COUNCIL DECIDE TO DEMAND PERCENTAGE

Lively Discussion Over Electric Light Matters—General News Items.

TORONTO JUNCTION, July 8.—W. J. Cunnington, V.S., who went to Alberta last year with the view of following his profession there, has returned to the Junction and resumed practice in connection with the livery and sales stables of W. H. Rutledge. Dr. Cunnington said that his property in Toronto Junction had increased so much in value during his absence that he considered that his best interests were in the Junction rather than in the wild and woolly west.

Street Foreman Moon has completed the grading of St. Clair-avenue, between Gunn's Abattoir and Elizabeth-street, and is now improving the condition of Franklin-avenue. As soon as the work on Argyle-road is completed he will commence work in Ward 3, the southeastern part of the town.

About 11 p.m. yesterday the railway crossing at Argyle-road and East Toronto-street was blocked for about 15 minutes, despite the warning a C.P.R. yard foreman received last week in police court, when he was convicted of blocking the thorofare.

The officers of Toronto Junction Council No. 299 of the Royal Templars of Temperance will be installed on Friday evening next by the chief councillor of Ontario, W. J. Johnson of Toronto Junction.

The Epworth League of the Annette-street Methodist Church held a meeting in the basement of the church this evening. F. J. Johnson presided.

Thework on the new Bank of British North America, which is being erected on Keele-street, adjoining the town hall, is not much hindered by the stonecutters' strike, as the foremen have, in addition to the two men who are still at work, a saw in use, which takes the place of one stonecutter.

The proposed garden party in connection with St. John's Church has been postponed indefinitely, owing to a disagreement about the charging of an admission fee.

In police court this morning Robert Hastings Alger, one of the boys who were accused of breaking into C.P.R. freight cars a few days ago, and stealing cigars, sugar, et., admitted his guilt. Sentence was deferred and he was remanded to the Children's Shelter by Police Magistrate Ellis. His associates, Jimmie Knight, Harold Gilmore, Ralph Simpson and William Cuddahie, denied the charge brought against them and were remanded until the case is further investigated.

Frank Smith, who was remanded last week for assaulting his mother-in-law, Mrs. Susan Brown, was sentenced by Police Magistrate Ellis to 15 days' hard labor, without the option of a fine.

NORTH TORONTO.

Little Boy Has Close Call—Town Property Sells Well.

NORTH TORONTO, July 8.—The caretaker of the town hall is bound to have the building in a cleanly condition. The windows, benches and chairs received a thoro scouring to-day at the hands of Mr. and Mrs. Moore.

Wallace, the little 3-year-old son of Mr. Russell of Yonge-street, had a narrow escape from poisoning yesterday. It was not discovered for some time that he had drunk the water off a pad of fly poison. The doctor gave an emetic and saved his life.

The Sunday school of the Eglinton Methodist Church held their picnic to Jackson's Point to-day. They traveled in three special cars by the Metropolitan Railway.

Ernest Tooley sold his residence on Glenwood-avenue for $1100, and intends starting building operations again at once.

RICHMOND HILL.

Churches Unite on Occasion of Re-Opening Exercises.

RICHMOND HILL, July 8.—This year's excursion of the fire brigade to Jackson's Point bids fair to easily surpass any hitherto held. Reeve Pugsley, in response to a largely signed petition, has named July 12 as a civic holiday. Special cars will run as far south as Thornhill, leaving Richmond Hill at 8.15 a.m.

The new elevator at the C. N. R. station is progressing well. Large quantities of coal have already arrived here.

The re-opening exercises of the Methodist Church yesterday were largely attended, and the voluntary offerings of a most satisfactory nature. The Presbyterian Church services were withdrawn for the day.

ETOBICOKE.

Meeting of Township Council—Rearranging Radial Stops.

ISLINGTON, July 8.—The regular July meeting of the Etobicoke Township Council was held to-day at Islington. Very little business was done beyond the passing of accounts amounting to $1800. Some of the principal items were as follows: Repairs to Agar's bridge, $200; Montgomery, Flurey & Montgomery, $90; police village accounts, $131.22; J. D. Smith & Co., lumber, $110.55; John Lamb, balance of contract on Grand-avenue, $90.15; repairs on Salisbury-avenue, $107; on account of Lake Shore-road, $275.

Three largely signed petitions were presented to the council, asking them to use their influence with the Toronto and Radial Railway Co. to have the cars stop at Albert-avenue, Book's stop and Sixth-st., in New Toronto, stops which have recently been dispensed with by the railway company. The council, while not committing themselves, have arranged a meeting with the management of the Radial Railway on Friday next at Sunnyside, at which it is proposed to go over the road and rearrange the different stops at suitable points.

NEWMARKET.

Local Firm Introduce Welcome Feature Among Workmen.

NEWMARKET, July 8.—The Office Specialty Co. have introduced a shorter timetable in their factories, but with no reduction in the amount of wages paid. Instead of ten, they now work nine hours a day. The factory whistle now blows at 7.25 a.m., 12.55 p.m., closing at 5.30. There are now more than 200 employes in the works, and the utmost good feeling has always prevailed between employes and employers.

The Methodist Sunday School goes to Morton Park, Lake Simcoe, on Wednesday. Special cars leave Botsford-street at 9.30 a.m. and 1.30 p.m.

The cement sidewalk in front of Rogers' store is in bad shape.

At Saturday's market butter sold at from 16 to 20 cents a pound, and eggs 16 to 17 cents a dozen.

D. McCaffrey, deputy registrar for North York, has removed to Toronto, having received a position in the customs department.

PICKERING.

After Long Absence Returns to Visit —G.T.R. Official Removes.

Rev. A. E. Armstrong, who is attending the missionary conference at Whitby, filled the St. Andrew's pulpit on Sunday.

Rev. Frank C. Harper of the Presbyterian Church here has accepted a call to Drummond Hill Church, Niagara. Rev. Mr. Findlay, formerly of Claremont, was the previous pastor at that church.

Audley garden party at Mr. Holtby's, on the fourth line, was a big success on Friday evening, over $100 being taken in.

Pickering-on-the-Lake is becoming very attractive for summer holiday people. A party of 400 boys are expected there shortly.

Mrs. Nimmo and family are leaving for Kenora this week, where Mr. Nimmo has made his headquarters on the G. T. P. work.

William F. Chapman and wife of Buffalo are visiting friends here. Will is the eldest son of the late Nelson Chapman of Audley, and has not been here for 27 years.

FAIRBANK.

Jas. Anderson, Sr., who was one of the most respected citizens of West York, died on Saturday last at the age of 88. The funeral ceremonies were held at his late residence on the 3rd concession of York, near Fairbanks post-office, yesterday afternoon, and were largely attended. Among his children who survive him are John Anderson, George Anderson and James Anderson, who are prosperous farmers living near the old homestead. Mrs. Watt, postmistress at Fairbank, is a daughter of the deceased, and also Mrs. Miller of Bracondale.

Mr. Anderson was a lifelong Conservative and for half a century had been one of the substantial citizens of West York.

LAMBTON.

LAMBTON MILLS, July 8.—Henry Cullum is constructing a brick sidewalk from the top of the hill to the Humber bridge, on the Etobicoke side of the Humber. The county council propose to erect a new bridge over the Humber, which will have a span of 108 feet and will be two feet above the level of the present bridge. The county council have already voted $7000 for this work. A new sidewalk, 6 feet wide, will be built, crossing the bridge, and it will extend 6 feet beyond it.

MR. McCOWAN STAYS.

Alex. McCowan, M.L.A. for East York, denies that he is net to be a candidate for the Conservative nomination in East York. The Liberal organization in the riding are industriously circulating the story that Mr. McCowan is to retire.

THE FARMSTEAD

The new horticultural building at the Toronto fair erected on the site of the old main or transportation building at a cost of $90,000, will have a floor space of 30,000 feet and will accommodate all the fruit, flowers, vegetables, plants and shrubs forthcoming. Its length is 254 ft. and its width 58 ft., with three wings 156 ft. by 58 ft. Nothing but fireproof material has been used in its construction and its temperatures will be regulated.

One of the prettiest farm countries in the world lies in South Simcoe in the Townships of Oro and Medonte. A visit to these fields of wheat and maples will be well worth the trip. Our farmer friends should take more overland drives for pleasure.

Mr. Blair Ketchen of Brooklin, who has lately returned from the position of farm manager at Narberth, Pa., has been secured by the City Dairy Co. to manage their new farm at New Lowell, Simcoe County. Mr. Ketchen is at present arranging for the taking over of the crops and has men at work. He will no doubt give a good account of himself there.

Out on the plains north of Barrie, where the government seriously considered placing the military camp that is now at Petawawa, is a fine place for grasshoppers and strawberries.

Some enterprising citizens have noticed the turkey's fondness for grasshoppers and at any time a tiny shack may be observed on the roads of that barren stretch. Here two or three boys are spending the summer watching a flock of turkeys. They have 200 little ones with 17 hens and the turkeys are doing well on their insectiveous food.

Pure bred swine breeders in Ontario should get after the business. The western provinces are needing these, and our people should supply the demand. Dr. J. G. Rutherford of Ottawa is doing his part to show the Ontario men their opportunity. At the present time something should be done to corner the trade this way.

No red clover seed is being carried over for next season's trade. The red clover crop, not only in Canada, but in the United States and in Europe, is now reported to have suffered severely from prolonged cold weather during March, April and May; and on account of probable reduction in yield of hay and other fodder crops, but particularly because most fields of red clover are killed out in places, it is anticipated that the areas left for red clover seed will be considerably below the average for Canada, and that the supply of good, clean, No. 1 seed will again be short for the season of 1908, writes T. G. Raynor of Ottawa.

In taking the second cut of red clover for seed, it is well to remember that each of the weeds—ribgrass, catchfly, curled dock and others—produce from 10,000 to 50,000 seeds, or about one hundred times as many seeds as are produced by a red clover plant. Further, that the spread in prices now paid in favor of good, clean, No. 1 seed will continue to range from 50 cents to $2.50 per bushel and may amount to from $1.00 to even $10.00 per acre, and in any case is more than double the cost of the labor required to pull and remove such weeds from the seed crop before it is cut. Before marketing, farmers are invited to send a small sample of their grass or clover seeds with their name and address enclosed, which sample should be accurately representative of the bulk lot, addressed to the seed commissioner, department of agriculture, Ottawa, and within three or four days they will receive in return a statement showing its percentage purity and the kinds and proportion of noxious weed seeds, if any, that are contained in it. With such information they will better know its value when compared with the current quotations for seeds of the various grades of quality.

Important Development in Bucke.

The United States Cobalt Co., who have been working quietly away on their lots 7, 9 and 10, are now installing machinery on their lot 9, which adjoins the Chambers-Ferland Company. This lot has shown up remarkably well, and is perhaps the best developed property of the new properties that have been worked this year in the Cobalt district. They have some remarkably good showings and are now about to sink a shaft on two of their veins. Stafford Higgins, the managing director of this company, says that the machinery will be in place in a few days' time and that they expect big results as soon as their plant is in working order. They also are actively engaged in working on their lot 7, which adjoins the Temiskaming and Hudson Bay Co.'s rich strike. They have a number of men employed on this lot stripping and have already discovered some very nice veins.

Best String of Ten Horses.

One of the most interesting competitions at the Canadian National Exhibition, Toronto, will be for a prize offered for a string of ten horses. Horses competing must have been exhibited in the breeding ring and must be the bona fide property of the exhibitor. The first prize is $100, the second prize $50.

Manager Orr has put all the Exhibition distribution agents in uniforms.

Two fire rangers in New Ontario lost their canoe and supplies while shooting the rapids in the Mississauga reserve.

The salary of Thomas Fenemough, official court stenographer, has been increased from $1200 to $3000.

The Exhibition Association is trying to arrange for a display of the mono (single-line) railway.

The Eastern Canadian Passenger Agents' Convention will open at Quebec to-day, and C. B. Foster, district passenger agent of the C. P. R.; J. E. Quick, general baggage agent of the G. T. R., and District Passenger Agent McDonald left for the east yesterday to attend its sessions. Assistant General Passenger Agent A. W. Noyes of the Chicago, G. W. R., and Travelling Passenger Agent Cleveland of the Erie R. R. were in town yesterday.

Men's $15.00 Suits for $8.95

WE WANT to get them out before stock-taking, which comes at the end of the month.
We give 100 men a splendid chance to get a new suit for the holidays.
100 Men's Suits, an assorted lot, consisting of English and Scotch tweeds and fancy worsteds, in the popular grey shades; broken lots and odd sizes of our best-selling lines, which sold regularly at $12, $13.50, $14 and $15, which we have decided to clear before stock-taking, on sale Wednesday, at 8.95

Men's Summer Shirts for 49c

CLEARING up the broken lines. Shirts which sell all the way from 75c to $1.25—a thousand of them.
1000 Men's Colored Negligee Shirts, separate cuffs and cuffs attached, in a large variety of new designs; some are coat style, sizes 14 to 17 1-2, regular value up to $1.25, Wednesday 49c

Straw Hats, Duck Caps

LOOK UP Yonge Street any hot day in the week. No matter how hot the sun, you will see a certain proportion of hard felt hats.
How is that? Surely the heads of the wearers must be far from comfortable. Why not wear a light, cool straw? And, for off-times, a white duck yachting cap is about as cool and comfortable a piece of head-gear as you can wear, whether you are a yachtsman or not.
Men's Straw Hats, latest American shape, in curling brim sailors or straight brim sailors, fine split and Canton braids, Wednesday 1.50
Men's White Duck Yacht Caps, glazed leather peaks, black braid bands, Wednesday 25c
