LAND FOR LONDON'S POOR

Charities Society Want to Cultivate Twenty Acres This Year.

The Charities' Society have decided to push the potato patch scheme this year, if the city council will aid in the project. Last year the society had five acres under cultivation. This year it proposes to cultivate twenty. Plenty of good land has been offered gratis, provided the taxes are paid, and the society thinks the council might remit these and pay the cost of preparing and seeding the ground. The patches would be in the second, fourth, fifth and sixth wards. The society is much encouraged by the result of its wood scheme, 60 books having been sold.

VROOMAN VANISHED.

Robe Thief Escaped from Constable John Boyd.

James Vrooman, who was up before Magistrate Parke yesterday morning for theft, made a bold dash for liberty while on his way from the county jail to the police court. Constable John Boyd escorted Vrooman up to the station, and when entering the corridor took off the handcuffs. No sooner had this been done than Vrooman wheeled round and darted out of the door. He went along Talbot street, and was followed by P. C. Frank Darville, who chased him along Fullarton street to Jolly's wagon shop. Vrooman turned in there, but as a high board fence surrounded the yard, he had not time to jump before the policeman was upon him. At the court the prisoner had the sympathy of the magistrate, who had not been informed of Vrooman's conduct.

A GRAND TRUNK CHANGE.

Better Train Service from North of Stratford to This City Inaugurated.

For some time past, passengers from Seaforth, Mitchell, Listowel, and, in fact, the entire territory north of Stratford and east of Wingham, Clinton, on the lines to Southampton, Wiarton, Owen Sound and Durham, desiring to reach London to transact business and return the same day, have been put to considerable inconvenience, owing to the fact that while they reach Stratford from the north at 9:35 a.m., there is no train to take them into London until 11:50 a.m., and passengers do not reach London until 1 p.m. The Grand Trunk have decided to remedy this state of affairs, and, commencing Monday, March 7, the train from north of Stratford will have direct connection for London, reaching here at 11 a.m. The advantage of this arrangement from a London standpoint is apparent, as it will give passengers from the large district alluded to two hours more time in London in which to attend to their business, and return the same day. It will be a decided advantage to passengers who may wish to go farther west than London, as it will enable them to connect here with the Lehigh Valley express, leaving London at 11:15 a.m. for Port Huron, Detroit, Chicago, and the Western States, also Manitoba, British Columbia, Kootenay, and the Klondike. Passengers from Stratford and intermediate stations, instead of reaching London at 9:20 a.m., will reach London on the new train at 11 a.m., but this later arrival from the few stations involved will be far more than compensated by the large territory accommodated by the new service.

A Word to Good Dressers.

Almost every gentleman who has any regard for being well dressed always desires an extra pair of trousers with a suit, especially if the suit is made of imported tweed or worsted. Merchant tailors in the city have, generally speaking, overlooked this very important branch of their business. Mr. Labelle wishes to announce that the gentlemen who favor him with their spring order can be supplied with the extra trousers of the same material. A full range of the latest patterns, as shown on the English and American fashion reports, can be seen at prices ranging from $21 upwards, which includes extra trousers. It's Easy to Dye.

Home Dyeing With Diamond Dyes Is Pleasant and Profitable.

Beautiful and Brilliant Colors That Will Not Fade—Diamond Dyes Have Special Colors for Cotton and Mixed Goods—How Wise Women Economize in Hard Times—A Ten Cent Package of Diamond Dyes Often Saves Ten Dollars.

In these days of enforced economy it should be a pleasure to any woman to learn how she can save the cost of a new gown for herself and suit for the little one, or can make her husband's faded clothing look like new. Diamond Dyes, which are prepared especially for home use, will do all this. They are so simple and easy to use, that even a child can get bright and beautiful colors by following the directions on each package.

There is no need of soiling the hands with Diamond Dyes; just lift and stir the goods with two sticks while in the dye bath, and one will not get any stains or spots.

In coloring dresses, coats, and all large articles, to get a full and satisfactory color, it is absolutely necessary to have a special dye for cotton goods and a different dye for woolen goods. This is done in Diamond Dyes, and before buying dyes one should know whether the article to be colored is cotton or wool, and get the proper dye. Do not buy dyes that claim to color everything, for their use will result in failure.
