Purify Your Blood

The importance of keeping the blood in a pure condition is universally known, and yet there are very few people who have perfectly pure blood. The taint of scrofula, salt rheum, or other foul humor is hereditd and transmitted for generations, causing untold suffering, and we also accumulate poison and germs of disease from the air we breathe, the food we eat, or the water we drink. There is nothing more conclusively proven than the positive power of Hood's Sarsaparilla over all diseases of the blood. This medicine, when fairly tried, does expel every trace of scrofula or salt rheum, removes the taint which causes catarrh, neutralizes the acidity and cures rheumatism, drives out the germs of malaria, blood poisoning, etc. It also vitalizes and enriches the blood, thus overcoming that tired feeling, and building up the whole system. Thousands testify to the superiority of Hood's Sarsaparilla as a blood purifier. Full information and statements of cures sent free.

Hood's Sarsaparilla

Sold by all druggists. $1; six for $5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

100 Doses One Dollar

TO-MORROW'S RACES.

Everything in Readiness for the Opening Day.

A Great Championship Contest for Athletes—The Coming Wrestling Match.

LONDON JOCKEY CLUB MEETING.

Some fine races are assured for the London Turf Club's meeting this week at Queen's Park. The horsemen who intend going to the Washington Park races at Chicago will stop off at London, and many cracks have been entered. The following entries speak of some grand contents in store:

2:50 trotters and pacers—W. Wallace, Woodstock Belle, Charley G, Mountain Boy, Jack the Ripper, Mollie Clark, Gertie B. Wilkes.

2:35 class, trotters—Amboy, Eva H, Tom Burk, Ruby T, Doctor Livingstone.

Free-for-all, trotters—Finnegan, Florence G, Rosa B, Corncracker.

¾-mile heats, 2 in 3—Dockfrain, Gloster, Everett, Periwinkle, Colonist, Kitestring, Topsy B.

1¼-mile dash — Colonist, Periwinkle, Everett, Bohemian, Bay Court.

1⅛-mile dash for horses beaten in the Queen's Plate—Countess, Ella B, Lady Blair, La Blanche.

Handicap steeplechase, about two miles—McKenzie, 151 pounds; Bob Thomas, 158 pounds; Toronto, 142 pounds; Bronte, 135 pounds.

Three-year-old trotters, foaled in Canada—Frank Woods, Epitaph, Gloaming, Lucy McGregor, Maggie C., Billy Boyle and R. Hueston's unnamed.

2:40 trot—Allen Moore, Mountain Boy, Eva H., Sleepy Joe.

Three-year-old runners, foaled in Canada—Bay Court, Ella B., Nellie Frost, Addie D., Courtland.

London Hunt Club steeplechase—Bronte, Toronto, Dick, Victor, Lady Blanche.

Everything is in readiness for to-morrow's opening day at Queen's Park. The track is in splendid shape and there is seating accommodation for thousands more than at any meeting ever held in London. The London Turf Club members and officers have exerted themselves in every way to make thorough arrangements, and, with fine weather, success is assured.

NOTES.

The entries for the Woodstock June races close on Monday, June 1. The programme includes: Three-minute class, $200; 2:32 class, $200; 2:40 class, $200; free-for-all, $250; merchants' purse, 1¼ mile dash, $150; hotel guarantee stake, ¾-mile heats, $150.

ST. THOMAS, May 30.—At the races yesterday Florence G. won the free-for-all after six heats, Rosa B. getting one and Cyclone two. Cyclone won the second heat in 2:28, the fastest of the race, and was distanced for running in the sixth heat. Finagin got third money. Peek-a-Boo won the running race, 5 furlong heats, in 1:09, 1:10. Kitestring was second, Topsy B. third. Jim Berry, Lady Bell and Doc. Fraune also ran. In the 2:50 class W. Wallace won in straight heats, St. Patrick 2, Texas Rooker 3, Jack the Ripper 4, and Gerty B. 5. The first and second heats were trotted in 2:33¼.

There are more racing horses in Wingham than in any other town in Western Ontario, and they are winners too. Mr. A. Roe sent his fast brown mare Belle Roe to Ridgetown and captured first money on Monday in the 2:40 class; Beatty Bros. secured the best prize in a running race on Monday in Harriston with Topsy B.; at the same meeting Fred W., a pacing horse, the property of J. Wilson, V.S., received third place in such fast company as Jessie Mace and Indiana; at Georgetown, on Monday, Tommy O. and Little Harry, horses owned by Mr. H. Garbutt, won second place in their respective classes; Grey Tobe, owned by Mr. T. Nixon, Bluevale, also captured second money in his class.—[Wingham Times.

ATHLETICS.

Messrs. Currie, of Parkhill, and E. W. Johnston, of Toronto, well-known athletes, were in the city Friday.

John McMartin, on behalf of a local athletic association, intends asking the City Council for the use of the Fair Grounds on the Civic Holiday. They purpose holding sports there.

Editor ADVERTISER—Please answer the following: "Who were the parties that won prizes at the Athletic Association sports at Queen's Park for throwing, cricket and baseball, and how far did they throw them?" CRICKET.

[ANSWER: Throwing cricket ball—1, S. Brown, 101 yards 9 feet; 2, D. Mills, 97 yards. Throwing baseball—1, J. Ranahan, 106 yards, 2 feet, 5 inches; 2, A. Gorman, 104 yards, 4 inches.]

The details of the second match between Richardson, of Dorchester, and Gallagher, of Buffalo, have been arranged, and the men will meet at the Grand Opera House on Tuesday, June 9. Gallagher has stipulated in his challenge that one bout must be collar-and-elbow, and, as he is particularly good at that style of wrestling, the naming of the best man is difficult. Richardson's weight stood him in good stead in the recent catch-as-catch-can match, but this advantage will be much reduced in the collar-and-elbow bout.

The athletes of Canada and the United States who have been challenging each other in shot-putting, caber-tossing, running, jumping, lifting, etc., have decided to meet in August either at New York or this city and decide definitely the question of championships. The expenses of each athlete to the contesting place will be paid, the prizes being suitable medals. A number of Londoners have heard of the proposition and are moving towards making London the place selected. On account of its central location it is likely they will succeed. Among those mentioned in connection with the arrangements are J. McMartin, J. B. Vining, R. K. Cowan and others. Application has been made for Queen's Park on civic holiday.

BASEBALL.

Leighton is playing with the Manchesters, of the New England League.

Pitcher Bauswine, at one time of the London club, is driving a street car now.

American Association scores, Friday—Columbus 11, Baltimore 4; Cincinnati 5, Boston 20; St. Louis 6, Washington 1; Louisville 9, Athletics 0.

Bierbauer will probably be idle for about six weeks, owing to his sprained ankle, received in a collision at second base. Pittsburg's chances for the pennant are considered to have gone glimmering in consequence.

The baseball crank is a peculiar individual. When his pet club loses a few games in succession his face becomes sour and he can't abuse his stars enough for their poor showing. Finally he asserts that "he will never see another game as long as he lives," and leaves the grounds in a rage. But you'll find him sneaking in a side door somewhere the next day, and if his champions win he'll come out and cheer louder than anybody.

The young ladies of Napier have organized a baseball club with Miss Ashwell as captain. They meet twice a week for practice, and would like to hear from neighboring clubs of similar organization with the view of arranging for a series of matches. London ladies will please take notice.

Pete Wood showed that a goodly share of the cunning in his right arm still remained Friday afternoon. He pitched for the Western University baseball team in a match against a picked collection of players captained by the old-time "Bobby" Reid, and not one of whom could get a hit off Pete's delivery. In the second inning Dr. P. Macklin, the umpire, presented "Baby" with a handsome silver spoon as a token of esteem from the crowd present. The Medicoes played a clean game. Following was the score:

	R.	H.	E.
Medicoes	7	13	3
Picked nine	0	0	10

Umpire, Dr. P. Macklin; scorer, Alex. Davis

THE ROD.

A bite! a bite!
The line grows tight;
I feel a sudden thrill of bliss;
A mighty swish
Proclaims a fish
At least as long as this:

Alas! alas!
It comes to pass
(As oft it has with you, I wis)
I pull him out;
He is a trout
As long, perhaps, as this:

THE WHEEL.

Eleven members of the London Bicycle Club have applied for admission into the Canadian Wheelman's Association.

Nearly 2,000 cyclists attended the Northern Cyclists' Church parade near Newcastle-on-Tyne, England, recently.

Another man has announced his intention of putting a girdle around the world by means of a bicycle. It is S. J. Black, of Cleveland, O., who announces his intention of starting June 1 by way of San Francisco.

The mayor of Minneapolis has granted permission to the wheelmen of the city to use the sidewalks when the streets are muddy and impassable, provided the speed is reduced to a minimum and pedestrians not interfered with.

THE KENNEL.

The International Field Trials Club will hold their trials at Chatham, commencing Nov. 10.

A Mr. Day advertises for his lost dog. We trust he will succeed in finding him, for it is only fair that as every dog has his day, Mr. Day should also have his dog.—[Judge.

TERRESTRIAL HEALING

A branch office of the Magnetic Meridian Vitapoise Company is now permanently located at 294 Dundas street, for the purpose of giving practical demonstrations of the healing virtues of the "Vitapoise," (or miniature earth.) It is the most wonderful healing instrument ever discovered. It only fails to cure the afflicted when their case is hopeless, and it makes no difference what ails you.

If you would like to investigate "TERRES TRIAL HEALING," call at the office, and Prof Reid, will cheerfully explain to you the mysteries of the subtle healing force contained in a Magnetic Meridian Vitapoise.

Separate rooms are fitted up for the treatment of ladies and gentlemen. We want every family and physician in Canada to buy a "Vitapoise," and we will accomplish our object if an afflicted member of every tenth family will give the instrument a trial, by taking a "course of treatment." Its application is absolutely painless and is also harmless; but disease will flee from before it as if driven away by magic.

Physicians! try a "Vitapoise" on one of your patients, having either la grippe, inflammation, fever, insomnia, nouralgia or rheumatism, and thereafter your "medical case" will be a secondary consideration so long as you have a "Vitapoise" with you.

Send for catalogue which fully explains everything; free. Address, The MAGNETIC MERIDIAN VITAPOISE COMPANY, 294 Dundas street, London, Ont. nm

BURNED OUT.

Valuable Horses and Rigs at Barrie Destroyed—A Big Coal Fire at Niagara.

QUEBEC, May 30.—A fire caused by firecrackers burned fifteen feet of the wharf at Shaple's Cove and endangered many vessels.

BARRIE, Ont., May 30.—The large stables in the rear of the American Hotel, on the Market Square, were destroyed by fire this morning. Three valuable horses, buggies and winter rugs were lost. Loss, probably $3,000; no insurance.

NIAGARA FALLS, Ont., May 30.—Yesterday morning flames were seen issuing from the coal sheds of Coulson & Robinson. The firemen succeeded in confining the flames to the coal sheds. The building and cars were partially destroyed, entailing loss on coal of $16,000. The loss on building is $3,000.

"Was troubled with continual Headache and Loss of Appetite, but before I had taken many doses of B. B. B. appetite and health returned." J. B. THOMPSON, Bethesda, Ont.

LONDON'S BUSINESS MEN.

Regular Meeting of the Board of Trade.

The Report of the Councilors—Dorchester Train Service—A London, England, Invitation—Railway Matters Again.

M. Masuret (president), Col. Lewis, Wm. Yates, D. W. Blackwell, P. M. Lawrason, J. Campbell, W. J. Craig, E. Parnell, jun., W. Davis, John Bowman, B. J. Nash, John Forrestal, J. D. Saunby, John Paull, Alf. Taylor, George D. Cameron, L. H. Scandrett and J. A. Nelles (secretary), were present at the Board of Trade general meeting Friday evening.

A letter from Rev. J. C. Moore, of Dorchester, asked when the next meeting of the Board would be held, as a deputation from there wished to meet the members in regard to a petition they are circulating, asking for better railway service. They desire a train leaving there about 6 a.m., in order to connect with other points at London; at present they are compelled to wait until 12:25 p.m. The secretary will give them the desired information.

A. W. White and F. A. Fitzgerald were balloted for membership and accepted. A donation to the library by W. R. Meredith of a volume, entitled "Toronto New and Old," was received with thanks.

A circular was received from the London (Eng.) Chamber of Commerce, announcing that it had been decided to hold a second congress of the chambers of the commerce of the empire in May or June, 1892, about the time the opening of the Imperial Institute would take place, and asking representation at the same, guaranteeing that no financial liability would be incurred by any association accepting the invitatian to take part. The circular stated that the programme would probably comprise a discussion on the following economic subjects: Commercial relations of the mother country with her colonies and possessions, with special regard to the renewal of European treaties and recent commercial legislation in the United States; boards of conciliation for labor disputes; the codification of the commercial law of the empire; Imperial registration of trade marks and the adoption throughout the empire of the Merchandise Marks Act; bills of lading reform; factory legislation throughout the Empire; commercial education, including the scheme initiated by the London Chamber of Commerce; emigration and colonization; the necessity of an Imperial system of decimal currency weights and measures; an Imperial system of penny postage; direct telegraphic communication throughout the empire. Secretary Nelles was instructed to acknowledge the receipt of the circular.

The report of the Board's Council contained the following recommendations. "(1) That the general meetings of the Board be held afternoons and evenings, alternately; (2) that the annual subscription be equalized to $5; (3) that we co-operate with the Cornwall Board of Trade re transient traders' licenses; (4) that the Owen Sound communications re amendment to Division Courts Act be laid over and this Board again take action at the next meeting of the Local Legislature; (5) that the Quebec Board's communication re duties on samples be filed; (6) that the secretary write Mr. Larmour in support of the petition from Kincardine asking that the L. H. and B. train leaving here every morning be run through to Kincardine during the summer, and not stop at Wingham as at present; (7) that we co-operate with the Hamilton and Toronto Board of Trade in petitioning the Lieutenant-Governor re married women traders."

The report was taken up clause by clause. The first was struck out, and the meetings will be held on the usual Friday evenings, once a month. The other clauses passed.

The president asked if any new business was before the Board.

E. Parnell, jun., said he had seen in the papers that at a meeting held the previous evening with a committee of the Council the Board of Trade committee was represented as saying that the Grand Trunk should have the preference. He didn't believe that this voiced the sentiments of the Board. He considered the L. and P. S. the key to London's future welfare, and its disposal should be considered.

Col. Lewis did not see why Mr. Parnell should object to the committee's statement. The Board had thought that it would be better to leave that matter in abeyance until the car works business was settled.

J. Campbell said the Board should be judicious and not mix up the two questions of the L. and P. S. Railway lease and the car works. The Board was merely an auxiliary, and should assist the Council as such.

President Masuret said the discussion was entirely out of order, as there was no motion to consider.

An adjournment was then made.

RUSSIAN RANCOUR.

A Quarter of a Million Hebrews Will Be Driven from Their Homes.

LONDON, May 30.—It is reported telegrams containing the substance of Mr. Gladstone's letter on the Jewish question have been stopped at the Russian frontier.

ST. PETERSBURG, May 30.—The police of Astrachan are vigorously expelling the Jewish inhabitants, giving them only a week's notice. It is estimated 250,000 Jews will be driven within the pale or out of the country. Thirty thousand have been given notice to quit Warsaw.

WORK AND WAGES.

A Montreal Telegram says: A cut has been ordered in the salaries of Grand Trunk officials of 5 per cent. upon salaries between $500 and $750, and of 10 per cent. upon all salaries above $750. Wages are not cut down.

Rev. Mr. Pitblado, of the Methodist Church in Ansonia, N. Y., has succeeded in getting a clock for his church in a novel way. A week ago last Sunday he preached a very long sermon, and at its close apologized for the time consumed, explaining that where he was before stationed he had a clock to look at occassionally. The hint was taken and now a clock adorns the front of the gallery.

ALL-SPICE.

"Lohengrin" will be seen at last at the Paris Opera House. The Minister of Fine Arts has given consent.

Twenty-three thousand bushels of apples and pears made the last and greatest cargo of fruit brought to London from Tasmania, Australia.

Members of the weather bureau should know that the oldest known journal of the weather was kept by one Walter Merle, a fellow of Morton College, Oxford, during A. D. 1337-14.

A member of Parliament named Hunter proposes that the Scotch deer forests should be bought and converted into popular farms and pleasure grounds. The present rental of these areas is about £90,000 a year.

Gov. Hill, of New York, has signed the bill requring keepers of intelligence offices in New York to return fees to applicants when positions are not secured, and to employers when servants do not remain longer than a month.

The authorities of Nashville, Tenn., have decided to enforce the ordinance forbidding brass bands from playing on the streets. This looks like discrimination against the poor. The rich can always have their own private tutors.

Ezra Gaska, a native of Jerusalem, was arrested at Tulare, Col., last week and sentenced to twenty days for begging. On searching him $1,500 was found about him, with a number of letters from prominent people recommending him to the charitable.

It is asserted that the idea of the slot machine is very old. In an inn in one of the rural districts in England the tobacco for the guests was kept in a box which was opened by an English penny; this box was certainly, so the landlord averred, 150 years old.

Germany's new dispatch boat Meteor is, excluding the torpedo boats, the fastest craft afloat. Her length is 262 feet, width 31 feet, draught 13 feet, with 950 tons displacement. Her engines develop 5,000 horse power, and at full speed she goes 24 knots an hour.

Our esteemed Hague contemporary, Het Vaderland, reports a revolution down among the South American possessions of the peaceful Hollander, Dutch Guiana. The "lower orders" of the population have risen against the other orders, and a general panic prevails.

A physician who kept a nightly record of his pulse for five years reports that every year it falls through the spring until about midsummer, and then rises through the autumn to November or December. Then comes a second fall and a second rise, culminating in February.

A new book containing stories about the wife of Disraeli has had this added to it by the London Telegraph: "The Disraelis were visiting Strathfieldsaye in the time of the old Duke of Wellington. Going up to the bedroom, Disraeli found his wife and her maid moving the bed from one side of the room to the other. When he inquired the reason his wife said: 'Well, my dear, the Duke sleeps on the other side of the wall, and if I lie against it I can boast that I have slept between the two greatest men in England.'"

Only about half-a-dozen American silver dollars of the coinage of 1804 are in existence, it is said, and these few specimens are worth $1,000 each.

The discovery of an immense deposit of green quartz, carrying from 3 to 7 per cent. of nickel, is reported from Rapid City, North Dakota. It is in the Harney City district.

During 1890 there were built in the United States 8,500 churches; ministers to the number of 4,000 were ordained, and a membership of 1,090,000 added.

The landing of Garibaldi at Marsala is about to be shown on the stage at Naples. It is inferred that it is to be thrilling and realistic, as "the company contains twenty horses."

The Chinese paper currency is in red, white and yellow paper, with gilt lettering and gorgeous hand-drawn devices. The bills, to the ordinary financier, might pass for washing bills, but they are worth good money in the Flowery Kingdom.

The manuscripts of George Eliot's novels, except the one of the "Scenes of Clerical Life," have become the property of the British Museum. George Eliot left them to the museum after the death of Charles Lewes. The handwriting is described as "beautifully neat and clear."

Charles Emmott, the Oldham cotton-spinner who is to marry Lady Constance Campbell, daughter of the Duke of Argyll, is the son of a man who began life as a factory operative and is now the head of a millionaire firm. It is told of old "Breadbasket" Emmott that he used to take his dinner along with him, wrapped in a handkerchief, when he went to the Liverpool or Manchester markets, and so saved the 18 pence which he would have had to pay had he dined at an inn.

There was a Mohammedan wedding in London the other day, and the bride repeated after the crimson-clad Moulive: "I stand here in the presence of God and all who are assembled to unite my heart to your heart and my destiny to your destiny and to be called by your name. Your sorrow shall be my sorrow and your happiness my happiness." Which seems to a paragrapher of the New York Sun more sweet and sensible than promising to "honor and obey" when you have not the remotest intention of doing either one.

DR. BRIGGS' CASE.

His Election Disapproved by the Assembly.

DETROIT, May 30. — Yesterday was Briggs' day in the Presbyterian General Assembly. There were many speeches made on the momentous question that has so perplexed the Presbyterian mind for the last four months. Finally the yeas and nays were taken on the adoption of the committee report disapproving of Dr. Briggs' election. During its progress several explanations of votes were given. The result of the vote was announced as 440 in favor of the report and 59 in the negative.

25 cts. a Box. Sold by all Druggists.

Send stamp for postage to RADWAY & CO., Montreal, for our book of advice.

RADWAY'S SARSAPARILLIAN RESOLVENT PURIFIES THE BLOOD: $1 a bottle. Sold by all druggists. DR. RADWAY & CO., limited, 419 St. James street, Montreal, Canada. yzw

Three Years Free

The Coming School of Medicine.

The Histogenetic System.

THIS SYSTEM IS COMPLETE, having different medicines for all the different diseases. The theory is entirely different from that of the old schools. The medicines are perfectly pure, containing nothing of a poisonous nature whatever, and are quite tasteless. For three years these medicines have been given away free and thoroughly tested in the most hopeless cases before being placed on the market. The result has exceeded the most sanguine expectations. Hundreds of cases supposed to be incurable have been cured, and abundance of proof can be produced to convince the most skeptical that Histogenetic Medicines have cured and are curing to-day DISEASES at a later stage than any other system of medicine in the world. In ACUTE cases the medicines act like magic. Chronic troubles require a longer time, generally from one to three months, according to the nature of the complaint. In FEMALE IRREGULARITIES, WOMB TROUBLES, etc., the medicines have been especially successful. Private EXAMINATIONS in these troubles are almost, if not quite, absolutely unnecessary. Call or send for one of our free books explaining the system. They should be in every house in the land.

RHEUMATISM and SCIATICA

LONDON, April 26, 1891.

I am happy to acknowledge, and now testify, to the efficacy of your medicines in curing Rheumatism. I have suffered with this painful disease in my shoulders, knees and hips for twenty-five years, also with sciatica for some time. I decided to try Histogenetic Medicines as a last resort, as nothing ever seemed to give me any permanent relief. The first week's medicine gave me relief, and in two weeks the sciatica disappeared and has not returned. I took the medicines for six weeks, and am cured of the rheumatism. I feel better in every way. I am sixty years of age, and feel quite smart and active. I can cheerfully recommend these medicines to the public, and will be glad to tell any sufferer about my case. It is now nearly two months since I ceased taking the medicines, and the effect is permanent.

MRS. FORDE, 1022 Mable Street.
