THE UNIVERSITY SENATE.

A LIST OF EXAMINERS IN MANY SUBJECTS.

A New Degree in Music Established—The Reports of the Various Committees Presented—Those Who Look After the Welfare of the Gay and Festive Students of Toronto.

The Senate of the University of Toronto met on Friday night, when the following members were present: President Loudon, Rev. Dr. Sheraton, Rev. Dr. Caven, Rev. Dr. Burwash, Prof. Pike, Prof. Hutton, Prof. McCurdy, Dr. Davison, Mr. Hoyles, Prof. Galbraith, Mr. Torrington, Prof. Bain, Prof. Baker, Mr. Houston, Prof. VanderSmissen, Prof. Dale, Hon. Mr. Justice Falconbridge, Mr. King, Mr. Seath, Dr. Cameron, Dr. McFarlane, Dr. Aikins, Mr. Maclaren and Hon. James Maclennan.

In the absence of Vice-Chancellor Mulock, Mr. Justice Maclennan was appointed chairman.

Dr. May, as director of the educational exhibit for the Columbian Exposition, wrote with the request that the University supply as far as possible suitable photographs of the University and its confederating Universities and colleges, as also for a collection of calendars, examination papers, statistics, etc., for exhibit at Chicago.

A report was received from the Committee on the Remuneration of Examiners, Prof. Baker, chairman, in which it is recommended that examiners in Arts be paid $5 for each paper set and 30c for each paper read.

Committee Reports.

The Board of Arts reported against the suggested changes in the Department of Natural Sciences by which an option would be allowed between elementary human anatomy, vegetable physiology and economic mineralogy in the third year, and between advanced human anatomy and the special anatomy of a mammal in the course of comparative anatomy of the vertibrata of the fourth year.

A special committee consisting of the President, Dr. Sheraton, Dr. Caven, Prof. Dale, Prof. Baker, Mr. King, Dr. Cameron, Dr. McFarlane, Dr. Maclaren and Chancellor Burwash, was appointed to consider and report upon the present mode of procedure in the election of members of convocation to the Senate.

A New Degree in Music.

A statute was passed by which musicians of established reputation may be admitted to the degree of Mus. Bac. upon submitting for approval of the musical examiners or examiners, three original compositions consisting of any three of the following: 1, an oratorio; 2, a cantata; 3, a symphony; 4, an extended piece of chamber music.

Hon. J. M. Gibson was appointed to fill the vacancy on the Committee on the Degree of L.L.D.

DR. ALLEN'S VINDICATION.

Thinks That the Tender Mercies of Fleming are Cruel and Asks for Trial by the County Judge.

The Board of Health met Saturday morning for the purpose of considering Dr. Allen's answer to their report submitted to council Feb. 20.

After the first few clauses had been read the Mayor rose and stated that the report was nothing but a trap and a deceit from beginning to end. Ald. Small thereupon took occasion to stigmatize the second visit of the Mayor and subcommittee to Dr. Allen's department as an exhibition of extreme bad taste, as the "sub" was ipso facto dissolved when their report was submitted.

Among the verified statements Dr. Allen makes in refuting the charges made in the report are, that in regard to the charge of extravagance, he asks the council to compare the salaries paid in his department with those paid in cities in the United States. Reference is also made to the report of Drs. Bryce, Cassidy and Oldright (published in Saturday's World. Instead of an average of 3½ cases per day for the infectious disease officers it is proven that the average is 12 cases per day.

Instead of the easy time the inspectors were supposed to have it is proven that 15,000 inspections have been made during the past year.

In regard to the system of bookkeeping the certificate from two well known accountants of the city shows that the statement made by the committee were most misleading, as had the committee so desired, they could with very little trouble have satisfied themselves of the manner in which the books had been kept and the position of the accounts.

"With reference to the statement that no record was kept of the money paid into the office, I beg to say that the Department has, as can be verified, a full and complete statement of every cent received by it and the name of the person from whom received, and this is open for inspection by anyone who wishes to see it."

No possible loss could happen to the city from the course adopted, as the records kept at the hospital are a complete check on the moneys paid in, and the accountant duly signed a receipt for the money received by him.

Now that the accountant has had an opportunity of looking into the matter, he has ascertained and can fully account for all the money on hand, and if any reasonable time had been given him or had there been any real desire to get information, the explanation here given would have been forthcoming then.

A number of other proofs are brought forward in refutation of the charges brought against the Health Department and Dr. Allen asks in conclusion that the case be tried before the County Judge instead of by a body of aldermen some of whom have already, before hearing his defence, announced their intention of voting for his dismissal.

The Board of Health did not read through the entire report, but adjourned the meeting until Monday at 2.30 p.m.

Neelon v. Toronto.

In the action brought by Capt. Neelon against the city arising out of the Court House contract, the plaintiff on Saturday applied to the master in chambers for leave to issue a commission to a number of American cities for the examination of witnesses on his behalf. The witnesses sought to be examined are gentlemen who can prove the truth of certain obligations regarding the quantity and quality of the New Brunswick brownstone. Among those sought to be examined are the officers of the Medina Stone Company of Buffalo. The motion was enlarged till Monday.

The Horse—noblest of the brute creation—when suffering from a cut, abrasion, or sore, derives as much benefit as its master in a like predicament, from the healing, soothing action of Dr. Thomas' Eclectric Oil. Lameness, swelling of the neck, stiffness of the joints, throat and lungs are relieved by it.

Toronto Advancement Association.

A meeting of the Toronto Advancement Association will be held at the offices, 40 King-street east, this morning to discuss the proposal in connection with advertising the city at the Chicago World's Fair.

TIPS FROM WALL-STREET.

John J. Dixon & Co. received the following despatch over their private wire from H. Allen & Co., New York, to-day:

NEW YORK, Feb. 25.—The week ends with very favorable feeling among stock market operators regarding the course of quotations next week. The unpleasant developments of the week have made all outside interests connected with the stock market entirely distrustful, and stock exchange circles themselves are utterly at sea as to what's coming next. Wall-street is in a frame of mind to believe anything bad about every road. Nearly every prominent stock on the list is, according to Wall-street's present frame of mind, in imminent danger of a receivership. The bears are firmly convinced, and their predictions they have many good reasons to base them upon. Northern Pacific and E. are about to reach the same climax in their affairs as Reading has just done. A goop deal of unfavorable talk is heard also regarding Burlington, a road with seemingly no credit and with a tendency to increase its capitalization and bonded debt at every possible opportunity. It is feared that the liquidation in Sugar, Lead and other Industrial stocks is by no means over. A host of stop orders, very close to present quotations, is hanging over the market, and a determined drive at many stocks will bring out enough long holdings to cause several severe breaks. Further large exports of gold are threatened Tuesday, and the uncertainty and uneasiness in the money markets are clearly reflected in the unsettled condition of the stock market.

GOSSIP FROM CHICAGO.

John J. Dixon & Co. received the following despatch over their private wire from Walker & Co. to-day:

CHICAGO, Feb. 25.—Receipts of hogs were about as estimated, but prices again lower. There were no choice hogs on sale. Provisions opened weak with longs inclined to sell and bears to pound, but it very soon developed that while Cudahy was openly bearing pork he had a number of brokers buying ribs and pork, and when the crowd saw this they turned from sellers to anxious buyers, causing the sharp upturn. The weakness in grain was reflected in provisions later and market closed weak. Wheat early in the day was very dull when the bank statement was posted; elevator interests started to sell and filled up what little buying orders there were and prices sold off ⅝ cent and closed only at fraction from low point of day. There is a feeling that the uneasy feeling in money matters may extend to this city, and in that case would be hard to borrow money to carry cash stuff and they have been selling the May and buying in July, causing difference between these two months to narrow to 1¼ cents. Fine weather continues to be the rule. Receipts keep up and the exports light.

R. Cochran received the following despatch from Kennett, Hopkins & Co. to-day:

CHICAGO, Feb. 25.—Wheat has been weak from lack of good support by the clique and increasing bearish conditions. Primary receipts have been large and exports smaller than for previous week, indicating no change in next visible. No crop damage and the chronic and perpetual crop killers are not finding much in the outlook to encourage themselves. Estimates of probable amount wheat in farmers' hands are now going around, but the calculators have only a fortnight to work this racket. The Government will likely find farmers holding about the usual amount.

LIVERPOOL MARKETS.

LIVERPOOL, Feb. 25.—Wheat quiet, demand poor, holders offer moderately. Corn steady, demand fair. Spring wheat, 6s 5d; No. 2 red winter, 5s 10d; No. 1 Cal., 5s 4½; corn, 4s 2½d; peas, 5s 3d; pork, 93s 9d; lard, 61s 6d; bacon, heavy, 52s; bacon, light, 53s; cheese, white and colored, 55s.

BEERBOHM'S REPORT.

LONDON, Feb. 25.—Floating cargoes—Wheat steadily held. Corn nil. Cargoes on passage—Wheat and corn firmly held. Weather in England frosty. Liverpool — Spot wheat not much demand, corn firm, but not active, corn ¼d dearer.

ODELL TYPEWRITER
PRICE, - - $20.00.
What will the Odell do?
It will write 60 words per minute
It gives perfect press copies
It gives 10 perfect manifold copies
It will Perforate Cheques.
It prints direct from the type
It is inked automatically.
With our Raised Letter Attachment it can be used by the Blind.
WHAT THE ODELL WILL NOT DO.
It will not get out of Order. It will not get out of Alignment. It will not cost anything in use, no ribbon being used.
In placing our Odell Typewriter on the market we are fully alive to the attack which may be made upon it by the makers of writing machines who have already a place in this market. Many persons on seeing the machine, or an illustration of it, will condemn it from sheer prejudice, saying: "Oh! it is not a key machine—it can't be any good. Anything but a key machine is a toy," without in any way looking into its merits. Although this is not a key machine, yet it is capable of turning out work not only equal to but better than any key machine yet invented, and more astonishing still is the short space of time occupied in writing. This is no idle boast and we are prepared to prove our assertion to any one who will favor us with a visit.

GRATEFUL—COMFORTING
EPPS'S COCOA
BREAKFAST.
"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.*
Made simply with boiling water or milk. Sold only in packets by Grocers, labelled thus:
