year being practically fifteen days."

—Mexican Herald.

### Who Were They?

To one great fact do all the most ancient epochs of history bear witness; one and all they prove the existence in a yet more remote past of an already advanced civilization such as could only have been gradually attained after long and arduous groping. Who were the inaugurators of this civilization? Who were the earliest inhabitants of the earth? To what biological conditions were they subject? What were the physical and climatic conditions of the globe when they lived? By what flora and fauna were they surrounded? But science pushes her inquiry yet further. She desires to know the origin of the human race—when, how and why men first appeared upon the earth, for, from whatever point of view he is considered, man must of necessity have had a beginning.—"Manners and Monuments of Prehistoric Peoples."

Life's little frets call for its largest faith.

**NEEDED NOW**

Gravel and Bladder Disease Cured by Dodd's Kidney Pills.

Toronto Bricklayer Relieved of Those Terrible Troubles—Medical Science Makes Another Move Forward.

Toronto, Ont., May 30.—(Special.)—Medical science has at length awakened to the fact that Gravel and other bladder troubles are caused by disordered kidneys and that the modern method of curing them is to cure the kidneys with Dodd's Kidney Pills. This does away with those terrible operations that in past years have been all too common.

The case of William Thomas, bricklayer, 158 Mill street, this city, is one of the recent proofs of the efficiency of the treatment. Mr. Thomas says: "I had been troubled with Gravel and Bladder Disease for seven years. I had to go to the hospital and have water taken from me. I tried medicines of different kinds but they failed to remove the trouble.

"Hearing of cures by them promptly I came to try Dodd's Kidney Pills, and after taking them for a time I passed a stone the size of a large bean. Four boxes of Dodd's Kidney Pills made a complete cure in my case."

Love only for to-day, and you ruin to-morrow.

THIS PAPER IS PRINTED BY THE QUEEN CITY PRINTING CO. SINK, Cincinnati, Ohio.
