Poetry, &c.

WHAT IS NOBLE?

BY CHARLES SWAIN.

What is noble? to inherit
Wealth, estate, and proud degree?—
There must be some other merit
Higher yet than these for me!
Something greater far must enter
Into life's majestic span;
Fitted to create and centre
True nobility in man!

What is noble? 'tis the finer
Portion of our mind and heart;
Linked to something still divinER
Than mere language can impart:
Ever prompting—ever seeing
Some improvement yet to plan:
To uplift our fellow being—
And, like man, to feel for Man!

What is noble? is the sabre
Nobler than the humble spade?
There is a dignity in labour
Truer than e'er Pomp arrayed!
He who seeks the Mind's improvement
Aids the world—in aiding Mind!—
Every great commanding movement
Serves not one—but all mankind.

O'er the Forge's heat and ashes—
O'er the Engine's iron head—
Where the rapid shuttle flashes,
And the spindle whirls its thread;
There is Labour lowly tending
Each requirement of the hour,
There is genius still extending
Science—and its world of power!

'Mid the dust, and speed, and clamour,
Of the loom-shed and the mill;
'Midst the clink of wheel and hammer
Great results are growing still!
Though, too oft, by Fashion's creatures,
Work and workers may be blamed;
Commerce need not hide its features!
Industry is not ashamed!

What is noble? That which places
Truth in its enfranchised will!
Leaving steps—like angel-traces—
That mankind may follow still!
E'en though Scorn's malignant glances
Prove him *poorest* of his clan,
He's the *Noble*—who advances
Freedom, and the Cause of Man!

A serious and fatal accident occurred on the 5th inst., near Blackburn, in the falling of two arches of a viaduct 60 or 70 feet in height, over the Calder river. The viaduct is to consist of 49 arches, of which 41 were erected. Four men were on the arches at the time of their fall, three of whom perished in the ruins. The fourth was extricated, with serious injuries. The cause of the fall is not satisfactorily explained.

The Tubular Bridge at the Menai Straits had been successfully raised to a height of 60 feet or more, and masted vessels had sailed beneath it. It is raised six feet every morning, beneath which the masonry is laid daily. Its destined height is 100 feet above high tide.

SONS OF THE SOD.—"Two Irishmen," observes the *Province of Munster*, "now preside over the most eminent corporations of savans in the United Kingdom: Lord Rosse being the president of the Royal Society, and Dr. Romney Robinson of the British Association for the Advancement of Science."

HER MAJESTY'S PARTIALITY TO SCOTLAND.—On the authority of those who happened to be present, we may record, as a token of her Majesty's partiality for the land of the mountain and the flood, that the Queen exclaimed to one of the gentlemen at Coupar-Angus, "I regret to leave dear Scotland."—*Post and Record.*

TIT FOR TAT.—The peculiar disadvantages of farming near a populous town may be illustrated by an anecdote related by a near neighbour of Mr. Rigden's:—"One day (he said) just before harvest, I met a fashionable gentleman with a large hat-ful of ears of wheat taken from my fields. I saluted him respectfully, and expressed my admiration of the beauty of the wheat. 'Yes,' said he, 'it is truly a fine sample, and does the farmer great credit who grew it.' I acknowledged the compliment, and asked him from which of my fields he took it. After he had pointed it out, he assured me he always liked to take a good sample home, as it amused the ladies. Upon this, noticing with admiration the beauty of his dress coat, I asked him to allow me to look at the skirt. He readily did so, and I quietly took out my penknife and cut a large piece from the tail. The gentleman bounced and swore, but I told him I always took samples of cloth, as I found they greatly interested my wife. I added, that he had no more right to take my wheat than I had his coat, and that I wished the public to be impressed with this truth, for when thousands of people visited one's fields, and each took away some ears, the losses annually were very great."—*Sussex Express.*

DANGER OF A MISTAKE IN A NAME.—"Mistakes might be made in names which would far exceed a joke in their consequences. An old lady who was very anxious respecting a favorite nephew, a student at Catherine Hall, enquired of his tutor how he conducted himself. 'Oh, (replied the latter,) very well, indeed, madam; he sticks to Catherine Hall.' 'Sticks to Catherine Hall, does he, the reprobate; but his father was just like him, always fond of the girls.' If the old lady had taken a huff at her nephew sticking to Catherine, and had left her fortune away from him in consequence, the mistake would have been too serious for the joke it is."

YOUNG MEN NOT READY FOR MARRIAGE.—*Edwin A.* is one of the fast young men who fall in love, and make love before being ready for marriage. Then they find themselves in a scrape.—We advise all (young men not ready for marriage) to beware of young ladies. They are Goodwin Sands for stranding unwary vessels.—*Family Herald.*

THE VIRTUES OF MUSIC.—A friend, whose strongly developed somnolent propensities made him invariably the last at the morning meal, was finally cured by his sister's playing regularly as a reveille in the room underneath him—the "Last Rose of Summer."—*New York Literary World.*

A VOLUME IN A LINE.—At a recent temperance celebration in Newmarket, U. S., a little lad appeared in the procession bearing a flag, on which was inscribed the following—"All's Right when Daddy's Sober."

A Californian adventurer, writing to his friends, says that when he first went to the diggings he hadn't a rag on his back, but now he is *covered* with them.

Foster said of a depraved child, "I never saw so much *essence of devil* put into so small a vessel."

MIRTH should be the embroidery of conversation, not the web.

MELANCHOLY DEATH AT THE WHITE MOUNTAINS.—Intelligence reached this city, two days since, of the unfortunate attempt of an English traveller to ascend the White Mountains, when covered with snow, unattended by a guide, in consequence of which he lost his way, and perished before he could receive relief. This gentleman was Frederick Strickland, son of Sir Thomas Strickland, Baronet, and member of Parliament. He came to this country some weeks ago, most respectably introduced, accompanied by a younger brother, who returned to England a fortnight ago with the intention of coming again to this country. The deceased had become known to a considerable number of persons in this city and vicinity, by whom he was highly esteemed as a gentleman of amiable character and extensive information, ardently devoted to literary and scientific pursuits.—He left this city a few days since for the White Mountains, anxious to visit the summit of Mount Washington before the weather should become so inclement as to prevent him. The principal particulars of the fatal disaster are related in the following letter, addressed to the proprietors of the Tremont House, where he had resided while in this city:—

MOUNT WASHINGTON HOUSE,
White Mountains, N. H., Oct. 21, 1849.

J. S. TUCKER & Co.—Dear Sir,—an Englishman by the name of Frederick Strickland, who said he had been stopping at your house, came to the White Mountains, and arrived at the "Notch House," kept by Thomas J. Crawford, Thursday, the 18th inst. On the 19th he left the Notch House in company with another Englishman and a guide to ascend the mountains. When they reached Mount Pleasant, the other gentleman wished to return, there being considerable snow on the mountains. He, Mr. Strickland, gave up his horse to the guide, and proceeded on foot for the summit of Mount Washington, intending to come down by the bridle path.

The guide and the other gentleman returned to Mr. Crawford's. Mr. Crawford sent the baggage of the gentleman who had ascended the mountain to my house, but as he did not come that night, I thought perhaps he had returned to Mr. Crawford's. The next morning Mr. Crawford came along and inquired for him. I told him he was not here. We immediately started in search of him. We found his track on the mountain, and followed that until night overtook us, but found only some part of his clothes. To-day we started in large numbers, and about 10 o'clock found him, *dead.* He missed the path and was lost. His body is here at my house. I wish you to have a notice of the facts published in the papers; also if you learned anything of his friends while at your house, notifying them of the facts. He was a tall, slim young man, some 25 or 30 years of age. Registers his name Frederick Strickland, Alford Club, London.

HORACE FABYAN.

FUNERAL OF A STRANGER.—Funeral services were held yesterday in Trinity Church, over the remains of Mr. Strickland, the gentleman from England, who recently lost his life on the White Mountains.—Bishop Eastburn officiated. A procession, composed of the Mayor, the British Consul and Vice Consul, and a number of gentlemen, friends of the deceased, followed the body to the vault under the stone chapel, where it was deposited.—*Boston Daily Advr.*

No. 2, North Wharf.

THIS preparation has now stood the test of several years' trial, and is confidently recommended as a safe and effectual medicine for expelling worms from the system. The unexampled success that has attended its administration in every case where the patient was really afflicted with worms, certainly renders it worthy the attention of Physicians.

Lowell, Mass., April 2d, 1844.

I have a child six years of age, who has been troubled with worms for some time past, and I have endeavoured to obtain a specific, but have found nothing that could be relied upon, until *Fahnestock's Vermifuge* was recommended to me by a friend. I procured a bottle, and gave it according to directions, and in less than three hours my child passed seventeen large worms. I subsequently gave it two other doses, and it passed in all about one hundred worms. I also gave one tea-spoonful of it to a child three years old, and to my surprise it brought away more than a hundred fine worms, in less than two hours from the time I administered it. AMASA WOODWARD,
Moody Street.

☞ A Supply of the above valuable Medicine constantly on hand, and for Sale by the subscribers whole sale and retail.

THOMAS WALKER & SON

CLOTHING

A NOVELTY!

Something that interests every Lady, Gentleman and Boy, and all the small Children in Saint John and Vicinity.

IT INTERESTS LADIES,

As it is for their interest to furnish their Little Ones or Brothers with care and taste, and with the least trouble and expense.

IT INTERESTS GENTLEMEN,

For, although the true gentleman is known even in Homespun, yet a due regard for his personal appearance will sometimes preserve him from the impertinent annoyance of the idle and ignorant.

IT INTERESTS BOYS

Of every age and position in the community, and more especially that class who have had the misfortune to lose their parents, and are therefore left to take care of themselves, as here they will find everything suited to their wants—and be purchasing at

THE PANTECHNETHECA,

Corner of King and Cross Streets,

will be sure of getting the most durable as well as genteel CLOTHING, and at the lowest possible price.

IT INTERESTS LITTLE CHILDREN,

For what can more interest a child than a pretty dress—and here can be found every variety and novelty of dress suited to the child of three years old and upwards, the prices for which are so low that all can afford and none can help purchasing.

CONVENIENT FITTING ROOMS

Are attached to this establishment, which have been furnished for the convenience of Ladies accompanying their Children. Every attention will be paid to Visitors, and it will be the aim of the Proprietors, aided by their numerous Assistants, to make a visit to this establishment one of pleasure as well as profit. As it is essential to close off our

Astonishing Efficacy

OF

HOLLOWAY'S PILLS AND OINTMENT.

EXTRAORDINARY CURES BY

Holloway's Ointment.

CURE OF A DESPERATE CASE OF ERYSIPELAS.

Copy of a Letter from Mr. Joseph Gildon, Jun., a Farmer, East Keal, near Spilsby, Lincolnshire, 8th April, 1846.

TO PROFESSOR HOLLOWAY.

SIR,—I have the gratification to announce to you a most wonderful cure wrought upon myself, by the use of your Ointment and Pills. I had a severe attack of Erysipelas in my right foot, which extended along my ancle, and was attended with swelling and inflammation to an alarming degree, insomuch that I was unable to move without the use of *crutches.* I consulted a very eminent Physician, besides other Medical men, but to no purpose. At last I tried your Ointment and Pills, when, strange to say, in less than two weeks the swelling and inflammation subsided to such a degree that I was enabled to pursue my daily avocation, to the utter surprise and amazement of those who were acquainted with my case, seeing that I was cured so quickly. I and my family are well known here, as my father holds his farm under the Rev. J. Spence, Rector of our Parish.

JOSEPH GILDON.

Amputation of Two Legs Prevented.

Extract of a Letter dated Roscommon, February 29th, 1847, from the highly respectable Proprietor of the Roscommon Journal.

To Professor HOLLOWAY.

SIR—Mr. Ryan, the well known proprietor of the Hotel next door to me, had two very Bad Legs, one with eight ulcers on it, the other with three, they were in such a fearful state that the effluvia from them was very great. Some time since he made a journey to Dublin for the purpose of consulting some of the most eminent professional men, but returned home to his family with the choice of two alternatives—to save both Legs amputated, or die!—On his way home he met a gentleman in the Coach who recommended the use of Holloway's Pills and Ointment, which he had recourse to, and was perfectly cured by their means.

(Signed) CHARLES TULLY,
Editor and Proprietor of the Roscommon Journal

Cure of a Desperate Scorbutic Eruption of long standing.

Extract of a Letter, dated Wolverhampton the 10th of February, 1847, confirmed by Mr. Simpson, Stationer.

To PROFESSOR HOLLOWAY.

SIR,—Having been wonderfully restored from a state of great suffering, illness and debility, by the use of your Pills and Ointment, I think it right for the sake of others to make my case known to you. For the last two years I was afflicted with a violent Scorbutic Eruption, which completely covered my chest, and other parts of my body, causing such violent pain, that I can in truth say, that for months I was not able to get sleep for more than a very short time together. I applied here to all the principal Medical men, as also to those in Birmingham, without getting the least relief; at last I was recommended by Mr. Thomas Simpson, Stationer Market-place, to try your Pills and Ointment, which I did, and I am happy to say, that I may consider myself as thoroughly cured. I can now sleep all the night through, and the pain in my back and limbs have entirely left me.

(Signed) RICHARD HAVELL.

Bad Digestion, with extreme Weakness and Debility—an extraordinary Cure.

Mr. T. GARDINER, of No. 9, Brown street, Grosvenor square, had been in a very bad state of health for a long time, suffering much from a distended Stomach, very impaired digestion, with constant pains in his Chest, was extremely nervous, and so greatly debilitated as to be scarcely able to walk one hundred yards; during the long period of his declining he had the advice of four of the most eminent Physicians besides five Surgeons of the greatest celebrity in London, from whose aid he derived no benefit whatever. At last he had recourse to Holloway's Pills, which he declares effected a perfect cure in a very short time, and that he is now as strong and vigorous as ever he was in his life. This being so extraordinary a case, may lead many persons almost to doubt this statement, it may therefore be necessary to say that Mr. Gardiner is a broker, and well known.

☞ In all Diseases of the Skin, Bad Legs, Old Wounds and Ulcers, Bad Breasts, Sore Nipples, Stony and Ulcerated Cancers, Tumours, Swellings Gout, Rheumatism, and Lumbago, likewise in cases of Piles; Holloway's Pills, in all the above cases, ought to be used with the Ointment and not alone. The Ointment is proved to be a certain remedy for the bite of Moschettoes, Sand-flies, Chiegofoot, Yaws, Coco-bay, and all Skin Diseases common to Europe, the East and West Indies, and other tropical climates.

Burns, Scalds, Chilblains, Chapped Hands and Lips, also Bunions and Soft Corns, will be immediately cured by the use of the Ointment.

Sold by the Proprietor, 244, Strand, near Temple Bar), London; and by PETERS & TILLEY *Provincial Agents,* No. 2, King Street, St. John, N. B.; James F. Gale, Fredericton; W. T. Baird, Woodstock; Alexander Lockhart, Quaco; James Beck, Bend of Petitcodiac; O. G. Sayre, Dorchester; John Bell, Shediac; Joel Lewis, Hillsborough; John Curry, Canning; and James G. White, Belleisle.—In Pots and Boxes, at 1s. 9d., 4s. 6d. and 7s. each. There is a very considerable saving in taking the larger sizes.

N. B.—Directions for the guidance of patients are affixed to each pot.

FLUID

Extract of Valerian,

For Head Ache, Nervous and Hysteric Affections.

☞ READ THE FOLLOWING.

From Parker Cleaveland, LL.D., Professor of Chemistry, Materia Medica, Mineralogy, Geology and Natural Philosophy, Brunswick College, Maine.

Brunswick, Aug. 9, 1848.

Messrs. EDW. BRISLEY & Co.

I HAVE not till the present time found leisure to devote any attention to the "Fluid Extract of Valerian," a bottle of which you were kind enough to send me a few weeks since. I have now sufficiently tested it, to satisfy me, that it contains the active medicinal principle of Valerian, in a *purer,* more simple and concentrated state, than *any other* preparation of this root, with which I am acquainted. From the great success which has attended its use, I think the public may rely upon it as a very *valuable* medicine in all Nervous Affections, Headache, Sleeplessness, &c. Permit me to add that it is important that the manufacturer should *continue* to prepare the Extract with the same care as heretofore. With much respect, yours, &c. P. C. CLEAVLAND, M. D.

STATE LUNATIC HOSPITAL,
Worcester, Mass., August 7, 1848.

DAVID PARKER, *Shaker Village, N. H.*

Dear Sir:—Your favor of the 3d, has been received, and I hasten to reply. We have used only one bottle of your Pure Fluid Extract of Valerian. In one case of a mild form of Delirium Tremens in which we used it, the agitation and trembling were stilled by one hundred drop dose of it.

I hope to be able to say something in favor of the Valerian before long; it is an elegant preparation.

Yours very truly,
GEO. CHANDLER, M. D.

We hereby certify that we are acquainted with the method of making the Pure Fluid Preparation of Valerian, as put up by the United Society of Shakers, at Enfield. It possesses the properties of the Valerian highly concentrated, and may be used in all cases where the medicine is proper, and all may rely on its being genuine. It is the kind we use and recommend.

DIXI CROSBY, M. D., *Dartmouth College, N. H.*
ED. E. PHELPS, M. D.
JOHN CLOUGH, M. D., *Enfield, N. H.*
BENJAMIN GALLUP, M. D., *Lebanon, N. H.*
M. M. DAVIS, M. D., *Norwich, Vt.*
ALBIGENCE PIERCE, M. D., *Strafford, Vt.*
B. N. STILES, M. D., do. do.

March 17, 1848.

The above invaluable Preparation is signally efficacious in all Nervous and Hysteric Affections, Sleeplessness, and Sick Headache, producing quiet and tranquil sleep, and leaving no unpleasant sensations after its use.—the inevitable result of Opiates, Camphor, and the many articles usually administered.

☞ S. L. TILLEY, King-Street, Sole Agent for St. John, N. B. February 13, 1849.

A NATURAL REMEDY

Suited to our Constitutions, and competent to the cure of every curable disease, will be found in

WRIGHT'S INDIAN VEGETABLE PILLS

OF THE

NORTH AMERICAN COLLEGE OF HEALTH.

THESE extraordinary Pills are composed of plants which grow spontaneously on our own soil; and are therefore better adapted to our constitutions, than medicines concocted from foreign drugs, however well they may be compounded; and as the INDIAN VEGETABLE PILLS are founded upon the principle that the human body is in truth,

SUBJECT TO BUT ONE DISEASE,

viz: corrupt humors, and that the said medicine cures this disease on

NATURAL PRINCIPLES,

by cleansing and purifying the body; it will be manifest, that if the constitution be not entirely exhausted—a perseverance in their use, according to directions, is absolutely certain to drive disease of every name from the body.

When we wish to restore a swamp or morass to utility, we drain it of the superabundant waters; in like manner, if we wish to restore the body to health, we must cleanse it of impurity.

The Indian Vegetable Pills will be found one of the best, if not the very best, medicines in the world for carrying out the

GRAND PURIFYING PRINCIPLE,

because they expel from the body all morbid and corrupt humors, the cause of disease, in an easy and NATURAL MANNER, and while they every day

GIVE EASE AND PLEASURE,

disease of every name is rapidly driven from the body.

CAUTION.

The citizens of New England are respectfully informed that in consequence of the great popularity which the above named Indian Vegetable Pills have earned by their astonishing goodness, a gang of counterfeiters are now industriously engaged in palming on the unsuspecting, a valueless and perhaps dangerous medicine, under the name of Indian Vegetable Pills.

This is to inform the public that all genuine medicine has on the boxes

WRIGHT'S INDIAN VEGETABLE PILLS

(Indian Purgative.)

OF THE NORTH AMERICAN COLLEGE OF HEALTH

And also round the border of the label, will be found in small type, "*Entered according to Act of Congress in the year 1840, by* WM. WRIGHT, *in the Clerk's office, of the District Court, of the Eastern district of Pennsylvania.*"

It will further be observed that the printed directions for using the medicines, which accompany each box are also entered according to Act of Congress; and the same form will be found at the bottom of the first page.

The public will also remember, that all wholesell the genuine Indian Vegetable Pills are provided with a certificate of Agency, signed by

WILLIAM WRIGHT, VICE PRESIDENT
Of the North American College of Health.

and that pedlars are never in any case allowed to sell the genuine Medicine. All travelling agents will be provided with a certificate of agency as above described; and those who cannot show one will be known as base impostors.

☞ Agents for the sale of the above in Nova Scotia:—Halifax, John Whitmon Esq.; Amherst, Mr. Arthur Masters; Digby, James Crowly; Kentville, Daniel Moore; Bridgetown, Thomas Spurr, New Brunswick:—St. Martins, Mr. Alex. Lockhart; Bend of Petitcodiac
