To the Freeholders of the City and County of St. John.

GENTLEMEN,—

I intend offering myself again for your suffrages at the approaching Election. I feel that during the last four years I have to the best of my ability endeavoured to serve you faithfully, and should you approve of the course I have pursued, it will gratify me much to be again honoured by your confidence. My opinions on the leading topics now agitating the Public mind, relating externally to our trade, and internally to the necessity of unqualified local control over local matters, Municipal Institutions, Initiation of Money Grants, Reduction of Salaries, with Retrenchment and Economy in the Public expenditure, and Public Internal Improvements, are so well known and have been so often expressed, that it is unnecessary for me at present to say more than that my views are unchanged; and that I shall endeavour on the day of Nomination to assign the reasons that have hitherto governed me, and to shew why I think that the day has arrived when the People must take the management of their own affairs in their own hands to a much greater extent than they have hitherto done, and without which the old system of Recklessness, Extravagance, and the want of any true responsibility will inevitably continue, and the Political regeneration and permanent improvement of the Province retarded.

I am, Gentlemen,
Your very obdt. Servant,
W. J. RITCHIE.

Corner of King and Cross Streets.

we wish briefly to enumerate the advantages which we offer to our Customers and the Public. We have always studiously avoided claiming to ourselves any power of Selling at thirty or forty per cent. under others in the trade, but simply rested our claims on our extensive experience—buying our Goods direct from the best Manufacturers at Cash prices.

In commencing the Clothing Business some time ago, in St. John, in addition to our large Custom Trade, we introduced a scale of prices little known previously to the respectable class of the public; this we were enabled to do, by entirely rejecting the long credit system, and supplying first rate articles at a moderate scale of Profit for cash.

Our theory has invariably been, that improvements can always be introduced. This year we endeavour to do better than last.

PRICES THE LOWEST—QUALITY THE BEST—AND WORKMEN SUPERIOR.

And by thus continuing to progress during the few years we have been in business, we apprehend we have now brought our business to a point surpassed by none.

The superiority of our style of Cutting is well known. The newest Paris and London Styles are introduced as early as in New York or Boston, and every improvement is at once adopted. In alluding to the large Stock of Clothes in our Establishment, we may merely state that it comprises the best assortment of FRENCH and GERMAN TWILLED CLOTHS, and DOESKINS, of every shade and colour to be found.

Having thus alluded to the general arrangement of our business, as far as regards the Order Department, we wish particularly to draw attention to the other very large and increasing branch of our business, viz:

THE EXTENSIVE READY MADE DEPARTMENT.

Of this branch, we may say that every article in our Establishment is made up as carefully as if ordered. No workman is too good to be employed by us. We make all description of Garments, up to the highest priced COATS, Numbers have proved and acknowledged the value of being at once fitted.

Some idea may be formed of the system pursued, when we state that in Coats we keep thirty six sizes, so that all shades and heights may feel a certainty of being fitted.

To enumerate the varied Stock would far exceed the limits of an advertisement, but our customers will find on visiting the
