SEVERAL VESSELS WRECKED

Tug and Two Barges Sunk in Lake Erie.

A United States Transport Goes to the Bottom—Fate of the Crew Unknown.

THREE VESSELS SUNK.

Ogdensburg, N. Y., Nov. 28.—The tug Dauntless and the barge Robert Vale sank today in the bay below Windmill Light. The barge was loaded with 22,000 bushels of wheat at the Ogdensburg elevator, for Montreal. While running out through the ice in the channel, the hulls of both boats were cut through, and efforts were made to back them out. They sank before reaching shallow water. The barge Regin, bound up from Montreal, with cement and salt, struck a pier in the Cardinal Canal and sank. The crews of all the vessels were saved. A Kingston wrecking fleet has been summoned to raise the boats before solid ice forms over them.

A UNITED STATES TRANSPORT WRECKED.

Washington, D. C., Nov. 28.—A dispatch came to the war department today from Gen. Chaffee, confirming the press report of the wreck of the transport Wright. Gen. Chaffee's dispatch was very brief, saying simply that the vessel had struck on an uncharted rock, and that the question of the rescue of the vessel was problematical.

STRANDED AT UNALASKA.

Seattle, Wash., Nov. 27.—Advices from the north bring news that the long overdue schooner, Ralph J. Long, from Nome, lies stranded at Unalaska, with 115 passengers. The vessel is out of food, the passengers have spent all their money to obtain the absolute necessities of life, and they now appeal for help to the war department. Frank Brown, of this city, presented a resolution to the Seattle Chamber of Commerce today reciting the facts in the case, and urging the necessity of immediate aid of the passengers and crew. The members of the chamber were unanimous in favor of acting upon the matter at once, and a request will be made to the authorities at Washington asking them to send a revenue cutter or some government vessel to bring down the starving people. The Long reached Unalaska on Oct. 5, out of food and water. Since that time the conditions have grown worse. The storekeepers at that point refuse to advance enough provisions to allow the schooner to reach Puget Sound, and the passengers are afraid to venture out in a helpless condition.

GONE UP IN SMOKE!

Property Worth Nearly $1,000,000 Destroyed in New York Fire—Other Conflagrations.

New York, Nov. 29.—Property worth from $750,000 to $1,000,000 was destroyed by fire last night in the vicinity of Tenth street and the East River. Several firemen were hurt, but none seriously. The fire started in the plant of W. E. Uptegrove & Bros., manufacturers of boxes, veneers and fine woodwork. All of Uptegrove & Co.'s mill was destroyed. From the Standard Oil Company's depot, on Eleventh street, thousands of gallons of oil were drained into the water to prevent a great explosion and resulting conflagration. The walls of the larger Uptegrove stable fell in and crushed the stable of the Standard Oil Company in the rear. After the fire was thought to be under control it broke out again and spread to the works of the Mutual Gas Company. The carpenter shop, paint shop, boiler house, coal house and stables were destroyed. The fire then turned back across the street, and the immense store of lumber owned by Hegemeyer & Sons was ignited. It comprised some 18,000,000 feet of valuable woods. The lumber yards of J. M. Saulspaugh were also reached by the flames, and great damage done. Fire Crief Croker estimated that the total damage would approach $1,000,000. He would estimate the loss to J. M. Saulspaugh as $125,000; William F. Uptegrove & Bros., $350,000; the Mutual Gas Company, $100,000; G. M. Hegemeyer, $150,000, and the Standard Oil Company, $75,000.

OTHER FIRES.

New York, Nov. 28.—The works of the National Enameling and Stamping Company, in Brooklyn, were entirely destroyed by fire early yesterday, and George Koch, a watchman, was burned to death. Loss over $500,000.

Bradford, Ont., Nov. 28.—The Burgess acetylene gas works here were partly destroyed by fire this afternoon. Some of the street mains were opened to let the gas escape, and an explosion was thus avoided. Loss heavy; no insurance.

HOGS ARE AFFECTED BY THE SMALLPOX!

Serious Outbreak of the Disease in the Stockyards at Buffalo.

Buffalo, N. Y., Nov. 28.—Dr. C. H. Zink, inspector in charge of the United States bureau of animal industry at the East Buffalo stock yards, discovered today what he believes to be an outbreak of smallpox among a consignment of hogs. The animals were received from St. Louis last week, and they passed the first inspection. After they had been slaughtered, Dr. Zink, in making a microscopical examination of the viscera, discovered what he believed to be evidence of smallpox. The slaughter houses are in the Polish district, where the local health authorities are at present engaged in fighting an outbreak of smallpox. The government bureau officials are under instructions to work in conjunction with the local health authorities in suppressing the outbreak, and this afternoon Dr. Zink brought specimens of the diseased tissue to the bureau of health and submitted them to Dr. Wende. After examination Dr. Wende unhesitatingly confirmed the diagnosis of Dr. Zink. "If the disease develops in animals the same way as it does in human beings, I should unhesitatingly call it smallpox," said Dr. Wende. "These tissues bear all the characteristic marks of the disease. They are evidently of a contagious nature. The pittings and destruction of tissue are apparent, as well as the characteristic smallpox pustules."

IMPERIAL DEFENSE.

Toronto, Nov. 29.—Col. Denison addressed 300 people on "Imperial Federation" in the Orange Hall. At the close of his address, this resolution was passed: "That this meeting is of the opinion that special duty of 5 to 10 per cent should be imposed at every port in the British possessions on all foreign goods, the proceeds to be devoted to imperial defense, by which each port would not only be doing its duty towards imperial defense, but at the same time be receiving a preference over the foreigner in the markets of the world."

Catarrh, an excessive secretion from an inflamed mucous membrane, is radically and permanently cured by Hood's Sarsaparilla. d

COLOMBIAN TROOPS DEFEATED BY REBELS

he Government Forces Lose Over 100 Killed and Wounded.

Colon, Colombia, Nov. 28.—In a fierce battle today the government forces were defeated. The government troops, 300 strong, under Gen. Alban, on reappearing at Bueno Vista this afternoon, opened fire on the Liberal forces under Col. Barrera. The latter were not entrenched, but having the choice of ground, occupied the top of a small hill at Buena Vista. The fighting, which was of the most savage nature, lasted until 5:30 p.m., without stopping, when the government forces, owing to the great loss they had sustained, were compelled to give way and retreated toward Frijolos. Over a hundred men were killed or wounded, their bodies lying all along the railroad. A train on reaching Buena Vista was unable to pass, owing to the pile of corpses blocking its passage. About twenty wounded men fere taken to Panama on the evening train. The Liberal loss was again insignificant. It is said to be less than a dozen men. Col. Barrera is now twice a hero. Much regret is expressed at the fact that he was not detailed to prevent the passage of Barbacoa bridge. The Liberals at Colon are once more jubilant, owing to the fact that Gen. Alban's forward march has been stopped. This has changed the aspect of affairs at Panama. Reinforcements of government troops in small batches have been joining Gen. Alban continually.

DEFALCATION AND SUICIDE.

Louisville, Ky., Nov. 29.—It is believed in official circles that the alleged discrepancy in the accounts of Former City Treasurer Stuart Young, who committed suicide, will amount to between $40,000 and $50,000. Young was assistant postmaster in this city during the administration of President Cleveland.

STRUCK A GUSHER.

Chatham Banner-News: Peter McNaughton received a telegram from J. W. Knight, superintendent of the wells at Northwood, belonging to the Ontario and California Oil Company. He says: "Well flowing oil. Good head on. Have plugged it." This means that the company have struck another gusher, making the fourth well in that vicinity.

FATHER CROWLEY TO BE REINSTATED.

Chicago, Ill., Nov. 28.—Announcement is made by Thomas A. Moran, attorney for the Rev. Archbishop Feehan, that the sentence of excommunication which was pronounced against Father Jeremiah J. Crowley, will be recalled within a few days. This is expected to put an end to the case against the deposed priest and the injunction proceedings begun against him to prevent his worship in the Cathedral of the Holy Name will be withdrawn. Attorney Moran said that some days ago Father Crowley addressed Cardinal Martinelli as follows. "Your Eminence,—To save the honor of our beloved church, and to repair the scandal I may have given to our faithful Catholic people, I [illegible] regret whatever I may have [illegible] disrespectful to your eminence and to the Most Rev. Archbishop of Chicago, and I also retract anything I may have either said or written which could not be approved by the Catholic Church." The cardinal thereupon further advised with the archbishop, and as soon as the details are attended to, which will be within a few days, sentence of excommunication which was pronounced against Father Crowley, will be recalled.

IT RETAINS OLD AND MAKES NEW FRIENDS.—There was when Dr. Thomas' Eclectric Oil had but a small field of distribution, but now its territory is widespread. Those who first recognized its curative qualities still value it as a specific, and while it retains its old friends it is ever making new. It is certain that whoever once uses it will not be without it.
